Glazed Wear	C1027	No requirement For glazed material only	Per collection refer to our web site

- Actual test data are available upon request.
- Please ask for individual test reports, as results vary depending on finish.
- Specific technical information is available on our web-site www.stonepeakceramics.com.
- StonePeak collections are materials subject to variations in color and/or vein, as they are created using natural products.
- SCOF/DCOF: all values given are for matte or honed material. No values are given for "polished" materials. StonePeak does not recommend polished surfaces in areas subject to exposure from grease, oil, or water.
- Water (especially standing water), oil, grease, etc., create slippery conditions.

Floor applications with exposure to these elements require extra maintenance and caution in product selection.
