L'ANTIC COLONIAL

General Catalogue 2018

“You must look ahead in order to move forward. You can only make progress when you think big”

“Sólo es posible avanzar cuando se mira lejos.
Solo cabe progresar cuando se piensa en grande”

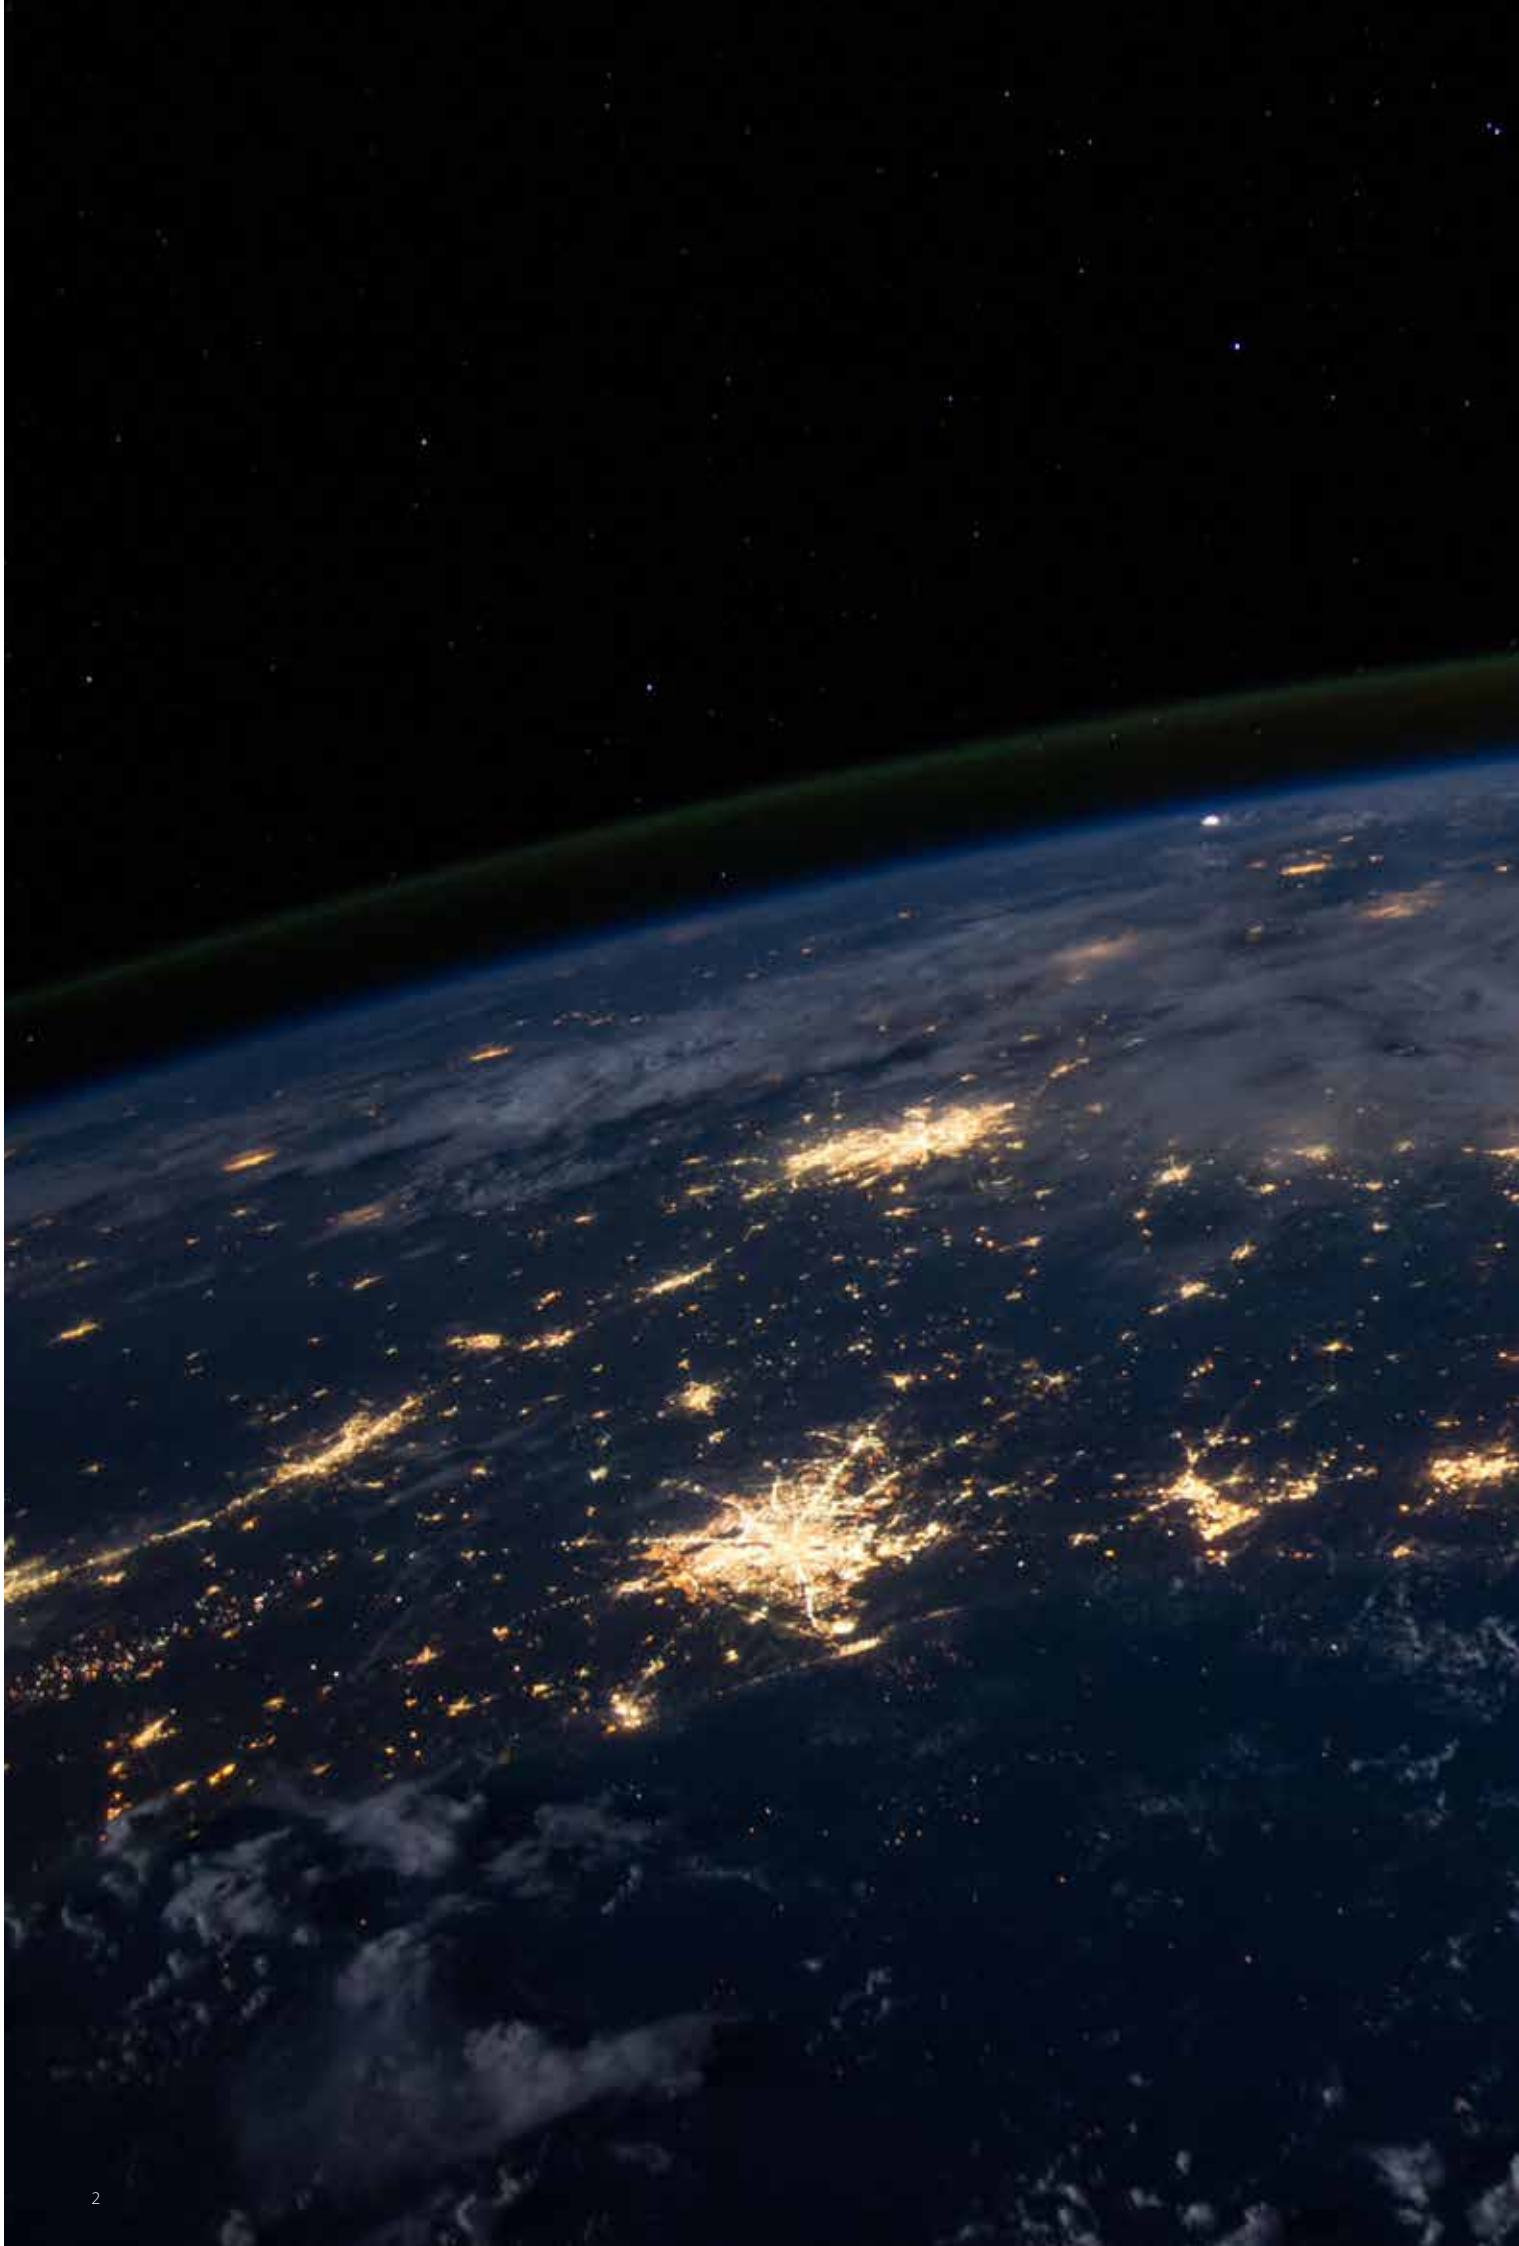
-

“Regarder au loin pour mieux avancer.
En visant haut on ne peut que progresser”

José Ortega y Gasset

PORCELANOSA Grupo

L'ANTIC COLONIAL



The Global Compact

—

The Global Compact is a voluntary initiative via which L'ANTIC COLONIAL S.A. and other participating companies undertake to align their operations and strategies with ten universally accepted principles in the areas of human rights, labour, the environment and anti-corruption. In terms of the number of participants, with six thousand in over 135 countries, the Global Compact is the world's largest corporate citizenship initiative. It is a framework for action aimed at boosting the social legitimacy of corporations and markets. Those companies that adhere to the Global Compact share the conviction that business practices based on universal principles contribute to building a more stable, equitable and inclusive global market that promotes more prosperous societies.

Businesses, trade and investment are basic cornerstones in ensuring peace and prosperity. However, in many areas, business is frequently associated with serious dilemmas such as exploitation, corruption, inequality and obstacles that hinder innovations and entrepreneurialism. Corporate social responsibility builds trust and social capital, while contributing to development and sustainable markets.

El Pacto Mundial es una iniciativa voluntaria, en la cual L'ANTIC COLONIAL S.A. junto a las demás empresas participantes se comprometen a alinear sus estrategias y operaciones con diez principios universalmente aceptados en cuatro áreas temáticas: derechos humanos, estándares laborales, medio ambiente y anti-corrupción. Por su número de participantes, seis mil en más de 135 países, el Pacto Mundial es la iniciativa de ciudadanía corporativa más grande del mundo. El Pacto es un marco de acción encaminado a la construcción de la legitimación social de las corporaciones y los mercados. Aquellas empresas que se adhieren al Pacto Mundial comparten la convicción de que las prácticas empresariales basadas en principios universales contribuyen a la construcción de un mercado global más estable, equitativo e incluyente que fomentan sociedades más prósperas.

Las empresas, el comercio y la inversión son pilares esenciales para la paz y prosperidad. Pero en muchas áreas las empresas están ligadas a serios dilemas, como pueden ser la explotación, la corrupción, la inequidad y otras barreras que frenan la innovación y el espíritu empresarial. Las acciones empresariales responsables construyen conanza y capital social, al mismo tiempo que contribuyen al desarrollo y mercados sustentables.

Le Pacte Mondial est une initiative à caractère facultatif dans le cadre de laquelle L'ANTIC COLONIAL S.A. et les autres entreprises participantes s'engagent à aligner leurs stratégies et opérations sur dix principes universellement admis dans quatre domaines thématiques : droits de l'homme, normes du travail, environnement et lutte contre la corruption. Le nombre de ses participants, six milles dans plus de 135 pays, fait du Pacte Mondial l'initiative de citoyenneté corporative la plus importante du monde. Le Pacte est un cadre d'action visant à la construction de la légitimation sociale des entreprises et des marchés. Les entreprises qui adhèrent au Pacte Mondial partagent la conviction que les pratiques commerciales et industrielles fondées sur des principes universels contribuent à la construction d'un marché global plus stable, équitable et intégrateur qui favorise une plus grande prospérité des sociétés.

Les entreprises, le commerce et les activités d'investissement constituent des piliers essentiels de la paix et de la prospérité. Mais les entreprises sont confrontées à de grands dilemmes dans de nombreux domaines, comme par exemple l'exploitation, la corruption, l'injustice et d'autres barrières qui freinent l'innovation et l'esprit d'entreprise. Les actions des chefs d'entreprise responsables développent la conance et le capital social, tout en contribuant au bien-être et à des marchés plus durables.

Natural Stone

L'Antic Colonial's stone is a natural product which may be subject to variations in shade. The colour of the material supplied may differ slightly from that shown.
Our website (http://anticcolonial.com/piedra-natural/en/natural-stone/) contains further information in respect of our stone products, such as installation guides and videos, technical data sheets, details on larger formats, textures or recommendations for use.

Todas las piedras de L'Antic Colonial son productos naturales que pueden sufrir variaciones de tono. El color del material servido puede no ser exactamente igual al de la muestra.
En nuestra página web (http://anticcolonial.com/piedra-natural/) encontrará información adicional de nuestras piedras como guías y vídeos de instalación, fichas técnicas, tablas de mayor formato, texturas o recomendaciones de uso.

Toutes les pierres de L'Antic Colonial sont des produits naturels qui peuvent subir des variations de tonalité. La couleur du matériau fourni peut être légèrement différente de celle de l'échantillon.
Sur notre site Internet (http://anticcolonial.com/fr/pierre-naturelle/), vous trouverez des informations supplémentaires sur nos pierres: manuels et vidéos d'installations, fiches techniques, tableaux avec les formats disponibles, textures ou recommandations d'utilisation.

REMEMBER

All natural products are perfectly imperfect. The differences found between pieces make each piece unique and unrepeatable. This feature is NOT A PRODUCT DEFECT but an inherent part of the beauty of the product.

If we are able to convey an understanding of the features of our products, we are sure that we will be able to meet all your expectations as regards quality and beauty. This is why it is essential that you are aware that you are buying a natural product, the characteristics of which may, on occasions, include:

1.- Pinhole cavities filled with grout

The surface of some materials, as for example the travertines, is covered with pinhole cavities. These cavities are treated with a grout, as similar as possible in colour to that of the stone. This characteristic is part of the nature of the product and at no time is it a sign of a defective product.

2.- Repaired fissures or cracks

It is normal for small cracks to appear on the surface of the stones. These are repaired with resins. This helps to strengthen the stone and increase its subsequent performance. This characteristic occurs frequently in natural products and should be taken into account when selecting products for a project.

3.- Changes in shade

All the natural products vary in shade and in the structure of the piece. The pieces undergo an exhaustive sorting process at L'Antic Colonial and any that do not meet our exacting quality standards are rejected.
Possible variations are listed in the technical specifications of the products. If you have chosen one of our products for your project, we suggest you request photos of the panels or a few square metres of sample before making your purchase.

"IF YOU INVEST IN BEAUTY, IT WILL REMAIN WITH YOU FOR THE REST OF YOUR LIFE"

Frank Lloyd Wright

A TENER EN CUENTA

Todos los materiales naturales son perfectamente imperfectos. La variación existente entre piezas hace que cada una de ellas sea única e irrepetible. Esta característica NO ES UN DEFECTO DEL MATERIAL sino una parte inherente de la belleza del producto.

Si somos capaces de trasladarle las características de nuestros productos estamos convencidos que cubriremos sus expectativas en cuanto a calidad y belleza. Por ello es muy importante que entienda que está comprando un producto natural cuyas características incluyen en algunos casos:

1.- Coqueras rellenas de masilla

Algunos materiales, como por ejemplo los travertinos, presentan coqueras en su superficie. Estas cavidades se tratan con una masilla del color posible más parecido al de la piedra. Esta característica forma parte del material y en ningún momento indica que se trata de un producto defectuoso.

2.- Fisuras o grietas reparadas

En la superficie de las piedras suelen aparecer grietas que son reparadas con resinas. De este modo se refuerza la pieza y se aumenta su rendimiento posterior. Esta característica es muy común en la mayoría de productos naturales y se debe tener en cuenta a la hora de seleccionarlos para un proyecto.

3.- Variación de tonalidad

Todos los materiales naturales varían tanto en tono como en la propia estructura de la pieza. Desde L'Antic Colonial se realiza una exhaustiva clasificación mediante la que se eliminan los elementos que no superan nuestros estándares de calidad.
En las fichas técnicas de nuestros productos se muestran las posibles variaciones de los mismos. Si ha seleccionado uno de nuestros materiales para su proyecto, le recomendamos que solicite imágenes de las tablas o unos metros cuadrados de muestra antes de realizar la compra.

"SI INVIERTES EN BELLEZA, ÉSTA TE ACOMPAÑARÁ EL RESTO DE TU VIDA"

Frank Lloyd Wright

À PRENDRE EN COMPTE

Tous les matériaux naturels sont parfaitement imparfaits. La variation existante entre les pièces les rend uniques. Cette caractéristique N'EST PAS UN DÉFAUT DU MATÉRIAU mais une part inhérente de la beauté du produit.

Si nous sommes capables de vous transmettre les caractéristiques de nos produits, nous sommes persuadés que nous répondrons à vos attentes en termes de qualité et beauté. Pour cela il est très important que vous compreniez que vous achetez un produit naturel dont les caractéristiques incluent dans certains cas:

1.- Alvéole remplies d'enduit

Certains matériaux, comme par exemple les travertins, présentent des alvéole en surface. Ces cavités sont traitées avec un enduit d'une couleur la plus proche possible de la pierre. Cette caractéristique est inhérente au matériau et n'indique absolument pas qu'il s'agit d'un produit défectueux.

2.- Fissures ou craquelures réparées

Des fissures apparaissent souvent sur la surface des pierres et sont traitées avec des résines. La pierre est ainsi renforcée et son rendement ultérieur accru. Cette caractéristique est très commune sur la majorité des produits naturels et doit être prise en compte au moment de les sélectionner pour un projet.

3.- Variation de tonalité

Tous les matériaux naturels varient à la fois au niveau du ton et de la structure même de la pièce. Chez L'Antic Colonial nous procédons à un classement exhaustif qui permet d'éliminer les éléments qui ne répondent pas à nos standards de qualité. Sur les fiches techniques de nos produits sont indiquées leurs variations éventuelles. Si vous avez sélectionné l'un de nos matériaux pour votre projet, nous vous recommandons de demander des images des lames ou quelques mètres carrés d'échantillon avant de réaliser votre achat.

"SI VOUS MISEZ SUR LA BEAUTÉ, ELLE VOUS ACCOMPAGNERA LE RESTE DE VOTRE VIE"

Frank Lloyd Wright

Bioprot

PROTECTION APPLIED TO ALL SURFACES

A new waterproofing process for stone which **improves the qualities of natural stone.** The layer, which to date has only been applied to the upper surface, **is now applied to the remaining faces** of each of the pieces on the L'Antic Colonial production line. As a result, all sides, including the underside of the piece, now possess the same qualities as the surface.

This technological advance stems from **research aimed at completely protecting** all L'Antic Colonial pieces from the possible effects of glues, adhesives or the floor's moisture content, both at the time of installation and with the least possible effect over time.
It should be borne in mind that all natural stone, depending on type, has a degree of porosity, which is an intrinsic characteristic of natural stone. With this new process, we have sought to protect the faces so that external factors do not alter the qualities of natural stone.

PROTECCIÓN APLICADA A TODAS LAS CARAS

*El nuevo proceso de impermeabilización de la piedra **mejora las características propias de la piedra natural.** A la capa aplicada hasta ahora sobre la superficie útil, se le suma el **mismo proceso en el resto de caras** de cada una de las piezas que pasan por la línea de producción de L'Antic Colonial, con lo que todos los laterales de la pieza y la cara inferior de la misma pieza, acaban teniendo las mismas características que hasta ahora tenía sólo la cara superficial.*

*La evolución viene dada por la **búsqueda de la protección total** de cada una de las piezas que produce L'Antic Colonial, y así evitar que cualquier posible afectación por las colas, cementos o humedades del suelo en el momento de la instalación, afecten el mínimo posible con el paso del tiempo.*
No hay que olvidar que en función del tipo de piedra natural, esta tiene un grado de porosidad, característica intrínseca de la piedra natural, con lo que con este nuevo proceso, lo que se busca es la protección de la superficie para que los agentes externos no alteren las características de la misma piedra natural.

PROTECTION APPLIQUÉE SUR TOUTES LES FACES

*Le nouveau processus d'imperméabilisation de la pierre **améliore les caractéristiques propres à la pierre naturelle.** Outre la couche appliquée jusqu'à présent sur la surface utile, **le même procédé est ajouté à toutes les autres parties** de chacune des pièces qui passent par la ligne de production de L'Antic Colonial. Par conséquent, tous les côtés et la face inférieure des pièces ont désormais les caractéristiques que possédaient jusqu'à présent la partie superficielle uniquement.*

*Cette évolution est le fruit de la **recherche d'une protection totale** pour chacune des pièces produites par L'Antic colonial. L'objectif est de faire en sorte que les éventuels défauts dus aux colles, aux ciments, à l'humidité du sol au moment de la pose aient un impact minimum sur la durée.*
Il est important de savoir qu'en fonction du type de pierre naturelle, celle-ci a un degré de porosité, ce qui est l'une de ses caractéristiques intrinsèques. Le but est de protéger la surface pour que les agents externes altèrent le moins possible ses caractéristiques.

Finishes / Acabados / Finitions

ANTICATO

The stone is naturally aged to give it a warm, traditional look.

Las piezas se envejecen de manera natural para conseguir una estética cálida y tradicional.

Les pièces sont vieillies de façon naturelle pour obtenir une esthétique chaude et traditionnelle.

TEXTURE

A natural, rustic finish with a rough, grooved texture is achieved by pounding the stone with pointed machine heads.

Acabado rústico y natural con textura estriada y rugosa logrado por medio del golpeo con cabezales en forma de punta.

Finition rustique et naturelle d'une texture striée et rugueuse, obtenue en frappant le matériau avec des têtes en forme de pointes.

FLAMED

Featuring a rough texture, achieved through exposure to fire.

Textura rugosa conseguida con la exposición al fuego.

Texture rugueuse obtenue par exposition au feu.

FLAMED HOME

Featuring a rough texture, achieved through exposure to fire and mechanical brushing.

Textura rugosa conseguida con la exposición al fuego y cepillada mediante cepillos mecánicos.

Texture rugueuse obtenue par exposition au feu et brossage au moyen de brosses mécaniques.

NATURAL

The natural relief surface of slate and quartzite is conserved, although the inner sides are calibrated to make the stone easy to lay.

En pizarras y cuarcitas se conserva el relieve natural de la piedra, a su vez, la cara interior se calibra para optimizar su instalación.

Sur les ardoises et les quartzites, conserve le relief naturel de la pierre. En même temps, la face intérieure est calibrée an d'optimiser sa pose.

CLASSICO

Featuring a mechanically achieved satin finish.

Se caracteriza por un acabado satinado conseguido por procedimientos mecánicos.

Se caractérise par une nition satinée obtenue en appliquant des procédés mécaniques.

PULIDO

Featuring a mechanically achieved high-gloss finish.

Se caracteriza por un alto brillo conseguido por procedimientos mecánicos.

Se caractérise par un brillant élevé obtenu en appliquant des procédés mécaniques.

HOME

Through mechanical brushing, a smooth, satin, silky finish is achieved. Practical and easy to care for, it can be used on walls and floors.

Por medio de cepillos mecánicos se logra un acabado sedoso, suave y satinado, muy práctico y de fácil mantenimiento tanto para paredes como para suelos.

Des brosses mécaniques permettent d'obtenir une nition soyeuse, douce et satinée, très pratique et facile à nettoyer, aussi bien sur les murs que sur les sols.

IRREGULAR TEXTURE
Material that stands out for having an asymmetrical surface.

TEXTURA IRREGULAR
Material que destaca por tener una superficie asimétrica.

TEXTURE IRRÉGULIÈRE
Matériau qui se distingue par sa surface asymétrique.

GLOSS
Material with surface with the ability to produce reflections.

BRILLO
Material cuya superficie tiene la capacidad de producir reflejos.

ÉCLAT
Matériau dont la surface est en mesure de produire des reflets.

MATT
Material with a gloss-free surface.

MATE
Material cuya superficie carece de brillo.

MAT
Matériau dont la surface n'est pas brillante.

BEVEL
Beveled cut on all 4 edges of the piece for emphasizing size and preventing quick damage due to the material wear and tear.

BISEL
Corte oblicuo realizado en los 4 bordes de la pieza para resaltar el tamaño y evitar el rápido deterioro por desgaste en el material.

BISEAU
Coupe oblique réalisée sur les 4 bords de la pièce pour en mettre valeur la dimension et éviter la détérioration rapide due à l'usure du matériau.

BIOPROT
Protection that reduces drastically the emergence of most common household bacteria.

Protección que reduce radicalmente la aparición de las bacterias domesticas mas comunes.

Protection qui réduit de façon radicale l'apparition des bactéries domestiques les plus communes.

STRONG COLOR VARIATION
There are considerable color changes between pieces.

VARIACIÓN DE TONO FUERTE
Existen cambios de color importantes entre piezas.

FORTE VARIATION DE TONALITÉ
Il existe d'importants changements de couleur entre les pièces.

MODERATE COLOR VARIATION
There are consistent color changes between pieces.

VARIACIÓN DE TONO MODERADA
Existen cambios de color regulares entre piezas.

VARIATION DE TONALITÉ MODÉRÉE
Il existe des changements de couleur réguliers entre les pièces.

SLIGHT COLOR VARIATION
There are slight color changes between pieces.

VARIACIÓN DE TONO LIGERA
Existen cambios de color suaves entre piezas.

LÉGÈRE VARIATION DE TONALITÉ
Il existe de légers changements de couleur entre les pièces.

NO COLOR VARIATION
No changes in color between pieces.

SIN VARIACIÓN DE TONO
Sin cambios de color entre piezas.

SANS VARIATION DE TONALITÉ
Sans changement de couleur entre les pièces.

01 - Cleaning and Maintenance / Productos de Limpieza y Mantenimiento / Nettoyage et Entretien

Concentrated neutral detergent ideal for washing after laying the natural stone paving. / Detergente neutro concentrado ideal para el lavado después de la colocación de los pavimentos de piedra natural. / Détergent neutre concentré idéal pour le lavage après la pose des revêtements en pierre naturelle.

Fila Cleaner 1L

100093624 - L180300233 - G-134

Dilution / Dilución / Diluer 1:200
One litre covers / Rendimiento / Rendement de 1500 m2/L

Descaler for removing grout residue and buildingsite dirt. / Desincrustante que elimina las incrustaciones producidas por la colocación y la suciedad de obra. / Désincrustant qui élimine les incrustations issues de la pose et de la saleté du chantier.

Fila Deterdek 1L

100086918 - L180300226 - G-134

Dilution / Dilución / Diluer 1:5 - 1:10
One litre covers / Rendimiento / Rendement de 20-35 m2/L

Cleaner, stain remover and wax stripper ideal for basic cleaning of acid-sensitive stone paving. / Detergente, quitamanchas y decapante ideal para la limpieza inicial de pavimentos de piedra no resistente a los ácidos. / Détergente anti-taches et décapant idéal pour le nettoyage initial de revêtements en pierre non résistants aux acides.

Fila Ps87 1L

100097854 - L180300237 - G-156

Dilution / Dilución / Diluer 1:20
One litre covers / Rendimiento / Rendement de 200 m2/L

Wax with matt finish for paving that makes cleaning and standard maintenance easier. / Cera efecto mate para pavimentos que facilita la limpieza y el mantenimiento ordinario. / Cire effet mat pour revêtements qui facilite le nettoyage et l'entretien ordinaire.

Fila Matt 1L

100086923 - L180300230 - G-156

Use without diluting / Usar sin diluir / Utiliser sans diluer
One litre covers / Rendimiento / Rendement de 20 m2/L

Glossy-look self-polishing wax for paving that makes cleaning and standard maintenance easier. / Cera auto abrillantadora efecto brillante para pavimentos que facilita la limpieza y el mantenimiento ordinario. / Cire auto-lustrante effet brillant pour revêtements qui facilite le nettoyage et l'entretien ordinaire.

Fila Longlife 1L

100086922 - L180300229 - G-156

Use without diluting / Usar sin diluir / Utiliser sans diluer
One litre covers / Rendimiento / Rendement de 30-40 m2/L

Water-based waterrepellent protection that prevents efflorescence, ageing and decomposition of the product. / Hidrófugo antisalitre base acuosa que evita el envejecimiento y la descomposición del material. / Hydrofuge anti-salpêtre à base aqueuse qui évite le vieillissement et la décomposition du matériau.

Fila Hp98 1L

100086919 - L180300227 - G-156

Use without diluting / Usar sin diluir / Utiliser sans diluer
One litre covers / Rendimiento / Rendement de 10-20 m2/L

Stain protection that does not alter original tone, texture or colour of the product. / Protector anti manchas que protege sin cambiarle el tono ni la textura, ni el color del material. / Protecteur anti-taches qui protège sans modifier le ton, la texture ou la couleur du matériau.

Fila Fob 1L

100086920 - L180300231 - G-163

Use without diluting / Usar sin diluir / Utiliser sans diluer
One litre covers / Rendimiento / Rendement de 10-20 m2/L

Anti-ageing water-repellent protection for interior and exterior surfaces. / Hidrófugo anti-envejecimiento para interiores y exteriores. / Hydrofuge anti-vieillissement pour intérieurs et extérieurs.

Fila Hydrorep 1L

100095177 - L180001173 - G-156

Use without diluting / Usar sin diluir / Utiliser sans diluer
One litre covers / Rendimiento / Rendement de 10-20 m2/L

Colour-enhancing protection for all types of polished, honed, rough and tumbled natural stone. / Protector reavivante que exalta el color original de todo tipo de piedras naturales, tanto pulida como apomazada, envejecida, abujardada, etc / Protecteur ravivant qui rehausse la couleur d'origine de tout type de pierres naturelles, qu'elles soient polies ou poncées, vieillies, bouchardées, etc..

Fila Stone Plus 1L

100086921 - L180300228 - G-163

Use without diluting / Usar sin diluir / Utiliser sans diluer
One litre covers / Rendimiento / Rendement de 15-50 m2/L

Pleasant wet-look glossy protection. / Protector que proporciona un agradable efecto mojado con brillo. / Protecteur qui offre un agréable effet mouillé brillant.

Fila Wet 1L

100098018 - L180300238 - G-156

Use without diluting / Usar sin diluir / Utiliser sans diluer
One litre covers / Rendimiento / Rendement de 10-20 m2/L

Maintenance kit for the restoration of small marble, travertine and limestone surfaces. / Kit de mantenimiento para la restauración de pequeñas superficies de mármol, travertino y caliza. / Kit d'entretien pour la restauration de petites surfaces en marbre, travertin et calcaire.

High-End Baths Maintenance Kit / Kit Mantenimiento Highend Baths / Kit D'entretien Highend Baths

100143706 - L179702365 - G-156

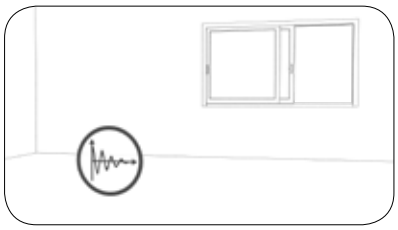
1. SUBSTRATE OR LAYING BASE

1. SOPORTE O FONDO DE COLOCACIÓN

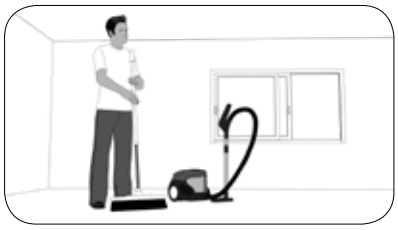
1. UPPORT OU FOND DE POSE



Stable and non-deformable, having undergone all the possible contractions from drying.

Estable y no deformable, habiendo completado las posibles contracciones por secado.

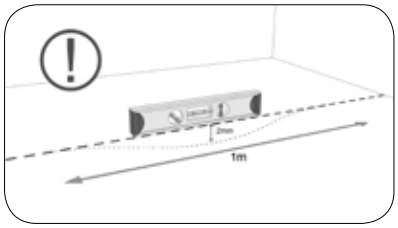
Stable et non déformable, avec les possibles contractions par séchage complétées.



Free from dust, grease, or any substance that can compromise the adherence.

Limpio de polvo, grasas o de cualquier sustancia que pueda comprometer la adhesión.

Absence de poussière, graisse ou toute autre substance qui puisse altérer l'adhérence.



It shall not have defects in its flatness larger than 2mm.

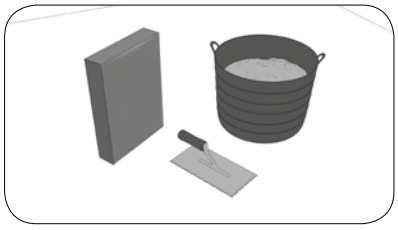
No debe presentar defectos de planaridad superiores a 2mm.

La pièce ne doit pas présenter des défauts de planéité supérieurs à 2mm.

2. INSTALLING THE PIECES

2. COLOCACIÓN DE LAS PIEZAS

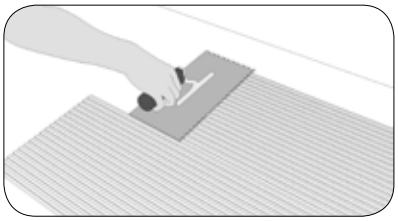
2. POSE DE PIÈCES



We recommend the adhesive One-Flex. We recommend Butech's Super-One as adhesive for our white Marbles.

Se recomienda el adhesivo One-Flex. Para nuestros Mármoles blancos, recomendamos Super-One de Butech.

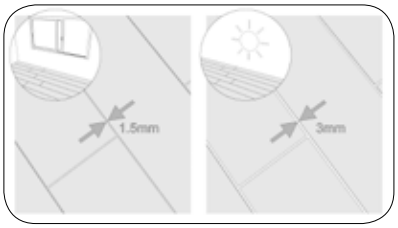
L'utilisation de l'adhésif One-Flex est recommandée. Pour nos marbres blancs, l'utilisation de Super-One de Butech est recommandée.



Apply with a notched trowel of an adequate size depending on the format of the piece.

Aplicar con una llana dentada del tamaño adecuado según el formato de la pieza.

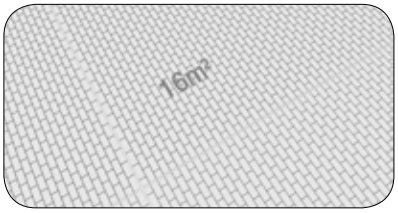
Appliquer le produit avec une truelle à dents d'une dimension appropriée selon le format de la pièce.



Do not to install the tiles in contact with each other. Leave joints proportional to the dimension of the piece. For indoor applications, we recommend a minimum joint of 1.5mm, and 3mm for outdoor applications.

No colocar las baldosas en contacto entre sí. Dejar juntas proporcionales a la dimensión de la pieza. Para interiores se recomienda una junta mínima de 1,5mm y para exteriores de 3mm.

Les carreaux doivent être posés sans se toucher. Laisser des joints proportionnels à la dimension de la pièce. Il est recommandé de laisser un joint d'un minimum de 1,5mm pour les intérieurs et de 3,3mm pour les extérieurs.



Perimeter and expansion joints shall be 1cm, and not leave a surface greater than 16m2 or 8m without expansion joint.

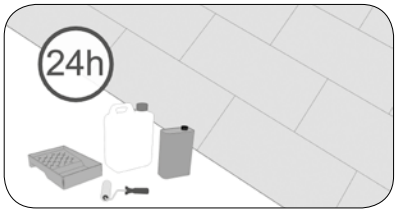
Las juntas, perimetrales y de dilatación, serán de 1cm y no dejar una superficie superior a 16m2 o 8m lineales sin junta de dilatación.

Les joints périphériques et de dilatation seront de 1cm et ne pas laisser une surface supérieure à 16m2 ou 8m linéaires sans joint de dilatation.

3. SEALING INSTALLATION JOINTS

3. SELLADO DE JUNTAS DE COLOCACIÓN

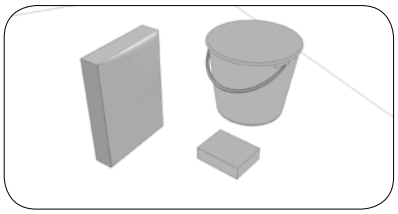
3. SCELLEMENT DES JOINTS DE POSE



After 24 hours after the protection of the stones.

Después de 24 horas tras la protección de las piedras.

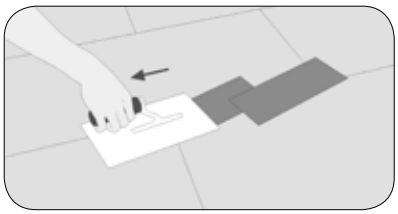
Laisser passer 24 heures après la protection des pierres.



Prepare the grouting material, we recommend Colorstuck 2-12.

Preparar el material de rejuntado, recomendamos Colorstuck 2-12.

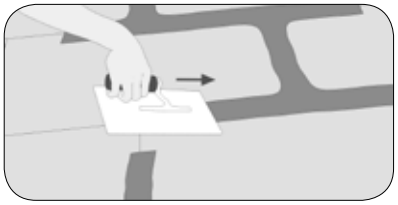
Préparer le matériel pour la réalisation des joints. Nous recommandons d'utiliser Colorstuck 2-12.



Apply the material using a hard rubber trowel, passing it repeatedly over the joints in diagonal.

Aplicar el material mediante llana de goma dura, pasándola repetidamente por las juntas en sentido diagonal.

Appliquer le matériel avec une truelle en caoutchouc dur et la passer plusieurs fois sur les joints en sens diagonal.



Pick the excess with the same trowel.

Recoger los sobrantes con la misma llana.

Ramasser l'excédent avec la truelle.

Installation / Instalación / Installation

Clean the surface with a thin, hard sponge, once the mortar begins to harden.

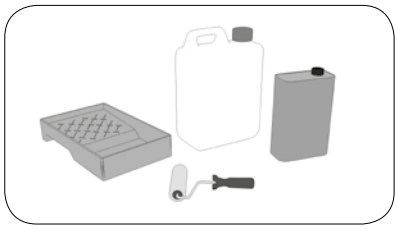
Limpiar la superficie con una esponja fina y dura una vez el mortero comience a endurecer.

Nettoyer la surface avec une éponge fine et dure dès que le mortier commence à durcir.

4. PROTECTION OF NATURAL STONE

4. PROTECCIÓN DE LA PIEDRA NATURAL

4. PROTECTION DE LA PIERRE NATURELLE



L'Antic Colonial supplies all its natural stone products already protected, but in case it is necessary we shall proceed as follows.

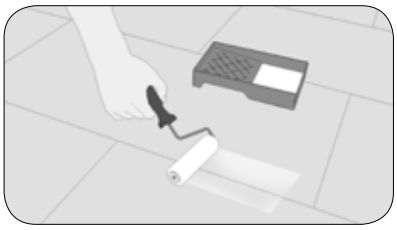
L´Antic Colonial suministra todos sus productos de piedra protegidos pero, en el caso que sea necesario, proceder de la siguiente manera.

L'Antic Colonial fournit tous ses produits en pierre protégés mais, le cas échéant, il faut agir comme il suit.

The stone shall be completely clean and dry.

La piedra debe estar totalmente limpia y seca.

La pierre doit être complètement propre et sèche.



Apply the protector undiluted. Use a thin foam roller, applying two crossed layers directly on the pieces. Only one application is required. Allow to dry completely.

Aplicar el protector sin diluir. Utilizar un rodillo de espuma fina aplicado en dos capas cruzadas directamente sobre las piezas. Solo es necesaria una aplicación. Dejar secar totalmente.

Appliquer le produit non dilué. Utiliser un rouleau en mousse fine pour l'application en deux couches croisées directement sur les pièces. Une seule application est nécessaire. Laisser sécher complètement le produit.

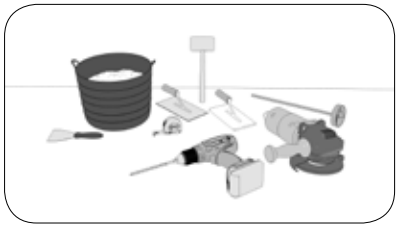
Pour réviser ces instructions d'installation, mises à jour et plus détaillées, veuillez visiter notre site Internet www.anticcolonial.com

Floor Coverings Blanco Almeria Anticato

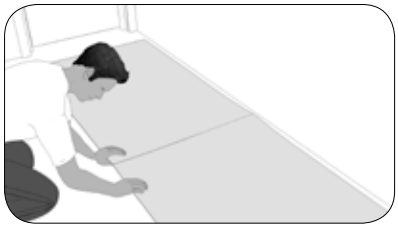
01 - Installation / Instalación / Installation / Airslate



1- Material: notched trowel, rubber trowel, agitator, level, rubber mallet, circular saw, markers, meter, spatula, and adhesive paste.

1- Material: llana dentada, llana de goma, agitador, nivel, maza de goma, radial, marcadores, metro, espátula y pasta adhesiva.

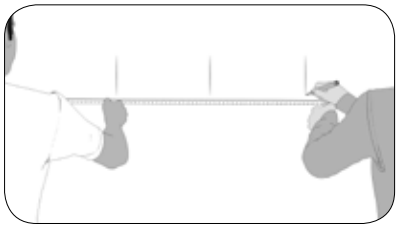
1- Matériel : truelle à dents, truelle en caoutchouc, agitateur, niveau, marteau en caoutchouc, scie radiale, marqueurs, mètre, spatule et pâte adhésive.



2- Before installing, protect the floor with cardboard or plastic to prevent stains.

2- Antes de la instalación proteger el suelo con cartón o plástico para evitar manchas.

2- Avant la pose, protéger le sol avec du carton ou du plastique pour éviter les taches.



3- Mark the measurements, both width and height, on the wall.

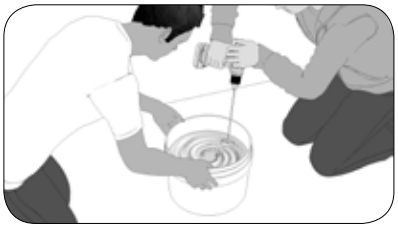
3- Marcar las medidas tanto de anchura como de altura en la pared.

3- Marquer les mesures de largeur et de hauteur sur le mur.

4- Installing sheet: using masking tape to prevent adhesive from depositing on the surface and to easily remove excess adhesive from the joints between sheets. Check with the level that it is perfectly level.

4- Colocación lámina: usar cinta carrocero para evitar que el adhesivo se deposite en la superficie y se quite fácilmente el exceso de adhesivo de las juntas entre láminas una vez maceadas. Comprobar con el nivel que haya quedado perfectamente nivelada.

4- Pose de la lame : utiliser du ruban adhésif de masquage pour éviter que l'adhésif adhère à la surface et pour enlever facilement l'excès d'adhésif des joints entre les lames après la pose. Vérifier avec le niveau qu'elle soit parfaitement nivelée.



5- Install with adhesive paste (we recommend Butech's Epotech), mix well before applying. Extend the glue uniformly over the entire surface with the trowel for the subsequent installation of the sheet. Once the glue is applied, install the sheet using your hand and then use the rubber trowel to set it properly and prevent air bubbles.

5- Colocar con pasta adhesiva (se recomienda Epotech de Butech), homogeneizar bien antes de aplicar. Extender la cola de manera uniforme por toda la superficie con la llana para la posterior colocación de la lámina. Una vez aplicada la cola, colocar la lámina con la mano y después usar la llana de goma o rodillo metálico para fijarla correctamente y evitar bolsas de aire.

5- La poser avec de la pâte adhésive (utilisation d'Epotech de Butech recommandée) bien homogénéisée avant l'application. Étaler la colle uniformément sur toute la surface avec la truelle pour y poser ensuite la lame. Après l'application de la colle, mettre la lame en place avec la main, puis utiliser la truelle en caoutchouc ou le rouleau métallique pour bien la fixer et éviter l'apparition de poches d'air.

6- Repeat the process with the rest of the sheets. Leaving joints is not required, but if you want to seal the joints, we recommend protecting the sides of the joints with masking tape to avoid staining the material with the product.

6- Repetir el proceso con las demás láminas. No es necesario dejar juntas aunque, si se desea sellar las juntas, recomendamos proteger los laterales de las juntas con cinta de carrocero para evitar manchar el material con el producto.

6- Suivre le même processus pour la pose des autres lames. Il n'est pas nécessaire de laisser des joints. Si vous souhaitez toutefois sceller les joints, nous recommandons de protéger les latéraux des joints avec du ruban adhésif de masquage pour éviter de tâcher le matériel avec le produit.

7- After installing, remove excess adhesive immediately to avoid leaving residue on the surface. Clean thoroughly with a damp cloth or paper and let dry.

7- Tras la colocación, retirar los excesos de adhesivo inmediatamente para evitar que deje restos en la superficie. Limpiar intensamente con un trapo o papel húmedo y dejar secar.

7- Après la pose, retirer immédiatement les excédents d'adhésif pour éviter qu'il adhère a la surface. Bien nettoyer avec un chiffon ou du papier humide puis laisser sécher.

8- The material is supplied protected. If you want to apply protector again, we recommend Fila Fob. Remove excess with a cloth or paper to make the application uniform.

8- El material se suministra protegido. En el caso que se quiera realizar una nueva aplicación de protector, se recomienda Fila Fob. Retirar el exceso con un trapo o papel para que la aplicación quede homogénea.

8- Le matériel est fourni protégé. Si vous souhaitez effectuer une nouvelle application du protecteur, nous recommandons l'utilisation de Fila Fob. Retirer l'excédent avec un chiffon ou un papier pour une application homogène.

You can see these updated installation instructions by visiting our website www.anticcolonial.com

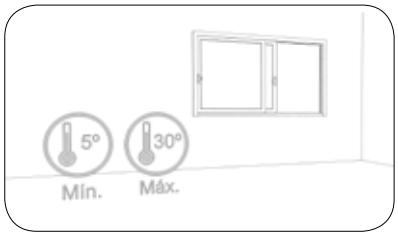
Installation / Instalación / Installation / DQS

Substrates shall be completely dry (residual moisture shall not exceed 2.5%,) stable, solid, resistant to compression, sufficiently leveled, and free from dust, grease, wax, paint, stripping agents, and anything else that could hinder adherence.

Soportes totalmente secos (humedad residual no superior a 2,5%), estables, sólidos, resistentes a la compresión, nivelados y libres de polvo, grasa, cera, pintura, agentes decapantes y cualquier cosa que pudiera entorpecer la adherencia.

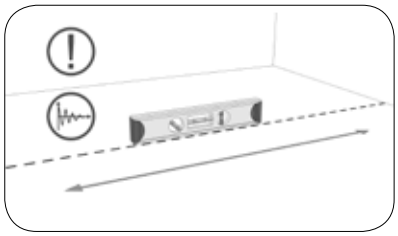
Supports totalement secs (humidité résiduelle inférieure à 2,5 %), stables, solides, résistants à la compression, nivelés et sans poussière, graisse, peinture, agents décapants ou tout autre produit pouvant empêcher l'adhérence.



Room temperature between 5°C and 30°C.

Temperatura ambiental entre 5°C y 30°C.

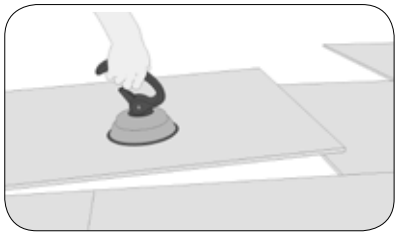
Température ambiante entre 5°C et 30°C.



Substrate vertically aligned, properly leveled, and without defects in its flatness larger than 2mm.

Soporte aplomado, nivelado y sin defectos en su planimetría superiores a 2mm.

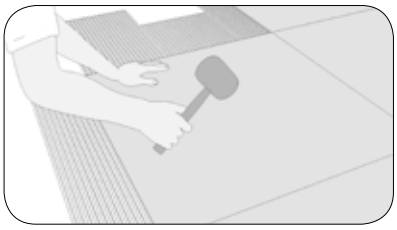
Le support doit être plombé, nivelé et sans défauts de planimétrie supérieurs à 2mm.



We recommend that large-size tiles be installed with the help of a suction cup.

Recomendamos que las baldosas de gran tamaño se coloquen con ayuda de una ventosa.

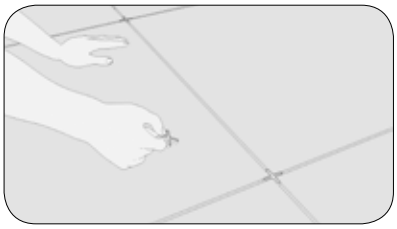
Il est recommandé de mettre en place les carreaux de grandes dimensions à l'aide d'une ventouse.



Lightly tap the tiles with a rubber mallet, in order to avoid the formation of air bubbles and gaps.

Golpear ligeramente las baldosas con una maza de goma para evitar la formación de burbujas de aire y espacios vacíos.

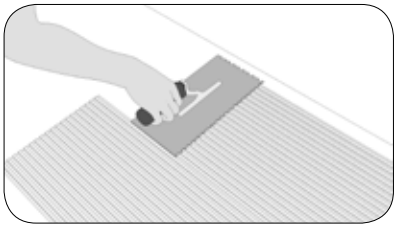
Marteler légèrement les carreaux avec un marteau en caoutchouc pour éviter la formation de bulles d'air et d'espaces vides.



A good installation and adequate vertical alignment of the tiles requires open joints using nylon spacers.

Una buena colocación y correcta alineación de las baldosas requiere juntas abiertas mediante el uso de crucetas de nailon.

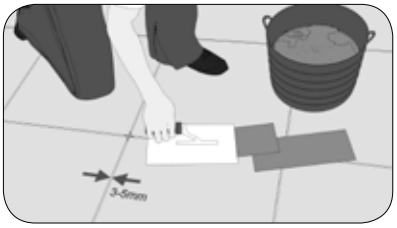
Pour une bonne mise en place et un alignement correct des carreaux, placer des joints ouverts à l'aide de croisillons en nylon.



We recommend applying the Super One+Unilax adhesive with a notched trowel. Spread an amount that will cover at least 80% of the DQS tiles.

Recomendamos que se aplique el adhesivo Super One+Unilax con una llana dentada. Esparcer una cantidad que cubra al menos el 80% de las baldosas de DQS.

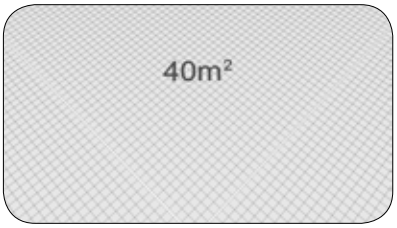
Il est recommandé d'appliquer l'adhésif Super One+Unilax avec une truelle à dents. Étaler une quantité qui recouvre au moins 80% des carreaux de DQS.



Avoid installing tiles without joints. The joint width depends on the tile size (minimum 3 to 5mm). L'Antic Colonial recommends Butech's Colorstuck 0-4 + cl-Stuk.

Evitar la colocación de baldosas sin juntas. La anchura de las juntas depende del tamaño de las baldosas (valores mínimos de 3 a 5mm). L´Antic Colonial recomienda Colorstuck 0-4 + cl-Stuk de Butech.

Ne pas mettre en place les carreaux sans joints. La largeur des joints dépend de la dimension des carreaux (valeurs minimales de 3 à 5mm). L'Antic Colonial recommande Colorstuck 0-4 + cl-Stuk de Butech.



1cm wide perimeter joint around walls and along floor surface edges with the tiles. Insert 0.5cm wide expansion joints every 40m2 or every 8m.

Junta perimetral de 1cm de ancho alrededor de las paredes y los bordes de superficies de suelo con baldosas. Insertar juntas de dilatación de 0,5cm de ancho cada 40m2 o cada 8m lineales.

Joint périphérique de 1cm de largeur autour des murs et des bords de surfaces de sol ayant des carreaux. Insérer les joints de dilatation de 0,5cm tous les 40m2 ou tous lese 8m linéaires.

Description of Icons / Descripción de Iconos / Description des Icones

Special sizes can be made to meet specific customer requirements.
L´Antic Colonial recommends the use of taps with an aerator in all its washbasins to reduce splashing.

Se pueden elaborar formatos especiales adaptados a las necesidades de cada cliente.
L´Antic Colonial recomienda el uso de grifos con aireador en todos sus lavabos para reducir las salpicaduras de agua.

Possibilité de fabriquer des formats spéciaux adaptés aux besoins de chaque client.
De manière à réduire les éclaboussures d'eau, L´Antic Colonial recommande l'installation de robinets équipés d'un aérateur sur tous ses lavabos.

BIOPROT
Protection that reduces drastically the emergence of most common household bacteria.

BIOPROT
Protección que reduce radicalmente la aparición de las bacterias domesticas mas comunes.

BIOPROT
Protection qui réduit de façon radicale l'apparition des bactéries domestiques les plus communes.

WASHBASIN ON SUPPORT
Washbasin installed on a countertop or cabinet.

LAVABO DE APOYO
Lavabo colocado sobre una encimera o mueble.

VASQUE À POSER
Lavabo placé sur un plan de toilette ou un meuble.

WALL-MOUNTED WASHBASIN
Washbasin that is affixed to the wall.

LAVABO SUSPENDIDO
Lavabo anclado a la pared.

LAVABO SUSPENDU
Lavabo fixé au mur.

FREE-STANDING WASHBASIN
Washbasin with a base that reaches the floor of the room.

LAVABO DE PIE
Lavabo con base que llega hasta el pavimento de la estancia.

LAVABO SUR PIED
Lavabo dont la base arrive jusqu'au sol de la pièce.

SEMI-RECESSED WASHBASIN
Embedded washbasin that cuts through the countertop partially.

LAVABO DE SEMI-ENCASTRE
Lavabo encajado que atraviesa la encimera parcialmente.

LAVABO SEMI-ENCASTRÉ
Lavabo encastré qui traverse partiellement le plan de toilette.

RECESSED WASHBASIN
Washbasin installed under the countertop.

LAVABO DE ENCASTRE
Lavabo colocado por la parte inferior de una encimera.

LAVABO ENCASTRÉ
Lavabo encastré par la partie inférieure du plan de toilette.

IRREGULAR TEXTURE
Material that stands out for having an asymmetrical surface.

TEXTURA IRREGULAR
Material que destaca por tener una superficie asimétrica.

TEXTURE IRRÉGULIÈRE
Matériau qui se distingue par sa surface asymétrique.

GLOSS
Material with surface with the ability to produce reflections.

BRILLO
Material cuya superficie tiene la capacidad de producir reflejos.

ÉCLAT
Matériau dont la surface est en mesure de produire des reflets.

MATT
Material with a gloss-free surface.

MATE
Material cuya superficie carece de brillo.

MAT
Matériau dont la surface n'est pas brillante.

SPECIFICATIONS FOR TAPS
Higher flows could lead to the overflow of the basin. We recommend using aerator 100072948 - N299999734 STANDARD AERATOR, which reduces flow to 3.5 liters/min and consequently water use. For basins with a hidden waste we recommend that the water from the tap falls between 6 and 12cm from the waste to help the water to drain correctly and avoid the basin from filling up with water.

ESPECIFICACIONES PARA LA GRIFERIA
Se recomienda el uso del aireador 100072948 - N299999734 AIREADOR ESTANDAR que reduce el caudal a 3.5 litros/min y consecuentemente el consumo de agua. En los lavabos con desagüe oculto se recomienda que la caída del agua del grifo esté entre 6 y 12 centímetros del desagüe para evitar que el agua se estanque y pueda evacuar correctamente.

SPÉCIFICATIONS POUR LA ROBINETTERIE
Il est recommandé d'utiliser l'aérateur 100072948 - N299999734 AIREADOR ESTANDAR qui réduit le débit à 3,5 litres/min et, par conséquent, la consommation d'eau. Sur les lavabos dont la bonde est invisible, il est recommandé que la chute d'eau depuis le robinet tombe entre 6 et 12cm du percement d'évacuation afin que l'eau puisse s'évacuer correctement.

WARRANTY

All our products are top quality and hold the guarantee obtained with the ISO 9001 certification and CE Marking, Declaration of Conformity. In addition, the department of quality at L´ Antic Colonial, S.A conducts permanent quality controls of its products. All products are guaranteed against any production defects, in normal conditions of use and with correct assembly and installation for a period of TWO YEARS, from the delivery date to the first user. The goods should be carefully inspected on delivery. Any fault, defect or breakage observed, caused during transportation, should be recorded on the transport agency delivery note. In the case of units supplied in promotional offers, projects, etc., the guarantee period will start on the product supply date.
This guarantee does not apply to those products which have been stored, fitted or installed incorrectly, misused, or cleaned using unsuitable cleaning products or methods. This guarantee does not apply to those products that have been used for public use, outside or in corrosive environments.
The normal evolution and characteristics of the natural product are excluded. There may be slight differences of colour between the different elements and differences in tone or grain. In addition, if the products are compared at different moments, the time elapsed and the weather conditions may cause variations in colour and/or tone.
While this guarantee remains valid, L'Antic Colonial reserves the right, without prior notification, to modify the technical and design specifications of its products.
Conditions of guarantee:
-That the product was purchased from an Official Distributor.
-That it has not been altered since it left the factory.
-That the recommendations for use and maintenance have been observed.
-That the products have not been used, or exhibited for an indefinite period in any showroom. The guarantee period for these articles is 30 days.
NOTE: The guarantee document is applicable without prejudice to the rights of the consumers established under the applicable Law in each country, and with that established under European Community legislation.

MAINTENANCE

Maintenance is essential for removing dirt or stains that may have built up, acid attacks, renewing the product shine, etc. Correct maintenance guarantees a longer life for the product.

NATURAL STONE

Ordinary cleaning: A neutral pH high-powered cleaner such as Fila Cleaner is recommended, to ensure fast and efficient cleaning, without damaging the product treatment. Dilute a capful of Fila Cleaner in a bucket of warm water and mop the product. Rinsing is not necessary.
To remove stains or acid attacks: In the event of stains or attacks by acid substances (lemon, coke, tomato juice, lime scale removers, wine, vinegar, etc.) that react with the natural stone, these can be removed using a suitable restoration kit available from L'Antic Colonial points of sale. To remove organic stains, dyes and felt-tip pen, use the Fila Sr/95 colour stain remover.
Renewing or increasing the degree of shine: To renew or increase the degree of shine, use the specific natural wax, FilaClassic. To apply correctly, first dilute the product, apply to the surface and after a few hours, gently wipe with a soft cloth to obtain the required shine.

WOOD USED IN THE UNITS

Dust with a soft cloth at least twice a week. Units must never be exposed to prolonged contact with water or extremely high conditions of humidity.
Check that the bathroom is correctly ventilated. Wipe away any water spilt onto the surface, with a clean dry cloth as fast as possible to prevent moisture from penetrating into the product. Grease and oil stains can be easily removed with acetone.
Remember that to remove ordinary domestic dirt, abrasive soaps, steel wool, wax or polishers should not be used in the care and conservation of the product. A biodegradable cleaner that does not leave residue and does not require rinsing after application is ideal.
Avoid exposure to direct sunlight for prolonged periods of time. During the hours of maximum sunlight, use curtains or blinds to minimise the direct sunlight.

GLASS AND MIRRORS

Use a soft cloth moistened with alcohol. Avoid the use of abrasive materials that may harm or scratch the surface.

STAINLESS STEEL

Stainless steel is special steel known for its high resistance to knocks, scratches, light and corrosion. No special care is necessary but it is important not to use abrasive materials. Surfaces should be cleaned with a soft cloth and alcohol.

GARANTÍA

Todos nuestros productos son de primera calidad y cuentan con la garantía otorgada por la certificación ISO 9001 y la Declaración de conformidad relacionada con el Marcado CE. Así mismo, el departamento de calidad de L´ Antic Colonial, S.A realiza un control permanentemente de la calidad de sus productos. Todos los productos están en garantía contra todo defecto de fabricación, en las condiciones normales de utilización y con un montaje e instalación correcto durante un periodo de DOS AÑOS, contando a partir de la fecha de entrega al primer usuario. Deberá ser revisada cuidadosamente la mercancía en el momento de la entrega. Toda anomalía, desperfecto o rotura detectada ocasionada en el transporte deberá ser anotada en el albarán de la agencia de transporte. En el caso de muebles suministrados en promociones, obras, etc..., el periodo de garantía contará a partir de la fecha de suministro de los mismos.
Esta garantía no se aplicará a aquellos productos que hayan sido almacenados, montados o instalados de forma incorrecta, o que se hayan utilizado de forma inapropiada, o que se hayan limpiado con métodos o productos de limpieza inadecuados. Esta garantía no se aplicará a aquellos productos que se hayan utilizado para uso público, en el exterior o en ambientes corrosivos.
Se excluyen de la garantía las características y evoluciones normales del producto natural, puede haber ligeras diferencias de tono entre los distintos elementos que lo componen y diferencias de matiz o veta. Además, si los productos se comparan en distintos momentos, el tiempo transcurrido y las condiciones climáticas pueden causar variaciones en color y/o tonalidad.
Durante la vigencia de la presente garantía, L'Antic Colonial se reserva, sin previo aviso, la posibilidad de modificar las especificaciones técnicas y de diseño de sus productos.
Condiciones de garantía:
-Que el producto haya sido adquirido en un Distribuidor Oficial.
-Que no haya sido alterado desde su salida de fábrica.
-Que se hayan respetado todas las recomendaciones de uso y mantenimiento.
-Que los productos no hayan sido utilizados, ni hayan estado expuestos por tiempo indefinido en cualquier exposición, siendo el período de garantía de estos artículos de 30 días.
NOTA: El documento de garantía, será de aplicabilidad, sin perjuicio de los derechos de los consumidores establecidos por la Ley vigente en cada país, así como lo dispuesto en la normativa comunitaria europea.

MANTENIMIENTO

El mantenimiento tiene la importante finalidad de eliminar la suciedad, manchas que hayan podido penetrar ligeramente, ataques ácidos, renovar el brillo del material, etc. Un correcto mantenimiento garantiza una vida más larga al material.

PIEDRA NATURAL

Limpieza ordinaria: Se recomienda un limpiador con pH neutro y alto poder de limpieza como Fila Cleaner, así se garantiza una limpieza rápida y eficaz, respetando al mismo tiempo el tratamiento. Para ello se diluiye un taponcito de Fila Cleaner en un cubo de agua tibia y luego se friega sin necesidad de aclarar.
Para eliminar manchas o ataques ácidos: En caso de que se formen manchas por ataques de sustancias ácidas (limón, cola, zumo de tomate, anticales, vino, vinagre, etc.) que reaccionan con la piedra natural, se pueden eliminar utilizando un kit de restauracion adecuado disponibles en los puntos de venta de L'Antic Colonial. Para eliminar manchas orgánicas, tintes y rotuladores se recomienda utilizar el quitamanchas de color Fila Sr/95.
Renovar o aumentar el grado de brillo: Para renovar o aumentar el grado de brillo existente, se recomienda utilizar la cera natural específica FilaClassic. Para una correcta aplicación se diluye previamente el producto, se aplica sobre la superficie y al cabo de unas horas se emplea con suavidad un paño para conseguir el brillo deseado.

MADERA DE LOS MUEBLES

Limpie el polvo con un paño suave por lo menos dos veces por semana. Los muebles no deben exponerse nunca a un contacto excesivo con agua o con una humedad extremadamente alta, por esta razón hay que asegurarse de que el baño cuenta con la ventilación adecuada. Si se derrama agua sobre la superficie, simplemente utilice un paño limpio y seco tan rápido como sea posible para evitar la penetración de la humedad. En cuanto a las manchas de grasa, estas se pueden eliminar facilmente con acetona.
Debe tener en cuenta que la suciedad doméstica normal no deden utilizarse jabones abrasivos, estropajo de acero, cera o pulimentadora para su limpieza y conservación. Lo ideal es utilizar un limpiador biodegradable que no deje residuos y que no requiera enjuague después de la aplización.
Evite la exposición directa de luz solar durante periodos de tiempo prolongados. Durante las horas de máxima luz solar, utilice cortinas o persianas para minimizar la luz solar directa.

CRISTAL Y ESPEJOS

Utilizar un paño suave humedecido con alcohol. Evitar la utilización de materiales abrasivos que pueden incidir o rayar la superficie.

ACERO INOXIDABLE

El acero inoxidable es un acero especial que se distingue por su elevada resistencia a los golpes, a las rayaduras, a la luz y a la corrosión.
No se requieren cuidados particulares pero es importante no utilizar materiales abrasivos. Se recomienda limpiar las superficies con un paño suave y alcohol.

GARANTIE

Tous nos produits sont de première qualité et disposent de la garantie fournie par la certification ISO 9001 et la déclaration de conformité relative au marquage CE. De même, le département qualité de L´Antic Colonial, S.A réalise un contrôle permanent de la qualité de ses produits. Tous les produits sont garantis contre tout défaut de fabrication, dans les conditions normales d'utilisation et avec un montage et une installation correcte, pendant une période de DEUX ANS à partir de la date de livraison au premier utilisateur.
La marchandise devra être vérifiée soigneusement au moment de la livraison. Toute anomalie, imperfection ou casse détectée et survenue pendant le transport devra apparaître sur le bon de livraison de l'agence de transport.
Dans le cas de meubles fournis lors de promotions, sur chantier, etc., la période de garantie sera effective à partir de leur date de mise à disposition.
Cette garantie ne s'appliquera pas aux produits stockés, montés ou installés de manière incorrecte, ou utilisés de manière inappropriée, ou nettoyés avec des méthodes ou des produits de nettoyage inadaptés.
Cette garantie ne s'appliquera pas aux produits utilisés pour une utilisation publique, en extérieur ou dans des environnements corrosifs.
Sont exclues de la garantie les caractéristiques et évolutions normales du produit naturel ; les différents éléments le composant peuvent présenter de légères différences de ton, de nuance ou de veines. En outre, si les produits sont comparés à différents moments, le temps écoulé et les conditions climatiques peuvent provoquer des variations de couleur et/ou de tonalité.
Pendant toute la période de validité de la présente garantie, L'Antic Colonial se réserve la possibilité, sans avertissement préalable, de modifier les spécifications techniques et de conception de ses produits.
Conditions de garantie:
-Le produit doit avoir été acheté auprès d'un distributeur officiel.
-Il ne doit pas avoir été modifié depuis sa sortie d'usine.
-Toutes les recommandations d'utilisation et d'entretien doivent avoir été respectées.
-Les produits ne doivent pas avoir été utilisés ou exposés pour une durée indéfinie à une quelconque exposition, la période de garantie de ces articles étant de 30 jours.
REMARQUE: Le document de garantie sera applicable, sans préjudice des droits aux consommateurs définis par la loi en vigueur dans chaque pays, comme le veut la réglementation communautaire européenne.

ENTRETIEN

L'entretien a pour finalité indispensable d'éliminer la saleté, les taches qui auraient pu pénétrer légèrement, les attaques acides, de renouveler la brillance du matériau, etc. Un entretien correct garantit une durée de vie accrue du matériau.

PIERRE NATURELLE

Nettoyage ordinaire: Un nettoyant au pH neutre et à haut pouvoir nettoyant, comme le Fila Cleaner, est recommandé afin de garantir un nettoyage rapide et efficace, tout en respectant le traitement. Diluer pour cela un bouchon de Fila Cleaner dans un seau d'eau tiède, puis laver sans rincer. Pour éliminer des taches ou attaques acides: Si des taches se forment sous l'effet de l'attaque de substances acides (citron, coca cola, jus de tomate, anticalcaire, vin, vinaigre, etc.) qui réagissent avec la pierre naturelle, il est possible de les éliminer en utilisant un kit de restauration adéquat, disponible dans les points de vente de L'Antic Colonial. Pour éliminer des taches organiques, de teinture et de feutres, il est recommandé d'utiliser l'anti-taches de couleur Fila Sr/95.
Renouveler ou accroître le niveau de brillance: Pour renouveler ou accroître le niveau de brillance existant, il est recommandé d'utiliser la cire naturelle spécifique FilaClassis. Pour une application correcte, diluer d'abord le produit, puis l'appliquer sur la surface et, après quelques heures, utiliser avec soin un chiffon pour obtenir la brillance souhaitée.

BOIS DES MEUBLES

LNettoyer la poussière avec un chiffon doux au moins deux fois par semaine. Les meubles ne doivent jamais être exposés à un contact excessif avec l'eau ou une humidité extrême ; c'est pourquoi il faut s'assurer que la salle de bain dispose d'une ventilation adéquate. Si de l'eau est renversée sur la surface, il suffit d'utiliser un chiffon propre et sec le plus rapidement possible pour éviter la pénétration de l'humidité. En ce qui concerne les taches de graisse, il est facile de les éliminer avec de l'acétone.
Il faut prendre en compte que dans le cas de la saleté domestique normale il n'est pas nécessaire d'utiliser des savons abrasifs, de la laine d'acier, de la cire ou une polisseuse pour leur nettoyage et conservation. L'idéal est d'utiliser un nettoyant biodégradable ne laissant aucun résidu et ne nécessitant aucun rinçage après application. Éviter l'exposition directe au soleil pendant des périodes prolongées. Pendant les heures d'ensoleillement maximal, utiliser des volets ou des rideaux pour réduire l'éclairage direct.

VERRE ET MIROIRS

Utiliser un chiffon doux humidifié avec de l'alcool. Éviter d'utiliser des matériaux abrasifs pouvant altérer ou rayer la surface.

ACIER INOXYDABLE

L'acier inoxydable est un acier spécial qui se distingue par sa résistance élevée aux chocs, aux rayures, à la lumière et à la corrosion.
Aucun soin particulier n'est recommandé mais il est important de ne pas utiliser de matériaux abrasifs. Il est recommandé de nettoyer les surfaces avec un chiffon doux et de l'alcool.

-

MESHED
Product manufactured on a mesh that makes installation easier.

ENMALLADO
Producto fabricado sobre una malla que facilita su instalación.

FILET
Produit fabriqué sur un filet qui facilite son installation.

IRREGULAR TEXTURE
Material that stands out for having an asymmetrical surface.

TEXTURA IRREGULAR
Material que destaca por tener una superficie asimétrica.

TEXTURE IRRÉGULIÈRE
Matériau qui se distingue par sa surface asymétrique.

GLOSS
Material with surface with the ability to produce reflections.

BRILLO
Material cuya superficie tiene la capacidad de producir reflejos.

ÉCLAT
Matériau dont la surface est en mesure de produire des reflets.

MATT
Material with a gloss-free surface.

MATE
Material cuya superficie carece de brillo.

MAT
Matériau dont la surface n'est pas brillante.

INDOOR FLOORING
Material suitable for use on indoor floors.

PAVIMENTO INTERIOR
Material apto para su uso en suelos de interior.

REVÊTEMENT DE SOL INTÉRIEUR
Matériau qui convient aux sols d'intérieur.

INDOOR WALL COVERING
Material suitable for use on indoor walls.

REVESTIMIENTO INTERIOR
Material apto para su uso en paredes de interior.

REVÊTEMENT INTÉRIEUR
Matériau qui convient aux murs d'intérieur.

COUNTERTOPS
Material suitable for use on countertops.

ENCIMERAS
Material apto para su uso en encimeras.

PLANS DE TRAVAIL/TOILETTE
Matériau qui convient aux plans de travail/toilette.

OUTDOOR FLOORING
Material suitable for use on outdoor floors.

PAVIMENTO EXTERIOR
Material apto para su uso en suelos de exterior.

REVÊTEMENT DE SOL EXTÉRIEUR
Matériau qui convient aux sols d'extérieur.

OUTDOOR WALL COVERING
Material suitable for use on outdoor walls.

REVESTIMIENTO EXTERIOR
Material apto para su uso en paredes de exterior.

REVÊTEMENT EXTÉRIEUR
Matériau qui convient aux murs d'extérieur.

POOL SURROUNDINGS
Material suitable for use on pool surroundings.

ALREDEDORES PISCINA
Material apto para su uso en zonas inmediaciones de piscinas.

ALENTOURS PISCINES
Matériau qui convient aux abords des piscines.

SHOWER FLOORING
Material suitable for use on shower floors.

PAVIMENTO DUCHAS
Material apto para su uso en suelos de ducha.

REVÊTEMENT DE SOL DOUCHES
Matériau qui convient aux sols de douche.

SHOWER WALL COVERING
Material suitable for use on shower walls.

REVESTIMIENTO DUCHAS
Material apto para su uso en paredes de ducha.

REVÊTEMENT DOUCHES
Matériau qui convient aux murs de douches.

POOL
Material suitable for use on permanently wet areas.

PISCINA
Material apto para su uso en zonas permanentemente húmedas.

PISCINE
Matériau qui convient aux zones toujours humides.

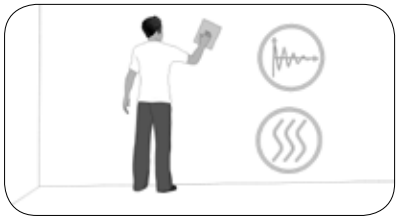
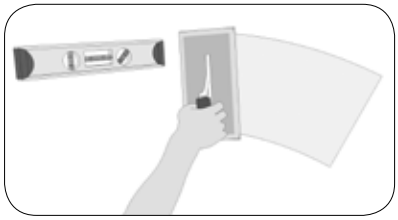
Floor Coverings Amsterdam Grey Sand / **Wall Coverings** Universe Dusk / **Complementary Products** Karon Circle Countertop, Tower Mirror



Smooth and solid, clean and dry surface.

Superficie lisa y consistente, además de seca y limpia.

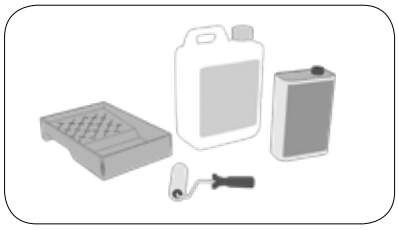
Surface lisse et consistante ; elle doit aussi être sèche et propre.



Level the surface in order to create a white background

Nivelar la superficie para crear un fondo blanco.

Niveler la surface pour créer un fond blanc.



For levels greater than 2mm, we recommend the use of specific products.

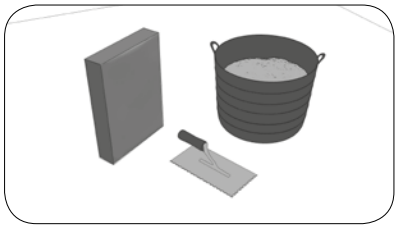
En nivelados superiores a 2mm se recomienda el uso de productos específicos.

Pour des nivelages supérieurs à 2mm, l'usage de produits spécifiques est recommandé.

Room temperature between 5°C and 30°C

Temperatura ambiente entre 5ºC y 30ºC.

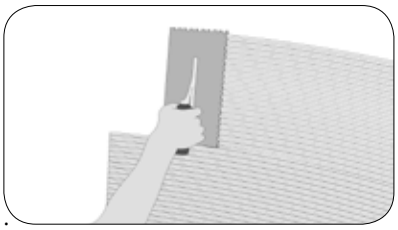
Température ambiante entre 5°C et 30°C.



Prepare the adhesive following the manufacturer's instructions; we recommend One-Flex.

Preparar el adhesivo siguiendo las instrucciones del fabricante, recomendamos One-Flex.

Préparer l'adhésif selon les instructions du fabricant. Nous recommandons l'utilisation de One-Flex.

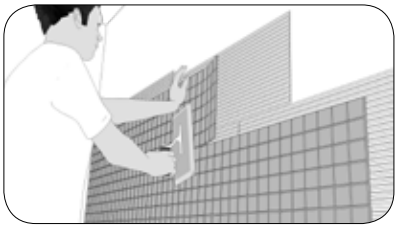


.

"Comb" the adhesive with the notched side (minimum notch 3mm.) Do not spread the cement-based adhesive over large areas to prevent it from drying before placing the material.

"Peinar" el adhesivo con el lado dentado (mínimo 3mm). No extender el cemento cola en grandes superficies para evitar que se reseque antes de colocar el material.

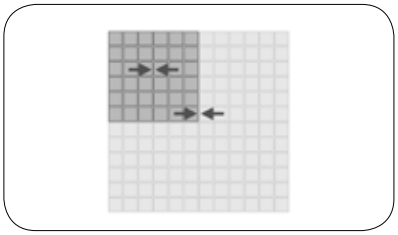
«Brosser» l'adhésif avec la face dentelée (minimum 3mm). Ne pas étaler le ciment-colle sur de grandes surfaces, afin d'éviter qu'il sèche avant la pose du matériel.



Lay the sheet and press evenly with a rubber trowel.

Colocar la hoja y presionar uniformemente con una llana de goma.

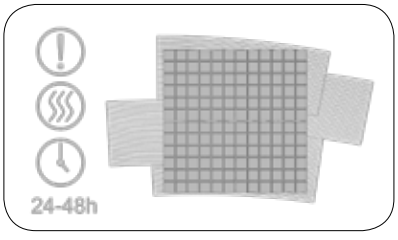
Placer la feuille et presser uniformément avec une truelle en caoutchouc.



Ensure that the distance between the sheets is the same between pieces.

Asegurarse que la distancia entre hojas sea la misma entre las piezas.

Vérifiez que la distance entre les feuilles et la même que celle entre les pièces.



Let the adhesive dry for at least 24-48h. Before the adhesive dries, remove its remains with a sponge or cloth.

Dejar secar el adhesivo al menos 24-48h. Antes de que fragüe el adhesivo retirar los restos con una esponja o un trapo.

Laisser l'adhésif sécher pendant au moins 24 à 48h. Avant la prise de l'adhésif, retirer les restes à l'aide d'une éponge ou d'un chiffon.

GROUTING (applicable only for mosaics with joint)

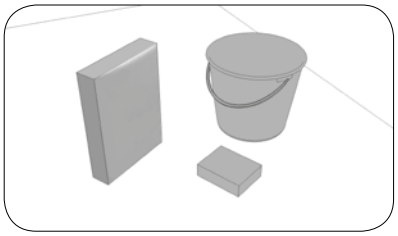
REJUNTADO (aplicable sólo para mosaicos con junta)

REJOINTOIEMENT (applicable uniquement pour les mosaïques posées avec joint)

Perfectly clean pieces, and free from dust residue before grouting.

Piezas perfectamente limpias y sin restos de residuos de polvo antes de proceder al rejuntado.

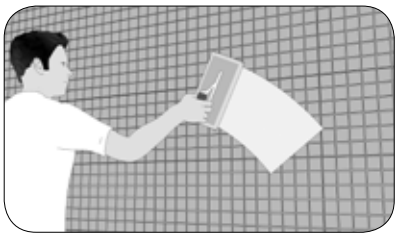
Pièces parfaitement propres et sans poussière avant la phase de réalisation des joints.



We recommend the use of Colorstuk rapid

Se recomienda el uso de Colorstuk rapid.

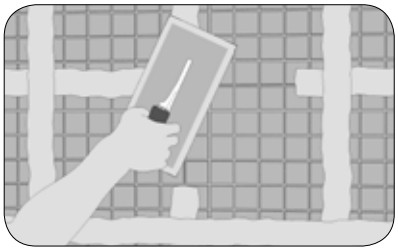
L'utilisation de Colorstuk rapid est recommandée.



Spread the material with a rubber trowel, filling joints well.

Extender el material con una llana de goma rellenando bien las juntas.

Étaler le matériel avec une truelle en caoutchouc en remplissant bien les joints.

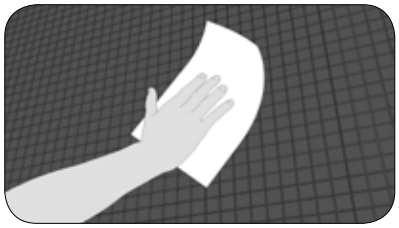


Installation / Instalación / Installation

Use the same trowel to remove excess grout.

Utilizar la misma llana para eliminar el exceso.

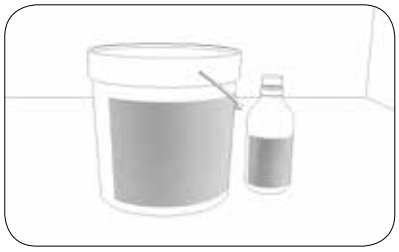
Utiliser la même truelle pour éliminer le produit excédant.



Before the material dries, remove its remains with a sponge or cloth.

Antes de que fragüe el material, retirar los restos con una esponja o trapo.

Avant la prise du matériel, retirer les excédents à l'aide d'une éponge ou d'un chiffon.



For installations where the material is in contact with water (directly or indirectly), seal the grout adhesive by applying Fila Fob. We recommend Butech's Epotech Aqua as grouting material.

Para instalaciones en las que el material esté en contacto con agua (directa o indirectamente) sellar el adhesivo de rejunte aplicando FILAFOB. Se recomienda Epotech Aqua de Butech como material de rejunte.

Pour des installations où le matériel soit en contact avec de l'eau (directement ou indirectement), sceller l'adhésif des joints avec Fila Fob. Nous recommandons l'utilisation d'Epotech Aqua de Butech pour faire les joints.

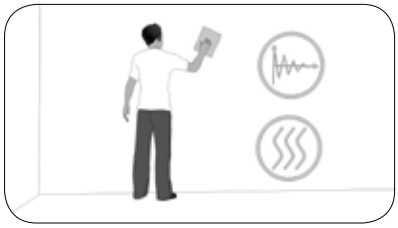
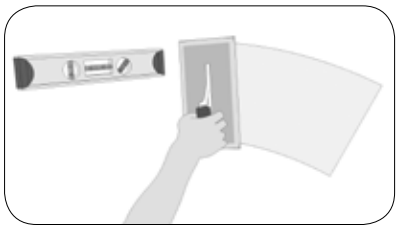
Wall Coverings Victorian Mother of Pearl Grey



Smooth and solid, clean and dry surface.

Superficie lisa y consistente, además de seca y limpia.

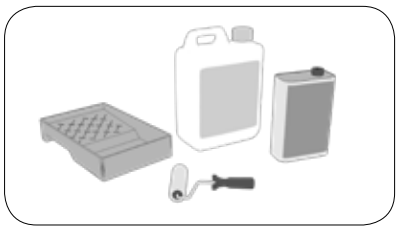
Surface lisse et consistante; elle doit aussi être sèche et propre.



Level the surface in order to create a white background

Nivelar la superficie para crear un fondo blanco.

Niveler la surface pour créer un fond blanc.



For levels greater than 2mm, we recommend the use of specific products.

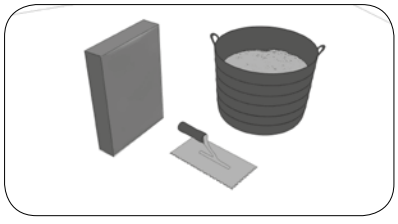
En nivelados superiores a 2mm se recomienda el uso de productos específicos.

Pour des nivelages supérieurs à 2mm, l'usage de produits spécifiques est recommandé.

Room temperature between 5°C and 30°C

Temperatura ambiente entre 5ºC y 30ºC.

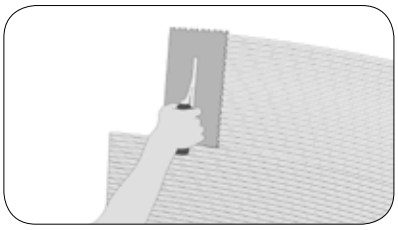
Température ambiante entre 5°C et 30°C.



Prepare the adhesive following the manufacturer's instructions; we recommend One-Flex.

Preparar el adhesivo siguiendo las instrucciones del fabricante, recomendamos One-flex.

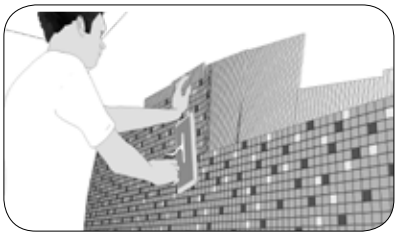
Préparer l'adhésif selon les instructions du fabricant. Nous recommandons l'utilisation de One-Flex.



"Comb" the adhesive with the notched side (minimum notch 3mm.) Do not spread the cement-based adhesive over large areas to prevent it from drying before placing the material.

"Peinar" el adhesivo con el lado dentado (mínimo 3mm). No extender el cemento cola en grandes superficies para evitar que se reseque antes de colocar el material.

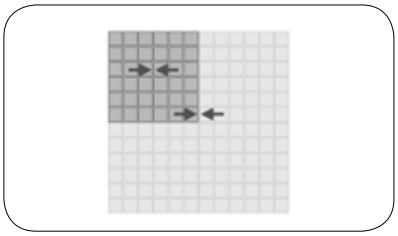
«Brosser» l'adhésif avec la face dentelée (minimum 3mm). Ne pas étaler le ciment-colle sur de grandes surfaces, afin d'éviter qu'il sèche avant la pose du matériel.



Lay the sheet and press evenly with a rubber trowel.

Colocar la hoja y presionar uniformemente con una llana de goma.

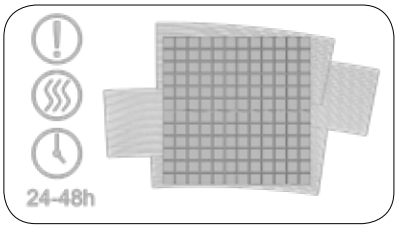
Placer la feuille et presser uniformément avec une truelle en caoutchouc.



Ensure that the distance between the sheets is the same between pieces.

Asegurarse que la distancia entre hojas sea la misma entre las piezas.

Vérifiez que la distance entre les feuilles et la même que celle entre les pièces.



Let the adhesive dry for at least 24-48h. Before the adhesive dries, remove its remains with a sponge or cloth.

Dejar secar el adhesivo al menos 24-48h. Antes de que fragüe el adhesivo retirar los restos con una esponja o un trapo.

Laisser l'adhésif sécher pendant au moins 24 à 48h. Avant la prise de l'adhésif, retirer les restes à l'aide d'une éponge ou d'un chiffon.

GROUTING

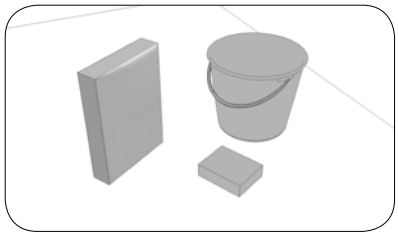
REJUNTADO

REJOINTOIEMENT

Perfectly clean pieces, and free from dust residue before grouting.

Piezas perfectamente limpias y sin restos de residuos de polvo antes de proceder al rejuntado.

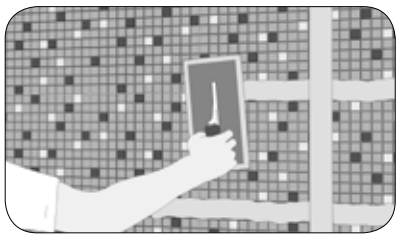
Pièces parfaitement propres et sans poussière avant la phase de réalisation des joints.



We recommend the use of Colorstuk Rapid

Se recomienda el uso de Colorstuk Rapid.

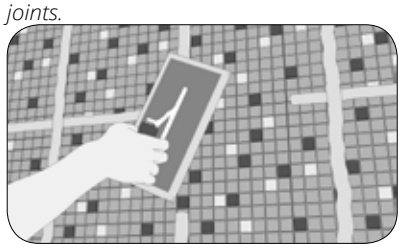
L'utilisation de Colorstuk rapid est recommandée.



Spread the material with a rubber trowel, filling joints well.

Extender el material con una llana de goma rellenando bien las juntas.

Étaler le matériel avec une truelle en caoutchouc en remplissant bien les joints.

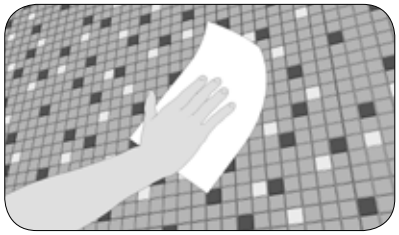


Use the same trowel to remove excess grout.

Utilizar la misma llana para eliminar el exceso.

Utiliser la même truelle pour éliminer le produit excédant.

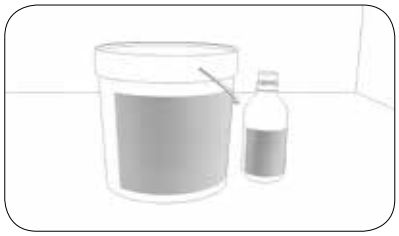
Installation / Instalación / Installation



Before the material dries, remove its remains with a sponge or cloth.

Antes de que fragüe el material, retirar los restos con una esponja o trapo.

Avant la prise du matériel, retirer les excédents à l'aide d'une éponge ou d'un chiffon.



For installations where the material is in contact with water (directly or indirectly), seal the grout adhesive by applying Fila-Fob. We recommend the use of Butech's Epotech Aqua as grouting material.

Para instalaciones en las que el material esté en contacto con agua (directa o indirectamente) sellar el adhesivo de rejunte aplicando Fila-Fob. Se recomienda el uso de Epotech Aqua de Butech como material de rejunte.

Pour des installations où le matériel est en contact avec de l'eau (directement ou indirectement), sceller l'adhésif des joints avec Fila Fob. Nous recommandons l'utilisation d'Epotech Aqua de Butech pour faire les joints.

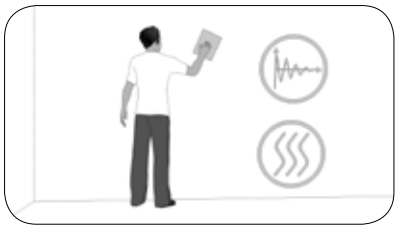
Wall Coverings Urban White Frost

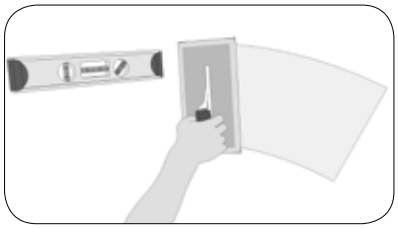
GLASS MOSAICS



Smooth and solid, clean and dry surface.

Superficie lisa y consistente, además de seca y limpia.

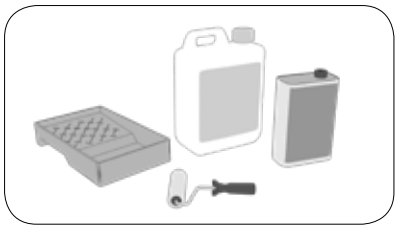
Surface lisse et consistante ; elle doit aussi être sèche et propre.



Level the surface in order to create a white background

Nivelar la superficie para crear un fondo blanco.

Niveler la surface pour créer un fond blanc.



For levels greater than 2mm, we recommend the use of specific products.

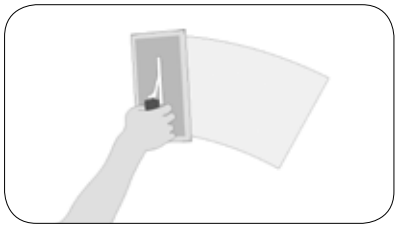
En nivelados superiores a 2mm se recomienda el uso de productos específicos.

Pour des nivelages supérieurs à 2mm, l'usage de produits spécifiques est recommandé.

Room temperature between 5°C and 30°C

Temperatura ambiente entre 5ºC y 30ºC.

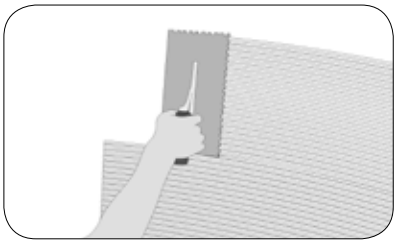
Température ambiante entre 5°C et 30°C.



Extend the cement-based adhesive evenly on the wall with the flat side of a notched trowel. We recommend One-Flex by Butech.

Extender el adhesivo cementoso por el lado liso de una llana dentada uniformemente sobre el muro. Se recomienda One-Flex de Butech.

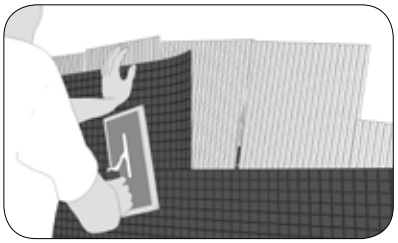
Étaler uniformément l'adhésif cimenteux sur le mur en utilisant le côté lisse d'une truelle à dents. Nous recommandons One-Flex de Butech.



"Comb" the adhesive with the notched side (minimum notch 3mm.) Do not spread the cement-based adhesive over large areas to prevent it from drying before placing the material.

"Peinar" el adhesivo con el lado dentado (mínimo 3mm). No extender el cemento cola en grandes superficies para evitar que se reseque antes de colocar el material.

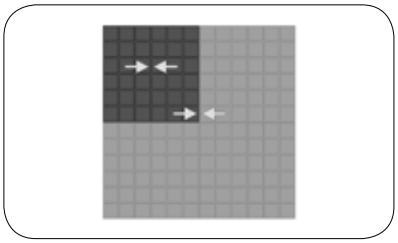
«Brosser» l'adhésif avec la face dentelée (minimum 3mm). Ne pas étaler le ciment-colle sur de grandes surfaces, afin d'éviter qu'il sèche avant la pose du matériel.



Lay the sheet and press evenly with a rubber trowel.

Colocar la hoja y presionar uniformemente con una llana de goma.

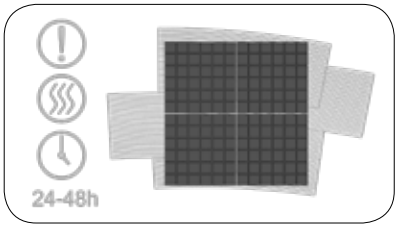
Placer la feuille et presser uniformément avec une truelle en caoutchouc.



Ensure that the distance between the sheets is the same between pieces.

Asegurarse que la distancia entre hojas sea la misma entre las piezas.

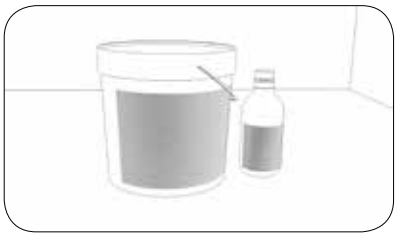
Vérifiez que la distance entre les feuilles et la même que celle entre les pièces.



Let the adhesive dry for at least 24-48h. Before the adhesive dries, remove its remains with a sponge or cloth.

Dejar secar el adhesivo al menos 24-48h. Antes de que fragüe el adhesivo retirar los restos con una esponja o un trapo.

Laisser l'adhésif sécher pendant au moins 24 à 48h. Avant la prise de l'adhésif, retirer les restes à l'aide d'une éponge ou d'un chiffon.



GROUTING (applicable only for mosaics with joint)

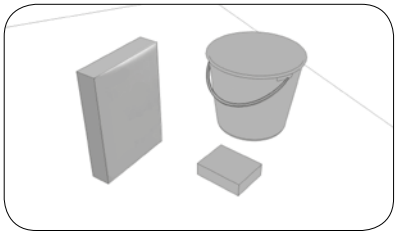
REJUNTADO (aplicable sólo para mosaicos con junta)

REJOINTOIEMENT (applicable uniquement pour les mosaïques posées avec joint)

Perfectly clean pieces, and free from dust residue before grouting.

Piezas perfectamente limpias y sin restos de residuos de polvo antes de proceder al rejuntado.

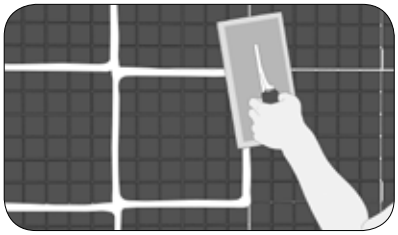
Pièces parfaitement propres et sans restes de poussière avant la phase de réalisation des joints.



We recommend the use of Butech's Rapid Colorstuk.

Se recomienda el uso de Colorstuk Rapid de Butech.

L'utilisation de Colorstuk Rapid de Butech est recommandée.

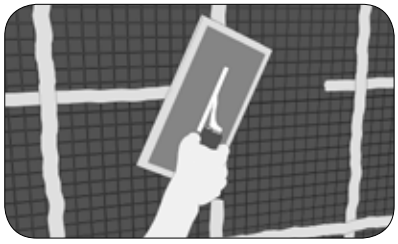


Installation / Instalación / Installation

Spread the material with a rubber trowel, filling joints well.

Extender el material con una llana de goma rellenando bien las juntas.

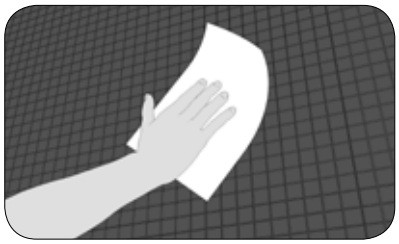
Étaler le matériel avec une truelle en caoutchouc en remplissant bien les joints.



Use the same trowel to remove excess grout.

Utilizar la misma llana para eliminar el exceso.

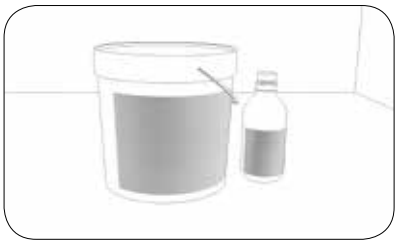
Utiliser la même truelle pour éliminer le produit excédant.



Remove material debris with a sponge or cloth before it hardens.

Antes de que fragüe el material, retirar los restos con una esponja o trapo.

Avant la prise du matériel, retirer les restes à l'aide d'une éponge ou d'un chiffon.



For installations where the material will be in contact with water (directly or indirectly,) we recommend the use of Butech's Epotech Aqua as grouting material.

Para instalaciones en las que el material esté en contacto con agua (directa o indirectamente) se recomienda el uso de Epotech Aqua de Butech como material de rejunte.

Pour des installations où le matériel est en contact avec de l'eau (directement ou indirectement), l'utilisation d'Epotech Aqua de Butech pour faire les joints est recommandée.

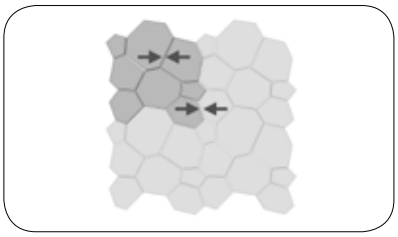
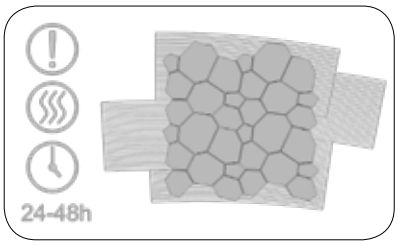
Placer la feuille et presser uniformément avec une truelle en caoutchouc.



Ensure that the distance between the sheets is the same between pieces.

Asegurarse que la distancia entre hojas sea la misma que hay entre las piezas.

Vérifiez que la distance entre les feuilles et la même que celle entre les pièces.



Let the adhesive dry for at least 24-48h. Before the adhesive dries, remove its remains with a sponge or cloth.

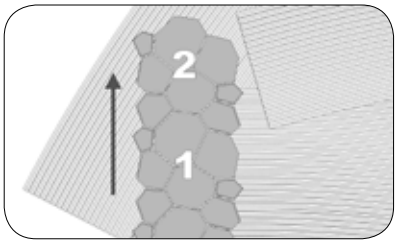
Dejar secar el adhesivo al menos 24-48h. Antes de que fragüe el adhesivo retirar los restos con una esponja o un trapo.

Laisser l'adhésif sécher pendant au moins 24 à 48h. Avant la prise de l'adhésif, retirer les restes à l'aide d'une éponge ou d'un chiffon.

IMPORTANT CONSIDERATIONS TO BEAR IN MIND

CONSIDERACIONES IMPORTANTES A TENER EN CUENTA

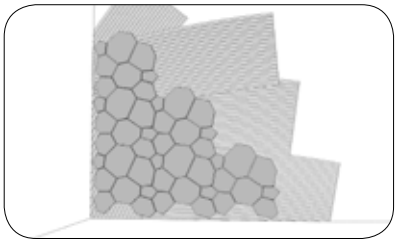
CONSIDÉRATIONS IMPORTANTES À PRENDRE EN COMPTE



Install the meshes from the bottom up, paying attention to the direction of each mesh.

Instalar las mallas de abajo hacia arriba, tomando nota de la dirección de cada malla.

Installer les trames du bas vers le haut et noter la direction de chaque trame.

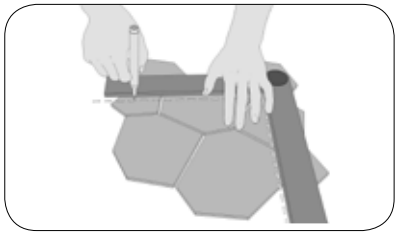


Cover the entire surface, leaving the corners and the inner angles.

Cubrir toda la superficie dejando las esquinas y los ángulos internos.

Couvrir toute la surface, sauf les coins et les angles internes.

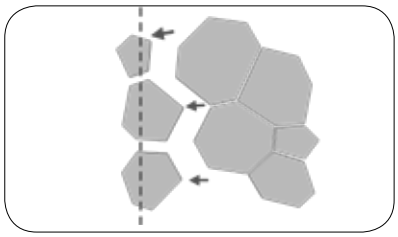
Installation / Instalación / Installation



To achieve a straight cut for the inner angles and corners, mark the straight line on the mesh surface.

Para conseguir el corte recto para los ángulos internos y las esquinas marcar la línea recta en la superficie de la malla.

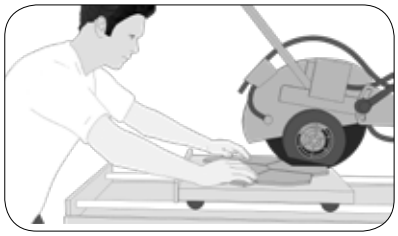
Pour obtenir une coupe droite pour les angles internes et les coins, marquez la ligne droite sur la surface de la trame.



Remove each piece that needs to be cut.

Quitar cada pieza que se tiene que cortar.

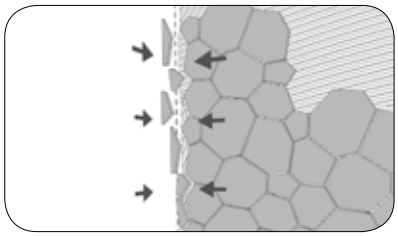
Enlever chaque pièce qui doit être découpée.



Cut using a diamond water jet cutting saw (do not cut more than two meshes at the same time.)

Cortar usando una sierra de diamante al corte de agua (no cortar más de dos mallas a la vez).

Les couper avec une scie à chaîne diamantée de découpe à l'eau (ne coupez pas plus de deux trames en même temps).



Glue the cut pieces to the mesh.

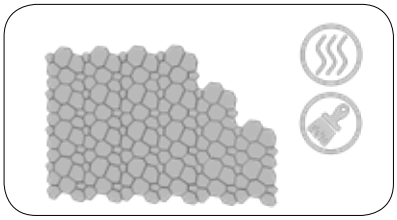
Pegar las piezas cortadas a la malla.

Coller les pièces découpées sur la trame.

GROUTING

REJUNTADO

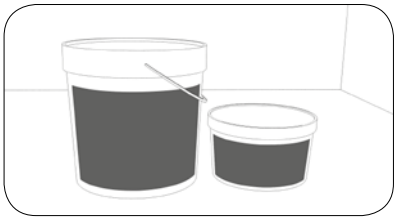
REJOINTOIEMENT



Perfectly clean pieces, and free from dust residue before grouting.

Piezas perfectamente limpias y sin restos de residuos de polvo antes de proceder al rejuntado.

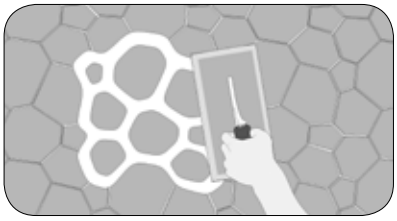
Pièces parfaitement propres et sans poussière avant la phase de réalisation des joints.



We recommend the use of Butech's Epotech.

Se recomienda el uso de Epotech de Butech.

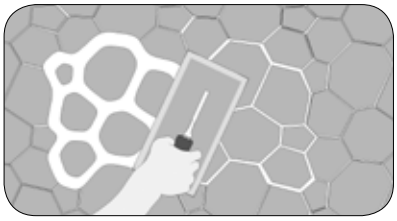
L'utilisation d'Epotech de Butech est recommandée.



Spread the grouting material with a rubber trowel, filling joints well.

Extender el material de rejunte con una llana de goma rellenando bien las juntas.

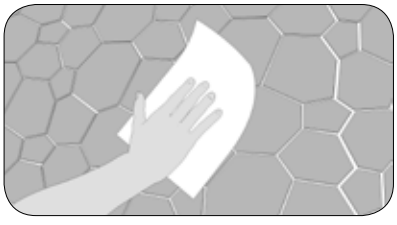
Étaler le matériel avec une truelle en caoutchouc en remplissant bien les joints.



Use the same trowel to remove excess grout.

Utilizar la misma llana para eliminar el exceso.

Utiliser la même truelle pour éliminer le produit excédant.



Before the grouting material dries, remove its debris with a sponge or cloth.

Antes de que fragüe el material de rejunte, retirar los restos con una esponja o trapo.

Avant la prise du matériel, retirer les restes à l'aide d'une éponge ou d'un chiffon.

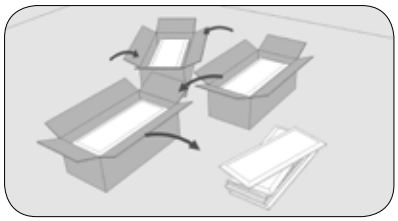
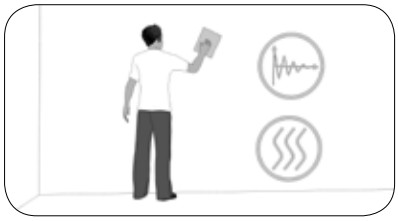
GLASS TILES



Mix pieces from different boxes to achieve a uniform look.

Mezclar piezas de varias cajas diferentes para conseguir un efecto estético homogéneo.

Mélanger les pièces de plusieurs boîtes différentes pour obtenir un effet esthétique homogène.



Smooth and solid, clean and dry surface.

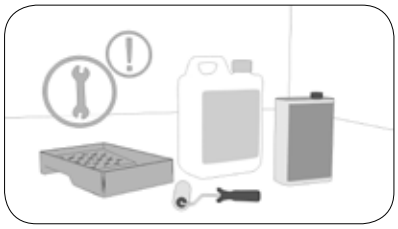
Superficie lisa y consistente, además de seca y limpia.

Surface lisse et consistante ; elle doit aussi être sèche et propre.

Room temperature between 5°C and 30°C.

Temperatura ambiente entre 5ºC y 30°C.

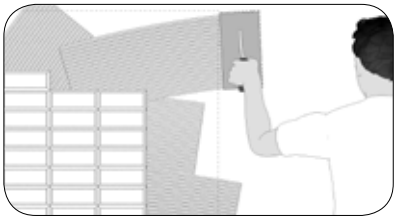
Température ambiante entre 5°C et 30°C.



Prepare the bonding agent following the manufacturer's instructions. Apply the adhesive throughout the installation surface. We recommend One-Flex by Butech.

Preparar el material de agarre siguiendo las instrucciones del fabricante. Aplicar el adhesivo por toda la superficie de colocación. Recomendamos One-Flex de Butech.

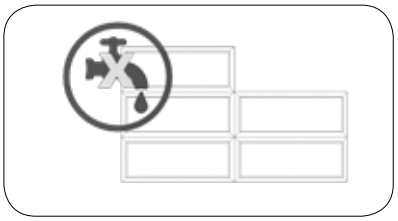
Préparer le matériel de prise selon les instructions du fabricant. Appliquer l'adhésif sur toute la surface de pose. Nous recommandons One-Flex de Butech.



Work in reduced areas in order to prevent it from drying out before installing the material.

Trabajar en zonas de extensión reducida para evitar que se reseque antes de colocar el material.

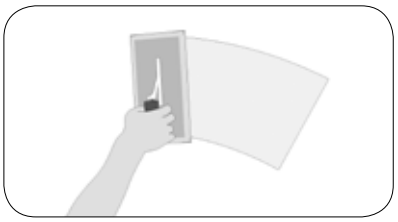
Travailler sur des zones réduites, afin d'éviter qu'il sèche avant la pose du matériel.



Do not wet the pieces before installing.

No mojar las piezas antes de colocarlas.

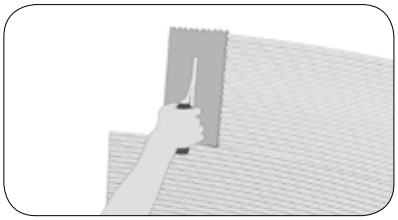
Ne pas mouiller les pièces avant la pose.



Extend the cement-based adhesive evenly on the wall with the flat side of a notched trowel.

Extender el adhesivo cementoso mediante el lado liso de una llana dentada uniformemente sobre el muro.

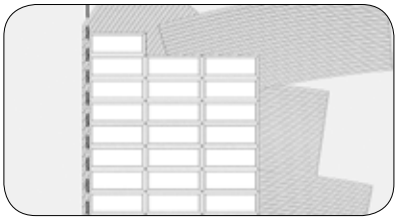
Étaler uniformément l'adhésif cimenteux sur le mur en utilisant le côté lisse d'une truelle à dents.



"Comb" the adhesive with the notched side (minimum notch 3 mm.)

"Peinar" el adhesivo con el lado dentado (mínimo 3mm).

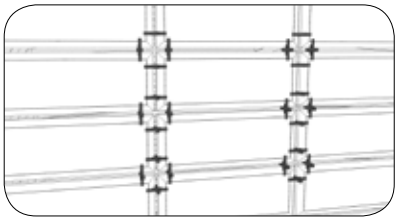
«Brosser» l'adhésif avec la face dentelée (minimum 3mm).



Seal the movement joints.

Señalar las juntas de movimiento.

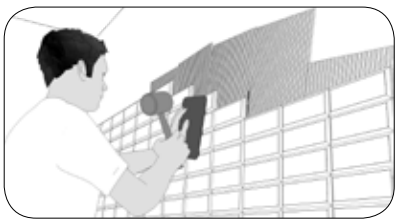
Marquer les joints de mouvement.



Leave the required joint using spacers, pressing and making a slight back and forth movement for greater coverage on the back.

Dejar la junta necesaria, con la ayuda de distanciadores, presionando y ejerciendo un pequeño movimiento de vaivén para una mayor cobertura del dorso.

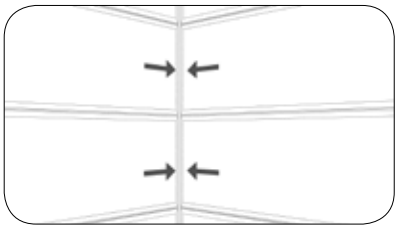
Laisser le joint nécessaire, à l'aide des entretoises, en pressant et en exerçant un petit mouvement d'oscillation pour une plus grande couverture du revers.



Settle the pieces using a rigid and clean rubber plate, and beating on it with a rubber mallet.

Asentar las piezas empleando una plancha de goma rígida y limpia, batiendo sobre la misma con un martillo de goma.

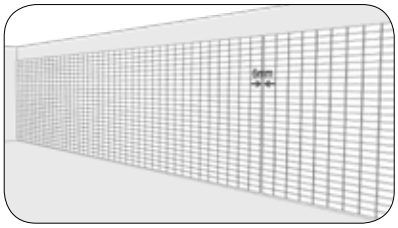
Affaisser les pièces avec une planche en caoutchouc rigide et propre, en battant avec un marteau en caoutchouc.



Take into account the perimeter joints at intersections and level changes.

Tener en cuenta las juntas perimetrales en los encuentros y cambios de plano.

Tenir compte des joints périphériques sur les rencontres et les changements de plan.

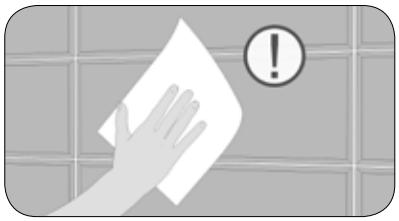


Arrange intermediate joints at least every 8m, with a minimum width of 6mm.

Installation / Instalación / Installation

Disponer juntas intermedias al menos cada 8m, teniendo una anchura mínima de 6mm.

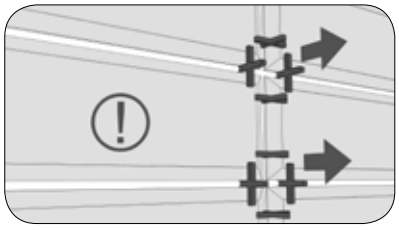
Placer les joints intermédiaires tous les 8m, avec une largeur minimale de 6mm.



Clean excess adhesive that accumulates in the joint spaces when installing the pieces, before it hardens.

Limpiar el exceso de adhesivo que se acumula en los espacios de las juntas antes de que endurezca.

Nettoyer l'excédent d'adhésif qui reste aux espaces des joints avant son durcissement.



Remove the spacers before the adhesive hardens.

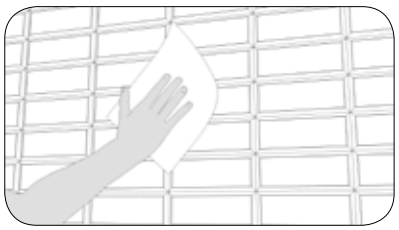
Retirar los distanciadores antes de que se endurezca el adhesivo.

Retirer les entretoises avant le durcissement de l'adhésif.

GROUTING

REJUNTADO

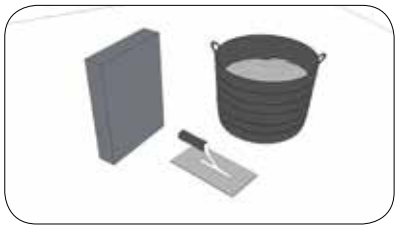
REJOINTOIEMENT



Perfectly clean pieces, and free from dust residue before grouting.

Piezas perfectamente limpias y sin restos de residuos de polvo antes de proceder al rejuntado.

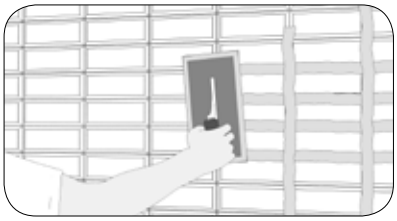
Pièces parfaitement propres et sans poussière avant la phase de réalisation des joints.



We recommend the use of Colorstuk Rapid

Se recomienda el uso de Colorstuk Rapid.

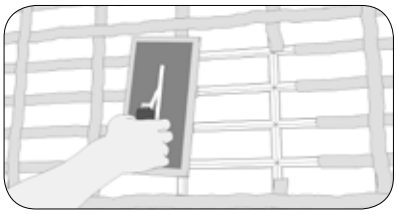
L'utilisation de Colorstuk Rapid est recommandée.



Spread the material with a rubber trowel, filling joints well.

Extender el material con una llana de goma rellenando bien las juntas.

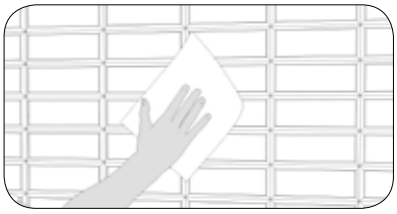
Étaler le matériel avec une truelle en caoutchouc en remplissant bien les joints.



Use the same trowel to remove excess grout.

Utilizar la misma llana para eliminar el exceso.

Utiliser la même truelle pour éliminer le produit excédant.



Before the material dries, remove its remains with a sponge or cloth.

Antes de que fragüe el material, retirar los restos con una esponja o trapo.

Avant la prise du matériel, retirer les excédents à l'aide d'une éponge ou d'un chiffon.

For installations where the material will be in contact with water (directly or indirectly,) we recommend the use of Butech's Epotech Aqua as grouting material.

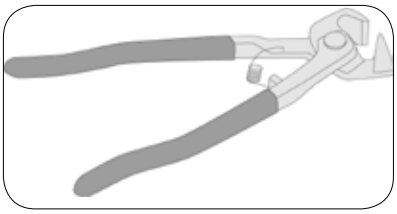
Para instalaciones en las que el material esté en contacto con agua (directa o indirectamente) se recomienda el uso como material de rejunte de Epotech Aqua de Butech.

Pour des installations où le matériel est en contact avec de l'eau (directement ou indirectement), l'utilisation d'Epotech Aqua de Butech pour faire les joints est recommandée.

CUTTING AND DRILLING

CORTE Y PERFORACIÓN

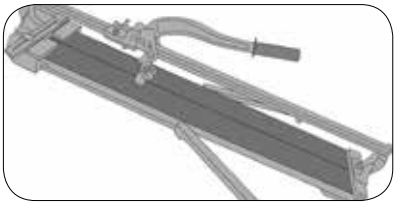
COUPE ET PERCEMENT



For small cuts and blunting, we recommend the Butech pliers for glass.

Para cortes pequeños y despuntados se recomienda las tenazas Butech para vidrio.

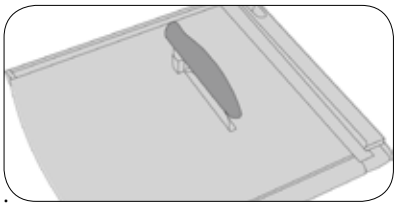
L'utilisation des tenailles Butech pour verre sont recommandés pour effectuer des petites découpes et des épointages.



Dry cuts are carried out with the Sigma machine.

Los cortes en seco se realizan con la maquina Sigma.

Les découpes à sec sont effectuées avec la machine Sigma.



.

Cuts in full pieces shall be carried out with a water-cooled Butech cutting machine with diamond disk.

Los cortes en piezas enteras se realizan con una máquina de corte con disco de diamante Butech refrigerada por agua.

Les découpes en pièces entières sont effectuées avec une coupeuse avec un disque diamanté Butech réfrigérée à l'eau.

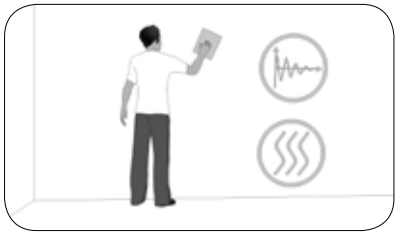
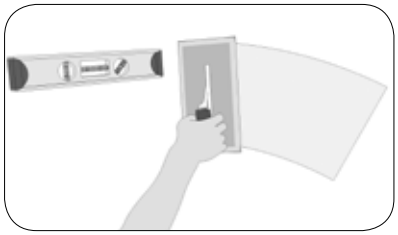
Wall Coverings Art New York



Smooth and solid, clean and dry surface.

Superficie lisa y consistente, además de seca y limpia.

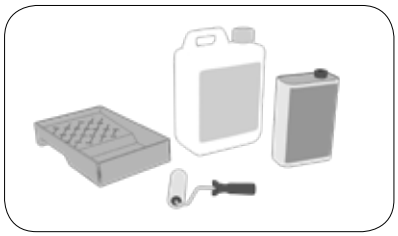
Surface lisse et consistante ; elle doit aussi être sèche et propre.



Level the surface in order to create a white background

Nivelar la superficie para crear un fondo blanco.

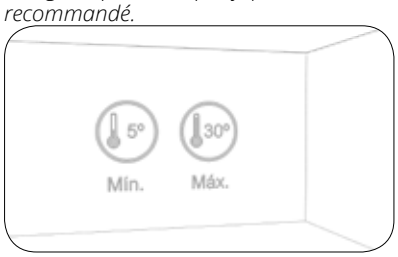
Niveler la surface pour créer un fond blanc.



For levels greater than 2 mm, we recommend the use of specific products.

En nivelados superiores a 2mm se recomienda el uso de productos específicos.

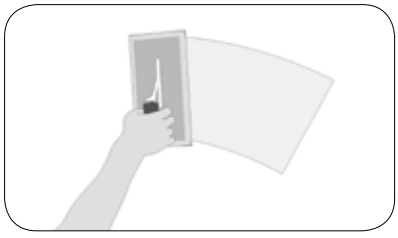
Pour des nivelages supérieurs à 2mm, l'usage de produits spécifiques est recommandé.



Room temperature between 5°C and 30°C

Temperatura ambiente entre 5ºC y 30ºC.

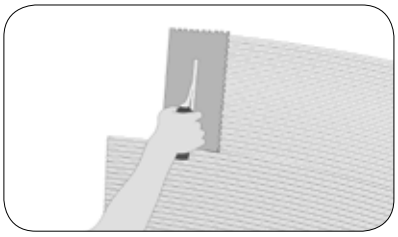
Température ambiante entre 5°C et 30°C.



Extend the cement-based adhesive evenly on the wall with the flat side of a notched trowel. We recommend One-Flex by Butech.

Extender el adhesivo cementoso mediante el lado liso de una llana dentada uniformemente sobre el muro. Recomendamos One-Flex de Butech.

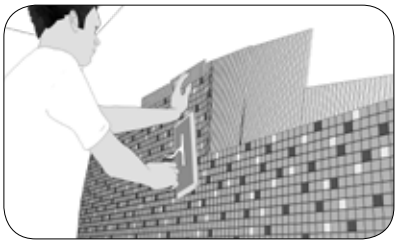
Étaler uniformément l'adhésif cimenteux sur le mur en utilisant le côté lisse d'une truelle à dents. Nous recommandons One-Flex de Butech.



"Comb" the adhesive with the notched side (minimum notch 3 mm.) Do not spread the cement-based adhesive over large areas to prevent it from drying before placing the material.

"Peinar" el adhesivo con el lado dentado (mínimo 3mm). No extender el cemento cola en grandes superficies para evitar que se reseque antes de colocar el material.

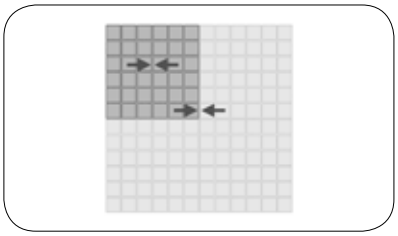
«Brosser» l'adhésif avec la face dentelée (minimum 3mm). Ne pas étaler le ciment-colle sur de grandes surfaces, afin d'éviter qu'il sèche avant la pose du matériel.



Lay the sheet and press it evenly with a rubber trowel.

Colocar la hoja y presionar uniformemente la misma con una llana de goma.

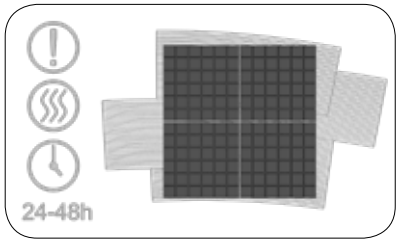
Placer la feuille et la presser uniformément avec une truelle en caoutchouc.



Ensure that the distance between the sheets is the same between pieces.

Asegurarse que la distancia entre hojas sea la misma que hay entre las piezas.

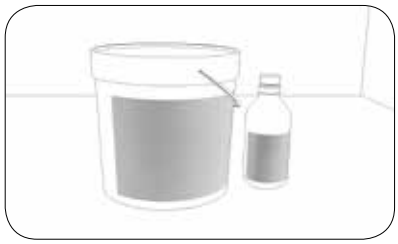
Vérifiez que la distance entre les feuilles et la même que celle entre les pièces.



Let the adhesive dry for at least 24-48h. Before the adhesive dries, remove its remains with a sponge or cloth.

Dejar secar el adhesivo al menos 24-48h. Antes de que fragüe el adhesivo, retirar los restos con una esponja o un trapo.

Laisser l'adhésif sécher pendant au moins 24 à 48h. Avant la prise de l'adhésif, retirer les excédants à l'aide d'une éponge ou d'un chiffon.



GROUTING (applicable only for mosaics with joint)

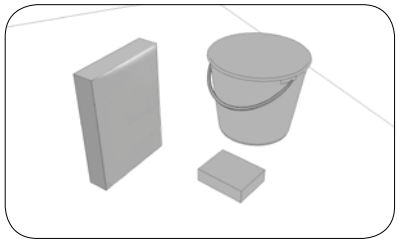
REJUNTADO (aplicable sólo para mosaicos con junta)

REJOINTOIEMENT (applicable uniquement pour les mosaïques posées avec joint)

Perfectly clean pieces, and free from dust residue before grouting.

Piezas perfectamente limpias y sin restos de residuos de polvo antes de proceder al rejuntado.

Pièces parfaitement propres et sans poussière avant la phase de réalisation des joints.

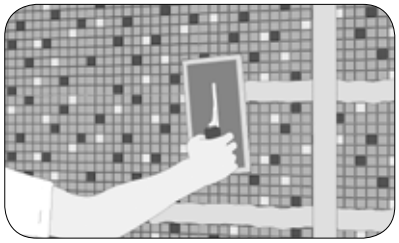


We recommend the use of Butech's Colorstuk Rapid. On the other hand, for polished surfaces, use Colorstuck Special n.

Se recomienda Colorstuk Rapid de Butech. En cambio, para superficies pulidas, usar Colorstuck Special n.

L'utilisation de Colorstuk Rapid de Butech est recommandée. Pour les surfaces poulies, l'utilisation de Colorstuck Special n est recommandée.

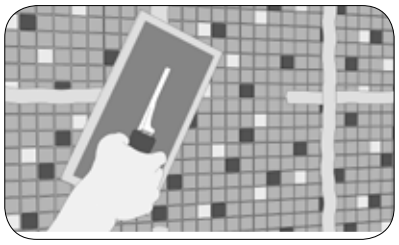
Installation / Instalación / Installation



Spread the material with a rubber trowel, filling joints well.

Extender el material con una llana de goma rellenando bien las juntas.

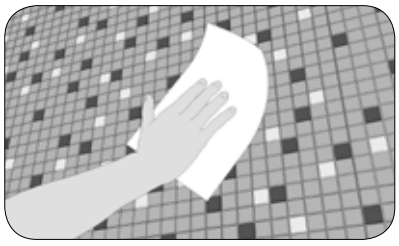
Étaler le matériel avec une truelle en caoutchouc en remplissant bien les joints.



Use the same trowel to remove excess grout.

Utilizar la misma llana para eliminar el exceso.

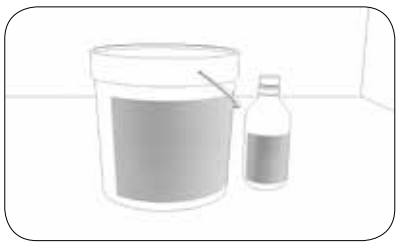
Utiliser la même truelle pour éliminer le produit excédant.



Before the material dries, remove its remains with a sponge or cloth.

Antes de que fragüe el material, retirar los restos con una esponja o trapo.

Avant la prise du matériel, retirer les excédents à l'aide d'une éponge ou d'un chiffon.



For installations where the material is in contact with water (directly or indirectly), seal the grout adhesive with Fila Fob. We recommend the use of Butech's Epotech Aqua as grouting material.

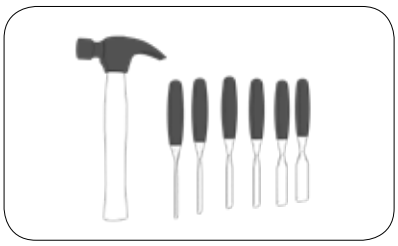
Para instalaciones en las que el material esté en contacto con agua (directa o indirectamente) sellar el adhesivo de rejunte con Fila-Fob. Se recomienda el uso de Epotech Aqua de Butech como material de rejunte.

Pour des installations où le matériel est en contact avec de l'eau (directement ou indirectement), sceller l'adhésif des joints avec Fila Fob. Nous recommandons l'utilisation d'Epotech Aqua de Butech pour faire les joints.

TO BE BORNE IN MIND IN THE CASE OF THE FUSION COLLECTION

ADEMÁS PARA LA COLECCIÓN FUSION HAY QUE TENER CUENTA

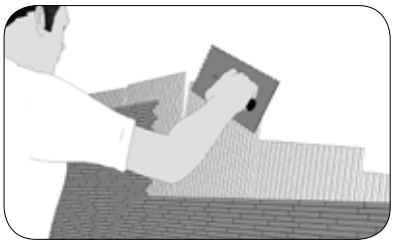
POUR LA COLLECTION, IL FAUT ÉGALEMENT PRENDRE EN COMPTE



Take special care with the use of hard or sharp objects such as installation tools, as some of these pieces may scratch easily due to their metallic nature.

Especial cuidado con el uso de objetos duros o agudos como herramientas de instalación, ya que algunas de sus piezas por su naturaleza metálica podrán rayarse con facilidad.

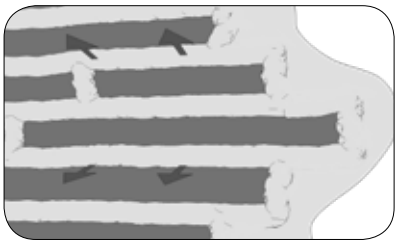
Il faut faire très attention lors de l'utilisation d'objets durs ou aigus, comme les outils d'installation, car certaines pièces métalliques peuvent se rayer facilement.



Maintain verticality so that all the aluminum tiles coincide at the grooves, and apply the adhesive in the opposite direction to the mosaic for a better grip.

Mantener la verticalidad para que todas las teselas de aluminio coincidan en los surcos y aplicar el adhesivo en el sentido contrario al mosaico para un mejor agarre.

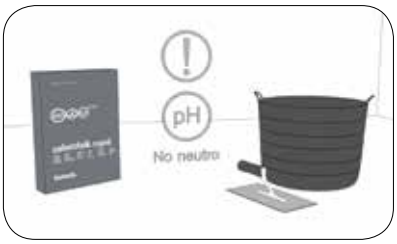
Conserver la verticalité pour que tous les carrelets en aluminium coïncident dans les creux et appliquer l'adhésif dans le sens contraire de la mosaïque pour une meilleure prise.



NOTE: In Fusion 3D mosaics, even though they have a compact composition, there may be adhesive coming out between the tiles if there is more of it than necessary.

NOTA: Los mosaicos Fusión 3D, aun teniendo una composición compacta, puede ser que salga material de agarre entre las teselas si este está en mayor cantidad de la necesaria.

NOTE : Malgré la composition compacte des mosaïques Fusión 3D, le matériel de prise peut sortir entre les carrelets s'il y des quantités excédantes.



Grouting material with a non-neutral PH might react with the metal. Test before applying it on the entire surface, verifying that it does not change its natural color.

El material de rejunte con un PH no neutro puede reaccionar con el metal. Realizar una prueba antes de aplicarlo verificando que no cambia su color natural.

Le matériel pour faire les joints ayant un pH non neutre peut réagir avec le métal. Effectuer un test avant de l'appliquer pour vérifier que la couleur naturelle n'est pas altérée.

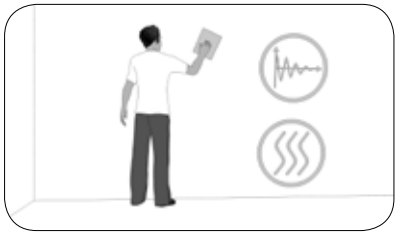
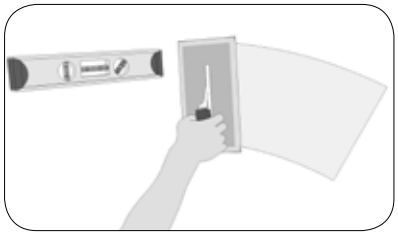
Wall Coverings Air Dots White



Smooth and solida, clean and dry surface.

Superficie lisa y consistente, además de seca y limpia.

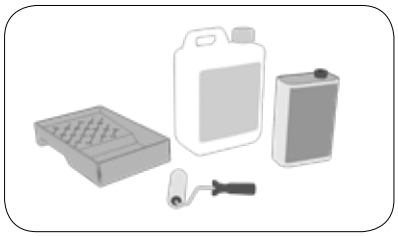
Surface lisse et consistante ; elle doit aussi être sèche et propre.



Level the surface in order to create a white background.

Nivelar la superficie para crear un fondo blanco.

Niveler la surface pour créer un fond blanc.



For levels greater than 2mm, we recommend the use of specific products.

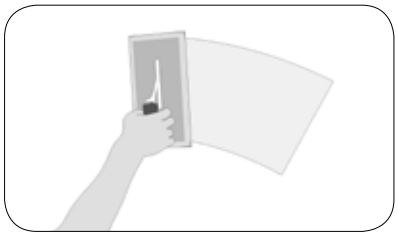
En nivelados superiores a 2mm se recomienda el uso de productos específicos.

Pour des nivelages supérieurs à 2mm, l'usage de produits spécifiques est recommandé.

Room temperature between 5°C and 30°C

Temperatura ambiente entre 5ºC y 30ºC.

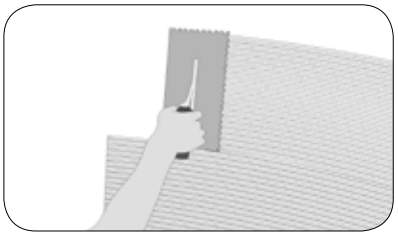
Température ambiante entre 5°C et 30°C.



Extend the cement-based adhesive evenly on the wall with the flat side of a notched trowel. We recommend One-flex by Butech.

Extender el adhesivo cementoso mediante el lado liso de una llana dentada uniformemente sobre el muro. Recomendamos One-flex de Butech.

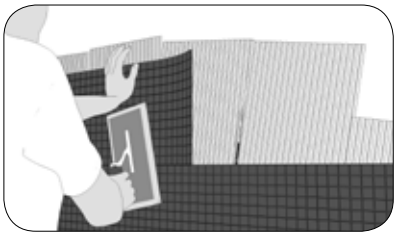
Étaler uniformément l'adhésif cimenteux sur le mur en utilisant le côté lisse d'une truelle à dents. Nous recommandons One-Flex de Butech.



"Comb" the adhesive with the notched side (minimum notch 3mm.) Do not spread the cement-based adhesive over large areas to prevent it from drying before placing the material.

"Peinar" el adhesivo con el lado dentado (mínimo 3mm). No extender el cemento cola en grandes superficies para evitar que se reseque antes de colocar el material.

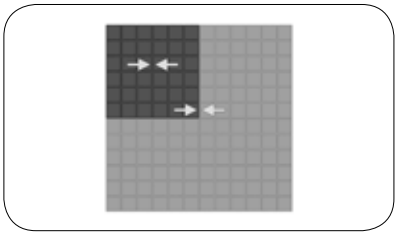
«Brosser» l'adhésif avec la face dentelée (minimum 3mm). Ne pas étaler le ciment-colle sur de grandes surfaces, afin d'éviter qu'il sèche avant la pose du matériel.



Lay the sheet and press evenly with a rubber trowel.

Colocar la hoja y presionar uniformemente con una llana de goma.

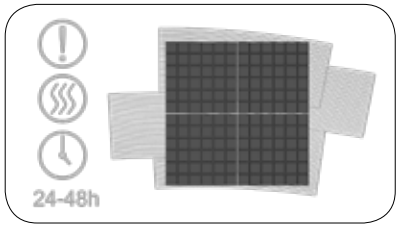
Placer la feuille et presser uniformément avec une truelle en caoutchouc.



Ensure that the distance between the sheets is the same between pieces.

Asegurarse que la distancia entre hojas sea la misma que hay entre las piezas.

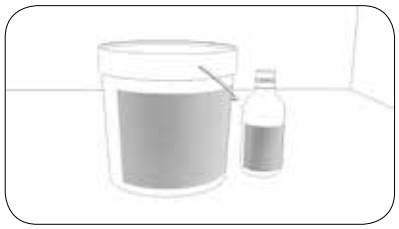
Vérifiez que la distance entre les feuilles et la même que celle entre les pièces.



Let the adhesive dry for at least 24-48h. Before the adhesive dries, remove its remains with a sponge or cloth.

Dejar secar el adhesivo al menos 24-48h. Antes de que fragüe el adhesivo, retirar los restos con una esponja o un trapo.

Laisser l'adhésif sécher pendant au moins 24 à 48h. Avant la prise de l'adhésif, retirer les excédents à l'aide d'une éponge ou d'un chiffon.



GROUTING

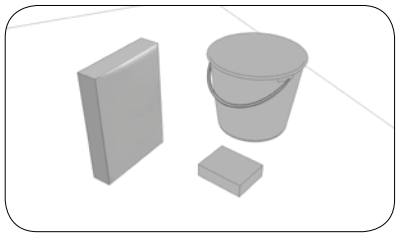
REJUNTADO

REJOINTOIEMENT

Perfectly clean pieces, and free from dust residue before grouting.

Piezas perfectamente limpias y sin restos de residuos de polvo antes de proceder al rejuntado.

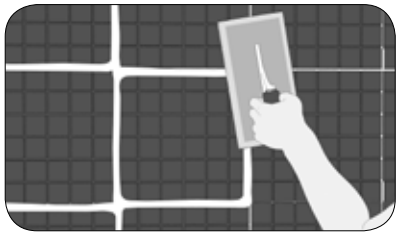
Pièces parfaitement propres et sans poussière avant la phase de réalisation des joints.



We recommend the use of Butech's Colorstuk Rapid. On the other hand, for polished surfaces, use Colorstuck Special n.

Se recomienda Colorstuk Rapid de Butech. En cambio, para superficies pulidas, usar Colorstuck Special n.

L'utilisation de Colorstuk Rapid de Butech est recommandée. Pour les surfaces poulies, l'utilisation de Colorstuck Special n est recommandée.

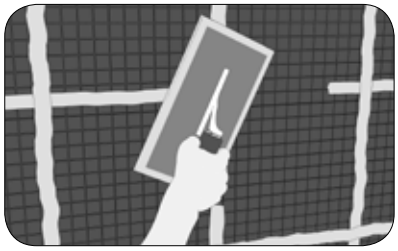


Installation / Instalación / Installation

Spread the material with a rubber trowel, filling joints well.

Extender el material con una llana de goma rellenando bien las juntas.

Étaler le matériel avec une truelle en caoutchouc en remplissant bien les joints.



Use the same trowel to remove excess grout.

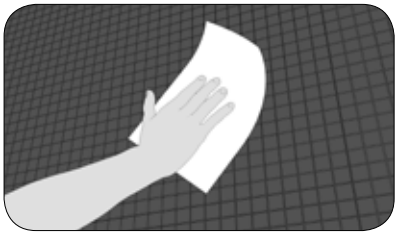
We do not recommend using highly-opposite colors, as it might make cleaning the joint more difficult.

Utilizar la misma llana para eliminar el exceso.

No se recomiendan colores altamente opuestos, ya que puede dificultar la limpieza de la junta.

Utiliser la même truelle pour éliminer le produit excédant.

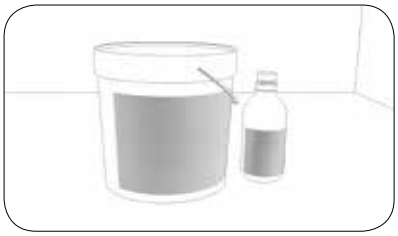
L'utilisation de couleurs très opposées n'est pas recommandée ; le nettoyage des joints peut être plus difficile.



Before the material dries, remove its remains with a sponge or cloth.

Antes de que fragüe el material, retirar los restos con una esponja o trapo.

Avant la prise du matériel, retirer les excédents à l'aide d'une éponge ou d'un chiffon.



For installations where the material will be in contact with water (directly or indirectly,) we recommend Butech's Epotech Aqua as grouting material.

Para instalaciones en las que el material esté en contacto con agua (directa o indirectamente) se recomienda como material de rejunte de Epotech Aqua de Butech.

Pour des installations où le matériel est en contact avec de l'eau (directement ou indirectement), l'utilisation d'Epotech Aqua de Butech pour faire les joints est recommandée.

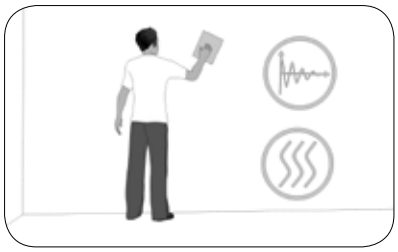
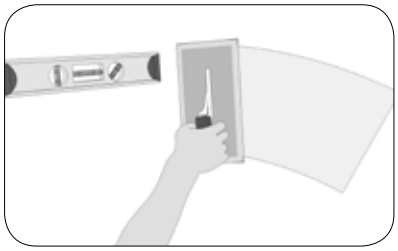
METAL MOSAICS



Smooth and solid, clean and dry surface.

Superficie lisa y consistente, además de seca y limpia.

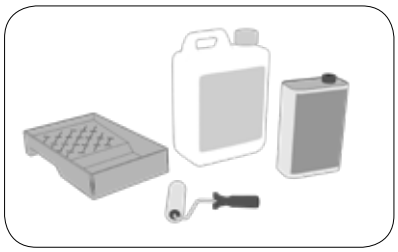
Surface lisse et consistante; elle doit aussi être sèche et propre.



Level the surface in order to create a white background

Nivelar la superficie para crear un fondo blanco.

Niveler la surface pour créer un fond blanc.



For levels greater than 2mm, we recommend the use of specific products.

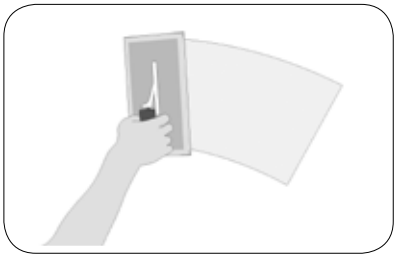
En nivelados superiores a 2mm se recomienda el uso de productos específicos.

Pour des nivelages supérieurs à 2mm, l'usage de produits spécifiques est recommandé.

Room temperature between 5°C and 30°C. Take special care with the use of hard or sharp objects.

Temperatura ambiente entre 5ºC y 30ºC. Especial cuidado con el uso de objetos duros o agudos.

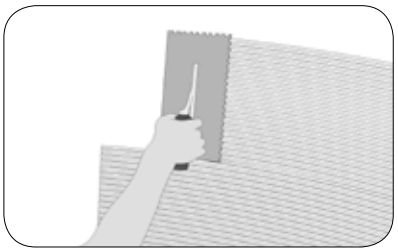
Température ambiante entre 5°C et 30°C. Faites très attention lors de l'utilisation d'objets durs ou aigus.



Extend the cement-based adhesive evenly on the wall with the flat side of a notched trowel. We recommend Butech's One-Flex for ceramic bases, and Butech's Politech for metal or plastic bases.

Extender el adhesivo cementoso mediante el lado liso de una llana dentada uniformemente sobre el muro. Recomendamos One-Flex de Butech para bases cerámicas y Politech de Butech para bases de metal o plástico.

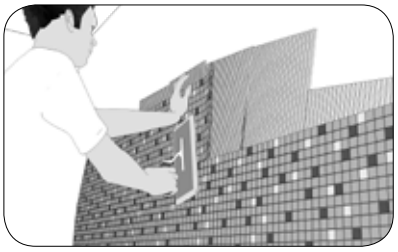
Étaler uniformément l'adhésif cimenteux sur le mur en utilisant le côté lisse d'une truelle à dents. Nous recommandons l'utilisation de One-Flex de Butech pour les bases céramiques et de Politech de Butech pour les bases en métal ou en plastique.



"Comb" the adhesive with the notched side (minimum notch 3mm) Do not spread the cement-based adhesive over large areas to prevent it from drying before placing the material.

"Peinar" el adhesivo con el lado dentado (mínimo 3mm). No extender el cemento cola en grandes superficies para evitar que se reseque antes de colocar el material.

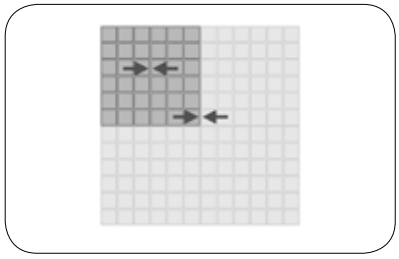
«Brosser» l'adhésif avec la face dentelée (minimum 3mm). Ne pas étaler le ciment-colle sur de grandes surfaces, afin d'éviter qu'il sèche avant la pose du matériel.



Lay the sheet and press evenly with a rubber trowel.

Colocar la hoja y presionar uniformemente con una llana de goma.

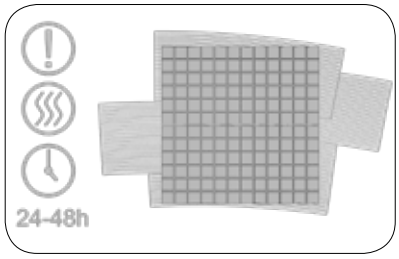
Placer la feuille et presser uniformément avec une truelle en caoutchouc.



Ensure that the distance between the sheets is the same between pieces.

Asegurarse que la distancia entre hojas sea la misma que hay entre las piezas.

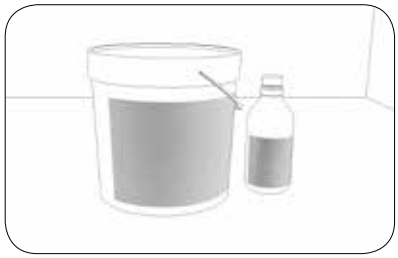
Vérifiez que la distance entre les feuilles et la même que celle entre les pièces.



Let the adhesive dry for at least 24-48h. Before the adhesive dries, remove its remains with a sponge or cloth.

Dejar secar el adhesivo al menos 24-48h. Antes de que fragüe el adhesivo, retirar los restos con una esponja o un trapo.

Laisser l'adhésif sécher pendant au moins 24 à 48h. Avant la prise de l'adhésif, retirer les excédants à l'aide d'une éponge ou d'un chiffon.



GROUTING (applicable only for mosaics with joint)

REJUNTADO (aplicable sólo para mosaicos con junta)

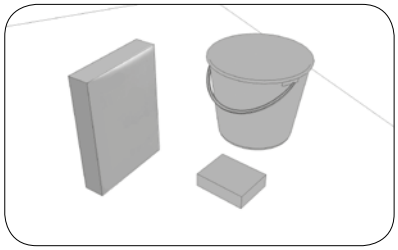
REJOINTOIEMENT (applicable uniquement pour les mosaïques posées avec joint)

Pieces that are perfectly clean and free from dust residue, before grouting.

Piezas perfectamente limpias y sin restos de residuos de polvo antes de proceder al rejuntado.

Pièces parfaitement propres et sans poussière avant la phase de réalisation des joints.

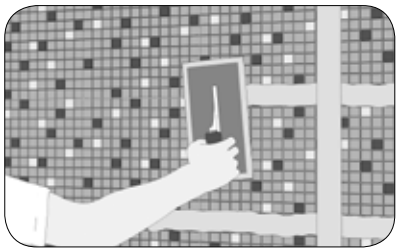
Installation / Instalación / Installation



We recommend Butech's Colorstuk Especial N or Colorstuk de Butech (refer to recommendation for each model).

Se recomienda Colorstuk Especial N o Colorstuk de Butech (consultar la recomendación de cada modelo).

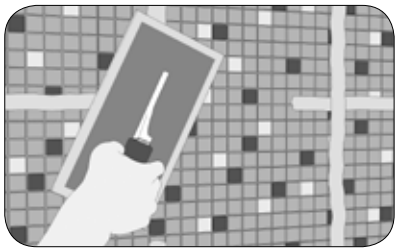
L'utilisation de Colorstuk Especial N ou Colorstuk de Butech est recommandée (consulter les recommandations pour chaque modèle).



Spread the material with a rubber trowel, filling joints well.

Extender el material con una llana de goma rellenando bien las juntas.

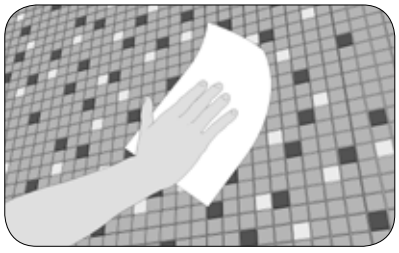
Étaler le matériel avec une truelle en caoutchouc en remplissant bien les joints.



Use the same trowel to remove excess grout.

Utilizar la misma llana para eliminar el exceso.

Utiliser la même truelle pour éliminer le produit excédant.



Before the material dries, remove its remains with a sponge or cloth.

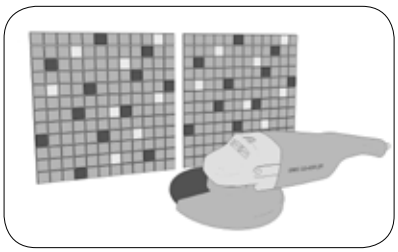
Antes de que fragüe el material, retirar los restos con una esponja o trapo.

Avant la prise du matériel, retirer les excédents à l'aide d'une éponge ou d'un chiffon.

CUTTING

CORTE

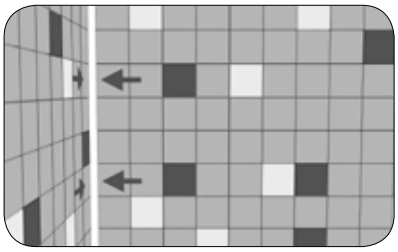
COUPE



Use a circular saw with steel blade.

Utilizar una radial con disco de acero.

Utiliser une radiale avec un disque en acier.



After cutting the mosaic, install the cut side concealed because there will always be dark residue on the pieces we have cut.

Tras cortar el mosaico, colocar la parte cortada oculta ya que siempre quedan restos oscuros sobre las piezas cortadas.

Après la découpe de la mosaïque, placer la partie cachée car il reste toujours des parties foncées sur les pièces coupées.

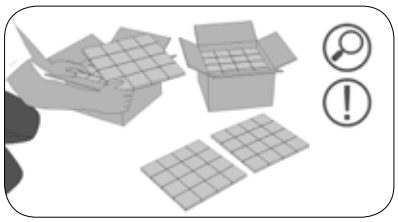
WOOD MOSAICS

CONDITIONS FOR RECEPTIONS AND STORAGE

CONDICIONES DE RECEPCIÓN Y ALMACENAMIENTO

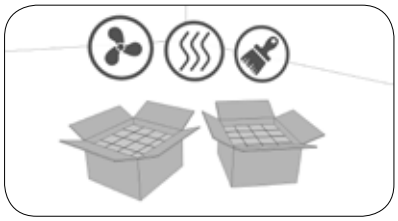
CONDITIONS DE RECEPTION ET STOCKAGE



Check the mosaic batches taking into account the following aspects: type, color, and design; quantity supplied; dimensions and quality class or appearance; moisture content of the elements.

Verificar las partidas del mosaico, teniendo en cuenta: tipo, color y diseño; cantidad suministrada; dimensiones y clase de calidad o aspecto; contenido de humedad de los elementos.

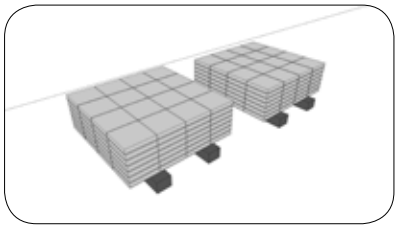
Vérifier les parties de la mosaïque en prenant en considération la classe, la couleur et le dessin ; la quantité fournie ; les dimensions et le type de qualité ou d'aspect ; la teneur en humidité des éléments.



Store sheltered from the elements, in a ventilated, clean, and dry room.

Almacenar al abrigo de la intemperie, en local ventilado, limpio y seco.

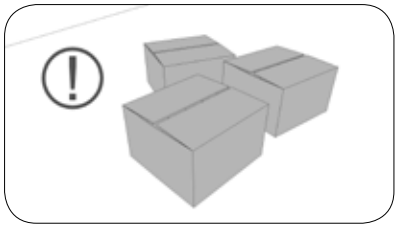
Stocker à l'abri des intempéries, dans une pièce aérée, propre et sèche.



Stack leaving spaces between the wood, the floor, and the walls.

Apilar dejando espacios libres entre la madera, el suelo y las paredes.

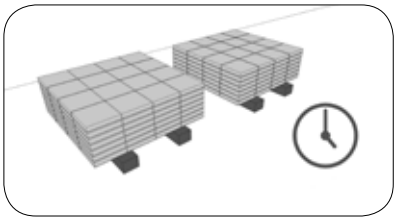
Empiler en laissant des espaces vides entre le bois, le sol et les murs.



Keep in its package until use if it is wrapped in shrink plastic.

Mantener en sus paquetes hasta su uso en caso de que estén envueltos en plástico retráctil.

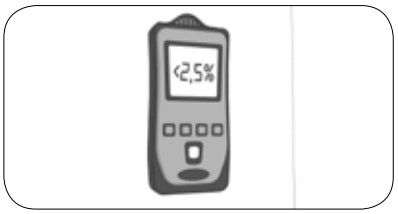
Les garder dans les paquets jusqu'à leur usage si elles sont enveloppées dans du plastique rétractile.



Keep the mosaic unpacked from cardboard and plastic for 72-120h at the place where it will be installed, in order to facilitate the adjustment of the wood to the site's temperature and humidity conditions.

Mantener el mosaico 72-120h desembalado de cartón y plástico en el lugar de instalación para facilitar la adaptación de la madera a las condiciones de temperatura y humedad del sitio.

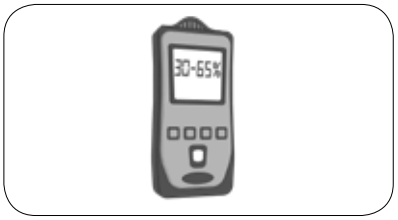
Maintenir la mosaïque 72 à 120h déballée du carton et du plastique au lieu où sera réalisée l'installation pour que le bois s'adapte aux conditions de température et d'humidité présentes.



Moisture content under 2.5% for wall and ceiling materials of the premises where the mosaic is to be installed, except for plasters and paints, which can have up to 5%.

Humedad inferior al 2,5% en los materiales de paredes y techos del recinto donde se instale el mosaico, salvo los yesos y pinturas que podrán alcanzar el 5%.

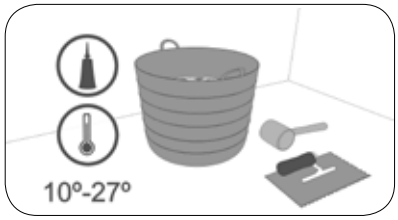
Humidité inférieure à 2,5% pour les matériaux des murs et des plafonds de la pièce où sera installée la mosaïque, sauf les plâtres et les peintures, qui peuvent atteindre 5% d'humidité.



Room hydrothermal conditions shall be between 30% and 65%.

Condiciones higrotérmicas del local entre el 30 y el 65%.

Conditions hygrothermiques de la pièce : entre 30 et 65%.



Do not carry out bonding or finishing works below 10°C or above 27°C.

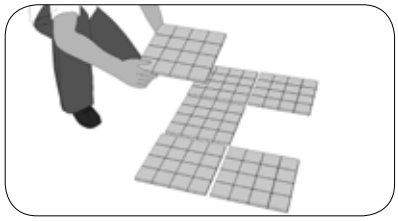
No realizar trabajos de encolado o de acabado por debajo de 10ºC, ni por encima de 27ºC.

Ne pas effectuer des travaux de collage ou de finition à une température inférieure à 10°C ou supérieure à 27°C.

INSTALLATION

COLOCACIÓN

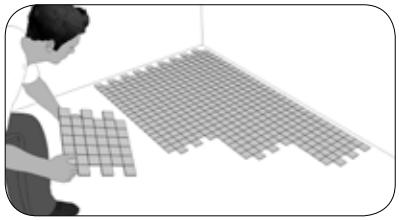
POSE



Mix different hues of the mosaics on the floor before installing them on the wall to achieve a well-balanced finish.

Mezclar en el suelo las diferentes tonalidades de los mosaicos antes de colocarlos en la pared para conseguir un acabado armónico.

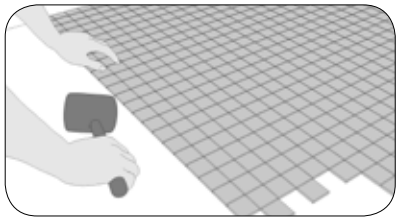
Mélanger sur le sol les différents tons des mosaïques avant de les placer sur le mur pour une finition harmonique.



With the Brick, before installing them, extend the material on the floor and start fitting pieces together.

En los Brick, antes de instalarlos, extender el material en el suelo e ir encajando las piezas.

Avant l'installation des Bricks, étaler le matériel sur le sol et emboîter les pièces.



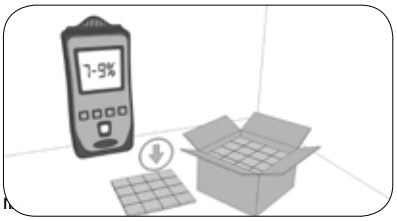
Use a rubber mallet to gently tap the material on the side of the piece, facilitating the fastening of the Bricks.

Usar una maceta de goma para golpear el material de forma suave

Installation / Instalación / Installation

en el lateral de la pieza, facilitando el anclaje de los Brick.

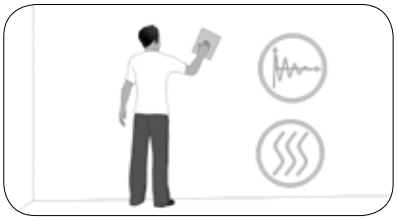
Utiliser un pot en caoutchouc pour marteler doucement la partie latérale de la pièce et faciliter ainsi l'ancrage des Bricks.



We recommend that the moisture of the mosaics be between 7% and 9%.

Se recomienda que la humedad de los mosaicos esté entre el 7 y el 9%.

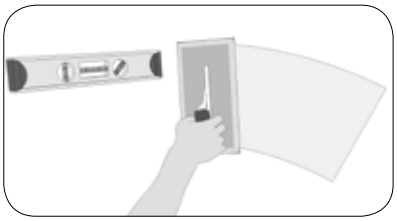
Les mosaïques doivent avoir une humidité de 7 à 9%.



The substrate or base shall be compact throughout its thickness and surface, eliminating friable parts or those that become detached easily; it shall be completely dry, clean from dust, grease, or any other substance.

Soporte o fondo de colocación compacto en todo su espesor y superficie, eliminando las partes que puedan desprenderse, seco, limpio de polvo, grasas o de cualquier otra sustancia.

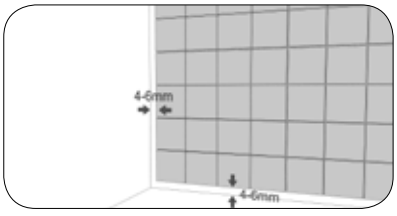
Le support ou fond de pose doit être compact sur toute la grosseur et la surface, sec, sans poussière, graisse ou toute autre substance. Éliminer les parties qui peuvent se détacher.



Check that the substrate is vertically aligned, properly leveled, and without defects in its flatness larger than 2mm.

Verificar que el soporte esté aplomado, nivelado y sin defectos en su planimetría superiores a 2mm.

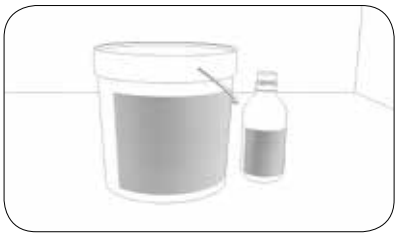
Vérifier que le support est plombé, nivelé et sans défauts de planimétrie supérieurs à 2 mm.



4 to 6mm perimeter joint. This joint can be filled in with flexible materials.

Junta perimetral de entre 4 y 6mm. Esta junta puede rellenarse con materiales flexibles.

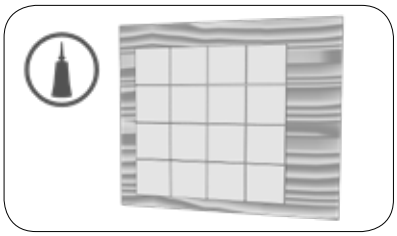
Joint périphérique de 4 à 6mm. Ce joint peut être rempli avec des matériaux flexibles.



We recommend Butech's Politech.

Se recomienda Politech de Butech.

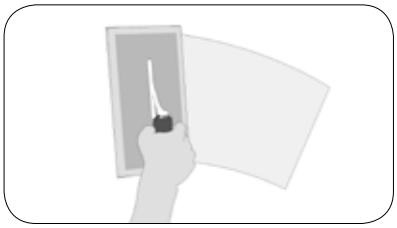
L'utilisation de Politech de Butech est recommandée.



In order to install the mosaics on wood surfaces, we just need to apply the mosaics with white glue or wood glue.

Para instalar los mosaicos sobre madera es suficiente aplicar con cola blanca o para madera.

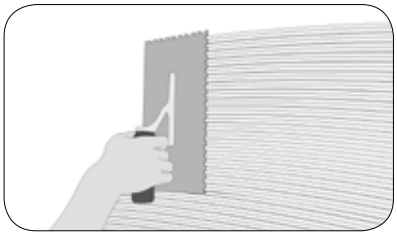
Pour la pose des mosaïques sur le bois, il suffit de les appliquer avec de la colle blanche ou pour bois.



Spread the adhesive by pressing it on the substrate with the smooth side of the trowel.

Extender el adhesivo presionando sobre el soporte por la parte lisa de la llana.

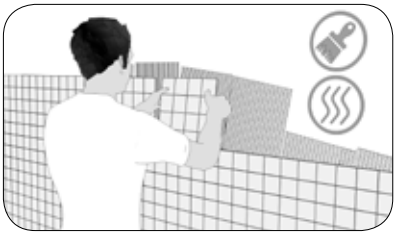
Étaler l'adhésif en pressant sur le support par la partie lisse de la truelle.



"Comb" it, using the notched side.

"Peinar" mediante la parte dentada.

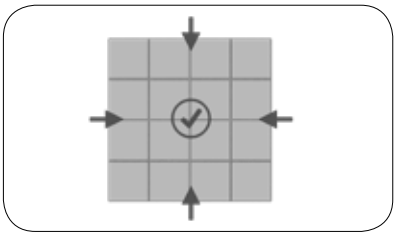
Le «brosser» avec la partie dentée.



Check that the mosaic is clean, without residues or work remains, before the adhesive has formed a surface film.

Verificar que el mosaico esté limpio, sin residuos ni restos de obra, antes de que el adhesivo haya formado una película superficial.

Vérifier que la mosaïque est propre, sans déchets ni excédants des travaux avant que l'adhésif forme un film superficiel.



The hygroscopic characteristic of wood causes dimensional variations that are considered normal. The decrease in width of the pieces originates the appearance of joints between mosaic elements.

El carácter higroscópico de la madera produce variaciones dimensionales que se consideran como normales. La merma de las piezas en anchura produce la manifestación de las juntas entre los elementos del mosaico.

Le caractère hygroscopique du bois produit des variations des dimensions qui sont considérées normales. L'amoindrissement des pièces en largeur provoque l'apparition des joints entre les éléments de la mosaïque.

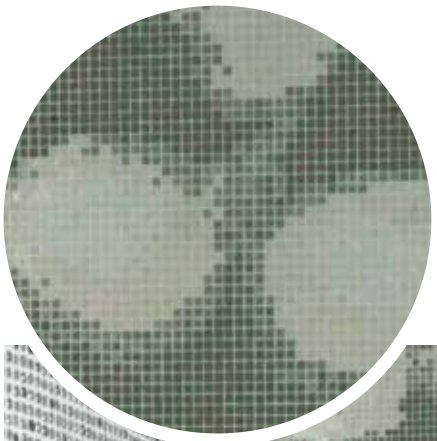
Wall Coverings Customized Mosaic

PORCELANOSA

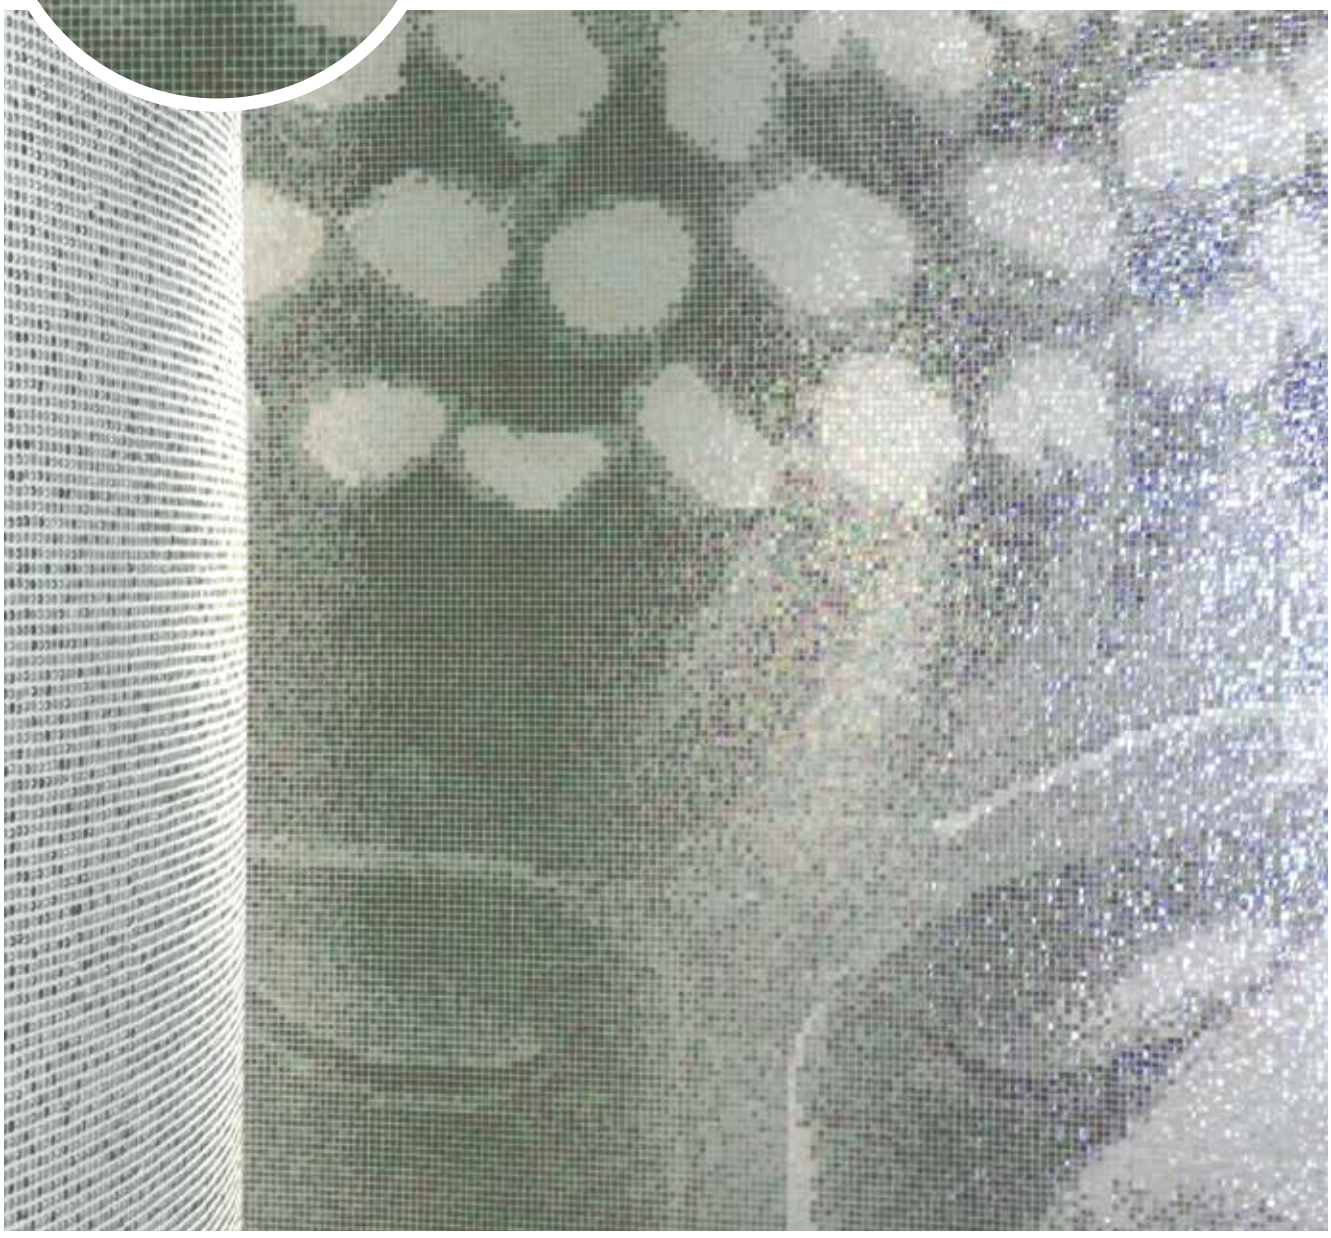
Customized Mosaics / Mosaicos Personalizados / Mosaïques Personnalisées



NORMAL PRECISION SYSTEM
Customized mosaics with an image made up of uncut square mosaic chips. A high-definition end result is not required. These mosaics are classified into 3 groups, depending on how hard it is to recreate the drawing with mosaic chips.

SISTEMA PRECISIÓN NORMAL
Mosaico personalizado en el que la imagen está formada por teselas cuadradas sin cortar y en el que no prima la definición de la misma. Se clasifican en tres grupos dependiendo de la dificultad en recrear el dibujo con las teselas.

SYSTÈME PRÉCISION NORMALE
Mosaïque personnalisée dans laquelle l'image est composée par des tesselles carrées non coupées et pour laquelle la dénition de l'image n'est pas primordiale. Elle se classe en trois groupes en fonction de la difculté de créer le dessin avec les tesselles.



G-291*

*NOTE: The price groups are intended for guidance only and may vary depending on the size of the mosaic.
Depending on the details of the drawing or photo, the measurements requested for the mosaic may vary, adapting to the size requirements so that the whole drawing or photo is visible. The smaller the size of the mosaic, the more difficult it is to adapt the drawing to the size.

NOTA: Los grupos de precio son orientativos; dependiendo del tamaño del mosaico a realizar estos pueden variar.
En función del detalle del dibujo o foto, las medidas solicitadas para el mosaico pueden variar ajustándose a la necesidad de tamaño para que se aprecie todo el dibujo o foto. Cuanto menores sean las medidas del mosaico solicitado, mayor dificultad para ajustar el dibujo de las mismas.

**REMARQUES: Les gammes de prix sont données à titre indicatif ; les prix peuvent varier en fonction de la taille de la mosaïque à réaliser.*
En fonction du détail du dessin ou de l'image, les mesures demandées pour la mosaïque peuvent varier afin de s'adapter aux besoins, en termes de dimensions, pour que l'ensemble du dessin ou de l'image soit visible. Plus les mesures de la mosaïque souhaitée seront réduites, plus il sera difficile d'y adapter le dessin.

Customized Mosaics / Mosaicos Personalizados / Mosaïques Personnalisées

HIGH PRECISION SYSTEM

Customized mosaics made up of chips that can be cut and arranged in different shapes to achieve high-definition end results. These mosaics are classified into 3 groups, depending on how complex it is to cut the mosaic chips.

SISTEMA PRECISIÓN ALTA

Mosaico personalizado en el que las teselas que lo forman se pueden cortar y disponer en diferentes formas para conseguir una gran definición. Se dividen en tres categorías dependiendo del nivel de dificultad en los cortes de las teselas.

SYSTÈME HAUTE PRÉCISION

Mosaïque personnalisée dans laquelle les tesselles qui composent l'image peuvent être coupées et disposées de différentes manières pour obtenir une grande dénition. Elle se classe en trois catégories en fonction du niveau de difculté de coupe des tesselles.

G-299*

*NOTE: The price groups are intended for guidance only and may vary depending on the size of the mosaic.
Depending on the details of the drawing or photo, the measurements requested for the mosaic may vary, adapting to the size requirements so that the whole drawing or photo is visible. The smaller the size of the mosaic, the more difficult it is to adapt the drawing to the size.

Ceramic Tiles

All L'Antic Colonial ceramic collections may be subject to variations in shade. The colour of the material supplied may differ slightly from that shown.
Our website (http://anticcolonial.com/en/ceramic/) contains further information in respect of our ceramic products, such as installation guides and videos, technical specifications, details on textures or recommendations for use.

Todas las colecciones cerámicas de L'Antic Colonial pueden sufrir variaciones de tono. El color del material servido puede no ser exactamente igual al de la muestra.
En nuestra página web (http://anticcolonial.com/ceramica/) encontrará información adicional de nuestra cerámica como guías y vídeos de instalación, fichas técnicas, texturas o recomendaciones de uso.

Toutes les collections de céramique de L'Antic Colonial peuvent subir des variations de tonalité. La couleur du matériau fourni peut être légèrement différente de celle de l'échantillon.
Sur notre site Internet (http://anticcolonial.com/fr/ceramique/), vous trouverez des informations supplémentaires sur notre céramique: manuels et vidéos d'installations, fiches techniques, textures ou recommandations d'utilisation.

04 Symbols / Descripción de Iconos / Description des Icones

-

IRREGULAR TEXTURE
Material that stands out for having an asymmetrical surface.

TEXTURA IRREGULAR
Material que destaca por tener una superficie asimétrica.

TEXTURE IRRÉGULIÈRE
Matériau qui se distingue par sa surface asymétrique.

GLOSS
Material with surface with the ability to produce reflections.

BRILLO
Material cuya superficie tiene la capacidad de producir reflejos.

ÉCLAT
Matériau dont la surface est en mesure de produire des reflets.

MATT
Material with a gloss-free surface.

MATE
Material cuya superficie carece de brillo.

MAT
Matériau dont la surface n'est pas brillante.

INDOOR WALL COVERING
Material suitable for use on indoor walls.

REVESTIMIENTO INTERIOR
Material apto para su uso en paredes de interior.

REVÊTEMENT INTÉRIEUR
Matériau qui convient aux murs d'intérieur.

SHOWER WALL COVERING
Material suitable for use on shower walls.

REVESTIMIENTO DUCHAS
Material apto para su uso en paredes de ducha.

REVÊTEMENT DOUCHES
Matériau qui convient aux murs de douches.

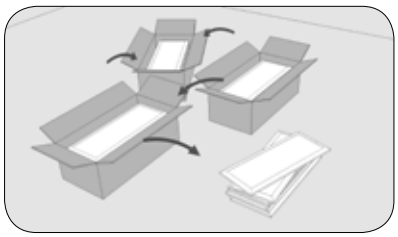
1. RECEPTION OF MATERIAL

1. RECEPCIÓN DEL MATERIAL

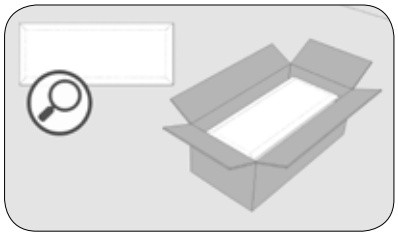
1. RÉCEPTION DU MATÉRIAU



Mix pieces from different boxes to achieve a uniform look.

Mezclar piezas de cajas diferentes para conseguir un efecto estético homogéneo.

Mélanger les pièces de boîtes différentes pour une esthétique homogène.



Open and check each box before installation. In order for a tile defect claim to be valid, it must be detected before installation.

Abrir y revisar cada caja antes de su colocación. Para que una reclamación sea procedente por defecto de la baldosa se debe detectar antes de su instalación.

Ouvrir et réviser chaque boîte avant la pose. Pour qu'une réclamation soit jugée fondée à cause d'un défaut du carreau, il faut le détecter avant la pose.

2. INSTALLATION SURFACE

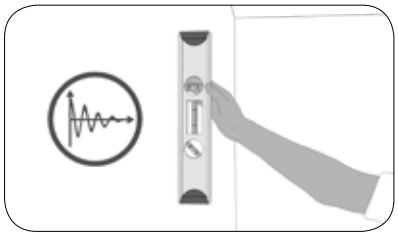
2. SUPERFICIE DE COLOCACIÓN

2. SURFACE DE POSE MATÉRIAU

Completely clean and dry before starting.

Completamente limpia y seca antes de comenzar.

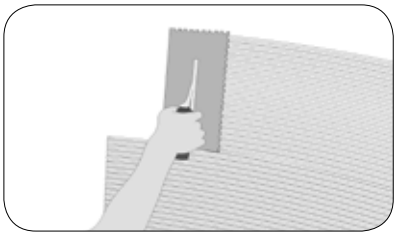
La surface doit être complètement propre et sèche avant d'initier l'installation.



It shall be flat and stable.

Debe ser plana y estable.

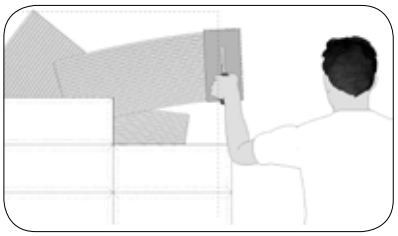
Elle doit être plate et stable.



Apply the adhesive throughout the installation surface (in case of double bonding, also on the back of the pieces). We recommend One-Flex by Butech.

Aplicar el adhesivo por toda la superficie de colocación (en caso de doble encolado también al dorso de las piezas). Se recomienda One-Flex de Butech.

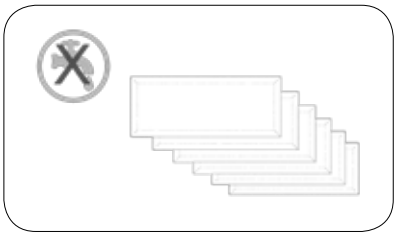
Appliquer l'adhésif sur toute la surface de pose (en cas de double collage, il faut aussi l'appliquer sur le revers des pièces). Nous recommandons l'utilisation de One-Flex de Butech.



Work in reduced areas.

Trabajar en zonas de extensión reducida.

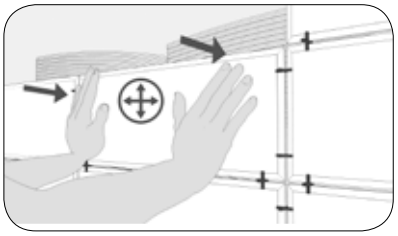
Travailler sur des zones réduites.



Do not wet the pieces before installing.

No mojar las piezas antes de colocarlas.

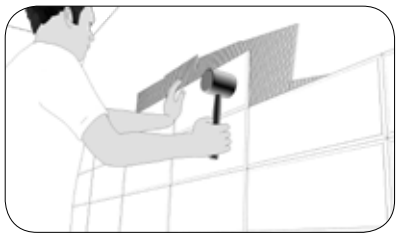
Ne pas mouiller les pièces avant la pose.



Leave the required joint using spacers, pressing and making a slight back and forth movement for greater coverage on the back.

Dejar la junta necesaria, con distanciadores, presionando y ejerciendo un pequeño movimiento de vaivén para una mayor cobertura del dorso.

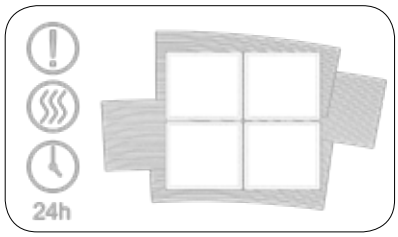
Laisser le joint nécessaire, à l'aide d'entretoises, en pressant et en exerçant un petit mouvement d'oscillation pour une plus grande couverture du revers.



Carry out the settling of the pieces using a rigid and clean rubber plate, and beating on it with a rubber mallet.

Realizar el asentamiento de las piezas con una plancha de goma rígida y limpia, batiendo con un martillo de goma.

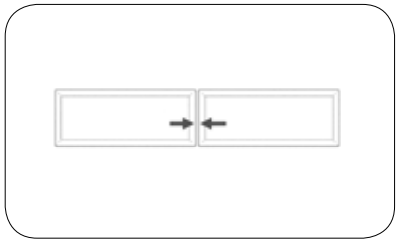
Affaisser les pièces avec une planche en caoutchouc rigide et propre, en les martelant avec un marteau en caoutchouc.



Let the adhesive dry for at least 24-48h. Before the adhesive dries, remove its remains with a sponge or cloth.

Dejar secar el adhesivo al menos 24-48h. Antes de que fragüe el adhesivo, retirar los restos con una esponja o un trapo.

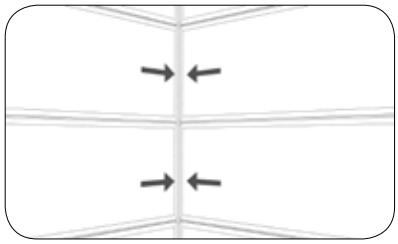
Laisser l'adhésif sécher pendant au moins 24 à 48h. Avant la prise de l'adhésif, retirer les excédents à l'aide d'une éponge ou d'un chiffon.



Minimum joint of 2mm.

Junta mínima de 2mm.

Joint d'un minimum de 2mm.



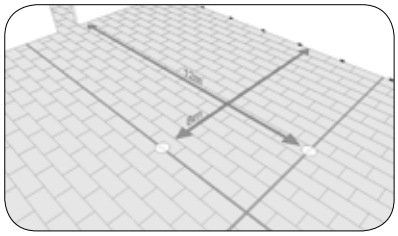
Take into account the perimeter joints at intersections and level

Installation / Instalación / Installation

changes.

Tener en cuenta juntas perimetrales en los encuentros y cambios de plano.

Tenir compte des joints périphériques sur les rencontres et les changements de plan.



Intermediate joints every 8m, with a minimum width of 6mm.

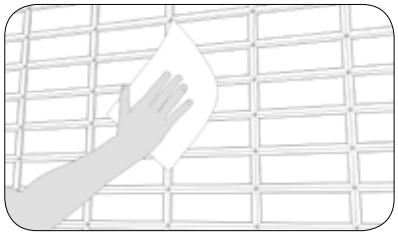
Juntas intermedias cada 8m, teniendo una anchura mínima de 6mm.

Joints intermédiaires tous les 8m, avec une largeur minimale de 6mm.

GROUTING (applicable only ceramic tile with joint)

REJUNTADO (aplicable sólo cerámica con junta)

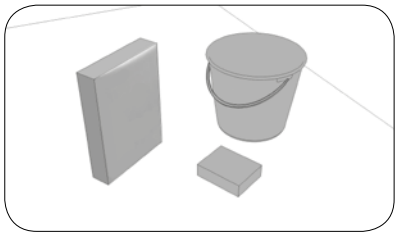
REJOINTOIEMENT (applicable uniquement céramique avec joint)



Perfectly clean pieces, and free from dust residue before grouting.

Piezas perfectamente limpias y sin restos de residuos de polvo antes de proceder al rejuntado.

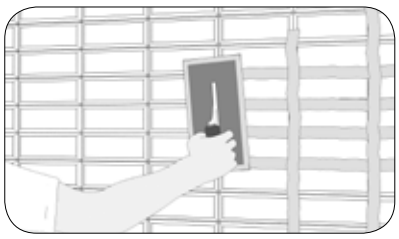
Pièces parfaitement propres et sans poussière avant la phase de réalisation des joints.



We recommend Butech's Colorstuk.

Se recomienda Colorstuk de Butech.

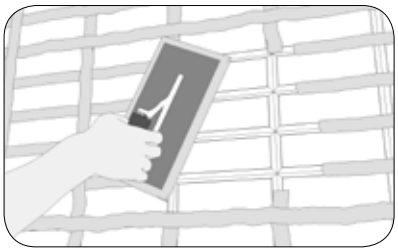
L'utilisation de Colorstuk de Butech est recommandée.



Spread the material with a rubber trowel, filling joints well.

Extender el material con una llana de goma rellenando bien las juntas.

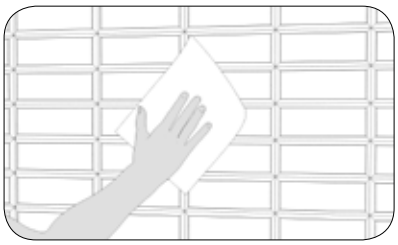
Étaler le matériel avec une truelle en caoutchouc en remplissant bien les joints.



Use the same trowel to remove excess grout.

Utilizar la misma llana para eliminar el exceso.

Utiliser la même truelle pour éliminer le produit excédant.



Before the material dries, remove its remains with a sponge or cloth.

Antes de que fragüe el material, retirar los restos con una esponja o trapo.

Avant la prise du matériel, retirer les excédents à l'aide d'une éponge ou d'un chiffon.

Natural Wood

All L'Antic Colonial wood products may be subject to variations in shade. The colour of the material supplied may differ slightly from that shown.
Our website (http://anticcolonial.com/en/natural-wood/) contains further information in respect of our parquets, such as installation guides and videos, technical specifications, details on textures and recommendations for use and maintenance.

Todas las maderas de L'Antic Colonial son productos naturales que pueden sufrir variaciones de tono. El color del material servido puede no ser exactamente igual al de la muestra.
En nuestra página web (http://anticcolonial.com/madera-natural/) encontrará información adicional de nuestros parquets como guías y vídeos de instalación, fichas técnicas, consejos para su mantenimiento, texturas o recomendaciones de uso.

Tous les bois de L'Antic Colonial sont des produits naturels qui peuvent subir des variations de tonalité. La couleur du matériau fourni peut être légèrement différente de celle de l'échantillon.
Sur notre site Internet (http://anticcolonial.com/fr/bois-naturel/), vous trouverez des informations supplémentaires sur nos parquets: manuels et vidéos d'installations, conseils pour l'entretien, textures ou recommandations d'utilisation.

Floor Coverings Downtown Clear / **Stairs** Mini Eden 1L Natural, Mamperlan Mini Eden Natural

REMEMBER

All natural products are perfectly imperfect. The differences found between pieces make each piece unique and unrepeatable. This feature is NOT A PRODUCT DEFECT but an inherent part of the beauty of the product.

If we are able to convey an understanding of the features of our products, we are sure that we will be able to meet all your expectations as regards quality and beauty. This is why it is essential that you are aware that you are buying a natural product, the characteristics of which may, on occasions, include:

1.- Knots filled with wood putty

The grain and knots of natural wood parquet are one of the principal features making each board unique, and forming part of the beauty of the product. They are filled with a wood putty as similar as possible to the tone of the wood, or with black wood putty depending on the model. Our catalogue contains further information about the size of the knots and the number that may appear.

2.- Changes in shade

All the natural products vary in shade and in the structure of the piece. The pieces undergo an exhaustive sorting process at L'Antic Colonial and any that do not meet our exacting quality standards are rejected.Possible variations are listed in the technical specifications of the products. If you have chosen one of our products for your project, we suggest you request photos of the panels or a few square metres of sample before making your purchase.

"MAN'S BEST FRIEND ON EARTH IS THE TREE. WHEN WE USE THE TREE RESPECTFULLY AND ECONOMICALLY, WE HAVE ONE OF THE GREATEST RESOURCES ON THE EARTH"

Frank Lloyd Wright

A TENER EN CUENTA

Todos los materiales naturales son perfectamente imperfectos. La variación existente entre piezas hace que cada una de ellas sea única e irrepetible. Esta característica NO ES UN DEFECTO DEL MATERIAL sino una parte inherente de la belleza del producto.

Si somos capaces de trasladarle las características de nuestros productos estamos convencidos que cubriremos sus expectativas en cuanto a calidad y belleza. Por ello es muy importante que entienda que está comprando un producto natural cuyas características incluyen en algunos casos:

1.- Nudos rellenos de masilla

Las vetas y nudos de los parquets de madera natural son una de las principales características que hacen de cada lama un elemento único y que forma parte de la belleza del producto. Éstas se rellenan con una masilla de un color similar al tono de la madera o con masilla negra dependiendo del modelo. En nuestro catálogo encontrará información, tanto del tamaño de los nudos como de la cantidad que pueden aparecer.

2.- Variación de tonalidad

Todos los materiales naturales varían tanto en tono como en la propia estructura de la pieza. Desde L'Antic Colonial se realiza una exhaustiva clasificación mediante la que se eliminan los elementos que no superan nuestros estándares de calidad. En las fichas técnicas de nuestros productos se muestran las posibles variaciones de los mismos. Si ha seleccionado uno de nuestros materiales para su proyecto, le recomendamos que solicite imágenes de paneles o unos metros cuadrados de muestra antes de realizar la compra.

"EL MEJOR AMIGO DEL HOMBRE EN LA TIERRA ES EL ÁRBOL. USARLO CON RESPETO Y MODERACIÓN GARANTIZA UNO DE LOS MEJORES RECURSOS DEL PLANETA"

Frank Lloyd Wright

À NOTER

Tous les matériaux naturels sont parfaitement imparfaits. Les variations existant d'une pièce à l'autre les rendent uniques. Cette caractéristique NE CONSTITUE PAS UN DÉFAUT DU MATÉRIAU, elle fait partie intégrante de la beauté du produit.

Nous sommes convaincus que si nous réussissons à vous transmettre les caractéristiques de nos produits, nous répondrons à vos attentes en termes de qualité et de beauté. C'est la raison pour laquelle nous tenons à vous informer que vous achetez un produit naturel dont les particularités incluent parfois:

1.- Des noeuds remplis d'enduit

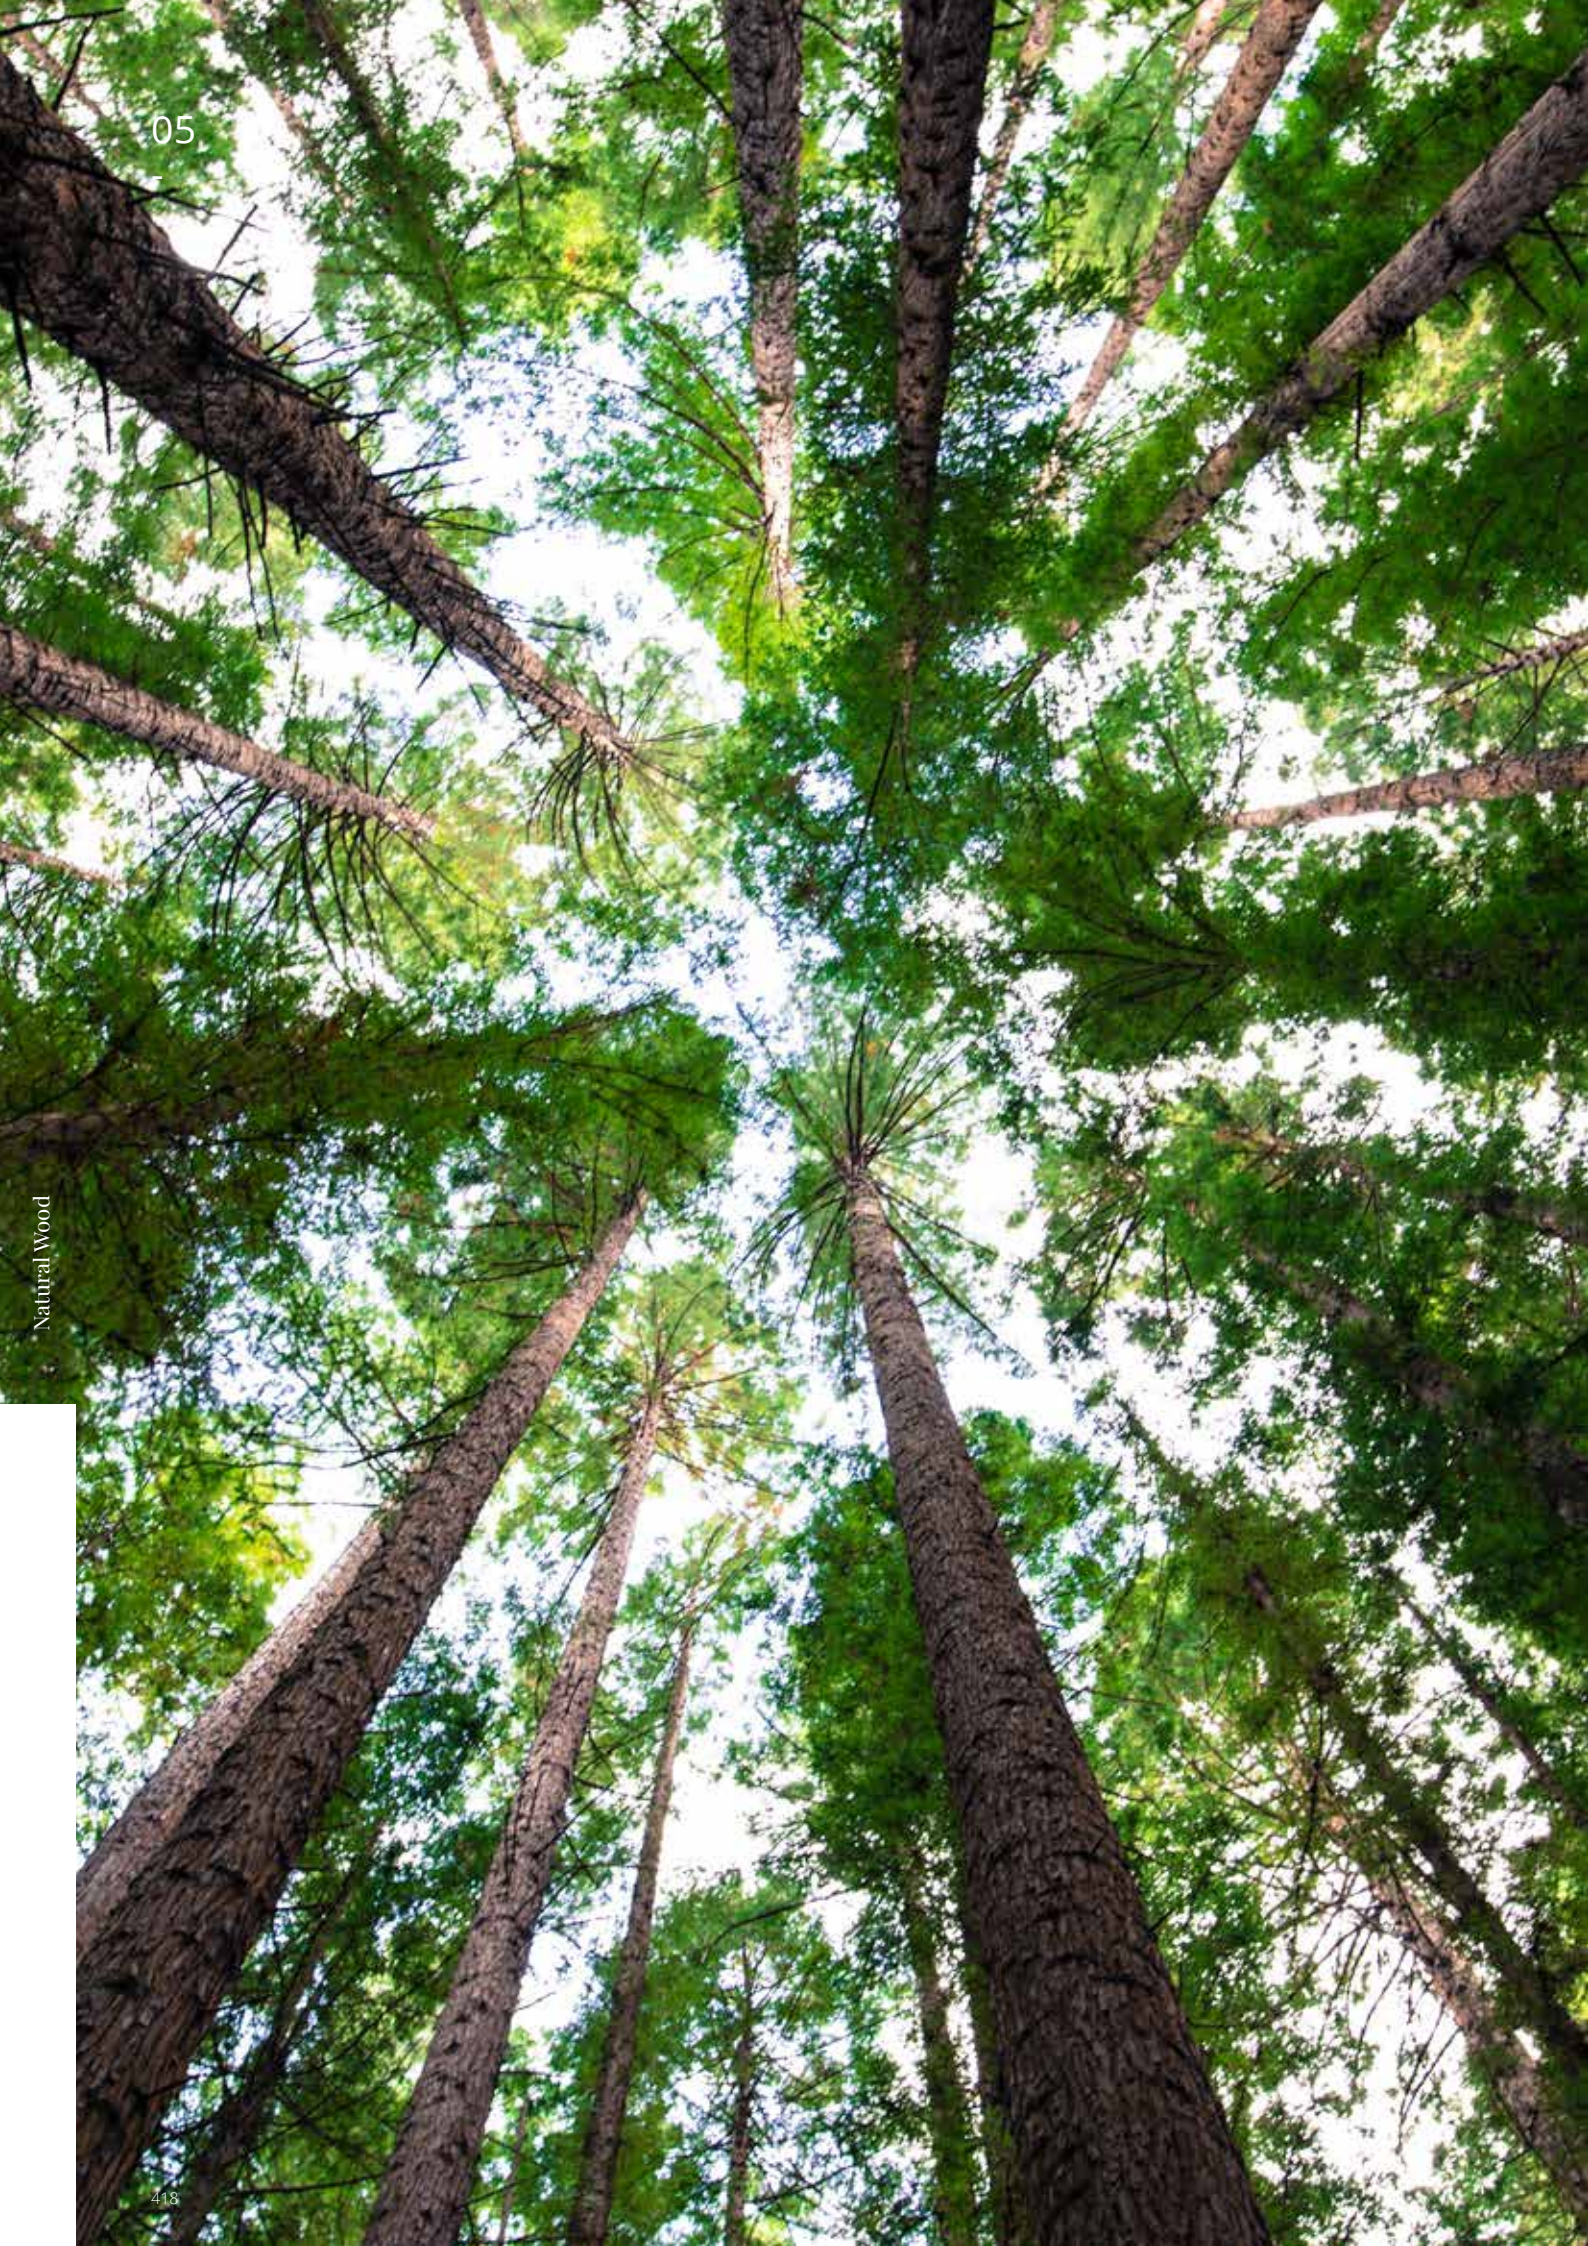
Les veines et les noeuds constituent l'une des principales caractéristiques des parquets en bois naturel; inhérents à la beauté du produit, ils donnent à chaque lame son caractère unique. Ces noeuds sont remplis d'un enduit noir ou d'une couleur similaire au ton du bois en fonction du modèle. Notre catalogue vous renseigne sur la taille des noeuds qui peuvent apparaître mais aussi sur leur quantité.

2.- Variations de tonalité

Tous les matériaux naturels varient à la fois au niveau du ton et de la structure même de la pièce. Chez L'Antic Colonial nous procédons à un classement exhaustif permettant d'éliminer les éléments qui ne répondent pas à nos standards de qualité. Les éventuelles variations de nos produits sont mentionnées sur leur fiche technique. Si vous avez sélectionné l'un de nos matériaux pour votre projet, nous vous recommandons de demander des images des panneaux ou quelques mètres carrés d'échantillon avant de réaliser votre achat.

"LE MEILLEUR AMI DE L'HOMME SUR TERRE EST L'ARBRE. L'UTILISER AVEC RESPECT ET PARCIMONIE C'EST S'ASSURER L'UNE DES MEILLEURES RESSOURCES DE LA PLANÈTE."

Frank Lloyd Wright



Environmental Commitment / Compromiso Medioambiental / Notre Engagement en Faveur de L'environnement

Natural wood floors are one of the most environmentally-friendly options available in the market. It is a renewable, sustainable product, the best choice for an "eco-house".
Natural wood is one of the most plentiful natural resources. Sustainable forest management permits the use of this raw material without any environmental impact.
At L'Antic Colonial we only use wood from sustainable forests. Controlled forest areas in which many more trees are grown than cut down. In this way, we are able to guarantee the constant creation of new green spaces while at the same time reducing the negative effect of carbon dioxide in the atmosphere.
In addition, the processes used to manufacture and install wood flooring consume far less energy than any other building material.
At present, the popularity of natural wood floors has increased significantly, resulting in higher consumption of the raw material. At the same time, the commitment to the environment of the companies producing this type of floor has been consolidated.
At L'Antic Colonial we have taken this commitment seriously right from the start. The environmental certificates held by our natural wood products are evidence of this:

"THE AVERAGE ANNUAL NET GROWTH FOR HARDWOODS FOR WOOD FLOORS IS GREATER THAN AVERAGE ANNUAL REMOVALS."
(Source: United States Department of Agriculture Forest Service).

"WOOD IS A CARBON NEUTRAL PRODUCT THAT PRODUCES OXYGEN DURING ITS GROWTH CYCLE AND STORES CARBON DURING ITS SERVICE LIFE."
(Source: University of Wisconsin Wood Products Program Solid wood flooring. Life Cycle Analysis).

"WOOD FLOORS LAST HUNDREDS OF YEARS, SO WON'T NEED TO BE REPLACED AS OFTEN AS OTHER FLOORING OPTIONS."
(Source: National Association of Home Builders USA).

Los suelos de madera natural son una de las opciones más respetuosas con el medio ambiente del mercado. Se trata de un producto renovable y sostenible que supone la mejor elección par una "vivienda verde".
La madera natural es uno de los materiales mas abundantes en la naturaleza. Una gestión forestal sostenible permite el uso de esta materia prima sin ningún impacto sobre el medio ambiente.
En L'Antic Colonial unicamente utilizamos madera proveniente de bosques sostenibles. Zonas forestales controladas en las que se cultivan muchos más arboles de los que se talan. De este modo aseguramos la creación constante de nuevos espacios verdes a la vez que reducimos el efecto negativo que el dióxido de carbono tiene en la atmósfera.
Además, el proceso de fabricación e instalación de pavimentos de madera consume mucha menos energía que cualquier otro material de construcción.
En la actualidad, la popularidad de los suelos de madera natural se ha incrementado considerablemente, lo que ha provocado el mayor consumo de esta materia prima. Paralelamente, también se ha consolidado el compromiso con el medio ambiente por parte de las empresas productoras de estos suelos.
En L'Antic Colonial tomamos ese compromiso desde el primer día. Así lo demuestran las certificaciones ambientales que poseen nuestros productos de madera natural:

"EL CRECIMIENTO MEDIO ANUAL NETO DE MADERAS DURAS PARA SUELOS DE MADERA ES MAYOR QUE EL PROMEDIO ANUAL DE EXTRACCIÓN."
(Fuente: Departamento de Agricultura del Servicio Forestal de Estados Unidos).

"LA MADERA ES UN PRODUCTO NEUTRO DE CARBONO QUE PRODUCE OXÍGENO DURANTE SU CICLO DE CRECIMIENTO Y ALMACENA CARBONO DURANTE SU SERVICIO DE VIDA."
Fuente: Universidad de Wisconsin Wood Products Program Tarima de madera maciza. Análisis del Ciclo de Vida).

"LOS SUELOS DE MADERA EXISTEN DESDE HACE CIENTOS DE AÑOS, POR LO QUE NO TENDRÁN QUE SER REEMPLAZADOS CON LA FRECUENCIA QUE OTRAS OPCIONES DE SUELOS."
(Fuente: Asociación Nacional de Constructores de Viviendas EEUU).

Les sols en bois naturel constituent l'une des solutions les plus respectueuses de l'environnement disponibles sur le marché. Produit renouvelable et durable, c'est incontestablement le meilleur choix pour une «habitation verte».
Le bois naturel est l'un des matériaux les plus abondants dans la nature. Une gestion forestière durable permet d'utiliser cette matière première sans impacter l'environnement.
Chez L'Antic Colonial nous utilisons du bois provenant de forêts à gestion durable. Il s'agit de zones forestières contrôlées où le nombre d'arbres plantés dépasse le nombre d'arbres coupés. Cela permet de garantir le renouvellement constant des espaces verts tout en réduisant l'effet négatif du dioxyde de carbone sur l'atmosphère.
De plus, le processus de fabrication et de pose des revêtements en bois consomme beaucoup moins d'énergie que n'importe quel autre matériau de construction.
De nos jours, la consommation de cette matière première s'est considérablement accrue, portée par l'attrait pour les sols en bois naturel. Parallèlement, les entreprises productrices de ce type de planchers ont renforcé leur engagement en faveur de l'environnement.
Chez L'Antic Colonial, nous nous sommes engagés en ce sens dès le premier jour comme en témoignent les certications en matière d'environnement que possèdent nos produits en bois naturel:

«LA CROISSANCE MOYENNE ANNUELLE NETTE DES BOIS DURS POUR SOLS EN BOIS EST SUPÉRIEURE À LA MOYENNE ANNUELLE RÉCOLTÉE.»
(Source: Département d'Agriculture du Service Forestier des États-Unis).

«LE BOIS EST CONSIDÉRÉ COMME UN PRODUIT NEUTRE EN CARBONE QUI PRODUIT DE L'OXYGÈNE DURANT SON CYCLE DE CROISSANCE ET STOCKE DU CARBONE PENDANT SA VIE UTILE.»
(Source: Université du Wisconsin, Wood Products Program, Analyse du cycle de vie des parquets en bois massif).

«LES PLANCHERS EN BOIS EXISTENT DEPUIS DES SIÈCLES, ILS NE NÉCESSITENT PAS D'ÊTRE REMPLACÉS À LA MÊME FRÉQUENCE QUE D'AUTRES TYPES DE SOLS.»
(Source: Association nationale des constructeurs d'habitations des États-Unis).

MODERN

Different colours, types of brushing and designs.

Diferentes colores, cepillados y diseños.

Couleurs, rabotages et designs variés.

CLASSIC

Classic designs manufactured using cuttingedge technologies.

Diseños clásicos fabricados con las tecnologías más vanguardistas.

Designs classiques fabriqués avec des technologies de pointe.

LEGACY

Oak parquet, bonded to a 100x 100x2cm thick square base layer.

Madera de roble entrelazada, montada sobre un formato cuadrado de 100×100cm y 2cm de espesor.

Bois de chêne entrelacé, monté sur un format carré de 100×100cm d'une épaisseur de 2cm.

CHEVRON

Oak parquet in an inverted "V" pattern, bonded to a 56x51.5x1.6cm thick base layer.

Madera de roble dispuesta en "punta hungría" y montada sobre un formato de 56 x51.5cm y 1.6cm de espesor.

Bois de chêne disposé en « pointe de Hongrie » et monté sur un format de 56x51.5cm d'une épaisseur de 1.6cm.

TORTONA

Combination of fine wood with an intermediate layer of HDF.

Combinación de madera noble con una capa intermedia de HDF.

Combinaison de bois noble et d'une couche intermédiaire de HDF.

ARTISAN

Oak planks treated to give the worn appearance of a floor that has been walked upon by many generations.

Lamas de roble trabajadas hasta adquirir el aspecto desgastado de un suelo que ha sido habitado por muchas generaciones.

Lames en chêne travaillées pour obtenir l'aspect usé d'un sol en place depuis de nombreuses générations.

ADVANCE

Combination of fine wood with an intermediate layer of HDF and 220cm format.

Combinación de madera noble con capa intermedia de HDF y formato 220cm.

Lames intercalées les unes entre les autres de manière à donner un effet de contraste.

ADVANCE PREMIUM

Advance Evolution, with larger and thicker models (25 x 240 x 1.4 cm) and a 3 mm surface layer.

Evolución de Advance, con modelos de mayor formato y espesor (25 x 240 x 1,4cm) y una capa noble de 3 mm.

Évolution d'Advance, avec des modèles plus grands et plus épais (25x240x1,4 cm) et une couche noble de 3 mm.

DOWNTOWN

90 degree angle herringbone pattern 12 x 60 x 1.2 cm, which contains a 3 mm surface layer

Formato de espiga a 90 grados con un formato de 120 x 60 x 1,2cm, que contiene una capa noble de 3 mm.

Format en épi à 90 degrés, avec un format de 120x60x1,2 cm, qui comprend une couche noble de 3 mm.

NATURE

New oak wood 220 x 18 x 1.35cm in all its references except Toasted, which has a variation in width of 17.3cm.

Madera de roble limpio con un formato de 220 x 18 x 1,35cm en todas sus referencias excepto Toasted, la cual varía en el ancho a 17,3cm.

Bois de chêne propre avec un format de 220x18x1,35 cm dans toutes les références, exception faite de Toasted, dont la largeur est de 17,3 cm.

Collections / Colecciones / Collections

EDEN

A sensation of solid wood that can be installed as a floating floor, glued or nailed down.

Sensación de madera maciza con la opción de poder colocarse flotante, pegada o clavada.

Sensation du bois massif, possibilité de pose ottante, collée ou clouée.

EDEN TEXTURE

Eden with slight saw marks.

Eden con ligeras marcas de aserrado.

Eden présentant de légères marques de sciage.

LEGEND

Large format board with the appearance of worn wood.

Ancho de lama de gran dimensión con aspecto de madera desgastada.

Lames larges de grandes dimensions, aspect du bois usé.

AUTHENTIC

24cm wide strips with a hand-brushed finish.

Gran ancho de lama (24cm) combinado con el acabado cepillado realizado a mano.

Une grande largeur de lame (24cm) associée à une finition brossée à la main.

TREVILLE

Oak wood with a brushed finish and a small size of 13 x 109.2 x 1.4cm.

Madera de roble con un acabado cepillado y un pequeño formato de 13 x 109,2 x 1,4cm.

Bois de chêne avec une finition brossée et un petit format de 13x109,2x1,4 cm.

MINI EDEN

Similar to the Eden collection but with more benefits for home improvements thanks to its reduced thickness.

Similar a la colección Eden pero con mayores ventajas para la renovación por su reducido espesor.

Similaire à la collection Eden, il présente plus d'avantages en termes de rénovation en raison de son épaisseur réduite.

MINI EDEN TEXTURE

Similar to the Eden Texture but with more benefits for home improvements thanks to its reduced thickness.

Como el Eden Texture pero con mayores ventajas para la renovación por su reducido espesor.

Similaire à la collection Eden Texture, il présente plus d'avantages en termes de rénovation en raison de son épaisseur réduite.

REVIVAL

Rustic wood, with cracks and knots that have been worked and filled with wood putty in a variety of tones.

Madera rústica, con grietas y nudos trabajados rellenos de masilla con diversas tonalidades.

Bois rustique aux fissures et noeuds travaillés remplis d'enduits de différentes teintes.

WOOD LOVERS™

Oak with different formats, colours and textures that can be selected according to the customer's choice.

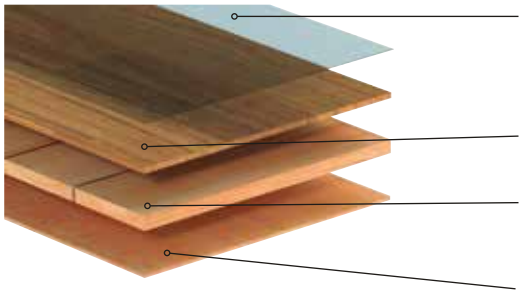
Roble con diferentes formatos, colores y texturas que puede seleccionarse según la elección del cliente.

Bois de chêne de différents formats, couleurs et textures sélectionné selon les préférences du client.

Construction / Construcción / Construction

L'Antic Colonial's natural wood flooring is made up of different layers depending on the model.
Los pavimentos de madera natural de L'Antic Colonial se componen de diferentes capas dependiendo del modelo.
Les revêtements de sol en bois naturel de L'Antic Colonial se composent d'un nombre de couches différent variant selon le modèle.

GENERAL MULTI-LAYER STRUCTURE / *MULTICAPA GENERAL* / *MULTICOUCHE GÉNÉRAL*



C1. Different coats of varnish on models with the Apresto and Apresto mate finish. The Natur and Natur Plus finishes are obtained using coats of oils and waxes. 40-70 µm.
Diferentes capas de barniz en los modelos Apresto y Apresto mate. Las acabados Natur y Natur Plus están realizados con aceites y ceras. 40-70 µm.
Différentes couches de vernis sur les modèles Apresto et Apresto Mate. Les nitions Natur et Natur Plus sont à base d'huiles et de cires.40-70 µm.

C2. Wear Layer: Natural wood. 2-4 mm.
Capa Noble: Madera natural. 2-4 mm.
Couche d'usure: bois naturel 2-4 mm.

C3. Core layer: Finger jointed transversal strips of wood glued together. 4.5-10 mm depending on model.
Capa intermedia: Lamas transversales alilstonadas de madera unidas entre sí con adhesivo. 4'5-10mm según modelo.
Couche intermédiaire: lames transversales en bois ou HDF collées. 4,5-10mm selon le modèle.

C4. Balancing layer: Pinewood. 2mm.
Capa de contraccion: Madera de coníferas. 2mm.
Couche de contraction: bois de conifères. 2 mm.

MULTI-LAYER HDF / *MULTICAPA HDF* / *MULTICOUCHE HDF*

-Tool-free installation system. / ***Montaje sin herramientas.*** / *Montage sans outils.*

-Very quick to lay. / ***Muy rápida instalación.*** / *Installation très rapide.*

-Professional end results. / ***Acabado profesional.*** / *Finition professionnelle.*

-Easy to lay and just as easy to take up. / ***Tan sencillo de instalar como de desinstalar.*** / *Aussi simple à poser qu'à retirer.*

-Secure locking system on all four sides of the boards. / ***Uniones seguras en los cuatro lados de las lamas.*** / *Unions sûres sur les quatre côtés des lames.*

-Can be bonded to the floor. / ***Se puede pegar al suelo*** / *Le produit peut être collé sur le sol.*

One of the easiest, most secure installation systems on the market. Just angle boards against the long side of the previously fitted one and press down gently. No tools are needed. The boards will lock into place and remain firmly secure, thanks to the tongue and groove system. The flooring is just as swift and easy to take up.

Es uno de los sistemas de más fácil instalación y seguro del mercado. Tan sólo se tiene que ajustar la lama que se va a instalar en sentido longitudinal a la ya colocada ejercer una suave presión sin ningún tipo de herramienta. Las dos piezas encajarán y quedarán sujetas gracias a la lengüeta de seguridad. Su desinstalación es igual de sencilla, lo que permite que sea desmontado rápidamente.

Système parmi les plus simples à poser et les plus sûrs du marché. Il suffit de positionner la lame à installer dans le sens de la longueur contre une lame déjà posée et d'exercer une légère pression sans aucun type d'outillage. Les deux pièces s'emboîtent et restent unies grâce à une languette de sécurité. Le démontage est tout aussi simple, ce qui permet un retrait rapide.

An installation system where tongues and grooves along the edges of the boards are used to fit them together. A little pressure must be exerted to slot the boards into place and they are bonded with wood glue. Tools are needed to assemble them.

Sistema de instalación que consiste en ensamblar las lamas por medio de rebajes y cortes en sus cantos aplicando una pequeña presión en las tablas y fijándolo con una cola blanca. Para su disposición es necesario el uso de herramientas.

Ce système de pose consiste à assembler les lames au moyen d'évidements et de découpes pratiqués sur leurs bords en appliquant une légère pression sur les planches. Les lames sont ensuite fixées à l'aide d'une colle blanche. Des outils sont nécessaires pour la pose.

Et Voilà

One of the main features of this easy-to-install system is the long-lasting secure locking mechanism, ensuring that no gaps appear between the boards during the floor's useful life. Pressure is exerted on the boards when fitted, locking them securely into place and preventing them from being wrongly aligned.

La seguridad y la durabilidad de unión entre juntas son las principales características de este sistema de fácil instalación que garantiza la eliminación de las rendijas entre las lamas durante toda la vida útil del suelo. La presión que se ejerce entre las lamas refuerza la unión e impide que ésta no se realice de forma incorrecta.

La sécurité et la durabilité du raccord entre les planches constituent les principales caractéristiques de ce système facile à poser qui garantit l'élimination de fentes entre les planches tout au long de la vie utile du revêtement de sol. La pression exercée entre les planches renforce leur assemblage et empêche toute erreur de pose.

05 Description of Finishes / Descripción Acabados / Description Finitions

-

BRUSHED

Slight smoothing of the wood using a brush to achieve a surface with a slight relief.

CEPILLADO

Ligero desbastado de la madera utilizando un cepillo para conseguir así una superficie con ligero relieve.

BROSSAGE

Léger dégrossissage du bois avec une brosse pour obtenir un relief délicat sur la surface.

STRIPPING

Removal of the stain layer in some areas of the surface, creating a contrast between the stained and “washed” areas.

DECAPADO

Eliminación de la capa de tinte en algunas zonas de la superficie, creando un contraste entre las zonas tintadas y las zonas “lavadas”.

DÉCAPAGE

Élimination de la couche de teinte dans certaines zones de la surface, ce qui crée un contraste entre les zones teintées et les zones « lavées ».

ARTISÁN

The finish imitates traditional hand brushing of the wood, providing a rough and artisan look.

Como hicieran los ebanistas de antaño, el acabado imita el tradicional cepillado a mano de la madera, proporcionando un aspecto rudo y artesano.

La finition imite le brossage traditionnel manuel du bois pour obtenir un aspect rustique et artisanal.

BEVEL 4

Beveled cut on all 4 edges of the board in order to emphasize its size.

BISEL 4

Corte oblícuo en los 4 bordes de las lamas para resaltar el tamaño.

BISEAU 4

Coupe oblique sur les 4 bords des lames pour mettre en valeur la dimension.

Description of Finishes / Descripción Acabados / Description Finitions

STAINED

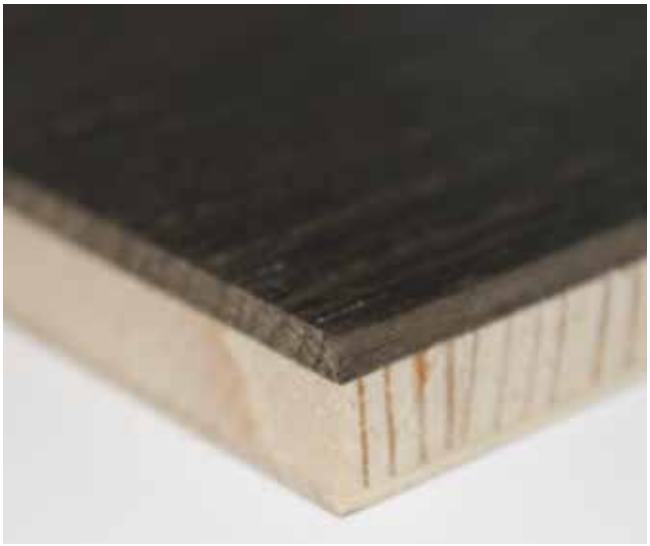
Applying a color oil or varnish on the wood surface in order to get different color ranges.

TINTADO

Aplicación de un aceite o barniz de color sobre la superficie de la madera para obtener diferentes gamas cromáticas.

TEINTURE

Application d'une huile ou d'un vernis de couleur sur la surface du bois pour obtenir des tonalités différentes.



HEAT TREATED

Wood subjected to temperatures above 160ª, thus altering its properties, and giving color to the entire wear layer section.

TERMOTRATADO

Madera sometida a temperaturas superiores a 160º, alterando de este modo sus propiedades y dando color a toda la sección de la capa noble.

TRAITEMENT THERMIQUE

Bois soumis à des températures supérieures à 160 º, afin d'altérer ses propriétés et de donner de la couleur à toute la section de couche noble.

BEVEL 2

Beveled cut on the long sides of the board in order to create a continuity effect.

BISEL 2

Corte oblícuo en los lados largos de las lamas para crear efecto de continuidad.

BISEAU 2

Coupe oblique sur la longueur des lames pour créer des effets de continuité.

05 Key to Symbols / Descripción de Iconos / Description des Symboles

-

NATUR

Combination of natural oils and waxes and air-drying leaving the wood with its pores open. This type of oil penetrates continuously into the wood, even when it has been laid, giving it a "dry" appearance when it is opened before laying. Benefits: Easy to repair scratches and knocks, natural look and simple maintenance with the right products. Just after laying and before using for the first time, we recommend using CLEAN&GREEN AQUA OIL 1 L.

Combinación de aceites y ceras de origen natural con secado al aire que dejan la madera con el poro abierto. Este tipo de aceite penetra continuamente en la madera, aun estando encajado, por lo que puede presentar un aspecto "seco" al abrirlo para ser colocado. Ventajas: Fácil reparación de golpes y rayas, aspecto muy natural y mantenimiento sencillo con los productos adecuados. Justo después de la instalación y antes del primer uso recomendamos la utilización de CLEAN&GREEN AQUA OIL 1L.

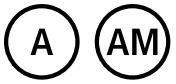
Combinaison d'huiles et cires d'origine naturelle séchées à l'air qui laisse les pores du bois ouverts. Ce type d'huile pénètre continuellement le bois, même lorsqu'il est emboîté, ce qui peut lui apporter un aspect «sec» lors de son ouverture. Avantages: Réparation simple de chocs et rayures, aspect très naturel et facile d'entretien avec les produits adéquats. Nous vous recommandons d'appliquer le produit CLEAN&GREEN AQUA OIL 1L juste après la pose et avant la première utilisation.

NATUR PLUS

Combination of oils and waxes designed to be dried with ultraviolet lamps. This finish allows the wood to keep the natural look produced using conventional oils but offers greater resistance to everyday stains and requires less maintenance. Benefits: Natural appearance, low maintenance and higher levels of resistance to water, wine, juice... stains. Just after laying and before using for the first time, we recommend using CLEAN&GREEN AQUA OIL 1 L.

Combinación de aceites y ceras preparadas para ser secadas con lámparas ultravioleta. Con este acabado, la madera conserva el aspecto natural del aceite convencional pero tiene mas resistencia a las manchas de productos de uso cotidiano y un menor mantenimiento. Ventajas: Aspecto muy natural, bajo mantenimiento y mayor resistencia a manchas de agua, vino, zumo... Justo después de la instalación y antes del primer uso recomendamos la utilización de CLEAN&GREEN AQUA OIL 1L.

Combinaison d'huiles et cires préparées pour être séchées avec des lampes à ultraviolets. Grâce à cette finition le bois conserve l'aspect naturel de l'huile traditionnelle mais est plus résistant aux tâches de produits d'usage quotidien et son entretien est réduit. Avantages: Aspect très naturel, faible entretien et meilleure résistance aux tâches d'eau, de vin, de jus, etc. Nous vous recommandons d'appliquer le produit CLEAN&GREEN AQUA OIL 1L juste après la pose et avant la première utilisation.



APRESTO / APRESTO MATE

L'ANTIC COLONIAL's APRESTO (satin) and APRESTO MATE (matt) varnish finishes guarantee a unique quality surface able to meet the most demanding of requirements. Benefits: Obtains the highest of hygiene standards, because the pores in the wood are sealed, dirt and dust remain on the surface and can be easily cleaned away.

El barnizado de L'ANTIC COLONIAL, en sus dos acabados, APRESTO (satinado) y APRESTO MATE, proporciona una calidad de superficie única, que satisface las mayores exigencias. Ventajas: Logra el nivel más alto de higiene, ya que al sellar los poros la suciedad y el polvo quedan en la superficie, pudiendo ser limpiados fácilmente.

Les finitions APRESTO (satiné) et APRESTO MATE du vernis de L'ANTIC COLONIAL créent une qualité de surface unique capable de satisfaire les plus grandes exigences. Avantages: Garantit le plus haut niveau d'hygiène car, les pores de la surface étant bouchés, les salissures et la poussière ne peuvent pas y pénétrer, ce qui facilite considérablement le nettoyage.

LOW NUMBER OF KNOTS

Parquet with few knots on its surface that can vary in size depending on the type of wood. These, along with any cracks that may appear, shall be covered with putty.

CANTIDAD NUDOS BAJA

Parquet con pocos nudos en su superficie que pueden variar de tamaño dependiendo del tipo de madera. Éstos, junto con posibles grietas que puedan aparecer, están estucados con masilla.

FAIBLE QUANTITÉ DE NŒUDS

Parquet dont la surface présente peu de nœuds, qui peuvent être de dimension variable en fonction du type de bois. Ceux-ci, tout comme les fissures qui peuvent éventuellement apparaître, sont stuqués avec du mastic.

AVERAGE NUMBER OF KNOTS

Parquet with several knots on its surface that can vary in size depending on the type of wood. These, along with any cracks that may appear, shall be covered with putty.

CANTIDAD NUDOS MEDIA

Parquet con varios nudos en su superficie que pueden variar de tamaño dependiendo del tipo de madera. Éstos, junto con posibles grietas que puedan aparecer, están estucados con masilla.

QUANTITÉ DE NŒUDS MOYENNE

Parquet dont la surface présente plusieurs nœuds, qui peuvent être de dimension variable en fonction du type de bois. Ceux-ci, tout comme les fissures qui peuvent éventuellement apparaître, sont stuqués avec du mastic.

HIGH NUMBER OF KNOTS

Parquet with many knots on its surface that can vary in size depending on the type of wood. These, along with any cracks that may appear, shall be covered with putty.

CANTIDAD NUDOS ALTA

Parquet con muchos nudos en su superficie que pueden variar de tamaño dependiendo del tipo de madera. Éstos, junto con posibles grietas que puedan aparecer, están estucados con masilla.

QUANTITÉ DE NŒUDS ÉLEVÉE

Parquet dont la surface présente beaucoup de nœuds, qui peuvent être de dimension variable en fonction du type de bois. Ceux-ci, tout comme les fissures qui peuvent éventuellement apparaître, sont stuqués avec du mastic.

MULTI-LAYER

Structure consisting of an upper layer that has the noble look of the material, an intermediate layer of coniferous wood that compensates the tensions between the different parts, and a bottom plywood that provides dimensional stability.

MULTICAPA

Estructura formada por una capa superior que muestra el aspecto noble del material, una capa intermedia de madera de conífera que compensa las tensiones entre las diferentes partes y un contrachapado inferior que aporta estabilidad dimensional.

MULTICOUCHE

Structure constituée d'une couche supérieure qui montre l'aspect noble du matériau, d'une couche intermédiaire de bois de conifère qui compense les tensions entre les différentes parties et d'un contre-plaqué inférieur qui apporte la stabilité dimensionnelle.

FLOATING INSTALLATION

Installation system in which it is not necessary to glue the boards to the floor, although it might be possible that they need to be glued among them, only in the models that so indicate it.

INSTALACIÓN FLOTANTE

Sistema de instalación en el que no es necesario encolar las tablas al suelo, aunque si es posible que se tengan que encolar entre ellas, solo en los modelos que así lo indique.

SYSTÈME FLOTTANT

Système d'installation où il n'est pas nécessaire de coller les planches au sol, même s'il peut être nécessaire de les coller entre elles, uniquement sur les modèles où cela est indiqué comme tel.

GLUING

Boards must be glued to the floor to achieve stability and consistency. It also improves the soundproofing, eliminating any resonance effect.

ENCOLADO

Los tablones deben encolarse al suelo para conseguir estabilidad y consistencia. Además mejora la insonorización eliminando cualquier efecto de resonancia.

COLLAGE

Les planches doivent être collées au sol pour obtenir stabilité et consistance. Par ailleurs, il améliore l'insonorisation en éliminant tous les effets de résonance.

Key to Symbols / Descripción de Iconos / Description des Symboles

30 YEAR WARRANTY
Quality product made of selected raw materials, guaranteeing its full performance in residential use for 30 years as required by L' Antic Colonial.

GARANTÍA 30 AÑOS
Producto de calidad, elaborado con materias primas seleccionadas, garantizando su uso pleno en vivienda por 30 años conforme a lo prescrito por L' Antic Colonial.

GARANTIE 30 ANS
Produit de qualité élaboré avec des matières premières de choix, avec une garantie de 30 ans d'utilisation en logement, conformément aux prescriptions de L'Antic Colonial.

RADIANT WATER FLOOR HEATING
Parquet suitable for installation over radiant water floor heating, by gluing the material directly to the floor or in a floating installation.

CALEFACCIÓN RADIANTE POR AGUA
Parquet apto para la instalación sobre calefacción radiante por agua, encolando el material al suelo directamente o en instalación flotante.

PLANCHER CHAUFFANT À EAU
Parquet adapté à une installation sur un sol chauffant à eau, par collage direct du matériau au sol ou sur un système flottant.

1 BOARD
Wooden piece in which only one full hardwood layer board has been used to finish the entire base surface.

1 LAMA
Pieza de madera en la que se ha usado solo una tabla entera de capa noble para completar toda la superficie de la base.

1 LAME
Pièce de bois où n'a été utilisée qu'une planche entière de couche noble pour compléter la totalité de la surface.

BATTENED
Boards are nailed on wooden battens.

RASTRELADO
Los tablones se clavan sobre rastreles de madera.

TASSEAUX
Les planches sont clouées sur des tasseaux en bois.

OAK WOOD
Parquet made with oak wood.

MADERA DE ROBLE
Parquet realizado con madera de roble.

BOIS DE CHÊNE
Parquet réalisé en bois de chêne.

WALNUT WOOD
Parquet made with walnut wood.

MADERA DE NOGAL
Parquet realizado con madera de nogal.

BOIS DE NOYER
Parquet réalisé en bois de noyer.

SLIGHT COLOR VARIATION
There are slight color changes between boards.

VARIACIÓN DE TONO LIGERA
Existen cambios de color suaves entre lamas.

LÉGÈRE VARIATION DE TONALITÉ
Il existe de légers changements de couleur entre les lames.

MODERATE COLOR VARIATION
There are consistent color changes between boards.

VARIACIÓN DE TONO MODERADA
Existen cambios de color regulares entre lamas.

VARIATION DE TONALITÉ MODÉRÉE
Il existe des changements de couleur réguliers entre les pièces.

STRONG COLOR VARIATION
There are noticeable color changes between boards.

VARIACIÓN DE TONO FUERTE
Existen cambios de color importantes entre lamas.

FORTE VARIATION DE TONALITÉ
Il existe d'importants changements de couleur entre les lames.

ORIGIN EUROPE
Material from a European country.

PROCEDENCIA EUROPA
Material procedente de algún país europeo.

PROVENANCE EUROPÉENNE
Matériau en provenance d'un pays européen.

ORIGIN NORTH AMERICA
Material from a North American country.

PROCEDENCIA AMÉRICA DEL NORTE
Material procedente de algún país norteamericano.

PROVENANCE NORD-AMÉRICAINE
Matériau en provenance d'un pays d'Amérique du Nord.

HARDWOOD LAYER
It indicates the thickness of the hardwood layer.

CAPA NOBLE
Indica el espesor de la capa noble.

COUCHE NOBLE
Indique l'épaisseur de la couche noble.

Certificates / Certificados / Certificats

PEFC, a pan-European forestry certificate, was created in 1998 as a voluntary scheme for promoting and certifying sustainable forest management. The aims of the PEFC certification scheme are to promote the sustainable management of forests as an environmentally appropriate, socially beneficial, economically viable form of management; to enhance a positive image of forests and timber as a renewable raw material; and to guarantee the origin of products from sustainably managed forests for consumers.

La Certificación Forestal Paneuropea (PEFC) surge en 1998 como un sistema de promoción y certificación voluntaria de la gestión forestal sostenible. Los objetivos de Certificación Forestal PEFC consisten en promover una Gestión Forestal Sostenible de las masas forestales, por ser una gestión apropiada para el medio ambiente, socialmente beneficiosa y económicamente viable; fortalecer y mejorar de la imagen positiva del bosque y de la madera como materia prima renovable, y garantizar a los consumidores la procedencia de los productos de masas gestionadas de forma sostenible.

Le Programme de Reconnaissance des Certifications Forestières (PEFC) naît en 1998 comme un système de promotion et de certification volontaire de la gestion forestière durable. Les objectifs de Certification Forestière PEFC consistent à promouvoir une gestion durable des forêts, considérée comme appropriée pour l'environnement, socialement bénéfique et économiquement viable ; le PEFC vise également à renforcer et à améliorer l'image positive de la forêt et du bois en tant que matière première renouvelable, et à garantir aux consommateurs la provenance des produits forestiers gérés de manière durable.

The FSC® is an independent, non-governmental, non-profit-making international organization created in 1993 in order to promote an environmentally responsible, socially beneficial, economically viable form of forestry management throughout woodlands worldwide. The FSC® certificate guarantees that forestry products have been harvested from rationally managed woodlands in accordance with FSC® principles and criteria. These define the minimum levels required for the proper management of forests worldwide.

El FSC® es una organización independiente, no gubernamental, internacional y sin ánimo de lucro creada en 1993, con el objetivo de promover una gestión forestal ambientalmente responsable, socialmente beneficiosa y económicamente viable en los bosques de todo el mundo. El certificado FSC® garantiza al consumidor que los productos forestales proceden de montes aprovechados de forma racional, de acuerdo a los Principios y Criterios del FSC®, los cuales definen los niveles mínimos de buena gestión para los bosques de todo el mundo.

Le FSC® est une organisation indépendante, non gouvernementale, internationale et à but non lucratif, créée en 1993 dans le but de promouvoir une gestion forestière responsable en matière d'environnement, socialement bénéfique et économiquement viable dans les forêts du monde entier. Le certificat FSC® garantit au consommateur que les produits forestiers sont issus de forêts mises à profit de manière rationnelle, conformément aux principes et critères du FSC®, qui définissent les niveaux minimum de bonne gestion pour les forêts de la planète.

National Wood Flooring Association (NWFA), is a non-profit trae association that represents all segments of the hardwood flooring industry: manufacturers, distributors, retailers and fitters. Founded in the USA, it currently has members throughout the whole world. The association's clear goal is to provide professionals from the sector with training and resources, thus allowing customers to benefit from long-lasting high-quality flooring.

National Wood Flooring Association (NWFA), es una asociación comercial sin ánimo de lucro que representa todos los sectores de la industria de los suelos de madera: fabricantes, distribuidores, detallistas e instaladores. Nace en EEUU pero actualmente aglutina asociados de todo el mundo, con el claro objetivo de proporcionar a los profesionales del sector un servicio de capacitación y los recursos para asegurar que los clientes adquieren suelos duraderos de alta calidad.

La National Wood Flooring Association (NWFA) est une association commerciale à but non lucratif qui représente tous les secteurs de l'industrie des revêtements de sol en bois: fabricants, distributeurs, détaillants et installateurs. Née au États-Unis, elle compte actuellement des membres du monde entier et a pour objectif d'offrir aux professionnels du secteur un service de formation et les ressources nécessaires pour garantir que le client final achète un revêtement de sol durable et de grande qualité.

AITIM is a private non-profit association made up of businesses from the wood industry. The association's common goal is technical product development and product quality certification.

AITIM, es una asociación privada sin ánimo de lucro formada por empresas que trabajan en el sector de la madera. El objetivo común es el desarrollo técnico de los productos y acreditar la calidad de los mismos.

AITIM, est une association privée à but non lucratif formée par des entreprises du secteur du bois. L'objectif commun est le développement technique des produits et de certifier leur qualité.

*The Legacy and Chevron collections feature a tongue and groove installation system, with a groove on the four sides and loose strips to be laid as required, therefore eliminating problems in respect of the order.

Las colecciones Legacy y Chevron, realizadas con el sistema de instalación machembrado, se sirven con hembra en los 4 costados y unos listones sueltos para colocarlos donde se necesite. De este modo se evitan problemas en el orden de las piezas.

Dotées du système d'installation à rainures et languettes, les collections Legacy et Chevron sont fournies avec des rainures sur les 4 côtés et des lattes séparées pour pouvoir les placer à l'endroit souhaité. Cela permet d'éviter les problèmes d'ordre des pièces.

*The Legacy and Chevron collections feature a tongue and groove installation system, with a groove on the four sides and loose strips to be laid as required, therefore eliminating problems in respect of the order.

Las colecciones Legacy y Chevron, realizadas con el sistema de instalación machembrado, se sirven con hembra en los 4 costados y unos listones sueltos para colocarlos donde se necesite. De este modo se evitan problemas en el orden de las piezas.

Dotées du système d'installation à rainures et languettes, les collections Legacy et Chevron sont fournies avec des rainures sur les 4 côtés et des lattes séparées pour pouvoir les placer à l'endroit souhaité. Cela permet d'éviter les problèmes d'ordre des pièces.

Floor Coverings Nature 1L Natural / **Wall Coverings** Form Abstract Cream

Wood Lovers

CREATED BY YOU FOR YOU

Wood Lovers is about a passion for wood and a love for its natural forms. But above all, it is collection designed especially for you. Our selection process allows you to design the surface of your floor down to the last detail, giving a central role to versatility and resistance over time. First, select the colour of wood that best suits your project from eight shades that conjure up images of nature in its purest state.
Then, choose the finish you like best. Two options which also guarantee the protection and durability of the wood with the use of the most advanced types of varnish.
Next, select the texture. Evoke the feel of a wood worn by the passage of time, recall traditional pieces or reminisce over age-old techniques used in the treatment of wood.
Lastly, decide on the format you wish to use for the boards. Combine different lengths and widths, depending on whether you are looking for a uniform result or something more random and original.
Our selection process lets you discover a unique and unrepeatable product, designed by you and for you. Share the Woodlovers' passion. Fall in love with us.

POR TI Y PARA TI

Wood Lovers es pasión por la madera y amor por sus formas naturales. Pero sobre todo, es una colección pensada para ti. Nuestro proceso de selección permite que configures la superficie de tu suelo hasta el más mínimo detalle, apostando por la versatilidad y la resistencia al paso del tiempo.
En primer lugar, elige el color de la madera que mejor se adapte a tu proyecto mediante ocho tonos que evocan la naturaleza en estado puro.
A continuación, escoge el acabado que más te guste. Dos opciones que, además, garantizan la protección y durabilidad de la madera a través de los barnices más avanzados.
Selecciona la textura. Evoca la madera desgastada por el paso del tiempo, recuerda las piezas tradicionales o rememora las técnicas milenarias en el tratamiento de la madera.
Finalmente, decide qué formato deseas para las lamas. Puedes combinar las piezas con distintos anchos y largos, buscando un resultado homogéneo o más arbitrario y original.
Con nuestro proceso descubrirás un producto final único e irrepetible, pensado por ti y para ti. Comparte la pasión de Woodlovers. Enamórate con nosotros.

FAIT PAR VOUS ET POUR VOUS

Wood Lovers fait référence à la passion du bois et l'amour de ses formes naturelles. Mais c'est avant tout une collection imaginée pour vous. Notre processus de sélection vous permet de congurer la surface de votre plancher dans le moindre détail, misant ainsi sur l'adaptabilité et la résistance au passage du temps.
Tout d'abord, vous choisissez la couleur du bois qui convient le mieux à votre projet parmi huit tons qui évoquent la nature à l'état pur.
Vous sélectionnez ensuite la nition que vous préférez. Ces choix vous permettent en outre de garantir la protection et la durabilité du bois grâce aux vernis les plus performants.
Choisissez la texture. Rappelez le bois usé par le temps, remémorez les pièces traditionnelles ou faites revivre les techniques millénaires de traitement du bois. Enn, décidez du format que vous souhaitez pour vos lames.
Vous pouvez combiner des pièces de différentes longueurs et largeurs pour un résultat homogène ou plus aléatoire et original.
Notre processus vous offre un produit nal unique et inimitable, imaginé par vous et pour vous. Laissez-vous séduire, vivez la passion Woodlovers.

En el horizonte de las cosas sencillas.
Sur la voie des choses simples.

Wood Lovers 1L Warm Ocean
A cascade of sensations.
Una cascada de sensaciones.
Une cascade de sensations.

2. Define the texture
Define el tipo de textura
Dénissez le type de texture

Select or combine any of our textures to obtain an exclusive effect.
Escoge cualquiera de nuestras texturas o combínalas como más te guste para lograr un efecto exclusivo.
Choisissez l'une de nos textures ou combinez-en plusieurs selon vos envies pour un effet exclusif.

Distressed Effect
The long sides of each strip are worn away using a plane that chips the wood, achieving an imperfect finish and giving the floor pattern a certain unevenness.

Efecto Distressed
Los perfiles largos de cada lama están desgastados mediante un cepillo que astilla la madera, logrando un acabado imperfecto que huye de la homogeneidad en el patrón del suelo.

Effet Distressed
Les prolés longs de chaque lame sont usés à l'aide d'un rabot qui fend le bois, on obtient ainsi une nition imparfaite qui s'éloigne de l'homogénéité du patron de plancher.

Artisan Effect
In the way of carpenters of old, this finish imitates the traditional hand planing of wood, giving it a rough artisan look.

Efecto Artisan
Como hicieran los ebanistas de antaño, el acabado imita el tradicional cepillado a mano de la madera, proporcionando un aspecto rudo y artesano.

Effet Artisan
Comme chez les ébénistes d'antan, la nition imite le brossage traditionnel à la main, donnant au bois un aspect rude et artisanal.

Handscraft Effect
A "handmade" finish producing a more natural effect, maintaining the original knots of the branches and bark of the trees. The result enhances the grain of the wood and achieves a unique design for each piece.

Efecto Handscraft
Un acabado "hecho a mano" que provoca un efecto más natural, manteniendo los nudos propios de las ramas y la corteza de los árboles. El resultado aumenta las vetas de la madera y logra un diseño único en cada pieza.

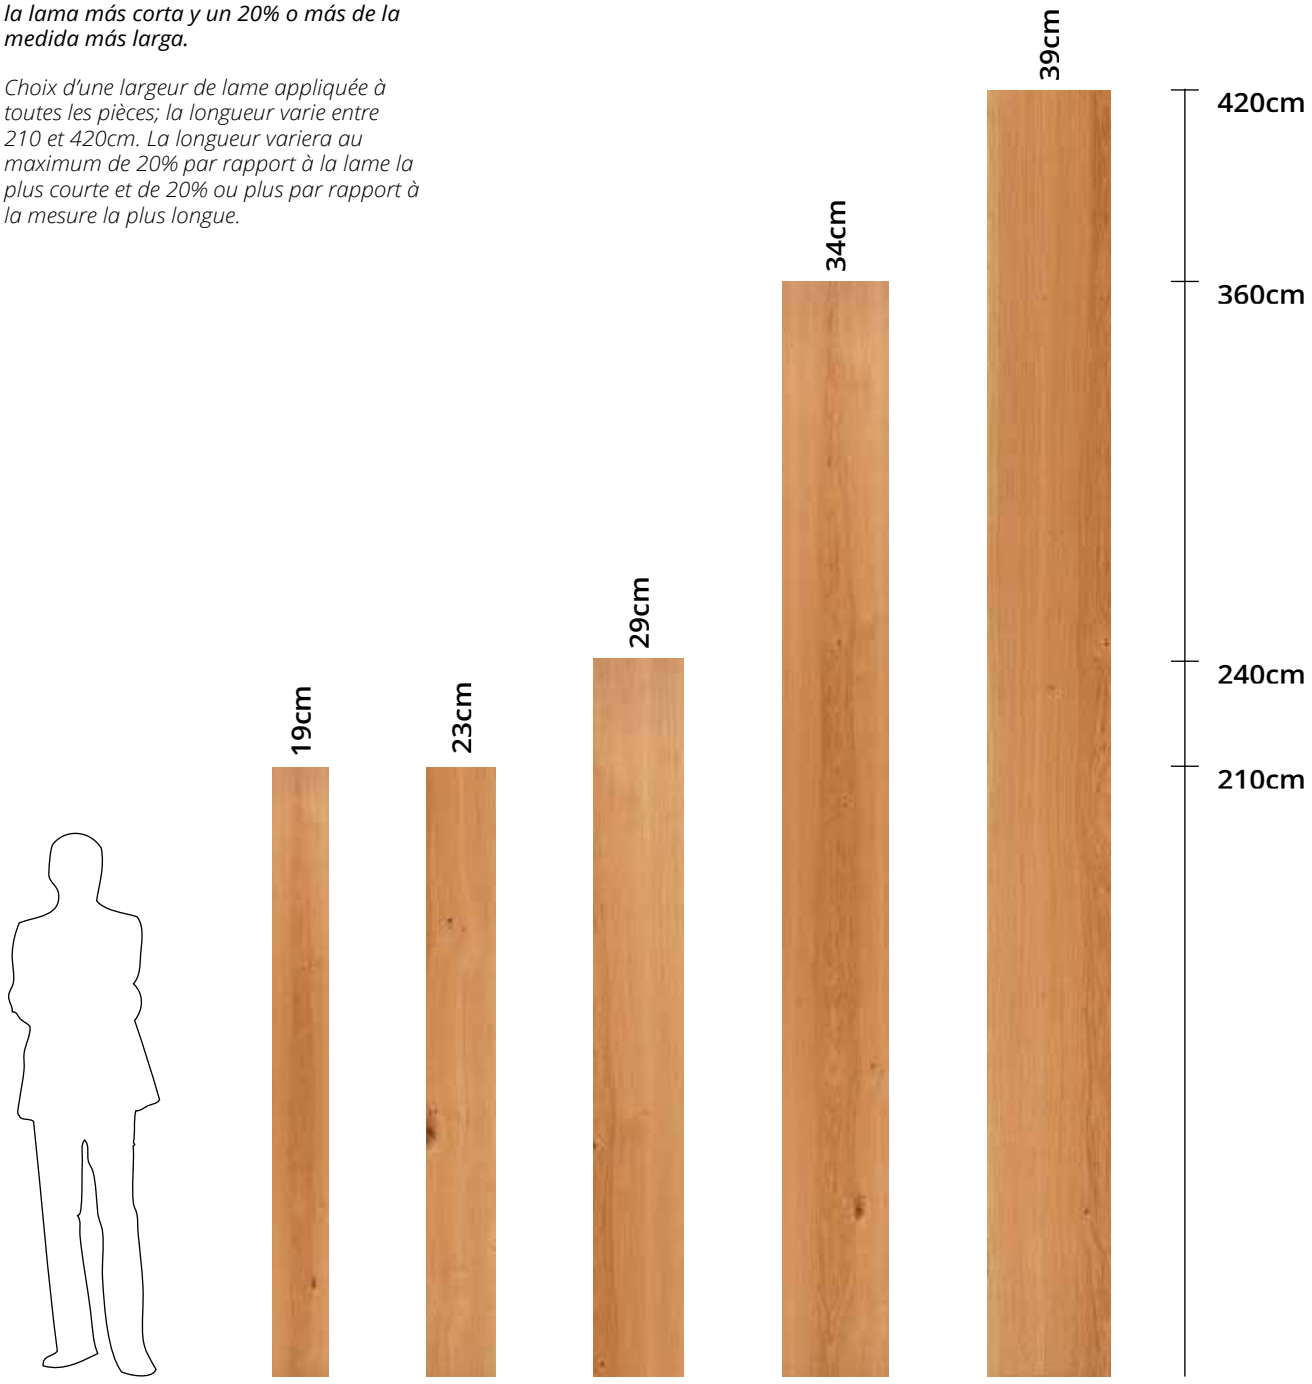
Effet Handscraft
Une nition de produit «fait à la main» qui donne un effet plus naturel, tout en conservant les noeuds propres aux branches et à l'écorce des arbres. Le résultat est un design unique à chaque pièce qui favorise les veines du bois.

3. Select strip format
Selecciona el formato de las lamas
Sélectionnez le format des lames

Selecting one width measurement which is repeated for all the pieces, while the length varies from 210 to 420cm. The variation in length is at maximum 20% with respect to the shortest strip and 20% or more of the longest strip.

Eligiendo una medida en cuanto al ancho de la lama que se repetirá en todas las piezas mientras que el largo variará de 210 a 420cm. La variación del largo será de un 20% como máximo con respecto a la lama más corta y un 20% o más de la medida más larga.

Choix d'une largeur de lame appliquée à toutes les pièces; la longueur varie entre 210 et 420cm. La longueur variera au maximum de 20% par rapport à la lame la plus courte et de 20% ou plus par rapport à la mesure la plus longue.



4. Enjoy an exclusive natural wood floor
Disfruta tu suelo exclusivo de madera natural
Jouissez d'un sol exclusif en bois naturel

COLOUR CHANGES IN NATURAL WOOD

Real wood parquet flooring is a living product that changes with the passing of time. These unique floor coverings can undergo changes in colour as a result of constant exposure to light. These changes are foreseeable, and they can be reduced by altering the position of the room's furniture from time to time. These photographs show the shade variation that different woods can undergo through constant exposure to light.

CAMBIOS DE COLOR EN LA MADERA NATURAL

Los parquets de madera natural son productos vivos que cambian con el paso del tiempo. Elementos únicos que, si se exponen continuamente a la luz pueden sufrir alteraciones de color. Estas variaciones son previsibles y se pueden mitigar con movimientos periódicos del mobiliario de la estancia. Estas imágenes muestran las variaciones de tonos que sufren las diferentes maderas al estar expuestas continuamente a la luz.

CHANGEMENTS DE COULEUR SUR LE BOIS NATUREL

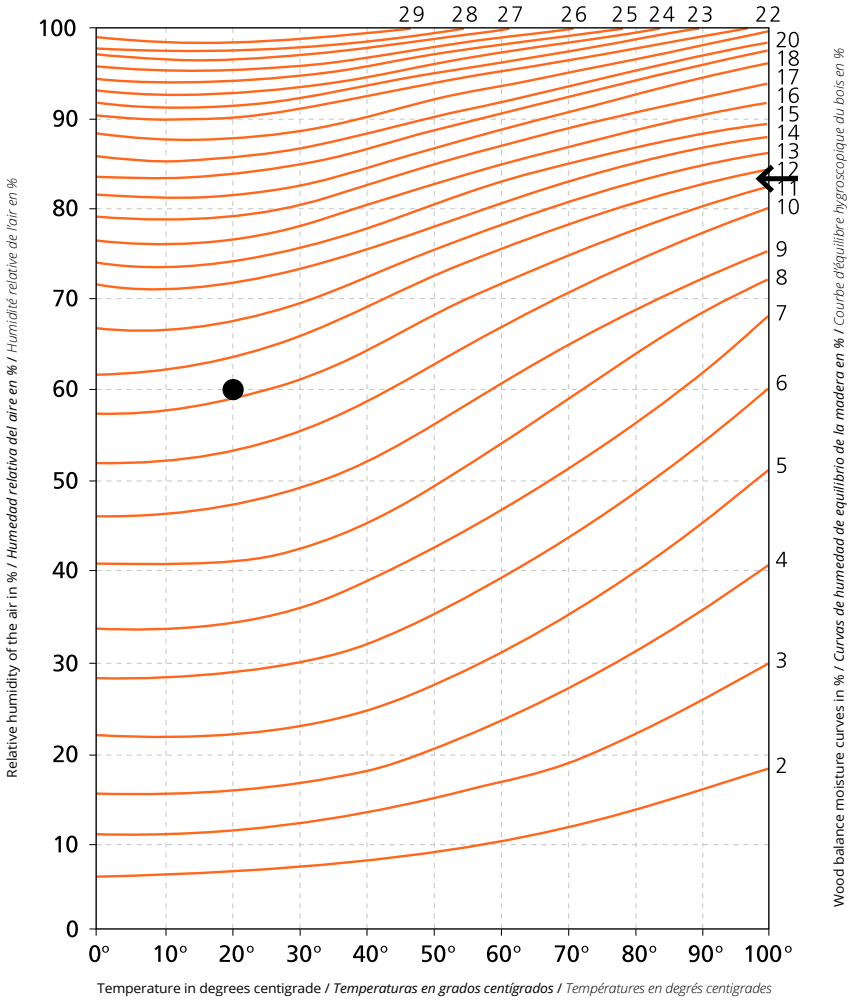
Les parquets en bois naturel sont des produits vivants qui évoluent au fil du temps. Il s'agit d'éléments uniques dont les couleurs peuvent s'altérer sous l'effet d'une exposition constante à la lumière.Ces variations sont prévisibles et peuvent être atténuées en déplaçant périodiquement le mobilier de la pièce d'habitation. Les images ci-dessus illustrent les variations de tons que les différents bois subissent lorsqu'ils sont exposés à la lumière en permanence.

HYGROSCOPIC BALANCE MOISTURE OF THE WOOD / *HUMEDAD EQUILIBRIO HIGROSCÓPICO DE LA MADERA* / *HUMIDITÉ ÉQUILIBRE HYGROSCOPIQUE DU BOIS*

The Kollman index provides a value that determines the hygroscopic balance of wood. The internal moisture content of the wood, which indicates if it is in satisfactory condition for use, can be ascertained by taking the relative humidity and room temperature data into account. For example, in a dwelling with the following hygrometric features: Relative humidity 60% and temperature 20ºC; the moisture content of the wood should be between 11% and 12%. Any value above or below this range indicates that the wood will be subject to stress that could give rise to distortion or cracks in the boards if installed.

El Abaco de Kollman es un valor que marca el equilibrio higroscópico de la madera. Teniendo en cuenta los datos de la humedad relativa y temperatura de la estancia podemos saber la humedad interna de la madera, que nos marcará si ésta tiene las condiciones óptimas para ser instalada. Por ejemplo, en una vivienda cuyas condiciones higrométricas son: Hr 60% y T 20ºC; la humedad de la madera debe oscilar entre el 11% y 12%. Cualquier valor que esté por encima o por debajo de este resultado indica que la madera está sometida a estrés, lo que puede provocar deformaciones o grietas en las tablas.

L'abaque de Kollman est une valeur qui dénit l'équilibre hygroscopique du bois. En tenant compte de l'humidité relative et la température d'une pièce, on peut déterminer l'humidité interne du bois, ce qui nous permet de savoir s'il se trouve dans des conditions optimales pour être installé. Par exemple, dans une habitation présentant les conditions hygrométriques suivantes: Hr = 60% et T = 20°C; l'humidité du bois doit varier entre 11% et 12%. Toute résultat non compris dans ces valeurs indique que le bois est soumis à des contraintes, ce qui peut entraîner des déformations ou des ssures des planches.



Floor Coverings Artisan 1L Woven

The use of natural wood in baths shall be the responsibility of the client. */ El uso de la madera natural en baños es bajo la responsabilidad del cliente. / Il est de la responsabilité du client l'utilisation du bois naturel dans les bains*

BEFORE INSTALLING

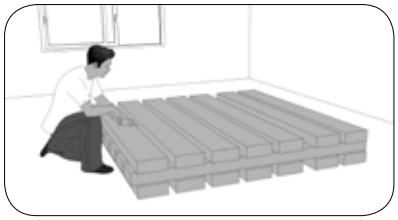
ANTES DE INSTALAR

AVANT L'INSTALLATION

1. Receiving and storage.

1. Recepción y almacenaje.

1. Réception et stockage.



Verify the material and the installation location.

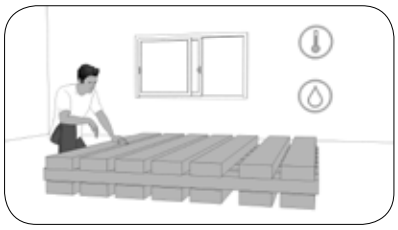
Verificar el material y el lugar de la instalación.

Vérifier le matériel et le lieu de l'installation.

2. Climatic conditions.

2. Condiciones climáticas.

2. Conditions climatiques.



Temp. 10-27°C/65-80°F; 40-65% relative humidity.

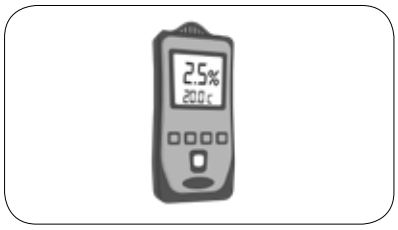
Tª 10-27°C/65-80°F; Humedad relativa 40-65%.

Température: 10-27°C/65-80°F; humidité relative: 40-65%.

3. Subfloor

3. Subsuelo

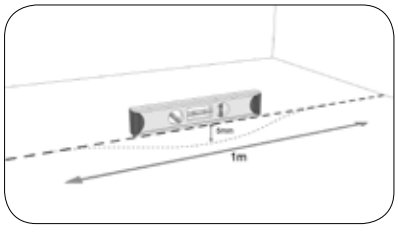
3. Sous-sol



3.1 Measure humidity with a carbide hygrometer, max 2.5%.

3.1 Medir la humedad con un higrómetro de carburo Max 2,5%

3.1 Mesurer l'humidité avec un hygromètre de carbure. Maximum: 2,5%.



3.2 Flatness and horizontality: max. deflections admitted, 3mm and 1mm.

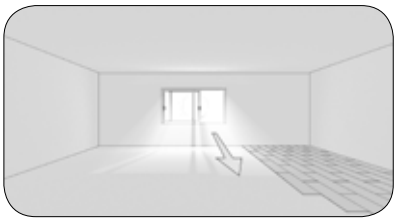
3.2 Planimetría y horizontalidad: se admite como max. flechas de 3mm y 1mm.

3.2 Planimétrie et horizontalité: des flèches d'un maximum de 3mm et 1mm sont admises.

3.3 Cleaning: clean base slab, and free from elements.

3.3 Limpieza: solera limpia y libre de elementos.

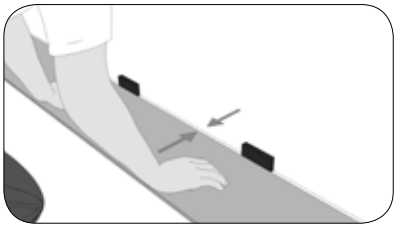
3.3 Nettoyage: lisse de terre propre et dépourvue d'éléments.



4. Direction of the installation: Boards arranged longitudinally in relation to the main light source.

***4. Sentido de la instalación:** lamas dispuestas en sentido longitudinal con respecto a la fuente de luz principal.*

4. Sens de l'installation: lames disposées en sens longitudinal par rapport à la source de lumière principale.



5. Planning the installation

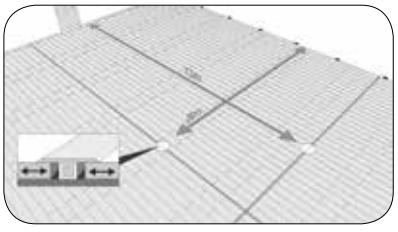
5. Planificación de la instalación

5. Planification de l'installation

5.1 Perimeter joint: leave at least 10mm.

5.1 Junta perimetral: dejar como mínimo 10mm.

5.1 Joint périphérique: laisser minimum 10mm.



5.2 Expansion joints when the room exceeds 12 longitudinal meters and 8 meters across. Minimum width 15 mm. Where to install them: start of corridors, doorway areas, narrowing between partition walls that separate one single space...

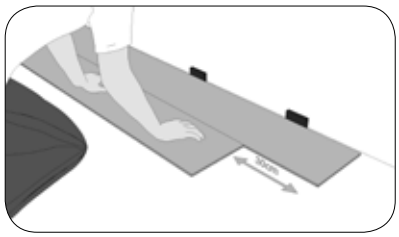
5.2 Juntas de expansión cuando el local sobrepase 12m longitudinales y 8 transversales. Ancho mínimo 15mm. Lugares para colocar los arranques de pasillos, zonas de paso de puertas, estrechamientos entre tabiques que separan un mismo espacio...

5.2 Joints de dilatation lorsque la pièce dépasse les 12 m longitudinaux et 8 m transversaux. Largeur minimale : 15 mm. Lieux pour la mise en place des naissances des couloirs, des zones de passage des portes, des rétrécissements entre les cloisons qui séparent une même pièce.

5.3. To install with tongue and groove, glue the boards throughout their perimeter with our recommended white glue.

5.3 Para colocación con Machihembrado encolar las lamas en todo su perímetro con nuestra cola blanca recomendada.

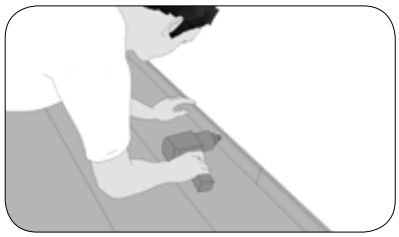
5.3 Pour la pose en bouvetage, coller les lames sur tout leur périmètre avec notre colle blanche recommandée.



5.4 Offset: the installation shall advance so that the ends of each board are separated at least 30cm from the next one.

5.4 Decalaje: la colocación debe progresar de forma que los extremos de cada tabla queden separados respecto a la siguiente de 30cm.

5.4 Décalage: les extrémités de chaque planche soient séparées de 30cm par rapport à la suivante lors de la pose.



5.5 Skirting boards nailed to the wall using a pneumatic gun.

5.5 Zócalos clavados a la pared mediante pistola neumática.

5.5 Socles cloués au mur avec une cloueuse à air comprimé.

Installation / Instalación / Installation

INSTALLATION

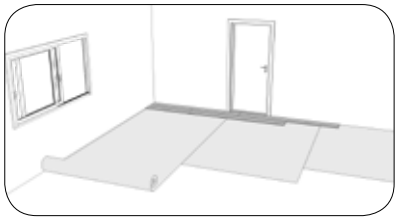
INSTALACIÓN

INSTALLATION

6. Floating system

6. Sistema flotante

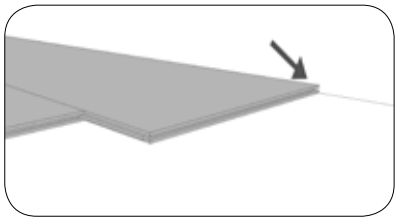
6. Système flottant



6.1. We recommend installing the L'Antic Colonial sheet, whether it is the moisture barrier+foam sheet or the antistatic radiant-floor film.

6.1 Se recomienda la instalación de la lámina de L´Antic Colonial. Ya sea la lámina anti-humedad+ espuma o la lámina de suelo radiante antiestática.

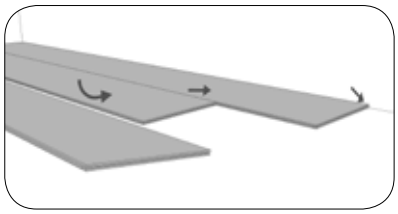
6.1 Il est recommandé d'installer la lame de L'Antic Colonial. Soit la lame anti-humidité + mousse, soit la lame de plancher rayonnant anti-statique.



6.2 Start the installation with the female ends towards the wall, keeping the minimum distance of 10mm using wedges.

6.2 Iniciar con las hembras hacia la pared, con la distancia mínima de 10mm mediante cuñas.

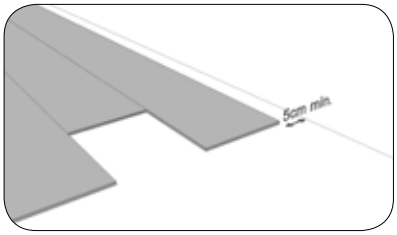
6.2 Commencer avec les femelles vers le mur, avec une distance minimale de 10mm en utilisant des cales.



6.3 On the third board and the rest for the new rows, use the same installation method. The first rows have to be perfectly straight and be parallel. Check with the ruler.

6.3 En la tercera lama, y las siguientes para las nuevas hileras, efectuar la misma colocación. Las primeras hileras tienen que estar rigurosamente rectas y ser paralelas. Controlar con regla.

6.3 Vous devez effectuer la même pose à la troisième lame et les suivantes pour les files suivantes. Les premières files doivent être rigoureusement droites et être parallèles. Contrôler avec la règle.



6.4 The width of the boards on the last row cannot be under 5cm.

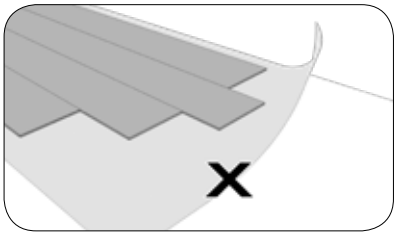
6.4 El ancho de las lamas de la última hilera no debe ser inferior a 5cm.

6.4 La largeur des lames de la dernière file ne doit pas être inférieure à 5cm.

7. Glued

7. Pegada

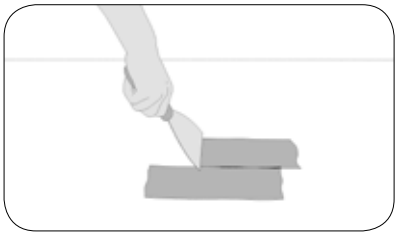
7. Collée



7.1. An insulation sheet is not required.

7.1. No es necesaria una lámina aislante.

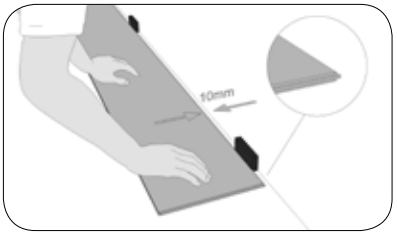
7.1. Une lame isolante n'est pas nécessaire.



7.2 Apply the adhesive recommended by L'Antic: slc Flex, with a trowel with and adequate tooth depth, forming circles or seams. Apply a primer; we recommend Primer PU31 for absorbent substrates and Preparatore Pulep for non-absorbent substrates.

7.2 Aplicar el adhesivo recomendado por L´Antic: slc Flex, con espátula, de profundidad de diente adecuada, formando círculos o cordones. Aplicar una imprimación, recomendamos Primer PU31 para soportes absorbentes y Preparatore Pulep para soportes no absorbentes.

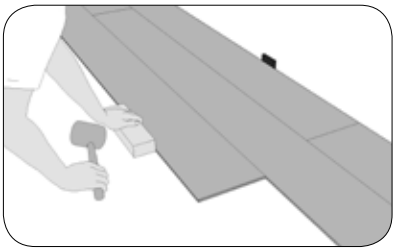
7.2 Appliquer l'adhésif recommandé par L'Antic Colonial : slc Flex, avec spatule, une profondeur de dent adéquate, en formant des cercles ou des cordons. Appliquer un apprêt, nous recommandons Primer PU31 pour des supports absorbants et Preparatore Pulep pour des supports non absorbants.



7.3 Glue the first row along the wall with the male side facing the wall, leaving an expansion joint of 10mm.

7.3 Pegar la primera fila a la pared con el macho mirando hacia esta, respetando la junta de dilatación de 10mm.

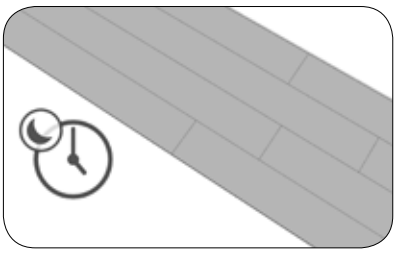
7.3 Coller la première file au mur avec le mâle en regardant vers celui-ci et en laissant un joint de dilatation de 10mm.



7.4 The rest of the row shall fit easily, joining male with female using a rubber hammer and a wood block.

7.4 El resto de hileras encajarán cómodamente, uniendo macho con hembra usando un martillo de goma y un bloque de madera.

7.4 Les autres files s'emboîteront facilement, en unissant le mâle à la femelle à l'aide d'un marteau en caoutchouc et un blog en bois.



7.5 Install 3 or 4 rows and let them dry for at least one full night. They shall be the starting point the next day for installing the rest.

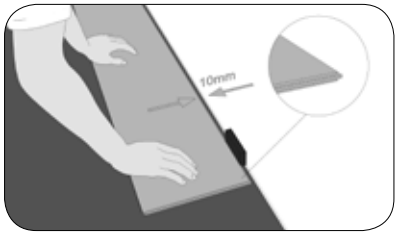
7.5 Colocar 3 o 4 filas y dejar secar al menos una noche completa. Punto de partida al siguiente día para instalar el resto.

7.5 Placer 3 ou 4 files et laisser sécher au moins une nuit entière. Point de départ le lendemain pour poursuivre l'installation.

8. Nailed

8. Clavada

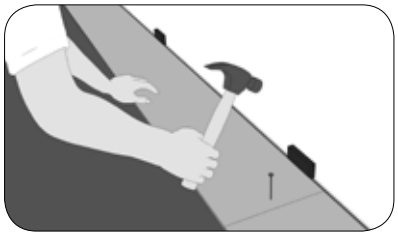
8. Clouage



8.1 Install the first board with the male side facing the wall. Leave an expansion joint of 10mm.

8.1 Colocar la primera lama con el macho hacia la pared. Respetar junta de dilatación de 10mm.

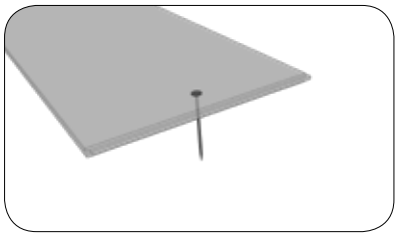
8.1 Placer la première lame avec le mâle vers le mur. Laisser un joint de dilatation de 10 mm.



8.2 Install the first row by fixing on the male side, usually with flat head iron nails or staples. Install perfectly straight to prevent deviations from spreading.

8.2 Instalar la primera fila fijando el macho, normalmente con clavos de hierro de cabeza plana o grapas. Colocar perfectamente recta para evitar que la desviación se propague.

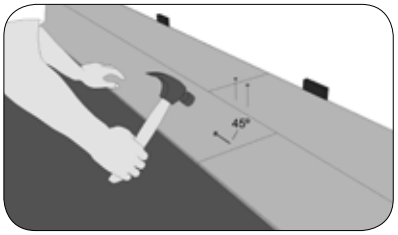
8.2 Installer la première file en fixant le mâle, normalement avec des clous en fer à tête plate ou des agrafes. La placer parfaitement droite pour éviter une propagation de la déviation.



8.3 Nails shall be inserted perpendicular to the wood along its entire length in order to avoid problems of the floor elements fastening to each other.

8.3 Clavar perpendicularmente los clavos en la madera en toda su longitud para evitar problemas de fijación entre sí de los elementos del suelo.

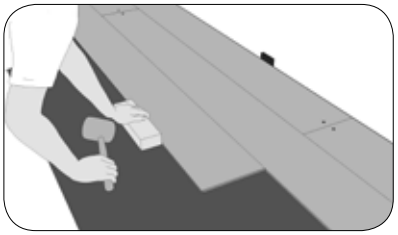
8.3 Clouer les clous dans le bois perpendiculairement sur toute sa longueur pour éviter des problèmes de fixation entre les éléments du revêtement du sol.



8.4 The second row of nails must be slanted at a 45°.

8.4 Introducir la segunda fila de clavos inclinados en un ángulo de 45°.

8.4 Introduire la deuxième file de clous inclinés à un angle de 45°.



8.5 Introduce the male side into the female side with the hammer until the joint for both boards is completely closed in the following rows.

8.5 Introducir el macho en la hembra con el martillo hasta que la junta de ambas lamas se haya cerrado totalmente en las filas sucesivas.

8.5 Introduire le mâle dans la femelle avec le marteau jusqu'à ce que le joint des deux lames soit complètement fermé dans les files suivantes.

8.6 Install all rows until reaching the last one, where the last row of nails is introduced perpendicularly.

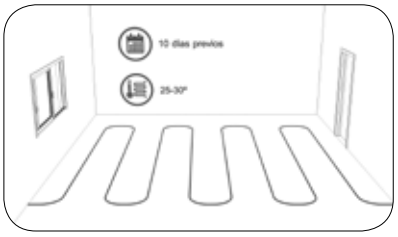
8.6 Colocar todas las filas hasta llegar a la última donde la última fila de clavos se introduce de forma perpendicular.

8.6 Placer toutes les files jusqu'à la dernière, où la dernière file de clous est introduite perpendiculairement.

9. Radiant floor heating

9. Suelo radiante

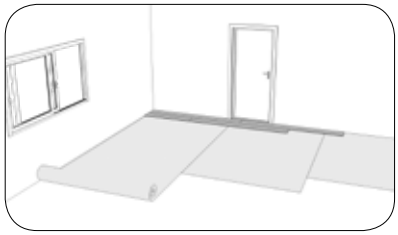
9. Plancher rayonnant



9.1 Turn on the radiant system to 25-30°C, 10 days before installing.

9.1 Los 10 días previos a la instalación, encender el sistema radiante a 25-30°C.

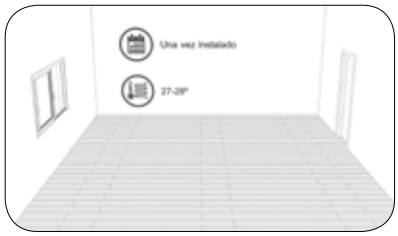
9.1 Pendant les 10 jours préalables à la pose, allumer le système de chauffage rayonnant à une température de 25-30°C.



9.2. We recommend installing the L'Antic Colonial antistatic radiant-floor film.

9.2 Se recomienda la instalación de la lámina para suelo radiante antiestática de L´Antic Colonial.

9.2 Il est recommandé d'installer la lame pour plancher rayonnant anti-statique de L'Antic Colonial.



9.3 Once it is installed, increase the temperature 2-3°C per day up to the maximum.

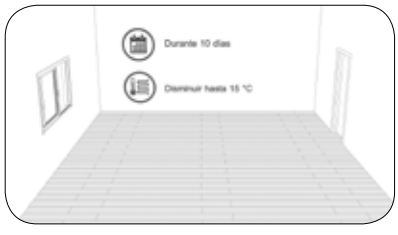
9.3 Una vez instalado incrementar la Tª 2- 3°C al día hasta llegar al máximo.

9.3 Après l'installation, augmenter la température entre 2 et 3°C chaque jour jusqu'à atteindre la température maximale.

9.4 Once the max temperature is reached, it must be maintained one day per cm of thickness of the sub-floor (overnight).

9.4 Una vez alcanzada la Tª max mantener un día por cada cm de espesor del subsuelo (por la noche).

9.4 Dès que la température maximale est atteinte, la maintenir une journée pour chaque centimètre d'épaisseur du sous-sol (la nuit).



9.5 Lastly, the temperature must be lowered 2-3°C until the floor reaches 15°C (about 10 days.)

9.5 Por último disminuir la Tª 2-3°C hasta que el suelo alcance los 15°C (unos 10 días).

Installation / Instalación / Installation

9.5 Finalement, diminuer la température entre 2 et 3°C jusqu'à ce que la température du sol arrive à 15°C (environ 10 jours).

IMPORTANT

IMPORTANTE

IMPORTANT

Right after installing and before the first use, we recommend using Clean & Green Aqua Oil 1 L for our Natur and Natur Plus finishes.

Justo después de la instalación y antes del primer uso recomendamos la utilización de Clean & Green Aqua Oil 1L para nuestros acabados Natur y Natur Plus.

Dès que l'installation est finie et avant le premier usage, nous recommandons d'utiliser Clean & Green Aqua Oil 1L pour les finitions Natur et Natur Plus.

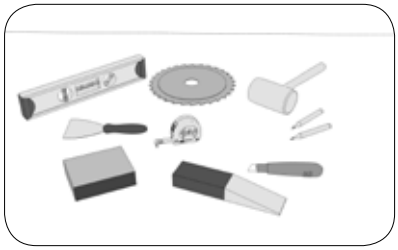
-

BEFORE INSTALLING

ANTES DE LA INSTALACIÓN

AVANT L'INSTALLATION



Tools: circular saw, wedges, pegs, rubber hammer, measuring tape, ruler, and pencil.

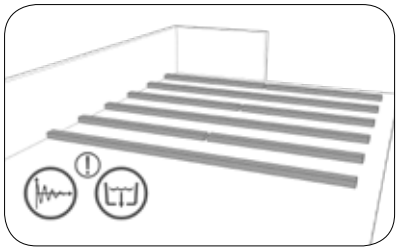
Herramientas: sierra circular, cuñas, tacos, martillo de goma, metro, regla y lápiz.

Outils: scie circulaire, cales, chevilles, marteau en caoutchouc, mètre, règle et crayon.

Installing the battens

Colocación de los rastreles

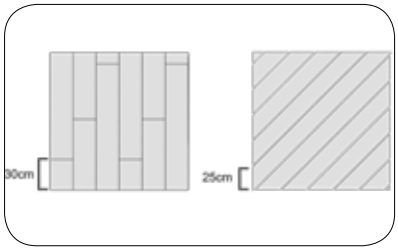
Pose des tasseaux



The lower structural supports or battens must rest on a stable base that has the necessary slope for water drainage.

Los apoyos estructurales inferiores o rastreles, deben descansar sobre una base estable y con pendiente para el drenaje del agua.

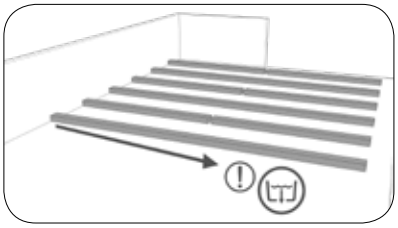
Les soutiens structurels inférieurs ou tasseaux doivent être posés sur une base stable ayant une pente pour le drainage de l'eau.



Maximum spacing between centers:
30 cm for residential use.
25 cm for public use applications.

Separación máxima entre centros de:
30cm para aplicaciones residenciales.
25cm para aplicaciones de uso público.

Séparation maximale entre les centres de:
30 cm pour des applications résidentielles.
25 cm pour des applications d'usage public.



Install parallel to the slope direction.

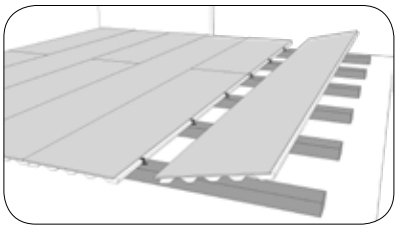
Instalar paralelamente a la dirección de la "caída" de las aguas.

Installation en parallèle à la direction de «chute» des eaux.

Profiles

Perfiles

Profilés



The ends shall rest on battens and be attached to them with the included clip, to avoid any possibility of deformation from weight and bending of the wood flooring.

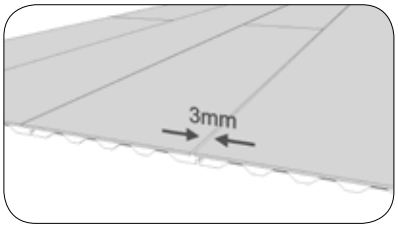
Los extremos deben descansar sobre rastreles y fijarse a estos mediante la grapa que viene incluida para eliminar toda posibilidad de deformación por el peso y la flexión de la tarima.

Les extrémités doivent être posées sur des tasseaux et fixées avec l'agrafe qui est inclue pour éliminer les éventuelles déformations provoquées par le poids et la flexion du plancher.

Spacing

Separación

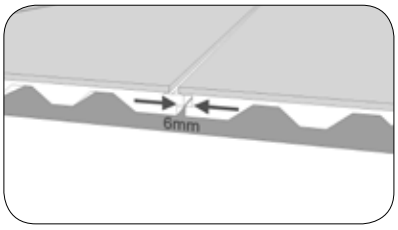
Séparation



3mm between profiles to allow drainage and ventilation.

3mm entre perfiles para permitir el drenaje y la ventilación.

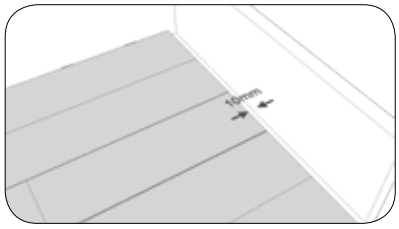
Laisser 3mm entre les profils pour permettre le drainage et l'aération.



6 to 8mm separation joint between the profile heads.

Junta de separación entre las testas de los perfiles de 6 a 8mm.

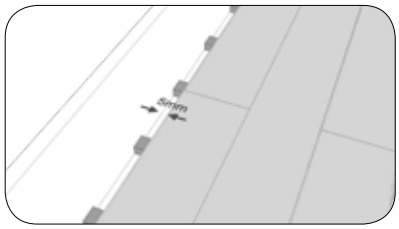
Joint de séparation entre les têtes des profilés de 6 à 8mm.



If it is perpendicular to the wall, leave a 10mm separation between the wall and the deck.

En montaje perpendicular a la pared, dejar 10mm entre esta y la tarima.

Pour le montage perpendiculaire au mur, laisser 10mm entre le mur et le plancher.



If it is to be mounted parallel to the wall, leave a 5mm space.

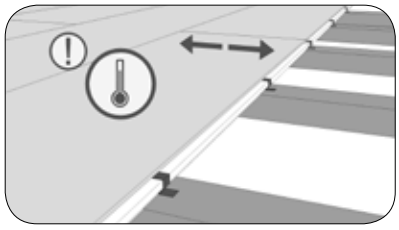
En montaje paralelo a la pared, dejar un margen de 5mm.

Pour le montage parallèle au mur, laisser une marge de 5mm.

Fastening

Fijación

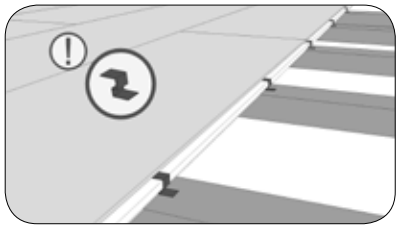
Fixation



Fasten the profiles with clips, allowing for their movement during thermal expansion.

Fijar los perfiles con grapas, permitiendo el movimiento de estos durante la acción de dilatación térmica.

Fixer les profilés avec les agrafes, pour permettre leur mouvement lors de la dilatation thermique.



Installation / Instalación / Installation

Use 20 to 25 clips per square meter.

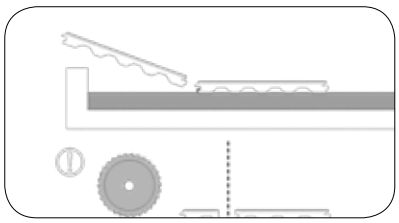
Usar de 20-25 grapas por metro cuadrado.

Utiliser entre 20 et 25 agrafes par mètre carré.

Deck finishing

Acabado de la terraza

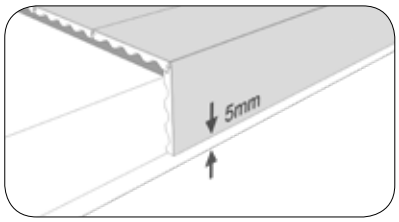
Finition de la terrasse



Level the ends of the profiles forming the deck using a circular saw and a ruler.

Igualar el final de los perfiles que forman la tarima usando una sierra circular y una regla.

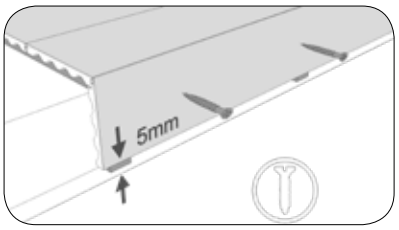
Égaliser la finition des profilés qui forment le plancher à l'aide de la scie circulaire et la règle.



Distance of 5mm between the skirt and the base to allow the deck to ventilate.

Distancia de 5mm entre la falda y el suelo para permitir la ventilación de la tarima.

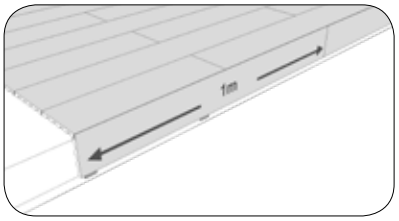
Distance de 5mm entre la jupe et le sol pour permettre l'aération du plancher.



Fasten the skirt to the battens using stainless steel screws, leaving a 5mm space between the profile and the skirting board.

Fijar la falda a los rastreles mediante tornillos de acero inoxidable, dejando una separación de 5mm entre el perfil y el friso.

Fixer la jupe aux tasseaux avec des vis en acier inoxydable, en laissant une séparation de 5mm entre le profilé et la frise.



We recommend using short length (1m) profile sections for making the skirt.

Se recomienda usar secciones de perfil de poca longitud, 1m, para realizar la falda.

Il est recommandé d'utiliser des sections de profilé de faible longueur (1m) pour réaliser la jupe.

NATURAL

Simulation of lightly textured wood in a wide range of colours.

Simulación a madera ligeramente cepillada con una gran gama cromática.

Imite le bois légèrement raboté dans une large gamme chromatique.

SUPREME

High performance, wide format natural wood effect laminate flooring.

Cualidades de laminado con formato de madera natural de una lama ancha.

Qualités du stratifié au format d'une lame large de bois naturel.

RESIDENCE

Contemporary colours with elegant designs.

Colores actuales con diseños elegantes.

Couleurs actuelles, designs élégants.

STYLE

Synchronised designs and textures with a contemporary touch.

Diseños y relieves sincronizados con tonos de actualidad.

Design et reliefs synchronisés sur tons actuels.

Collections / Colecciones / Collections

REVELATION

Extremely durable, with avant garde designs and colours.

Gran resistencia con diseños y colores vanguardistas.

Grande résistance, designs et couleurs avant-gardistes.

ENDLESS

Natural finishes with effect of continuity between boards.

Acabados Natural con efecto continuo entre las lamas.

Finition Natural, effet continu entre lames.

GENUINE

Superior quality wood-effect decorative film with wide shade variations.

Gran calidad de película decorativa que simula madera con una alta destonificación.

Film décoratif de grande qualité qui imite le bois avec un délavage très prononcé.

QUERCUS

Laminated in size 15.9x138.3x0.8cm with a natural finish where knots are the main feature thanks to its design and texture

Laminado de formato 15,9x138,3x0,8cm que cuenta con un acabado natural donde los nudos son los protagonistas gracias a su dibujo y textura.

Laminé au format 15,9x138,3x0,8 cm avec une finition naturelle qui souligne les nœuds à travers le dessin et la texture.

07 Description of Finishes / Descripción Acabados / Description Finitions

-

LIFE

Laminate with texture similar to brushed wood.

Laminado con textura similar a la madera cepillada.

Stratifié dont la texture est semblable à celle du bois brossé.

BEVEL 4

Beveled cut on all 4 edges of the board in order to emphasize its size.

BISEL 4

Corte oblicuo en los 4 bordes de las lamas para resaltar el tamaño.

BISEAU 4

Coupe oblique sur les 4 bords des lames pour mettre en valeur la dimension.

BEVEL 2

Beveled cut on the long sides of the board in order to create a continuity effect.

BISEL 2

Corte oblicuo en los lados largos de las lamas para crear efecto de continuidad.

BISEAU 2

Coupe oblique sur la longueur des lames pour créer des effets de continuité.

MATT

Gloss-free laminate.

MATE

Laminado que carece de Brillo.

MAT

Stratifié non brillant.

Description of Finishes / Descripción Acabados / Description Finitions

TEXTURE
Laminate with texture similar to hand-smoothed wood.

TEXTURA
Laminado con textura similar a la madera desbastada a mano.

TEXTURE
Stratifié dont la texture est semblable à celle du bois dégrossi manuellement.

NATURAL
Laminate that imitates the surface of the wood.

NATURAL
Laminado que imita la superficie de la madera.

NATUREL
Stratifié qui imite la surface du bois.

SENSE & SENSE PLUS
Laminate which has a microstructured surface that is similar to that of natural wood pores. It gives the material a feel that is similar to wood, increased in relation to the Sense version.

Laminado que cuenta con una superficie microestructurada similar los poros de la madera natural. Otorga al material un tacto similar al de madera incrementado con respecto a la versión Sense.

Stratifié qui présente une surface microstructurée semblable à celle des pores du bois naturel. Il donne au matériau un toucher semblable à celui du bois, plus prononcé par rapport à la version Sense.

07 Key to Symbols / Descripción Iconos / Description des Symboles

-

20 YEAR WARRANTY
Quality product made of selected raw materials, guaranteeing its full performance in residential private use for 20 years in AC4 and AC5 models.

GARANTÍA 20 AÑOS
Producto de calidad, elaborado con materias primas seleccionadas, garantizando su uso pleno en vivienda por 20 años en los modelos AC4 y AC5 de uso privado.

GARANTIE 20 ANS
Produit de qualité élaboré avec des matières premières de choix, avec une garantie de 20 ans d'utilisation en logement privé sur les modèles AC4 et AC5.

5 YEAR WARRANTY
Quality product made of selected raw materials, guaranteeing its full performance for 5 years in the AC5 models for public use.

GARANTÍA 5 AÑOS
Producto de calidad, elaborado con materias primas seleccionadas, garantizando su uso pleno por 5 años en los modelos AC5 de uso público.

GARANTIE 5 ANS
Produit de qualité élaboré avec des matières premières de choix, avec une garantie de 5 ans sur les modèles AC5 d'utilisation publique.

FLOATING INSTALLATION
Installation system in which it is not necessary to glue the boards to the floor. They are installed on a foam and joined together.

INSTALACIÓN FLOTANTE
Sistema de instalación en el que no es necesario encolar las tablas al suelo. Se colocan sobre un foam unidas entre si.

SYSTÈME FLOTTANT
Système d'installation où il n'est pas nécessaire de coller les planches au sol. Elles doivent être posées sur une mousse, assemblées entre elles.

1 BOARD
Laminate format where only one board has been used to finish the entire base surface.

1 LAMA
Formato de laminado en el que se ha utilizado solo una tabla para completar toda la superficie de la base.

1 LAME
Format de stratifié où n'a été utilisée qu'une seule planche pour compléter toute la surface de la base.

2 BOARDS
Laminate format where the decorative layer has been divided into two smaller slats for finishing the base surface.

2 LAMAS
Formato de laminado en el que la capa decorativa se ha dividido en dos lamas de menor tamaño para completar la superficie de la base.

2 LAMES
Format de stratifié où la couche décorative a été divisée en deux lames plus petites pour compléter la surface de la base.

3 BOARDS
Laminate format where the decorative layer has been divided into three smaller slats for finishing the base surface.

3 LAMAS
Formato de laminado en el que la capa decorativa se ha dividido en tres lamas de menor tamaño para completar la superficie de la base.

3 LAMES
Format de stratifié où la couche décorative a été divisée en trois lames plus petites pour compléter la surface de la base.

SUITABLE RADIANT WATER FLOOR HEATING
Laminate that is suitable for installing on radiant water floor heating.

APTO CALEFACCIÓN RADIANTE POR AGUA
Laminado apto para su instalación sobre calefacción radiante por agua.

ADAPTÉ À UN PLANCHER CHAUFFANT À EAU
Stratifié adapté à une installation sur un sol chauffant à l'eau.

ENDLESS
Boards that have continuity between them, thus achieving the optical effect of much longer formats.

Lamas que tienen continuidad entre ellas, consiguiendo así un efecto óptico de formatos mucho más largos.

Lames continues qui présentent une continuité entre elles, ce qui permet d'obtenir un effet d'optique de formats beaucoup plus longs.

ANTI-STATIC FLOOR
Floor capable of dissipating excess electrical charges and spread them over the entire surface.

SUELO ANTIESTÁTICO
Suelo capaz de disipar los excesos de cargas eléctricas y repartirlos por toda la superficie.

SOL ANTISTATIQUE
Sol en mesure de dissiper les excès de charges électriques et de les répartir sur toute la surface.

AC4 ABRASION RESISTANCE LEVEL
Abrasion-resistance level as per Standard UNE-EN 13329.

NIVEL RESISTENCIA A LA ABRASIÓN AC4
Nivel de resistencia a la abrasión según norma UNE-EN 13329.

NIVEAU DE RÉSISTANCE À L'ABRASION AC4
Niveau de résistance à l'abrasion, conformément à la norme UNE-EN 13329.

AC5 ABRASION RESISTANCE LEVEL
Abrasion-resistance level as per Standard UNE-EN 13329.

NIVEL RESISTENCIA A LA ABRASIÓN AC5
Nivel de resistencia a la abrasión según norma UNE-EN 13329.

NIVEAU DE RÉSISTANCE À L'ABRASION AC5
Niveau de résistance à l'abrasion, conformément à la norme UNE-EN 13329.

FSC® CERTIFICATE
Independent (non-governmental) certificate that warrants to the consumer that forest products originate from rationally-used forests.

CERTIFICADO FSC®
Certificado independiente (no gubernamental) que garantiza al consumidor que los productos forestales proceden de montes aprovechados de forma racional.

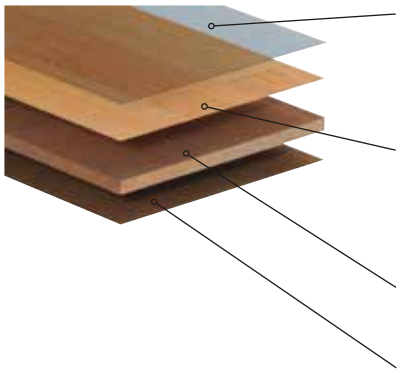
CERTIFICAT FSC®
Certificat indépendant (non gouvernemental) qui garantit au consommateur que les produits forestiers proviennent de montagnes exploitées de façon rationnelle.

PEFC CERTIFIED
PanEuropean Forest Certification that warrants the consumer the origin of the products from sustainably managed forests.

CERTIFICADO PEFC
Certificación Forestal Paneuropea que garantiza al consumidor la procedencia de los productos de masas forestales gestionadas de forma sostenible.

CERTIFICAT PEFC
Certification forestière paneuropéenne qui garantit au consommateur que les produits proviennent de forêts gérées de façon durable.

Composition / Composición / Composition



C1. Protective upper layer (overlay). Clear cellulose paper impregnated with melamine resin and aluminium dioxide and corundum particles.
Capa superior protectora (overlay). Papel de celulosa transparente impregnada con resina melamínica y partículas de dióxido de aluminio y corindón.
Couche de protection supérieure (overlay). Feuille de cellulose transparente imprégnée de résine de mélamine et de particules de dioxyde d'aluminium et corindon.

C2. Decorative layer. High-resolution printed paper impregnated with aminoplast resins. Some models also have 2 extra specially impregnated layers.
Laminado decorativo. Papel impreso de alta definición impregnado en resinas aminoplásticas. Algunos modelos llevan además 2 capas de estrazas especialmente impregnadas.
Film décoratif. Papier imprimé haute dénition imprégné de résines aminoplastiques. Certains modèles comportent également 2 couches de papier kraft spécialement imprégné.

C3. Core layer. High density fibreboard (HDF) and water-repellent glues. 7-10mm.
Placa base. Tablero de fibra de alta densidad (HDF) y colas hidrófugas. 7-10mm.
Plaque de base. Panneau en bre haute densité (HDF) et colles hydrofuges. 7-10 mm.

C4. Balancing layer. Sheet of Kraft paper impregnated with various layers of resins.
Lamina de contracción. Hoja de papel kraft impregnado con resinas en varias capas.
Stratié de contraction. Feuille en papier kraft imprégnée de plusieurs couches de résines.

-Tool-free installation system. / ***Montaje sin herramientas.*** / *Montage sans outils.*
-Very quick to lay. / ***Muy rápida instalación.*** / *Installation très rapide.*
-Professional end results. / ***Acabado profesional.*** / *Finition professionnelle.*
-Easy to lay and just as easy to take up. / ***Tan sencillo de instalar como de desinstalar.*** / *Aussi simple à poser qu'à retirer.*
-Secure locking system on all four sides of the boards. / ***Uniones seguras en los cuatro lados de las lamas.*** / *Unions sûres sur les quatre côtés des lames.*
-Can be bonded to the floor. / ***Se puede pegar al suelo*** / *Le produit peut être collé sur le sol.*

One of the easiest, most secure installation systems on the market. Just angle boards against the long side of the previously fitted one and press down gently. No tools are needed. The boards will lock into place and remain firmly secure, thanks to the tongue and groove system. The flooring is just as swift and easy to take up.

Es uno de los sistemas de más fácil instalación y seguro del mercado. Tan sólo se tiene que ajustar la lama que se va a instalar en sentido longitudinal a la ya colocada ejercer una suave presión sin ningún tipo de herramienta. Las dos piezas encajarán y quedarán sujetas gracias a la lengüeta de seguridad. Su desinstalación es igual de sencilla, lo que permite que sea desmontado rápidamente.

Système parmi les plus simples à poser et les plus sûrs du marché. Il suffit de positionner la lame à installer dans le sens de la longueur contre une lame déjà posée et d'exercer une légère pression sans aucun type d'outillage. Les deux pièces s'emboîtent et restent unies grâce à une languette de sécurité. Le démontage est tout aussi simple, ce qui permet un retrait rapide.

One of the main features of this easy-to-install system is the long-lasting secure locking mechanism, ensuring that no gaps appear between the boards during the floor's useful life. Pressure is exerted on the boards when fitted, locking them securely into place and preventing them from being wrongly aligned.

La seguridad y la durabilidad de unión entre juntas son las principales características de este sistema de fácil instalación que garantiza la eliminación de las rendijas entre las lamas durante toda la vida útil del suelo. La presión que se ejerce entre las lamas refuerza la unión e impide que ésta no se realice de forma incorrecta.

La sécurité et la durabilité du raccord entre les planches constituent les principales caractéristiques de ce système facile à poser qui garantit l'élimination de fentes entre les planches tout au long de la vie utile du revêtement de sol. La pression exercée entre les planches renforce leur assemblage et empêche toute erreur de pose.

Substrates / Subsuelos / Sous-Couches

Antistatic Underfloor Heating Layer
Lamina Suelo Radiante Antiestática
Sous-Couche Plancher Rayonnant Antistatique

25m2 - 100175300 - L165003722 - G-169

A lining made of recycled closed-cell rubber with an aluminium layer that dissipates heat and eliminates static electricity. This protection can be used over underfloor heating and reduces impact noise by 26dB airborne noise by 22dB.

Lámina realizada con caucho reciclado de celda cerrada que cuenta con una capa de aluminio capaz de repartir el calor y eliminar la electricidad estática. Esta protección se puede utilizar sobre suelo radiante y reduce el sonido de impacto en 26dB y el aéreo en 22dB.

Sous-couche en caoutchouc recyclé à cellules fermées composée d'une couche d'aluminium capable de répartir la chaleur et d'éliminer l'électricité statique. Cette protection peut être utilisée sous un plancher rayonnant, elle réduit les sons d'impact de 26dB et les sons aériens de 22dB.

Sous-Couche Anti-Humidité + Mousse
Lamina Antihumedad + Espuma

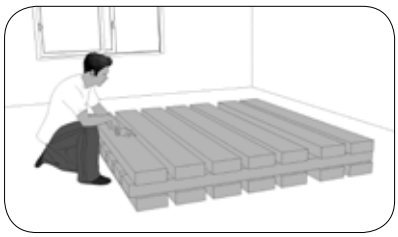
BEFORE INSTALLING

ANTES DE INSTALAR

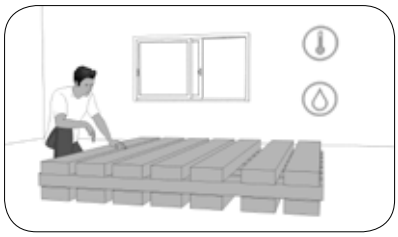
AVANT DE L'INSTALLATION



1. Receiving and storage: verify the material and the installation location.

1. Recepción y almacenaje: verificar material y lugar de la instalación.

1. Réception et stockage: vérifier le matériel et le lieu de l'installation.



2. Climatic conditions: Temp. 20-23°C/65-80°F; 40-60% relative humidity.

2. Condiciones climáticas: Tª 20-23°C/65-80F°; Humedad relativa 40-60%.

2. Conditions climatiques: Température: 20-23°C/65-80°F; humidité relative: 40-60%.

3. Subfloor

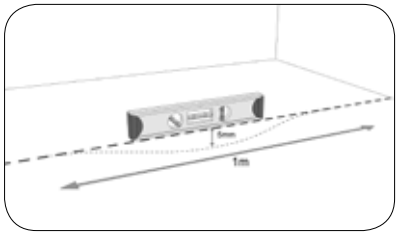
3. Subsuelo

3. Sous-sol

Measure humidity with a hygrometer. Max 2,5%.

Medir humedad con un higrómetro. Max 2,5%.

Mesurer l'humidité avec un hygromètre. Max 2,5%.



Flatness and horizontality: max. deflections admitted, 5mm and 1mm.

Planimetría y horizontalidad: como max. flechas de 5mm y 1mm.

Planimétrie et horizontalité: avec des flèches d'un maximum de 5mm et 1mm.

3.1 Cleaning: clean base slab, and free from elements.

3.1 Limpieza: solera limpia y libre de elementos.

3.1 Nettoyage: lisse de terre propre et dépourvue d'éléments.

4. Direction of the installation: Boards arranged longitudinally in relation to the main light source.

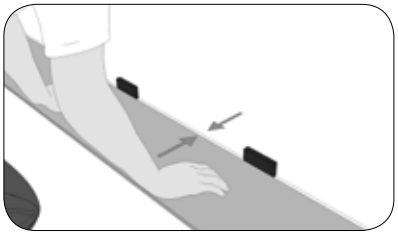
4. Sentido de la instalación: lamas dispuestas en sentido longitudinal con respecto a la fuente de luz principal.

4. Sens de l'installation: lames disposées en sens longitudinal par rapport à la source de lumière principale.

5. Planning the installation

5. Planificación de la instalación

5. Planification de l'installation



5.1 Perimeter joint: leave at least 1cm.

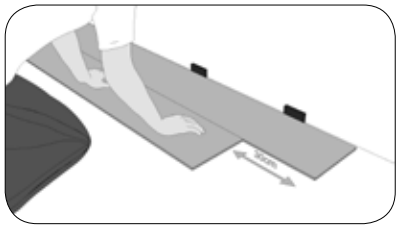
5.1 Junta perimetral: dejar como mínimo 1cm.

5.1 Joint périphérique: laisser minimum 1cm.

5.2 Expansion joints, lengthwise every 12m and cross-wise every 8m. Minimum width 15mm. Where to install them: start of corridors, doorway areas, narrowing between partition walls that separate one single space.

5.2 Juntas de expansión cada 12m longitudinales y 8 transversales. Ancho mínimo 15mm. Lugares para colocar los arranques de pasillos, zonas de paso de puertas, estrechamientos entre tabiques que separan un mismo espacio.

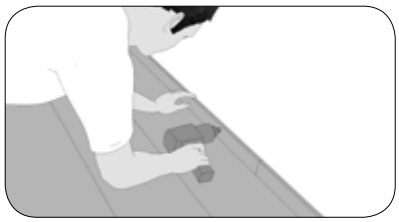
5.2 Joints de dilatation tous les 12m longitudinaux et 8m transversaux. Largeur minimale : 15mm. Lieux pour la mise en place des naissances des couloirs, des zones de passage des portes, des rétrécissements entre les cloisons qui séparent une même pièce.



5.3 Offset: the installation shall advance so that the ends of each board are separated at least 30cm from the next one.

5.3 Decalaje: la colocación debe progresar de forma que los extremos de cada tabla queden separados respecto a la siguiente de 30cm.

5.3 Décalage: lors de la pose, les extrémités de chaque planche doivent être séparées de 30cm par rapport à la suivante.



5.4 Skirting boards nailed to the wall using a pneumatic gun.

5.4 Zócalos clavados a la pared mediante pistola neumática.

5.4 Socles cloués au mur avec une cloueuse à air comprimé.

INSTALLATION

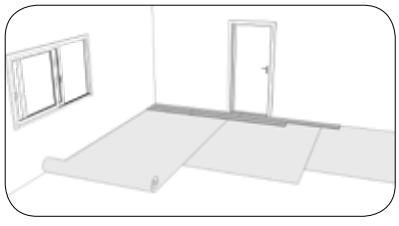
INSTALACIÓN

INSTALLATION

1. Floating system

1. Sistema flotante

1. Système flottant

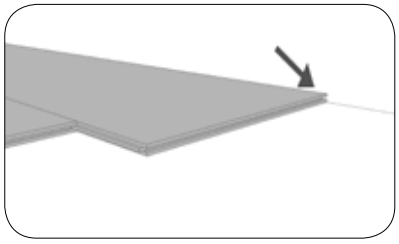


Installation / Instalación / Installation

1.1. We recommend installing the L'Antic Colonial sheet, whether it is the moisture barrier+foam sheet or the antistatic radiant-floor film.

1.1 Se recomienda la instalación de la lámina de L´Antic Colonial. Ya sea la lámina anti-humedad+ espuma o la lámina de suelo radiante antiestática.

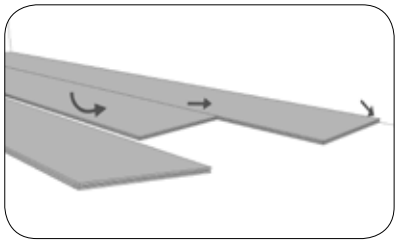
1.1 Il est recommandé d'installer la lame de L'Antic Colonial. Soit la lame anti-humidité + mousse, soit la lame de plancher rayonnant anti-statique.



1.2 Start the installation always with the female toward the wall. Minimum distance of 10mm using wedges.

1.2 Iniciar instalación con las hembras hacia la pared. Distancia mínima de 10mm mediante cuñas.

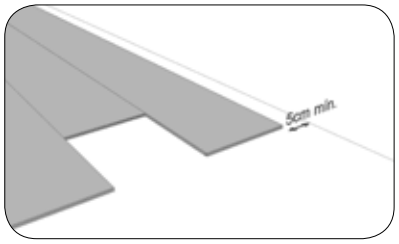
1.2 Commencer l'installation avec les femelles vers le mur. Distance minimale : 10 mm avec des cales.



1.3 On the third board and the rest, use the same installation method. The first rows shall be perfectly straight and be parallel. Check with the ruler.

1.3 En la tercera lama y las siguientes deberá efectuar la misma colocación. Las primeras hileras tienen que estar rigurosamente rectas y ser paralelas. Controlar con la regla.

1.3 Vous devez effectuer la même pose à la troisième lame et les suivantes. Les premières files doivent être rigoureusement droites et être parallèles. Le contrôler avec la règle.



1.4 Measure installation area, because the width of the boards on the last row cannot be under 5cm. Take into account the 10mm minimum distance to the wall.

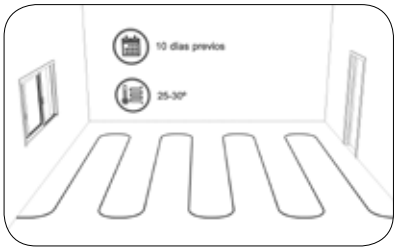
1.4 Medir área de instalación ya que el ancho de las lamas de la última hilera no debe ser inferior a 5cm. Tener en cuenta la distancia mínima con la pared de 10mm.

1.4 Mesurer l'aire d'installation; la largeur des lames de la dernière file ne doit pas être inférieure à 5cm. Prendre en considération la distance minimale avec le mur de 10mm.

2. Radiant floor heating

2. Suelo radiante

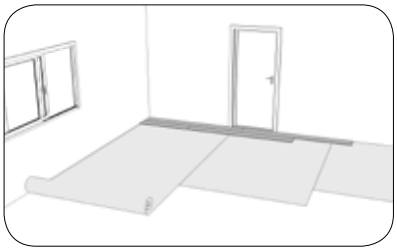
2. Plancher rayonnant



2.1 Turn on the radiant system to 25-30°C, 10 days before installing.

2.1 Encender el sistema radiante 10 días previos a la instalación a 25-30°C.

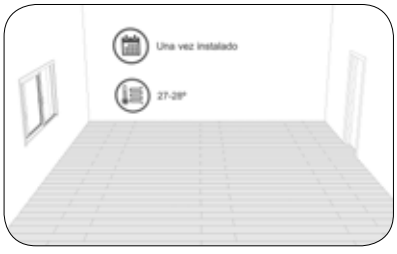
2.1 Allumer le système de chauffage rayonnant 10 jours avant l'installation à 25-30°C.



2.2. We recommend installing the L'Antic Colonial antistatic radiant-floor film.

2.2 Se recomienda la instalación de la lámina para suelo radiante antiestática de L´Antic Colonial.

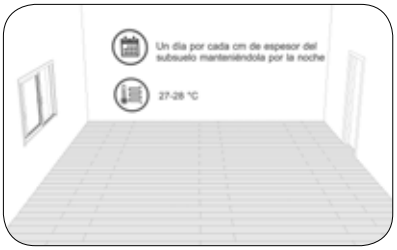
2.2 Il est recommandé d'installer la lame pour plancher rayonnant anti-statique de L'Antic Colonial.



2.3. Once the floor is installed, increase the temperature by 2-3°C per day until reaching the maximum temperature (27-28°C).

2.3 Una vez instalado el pavimento incrementar la Tª 2-3°C al día hasta llegar al máximo (27-28ºC).

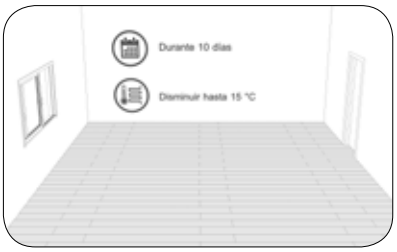
2.3 Après l'installation du revêtement pour le sol, augmenter la température entre 2 et 3°C chaque jour jusqu'à atteindre la température maximale (27-28°C).



2.4 Once the max temperature is reached (27-28°C,) it must be maintained one day per cm of thickness of the sub-floor (overnight).

2.4 Una vez alcanzada la Tª max (27-28ºC) mantener un día por cada cm de espesor del subsuelo (por la noche).

2.4 Dès que la température maximale (27-28°C) est atteinte, la maintenir une journée pour chaque centimètre d'épaisseur du sous-sol (la nuit).



2.5 Lastly, the temperature must be lowered 2-3°C until the floor reaches 15°C (about 10 days.)

2.5 Por último, disminuir la Tª 2-3°C hasta que el suelo alcance los 15°C (unos 10 días).

2.5 Finalement, diminuer la température entre 2 et 3°C jusqu'à ce que la température du sol arrive à 15°C (environ 10 jours).

CONTRACT

An extremely tough imitation of braided textile.

Simulación de material textil trenzado de gran resistencia.

Imitation de matériel textile tressé haute résistance.

ROLL CONTRACT

Imitation woven textile effect, in a bonded 2 x 10 metres roll.

Simulación de material textil trenzado, montado sobre un formato enrollado de 2 x 10 metros.

Imitation de matériau textile tressé, monté sur un format enroulé de 2 x 10 mètres.

WALL CONTRACT

Designed to be installed on walls, ceilings and furniture. It is produced in roll format, 30 meters long and 1 meter width.

Diseñado para ser aplicado sobre paramentos verticales, techos y muebles. Tiene un formato de 30 metros de largo por 1 metro de ancho.

Conçu pour être appliqué sur les parements verticaux, les plafonds et les meubles. Il est fabriqué en format de 30 mètres de longueur sur 1 mètre de largeur.

WALL CONTRACT CUSTOM

A custom image is included via digital printing which blends perfectly with the vinyl fabric. Size 98x300cm

Se incorpora una imagen personalizada mediante impresión digital que se funde a la perfección con el tejido vinílico. Formato de 98x300cm.

Une image personnalisée est intégrée par impression numérique pour se fondre à la perfection avec le tissu vinylique. Format de 98x300 cm

LOOSE LAY CONTRACT

4.2mm thick 50x50cm pieces. Textile feeling with all the benefits of vinyl.

Láminas de 50x50cm con espesor de 4,2 mm. Proporciona la sensación del textil y todas las ventajas del vinilo.

Dalles de 50x50cm et d'une épaisseur de 4,2 mm. Elles apportent l'agréable sensation d'un textile en ayant tous les avantages du vinyle.

OAK

Water-resistant and easy to lay, it imitates a natural wood finish.

Aspecto de madera natural, resistente al agua y de fácil instalación.

Aspect du bois naturel, résistant à l'eau et facile à poser.

HOTEL AIR

The look of brushed wood in a 100% waterproof floor.

Aspecto de madera cepillada y 100% resistente al agua.

Aspect du bois raboté et 100% résistant à l'eau.

EMPIRE

Vinyl material which simulates wood and is highly water resistant. Empire has a large size of 22.8x180cm.

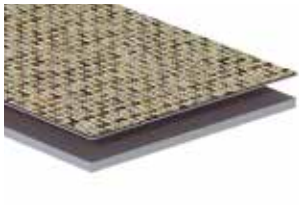
Material vinílico que simula la madera y posee gran resistencia al agua. Empire cuenta con un gran formato de 22,8x180cm.

Matériau vinylique effet bois extrêmement résistant à l'eau. Empire est disponible en grand format de 22,8x180 cm.

Composition / Composición / Composition

LINKFLOOR flooring by L'Antic Colonial consists of different layers depending on the model.
Los pavimentos LINKFLOOR de L'Antic Colonial se componen de diferentes capas dependiendo del modelo.
Les revêtements de sol LINKFLOOR de L'Antic Colonial sont composés de différentes couches en fonction du modèle.

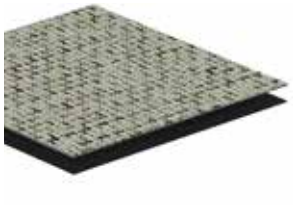
CONTRACT



C1. Vinyl fabric consisting of a vinyl compact encapsulated polyester core. 1mm.
Tejido de vinilo compuesto por un núcleo de poliester encapsulado en un compacto de vinilo. 1mm.
Tissu en vinyle composé d'un noyau en polyester entouré d'une enveloppe en vinyle. 1 mm.

C2. Rigid PVC. 4mm.
PVC Rígido. 4mm.
PVC Rigide. 4 mm.

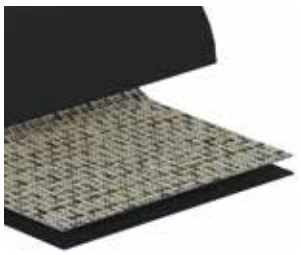
LOOSE LAY CONTRACT



C1. Vinyl fabric consisting of a vinyl compact encapsulated polyester core. 1,3 mm.
Tejido de vinilo compuesto por un núcleo de poliester encapsulado en un compacto de vinilo. 1,3 mm.
Tissu en vinyle composé d'un noyau en polyester entouré d'une enveloppe en vinyle. 1,3 mm.

C2. PVC vinyl with polyester and fibreglass internally. 2,9 mm.
Soporte vinílico de PVC con interior de poliéster y fibra de vidrio. 2,9 mm.
Support vinylique en PVC avec intérieur en polyester et fibre de verre. 2,9 mm.

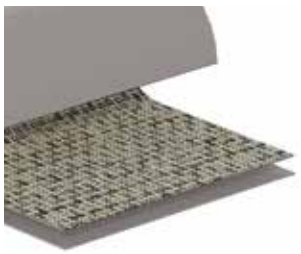
ROLL CONTRACT



C1. Vinyl fabric consisting of a vinyl compact encapsulated polyester core. 1,8 mm.
Tejido de vinilo compuesto por un núcleo de poliester encapsulado en un compacto de vinilo. 1,8 mm.
Tissu en vinyle composé d'un noyau en polyester entouré d'une enveloppe en vinyle. 1,8 mm.

C2. PVC vinyl with polyester and fibreglass internally. 0.7 mm.
Soporte vinílico de PVC con interior de poliéster y fibra de vidrio. 0,7 mm.
Support vinylique en PVC avec intérieur en polyester et fibre de verre. 0,7 mm.

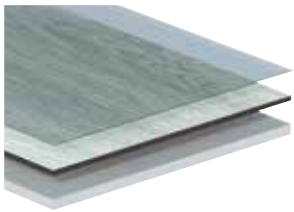
WALL CONTRACT



C1. Vinyl 90% PVC FR, 2% Polyester, 8% Glassfibery. 1,3 mm.
Vinilo 90 % PVC FR, 2 % Poliéster, 8% Fibra de vidrio. 1,3 mm.
Vinyle 90 % PVC FR, 2 % Polyester, 8% Fibre de berre. 1,3 mm.

C2. Polyester Backing: 100% Polyester. 0,4 mm.
Base de poliéster: 100 % Poliéster. 0,4 mm
Base en polyester : 100 % polyester. 0,4 mm.

OAK



C1. Vinyl protected with polyurethane. 0,2 mm.
Vinilo protegido con poliuretano. 0,2 mm.
Vinyle protégé par du polyuréthane. 0,2 mm.

C2. Decoration plus vinyl. 2 mm.
Decoración más vinilo. 2 mm.
Décoration plus vinyle. 2 mm.

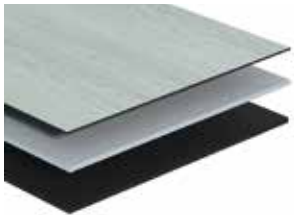
C3. Rigid PVC. 3,5 mm.
PVC Rígido. 3,5 mm.
PVC Rigide. 3,5 mm.

HOTEL AIR

C1. 0,3-0,55 mm decorative vinyl layer.
Capa decorativa vinílica de 0,3-0,55 mm.
Couche décorative vinylique de 0,3-0,55mm.

C2. PVC and vinyl base panel. 4,4-4,7 mm.
Placa base de PVC con fibra de vídrio. 4,4-4,7 mm.
Plaque de base en PVC et bre de verre. 4,4-4,7 mm.

EMPIRE



C1. 1,5mm LVT

C2. 4,5mm WPC

C3. 1,5mm EVA

Et Voilà

One of the main features of this easy-to-install system is the long-lasting secure locking mechanism, ensuring that no gaps appear between the boards during the floor's useful life. Pressure is exerted on the boards when fitted, locking them securely into place and preventing them from being wrongly aligned.

La seguridad y la durabilidad de unión entre juntas son las principales características de este sistema de fácil instalación que garantiza la eliminación de las rendijas entre las lamas durante toda la vida útil del suelo. La presión que se ejerce entre las lamas refuerza la unión e impide que ésta no se realice de forma incorrecta.

La sécurité et la durabilité du raccord entre les planches constituent les principales caractéristiques de ce système facile à poser qui garantit l'élimination de fentes entre les planches tout au long de la vie utile du revêtement de sol. La pression exercée entre les planches renforce leur assemblage et empêche toute erreur de pose.

-

LIFE

Laminate with texture similar to brushed wood.

Laminado con textura similar a la madera cepillada.

Stratifié dont la texture est semblable à celle du bois brossé.

NATURAL

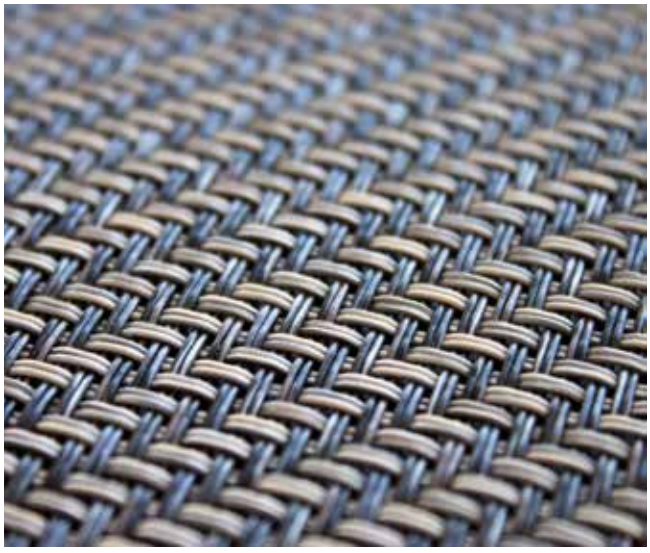
Floor that imitates the surface of the wood.

NATURAL

Suelo que imita la superficie de la madera.

NATUREL

Sol qui imite la surface du bois.



TEXTILE

Weaved material.

TEXTIL

Material trenzado.

TEXTILE

Matériau tressé.

WET

Water and moistureresistant flooring suitable for humid areas such as bathrooms and kitchens.

Suelo resistente al agua y a la humedad, apto para zonas húmedas como baños y cocinas.

Plancher résistant à l'eau et l'humidité, convient aux zones humides telles que les salles de bain et cuisines.

Key To Symbols / Descripción de Iconos / Description des Symboles

FLOATING INSTALLATION
Installation system in which it is not necessary to glue the pieces to the floor. Removal is much more dynamic, making repairs easier and making it the ideal system for refurbishments.

INSTALACIÓN FLOTANTE
Sistema de instalación en el que no es necesario encolar las piezas al suelo. La desinstalación es mucho más dinámica facilitando las reparaciones y convirtiéndolo en el sistema ideal para reformas.

SYSTÈME FLOTTANT
Système d'installation où il n'est pas nécessaire de coller les pièces au sol. Le démontage est beaucoup plus dynamique et facilite les réparations, ce qui en fait un système idéal pour les travaux de rénovation.

15 YEAR WARRANTY
Quality product, made with selected raw materials, guaranteeing its full performance in residential use for 15 years.

GARANTÍA 15 AÑOS
Producto de calidad, realizado con materias primas seleccionadas, garantizando su uso pleno en vivienda por 15 años.

GARANTIE 15 ANS
Produit de qualité élaboré avec des matières premières de choix, avec une garantie de 15 ans d'utilisation en logement.

SUITABLE RADIANT WATER FLOOR HEATING
Suitable for installing on radiant water floor heating.

APTO CALEFACCIÓN RADIANTE POR AGUA
Apto para su instalación sobre calefacción radiante por agua.

ADAPTÉ À UN PLANCHER CHAUFFANT À EAU
Adapté à une installation sur un sol chauffant à l'eau.

ANTI-STATIC FLOOR
Floor capable of dissipating excess electrical charges and spread them over the entire surface.

SUELO ANTIESTÁTICO
Suelo capaz de disipar los excesos de cargas eléctricas y repartirlos por toda la superficie.

SOL ANTISTATIQUE
Sol en mesure de dissiper les excès de charges électriques et de les répartir sur toute la surface.

ROLL
Roll format.

ROLLO
Formato en rollo

ROLEAU
Format en rouleau

GLUING
Required apply adhesive for installation.

ENCOLADO
Es necesario aplicar adhesivo para su instalación.

COLLAGE
Il faut appliquer adhésif pour l'installation.

SLIGHT COLOR VARIATION
There are slight color changes between pieces.

VARIACIÓN DE TONO LIGERA
Existen cambios de color suaves entre piezas.

LÉGÈRE VARIATION DE TONALITÉ
Il existe de légers changements de couleur entre les pièces.

MODERATE COLOR VARIATION
There are consistent color changes between pieces.

VARIACIÓN DE TONO MODERADA
Existen cambios de color regulares entre piezas.

VARIATION DE TONALITÉ MODÉRÉE
Il existe des changements de couleur réguliers entre les pièces.

STRONG COLOR VARIATION
There are noticeable color changes between pieces.

VARIACIÓN DE TONO FUERTE
Existen cambios de color importantes entre piezas.

FORTE VARIATION DE TONALITÉ
Il existe d'importants changements de couleur entre les pièces.

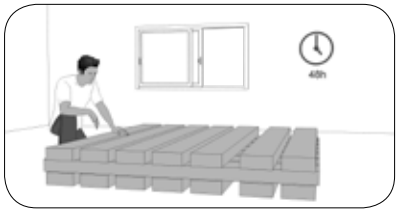
ANTES DE LA INSTALACIÓN

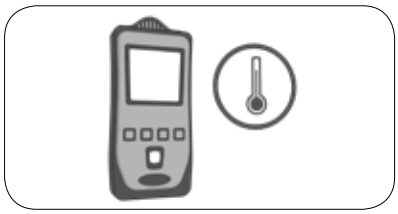
AVANT DE COMMENCER LA POSE



The material must be climatized to the temperature of the setting where it will be installed for 48h beforehand.

Material acondicionado a temperatura del entorno donde se va a instalar durante las 48h previas.

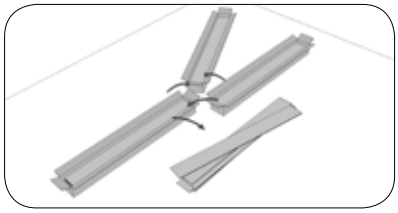
Matériel aménagé à la température de l'endroit où il sera installé au cours des 48h préalables.



Optimal conditions: Temp. 20-23°C/65-80°F and 40-60% relative humidity.

Condiciones óptimas 20-23ºC/65-80ºF y 40-60% de humedad.

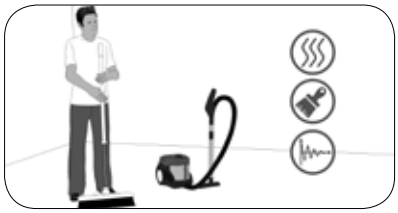
Conditions optimales : 20-23°C/65-80°F et 40-60% d'humidité.



Open several packages and mix pieces before installing.

Abrir varios paquetes y mezclar piezas antes de la instalación.

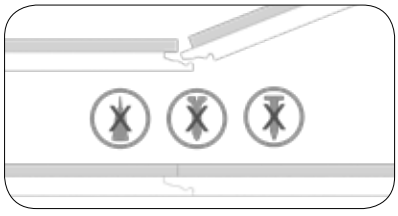
Ouvrir les paquets et mélanger les pièces avant l'installation.



Dry and moisture-free, compact and resistant, clean and dust-free surface.

Superficie seca y sin humedad, compacta y resistente, limpia y sin polvo.

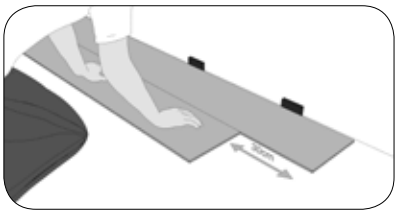
La surface doit être sèche et sans humidité, compacte et résistance, propre et sans poussière.



Do not set the anchors with nails, screws, or glues.

No fijar los anclajes con clavos, tornillos o colas.

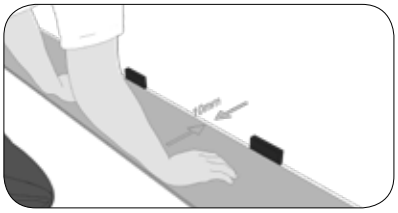
Ne pas fixer les ancrages avec des clous, des vis ou de la colle.



Stagger from the joint, no less than 30cm between pieces.

Escalonar desde la junta, distancias no inferiores de 30cm entre piezas.

Échelonner à partir du joint, la distance entre les pièces ne doit pas être inférieure à 30cm.



Keep a distance of 1 cm to all structural elements from all perimeter edges (in the case of semi-open spaces leave a larger perimeter separation, 0.5mm per linear meter of the area where the floor is being installed.)

Expansion joints in all the door thresholds and mandatorily every 8m lengthwise and/or cross-wise.

Mantener distancia de 1cm a todos los elementos estructurales desde todos los bordes del perímetro (en espacios semiabiertos dejar mayor separación perimetral: 0,5mm por metro lineal de la zona donde se instale el suelo).

Juntas de dilatación en todos los pasos de puerta y obligatoriamente cada 8m en sentido longitudinal y/o transversal.

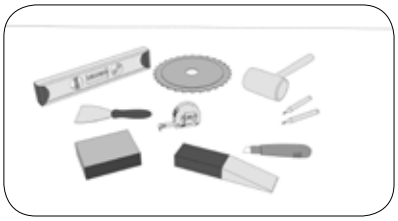
Conserver une distance de 1 cm de tous les éléments structurels depuis tous les bords du périmètre (dans des espaces semi-ouverts, laisser une séparation périmétrale plus grande: 0,5mm par mètre linéaire de la zone où le revêtement sera mis en place).

Joints de dilatation sur tous les passages de porte et obligatoirement tous les 8m en sens longitudinal et/ou transversal.

INSTALLATION

INSTALACIÓN

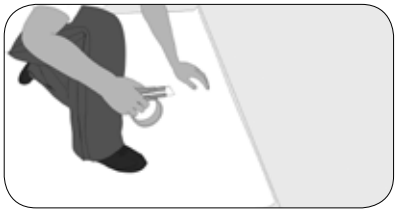
POSE



Tools: tape measure, pencil, saw, hammer, sealant, level, spacer wedges, and if possible, a padfoot, and a nylon stud.

Herramientas: cinta métrica, lápiz, sierra, martillo, sellador, nivel, cuñas espaciadoras y, si es posible, una pata de cabra y taco de nylon.

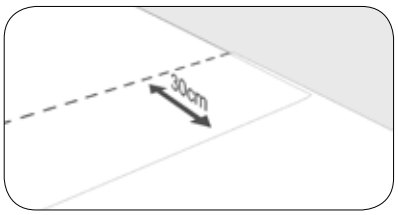
Outils: mètre, crayon, scie, marteau, appareil à souder, niveau, cales et, si c'est possible, pied de biche et cheville en nylon.



We recommend installing the L'Antic Colonial sheet, whether it is the moisture barrier+foam sheet or the antistatic radiant-floor film.

Se recomienda la instalación de la lámina de L´Antic Colonial. Ya sea la lámina anti-humedad+espuma o la de suelo radiante antiestática.

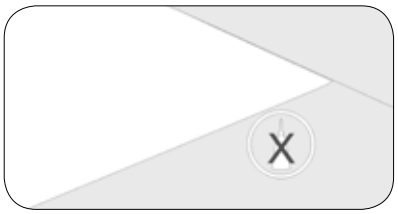
Il est recommandé d'installer la lame de L'Antic Colonial. Soit la lame anti-humidité+mousse, soit la lame de plancher rayonnant anti-statique.



Overlap the film about 30cm.

Solapar el film unos 30cm.

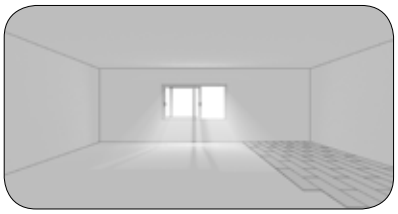
Chevaucher le film environ 30cm.



Always install the material floating, without glue below the surface.

Colocar el material de manera flotante, sin pegamento debajo de la superficie.

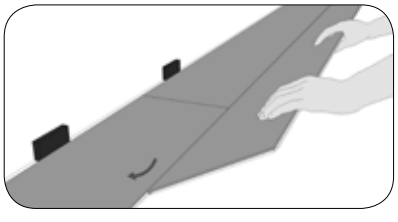
Poser le matériel en flottaison et sans colle sous la surface.



Positioned the pieces longitudinally with respect to the light entrance whenever possible.

Posicionar las piezas longitudinalmente respecto a la entrada de luz, siempre que sea posible.

Placer les pièces longitudinalement par rapport à l'entrée de lumière, lorsque cela est possible.



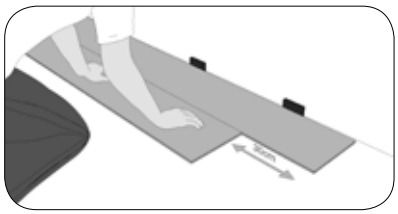
After having aligned the first row with the help of a level, install the second one using the left-over piece.

Tras haber alineado la primera fila con

Installation / Instalación / Installation

la ayuda de un nivel, colocar la segunda, usando la pieza sobrante.

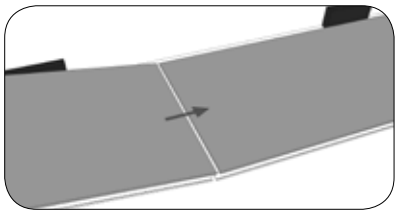
Après avoir aligné la première file à l'aide d'un niveau, placer la deuxième en utilisant la pièce en trop.



The piece joints between 2 rows shall be at least about 30cm apart.

Las juntas de las piezas entre 2 filas deben distar unos 30cm como mínimo.

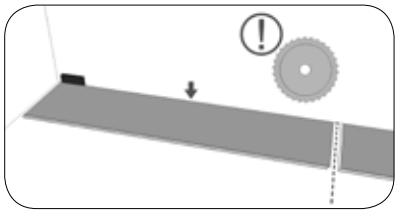
Les joints des pièces entre deux files doivent être à une distance minimale de 30cm.



Install the first piece slightly diagonally, tighten, and gently swing. Proceed the same way with the second board, and position the head in front of the previous piece.

Instalar la primera pieza ligeramente en diagonal, apretar y balancear suavemente. Proceder de la misma forma con la segunda tabla, y posicionar la cabeza en frente de la pieza anterior.

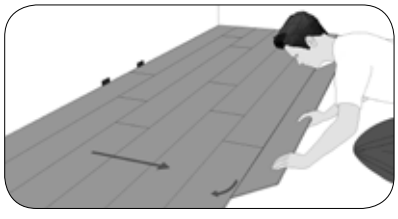
Installer la première pièce légèrement en diagonale, serrer puis balancer doucement. Installer la deuxième planche de la même manière et placer la tête face à la pièce précédente.



Cut the piece needed to complete the first row of the shortest wall of the room where it is being installed.

Cortar la pieza, necesaria para completar la primera fila, en la pared más corta de la habitación.

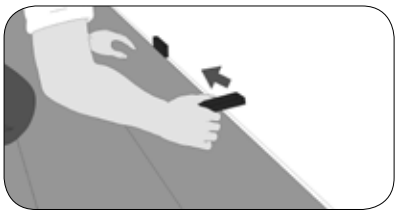
Couper la pièce, nécessaire pour compléter la première file, sur la cloison plus courte de la chambre.



Join the pieces laterally with a 45° movement, until you feel the closing click, aligning with the wedges from the wall. The distance to the wall shall be at least 1cm.

Juntar las piezas lateralmente con un movimiento de 45°, hasta notar el cierre del clic, alineando con las cuñas desde la pared. Distancia hasta la pared de 1cm como mínimo.

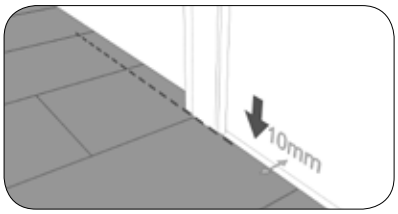
Unir les pièces latéralement avec un mouvement de 45°, jusqu'à entendre la fermeture du clic, en les alignant avec les cales à partir du mur. Distance minimale jusqu'au mur: 1cm.



Remove the spacer wedges after finishing the installation.

Retirar las cuñas espaciadoras después de completar la instalación.

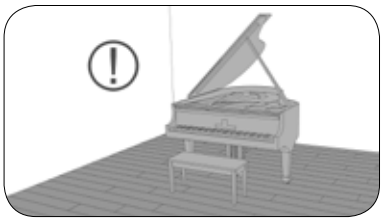
Enlever les cales après la mise en place de l'installation.



Cut the doors moldings at floor height, and when installing the plank that goes under the moldings, measure the distance to the wall and give it at least 10mm of space.

Cortar las tapetas de las puertas, a la altura del suelo, y al instalar la tabla que va bajo las tapetas, medir la distancia hasta la pared y darle los 10mm mínimos de espacio.

Couper les couvre-joints des portes, à la hauteur du sol. Lors de l'installation de la planche qui va sous les couvre-joints, mesurer la distance jusqu'au mur et ajouter les 10mm minimaux d'espace.



Place a rug under tables and chairs, etc... In case of heavy furniture, do not drag them directly on the installed floor.

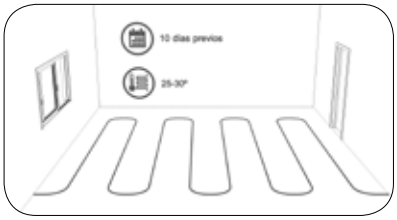
Poner una alfombra bajo las mesas y sillas, etc... En caso de posicionar muebles pesados, no arrastrarlos directamente sobre el suelo instalado.

Mettre un tapis sous les tables et les chaises, etc. S'il faut placer des meubles lourds, ne pas les déplacer directement sur le plancher posé.

RADIANT FLOOR HEATING

CALEFACCIÓN RADIANTE

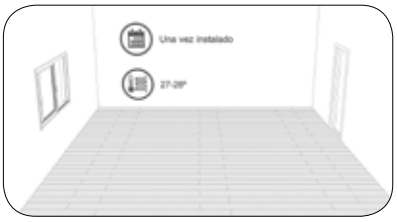
CHAUFFAGE RADIANT



Activate to 25-30°C during the 10 days prior to the installation. We recommend installing the L'Antic Colonial antistatic radiant-floor film.

Activar a 25-30°C durante los 10 días previos a la instalación. Recomendamos colocar la Lámina para Suelo Radiante Antiestática de L´Antic Colonial.

Activer la température à 25-30°C pendant les dix jours préalables à la pose. Il est recommandé d'installer la lame pour plancher rayonnant anti-statique de L'Antic Colonial.



After installing turn the heating on gradually, increasing the temperature by 2-3°C each day, up to about 28°C.

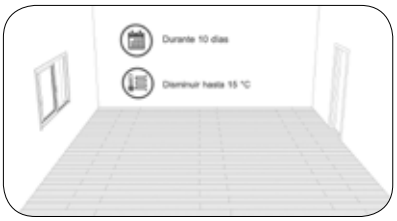
Tras las instalación, encender *la calefacción gradualmente, incrementando la temperatura 2-3°C cada día, hasta unos 28°C.*

Après la pose, allumer le chauffage graduellement, en augmentant la température entre 2 et 3°C chaque jour jusqu'à atteindre environ 28°C.

Keep at least one day per cm of thickness of the sub-base, and keep overnight.

Mantener como mínimo un día por cada cm de espesor del subsuelo, y mantener durante toda la noche.

Maintenir la température au moins un jour pour chaque centimètre d'épaisseur du sous-sol pendant toute la nuit.



Next, the temperature must be lowered 2-3°C daily until the floor reaches 15°C (about 10 days.)

A continuación, disminuir la temperatura 2-3°C diarios hasta que el suelo alcance los 15°C (unos 10 días).

Ensuite, diminuer la température entre 2 et 3°C jusqu'à ce que la température du sol arrive à 15°C (environ 10 jours).

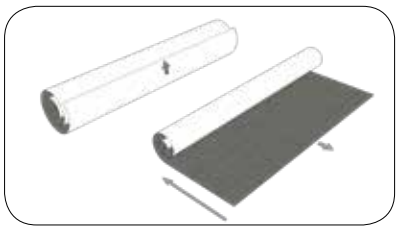
-

BEFORE INSTALLING

ANTES DE INSTALAR

AVANT L'INSTALLATION



Install the product in the correct direction (arrow marked on back).

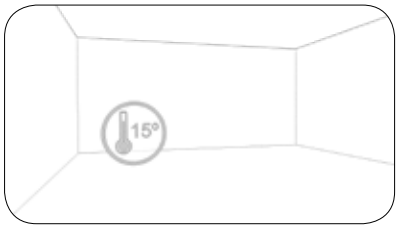
Colocar el producto en el sentido correcto (flecha marcada en parte trasera).

Poser le produit dans le sens correct (flèche marquée sur la partie arrière).

Clean, dry surface.

Superficie limpia y seca.

La surface doit être propre et sèche.



15°C maximum temperature.

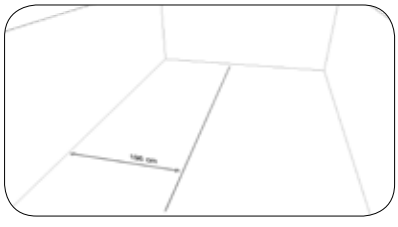
Temperatura máxima de 15ºC.

Température maximale: 15°C.

INSTALLING THE ROLL

INSTALACIÓN DEL ROLLO

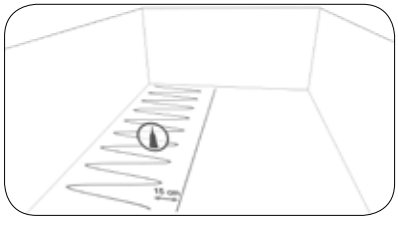
INSTALLATION DU ROULEAU



1. Draw a 196cm line from the wall.

1. Dibujar una línea de 196cm desde la pared.

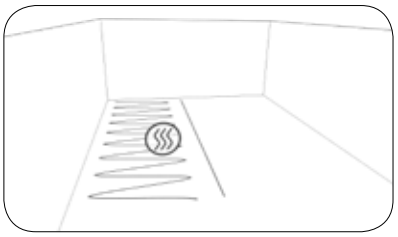
1. Dessiner une ligne de 196cm depuis le mur.



2. Apply the Slc Eco Grinkol glue on the entire surface of the roll except on the 15cm of margin from the line.

2. Aplicar el pegamento Slc Eco Grinkol en toda la superficie del rollo excepto en los 15cm de margen desde la línea.

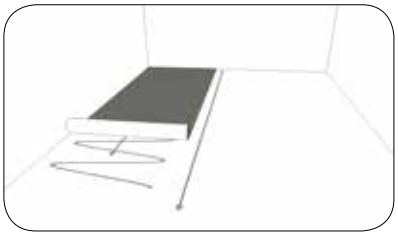
2. Mettre de la colle Slc Eco Grinkol sur toute la surface du rouleau, en laissant une marge de 15cm depuis la ligne.



3. Allow the glue to air-dry.

3. Dejar airear el pegamento.

3. Laisser la colle s'aérer.



4. Apply the flooring following the line.

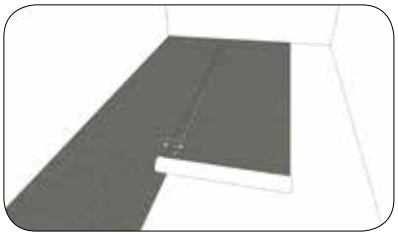
4. Aplicar el pavimento siguiendo la línea.

4. Poser le revêtement du sol en suivant la ligne.

5. Press to remove any bubbles that may have appeared.

5. Presionar para eliminar las posibles burbujas que hayan aparecido.

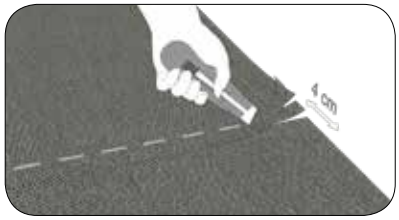
5. Presser pour éliminer les éventuelles bulles qui se sont formées.



6. Repeat the procedure for the next roll, in such a way that they overlap about 4cm approximately.

6. Repetir el procedimiento para el siguiente rollo, de forma que se solapen unos 4cm aproximadamente.

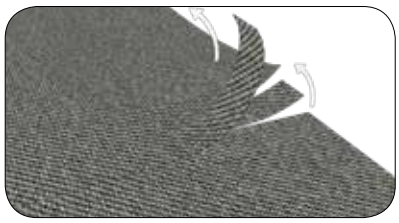
6. Suivre la même procédure pour le deuxième rouleau, en les superposant d'environ 4cm.



7. Cut in the center of the overlapping area, along the seam of the 2 rolls.

7. Cortar en el centro de la zona solapada, a lo largo de la unión de los 2 rollos.

7. Couper au centre de la zone superposée, le long de l'union des deux rouleaux.



8. Remove the 2 strips of extra material.

* NOTE: for striped designs, adjust the overlapping area until the design coincides.

8. Retirar las 2 tiras de merma.

****NOTA, para diseños rallados ajustar la zona solapada hasta que ajuste el diseño.***

8. Retirer les deux bandelettes à rejeter.

** NOTE : pour les dessins à rayures, ajuster la zone chevauchée jusqu'à la superposition du dessin.*

9. Cold welding: Check with the manufacturer of these glues.

9. Soldadura en frío: consultar con el fabricante de estas colas.

9. Soudure à froid : consulter le fabricant des colles.

10. Use a metal roller (approx. 80Kg) to remove any air bubbles and facilitate bonding.

10. Pasar un rodillo metálico (aprox. 80Kg) para sacar las posibles burbujas de aire y facilitar el pegado.

10. Passer un rouleau métallique (environ 80kg) pour éliminer les éventuelles bulles d'air et faciliter le collage.

SEALED SEAMS

SELLADO DE UNIONES

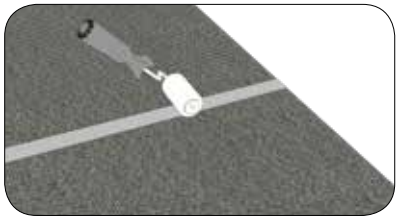
SCELLAGE DES UNIONS

Apply the recommended glue on the base flooring and on the back of the

piece. Glue the material in the proper position for a perfect union.

Aplicar la cola recomendada en el pavimento base y en el reverso de la pieza. Encolar el material en la posición adecuada para obtener una unión perfecta.

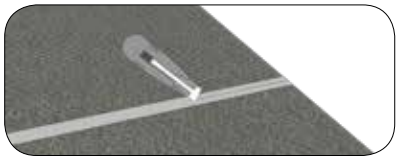
Poser la colle recommandée sur le revêtement de base et sur le revers de la pièce. Coller le matériel dans la position adéquate pour obtenir une union parfaite.



Place the adhesive tape centered on the joint and press it down with a roller.

Colocar la cinta adhesiva centrada en la unión y presionarla con un rodillo.

Placer le ruban adhésif centré sur l'union et le presser avec un rouleau.



Cut the adhesive tape with a cutter and apply the glue inside the cut.

Remove the tape once the glue is dry.

Cortar la cinta adhesiva con un cúter y aplicar la cola dentro del corte.

Retirar la cinta una vez la cola este seca.

Couper le ruban adhésif avec un cutter et appliquer la colle dans la découpe.

Retirer le ruban lorsque la colle soit sèche.

FINAL FINISH

ACABADO FINAL

FINITION

Use a clean white cloth to remove lint and residue. Use a mild soap for daily/weekly cleaning. Use a vaporeta for deep cleaning, and protect the material in the event of subsequent works.

Clean & Green Active cleaner is recommended for a thorough cleaning after a long period of use.

Usar un trapo blanco y limpio para eliminar pelusa y residuos. Usar un jabón neutro para la limpieza diaria/semanal. Para limpieza a fondo usar vaporeta y proteger el material en caso de trabajos posteriores.

Para restauración a fondo tras un largo periodo de uso se recomienda el limpiador Clean & Green Active.

Utiliser un chiffon blanc propre pour éliminer les peluches et les déchets. Utiliser du savon neutre pour le nettoyage journalier/hebdomadaire. Pour un nettoyage à fond, utiliser un nettoyeur à vapeur et protéger le matériel si des travaux doivent ensuite être effectués.

Pour une restauration à fond après une longue période d'usage, il est recommandé d'utiliser le produit nettoyant Clean & Green Active.

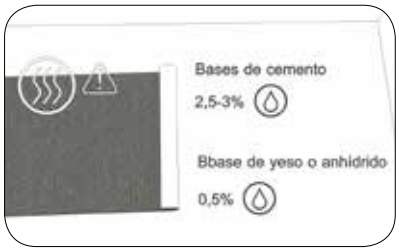
BEFORE THE INSTALLATION
ANTES DE LA INSTALACIÓN
AVANT LA POSE

Store the material horizontally and without any weight over it. Check and make sure that all the content is part of the same reference and that the quantity is the requested one.

Almacenar el material en posición horizontal y sin peso encima. Revisar y asegurarse que todo el contenido forma parte de la misma referencia y que la cantidad es la solicitada.

Stocker le matériel en position horizontale et sans poids au-dessus. Réviser et vérifier que tout le contenu fait partie de la même référence et que la quantité est celle demandée.

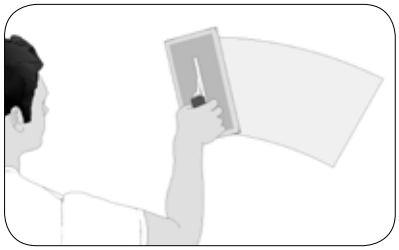
SURFACE PREPARATION
PREPARACIÓN DEL SOPORTE
PRÉPARATION DU SUPPORT



Bases that are evenly dry, absorbent, flat, resistant, dust-free, and free from detached pieces, varnishes and oils. Moisture: for cement bases, max 2.5-3% and for plaster or anhydride, max 0.5%.

Bases uniformemente secas, absorbentes, planas, resistentes, libres de polvo, partes desprendidas, barnices y aceites. Humedad: para bases de cemento, máx 2,5-3% y para las de yeso o anhídrido, máx 0,5%.

Bases uniformément sèches, absorbantes, plates, résistantes, sans poussière, parties détachées, vernis et huiles. Humidité : pour des bases de ciment, maximum 2,5 à 3%, et pour celles en plâtre ou anhydride, maximum 0,5%.



Smooth down surfaces that are not smooth enough. See manufacturer recommendations for the adhesive for each substrate.

Alisar las superficies no suficientemente lisas. Ver recomendaciones del fabricante sobre el adhesivo para cada soporte.

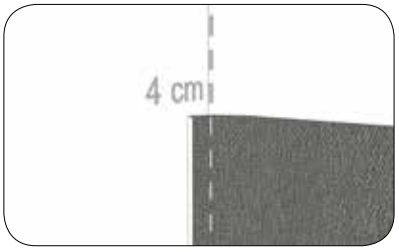
Lisser les surfaces qui ne sont pas suffisamment lisses. Consulter les recommandations du fabricant concernant l'adhésif pour chaque support.

INSTALLATION INSTRUCTIONS
INSTRUCCIONES DE INSTALACIÓN
INSTRUCTIONS DE POSE

Measure the wall length and make a design of how to place the boards.

Medir la longitud de la pared y hacer un diseño de cómo situar las tiras.

Mesurer la longitude de la cloison et faire un dessin de la pose des bandes.



Measure the wall height and cut boards adding 4cm on each side to compensate for uneven floor and ceiling. If there is a baseboard, the distance to measure shall be from it to the ceiling.

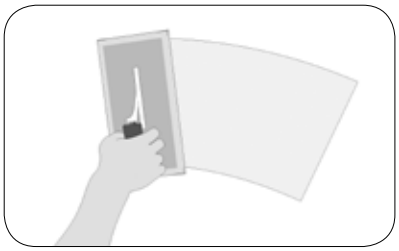
Medir la altura de la pared y cortar tiras añadiendo 4cm por cada lado para compensar las irregularidades en suelo y techo. En caso de tener zócalo, la distancia a medir será desde este hasta el techo.

Mesurer la hauteur de la cloison et couper les bandes en ajoutant 4cm de chaque côté pour compenser les irrégularités du sol et du plafond. S'il y a un socle, mesurer la distance de celui-ci au plafond.

Number the boards and install always in the same direction to avoid visual variations. Draw a vertical line with a pencil, 98cm from the first corner.

Numerar las tiras e instalar siempre en la misma dirección para evitar variaciones visuales. Marcar con lápiz una línea vertical a 98cm de la primera esquina.

Numéroter les bandes et les installer toujours dans le même sens pour éviter des variations visuelles. Marquer avec un crayon une ligne verticale à 98cm du premier coin.



Spread Kerakoll's Slc® Eco Grinkol, the recommended adhesive/glue for wall coverings, evenly with a finely toothed trowel adding 20cm extra (from the line). Near the ceiling and the floor, apply more generously.

Extender el adhesivo/cola recomendado para revestimientos murales, Slc® Eco Grinkol de Kerakoll, regularmente con una espátula finamente dentada añadiendo 20cm extra (a partir de la línea). Cerca del techo y el suelo la aplicación debe ser más generosa.

Étaler l'adhésif ou la colle recommandés pour les revêtements pour mur, Slc® Eco Grinkol de Kerakoll, de façon régulière avec une spatule finement dentelée et ajouter 20cm supplémentaires (à partir de la ligne). Appliquer plus de produit près du plafond et du sol.

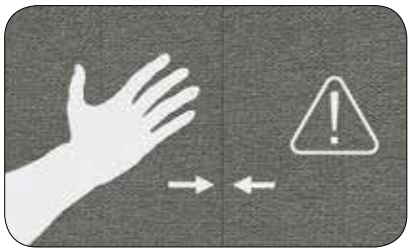
Install the first strip on the glued surface along the line. There shall be left-over material both at the corner and the ceiling and the floor or baseboard. Press with a trowel throughout the material to remove any air. On outer corners, we recommend covering whenever possible with at least 30cm. If not possible, cut on the corner and start again.

Colocar la primera tira sobre la superficie encolada a lo largo de la línea. Debe sobrar material tanto en la esquina como el techo y el suelo o zócalo. Presionar con espátula todo el material para eliminar el aire. En las

Installation / Instalación / Installation

esquinas exteriores, se recomienda cubrir siempre que sea posible, como mínimo a 30cm. De no ser posible, cortar sobre la esquina y empezar de nuevo.

Placer la première bande sur la surface encollée le long de la ligne. Du matériel excédant doit rester aussi bien au coin, au plafond et au sol ou au socle. Presser tout le matériel avec la spatule pour éliminer l'air. Aux coins extérieurs, il est toujours recommandé de recouvrir, lorsque cela est possible, à une distance minimale de 30cm. Dans le cas contraire, couper sur le coin et recommencer.



Install the strips side by side without overlapping. The glue shall not come out through the joint. Press with a trowel along the joint.

Aplicar las tiras una al lado de la otra sin solapar. La cola no debe sobresalir por la junta. Presionar con espátula a lo largo de la junta.

Placer les bandes une à côté de l'autre sans les superposer. La colle ne doit pas dépasser par le joint. Presser avec la spatule le long du joint.

Cut the leftover material at the corners, ceiling, and baseboard using a trowel and a cutter.

Cortar el material sobrante en esquinas, techo y suelo o zócalo con una espátula y un cortador.

Couper le matériel excédentaire des coins, du plafond et du sol ou du socle à l'aide d'une spatule et d'une découpeuse.

Linkfloor Wall Contract Custom incorporates an image in its design using digital printing that fuses perfectly with vinyl fabric. This material meets all the Linkfloor characteristics and conditions, also providing a customization that makes it unique and differentiating.
In this case, printing of the desired image is done on the vinyl layer of the white Linkfloor.

Linkfloor Wall Contract Custom incorpora en su diseño una imagen mediante impresión digital que se funde a la perfección con el tejido vinílico. Este material reúne todas las características y condiciones de Linkfloor, aportando además una personalización que lo vuelve inigualable y diferencial.
Para este caso la impresión de la imagen deseada se realiza sobre la capa vínilica del Linkfloor en blanco.

Une image personnalisée est intégrée au design de Linkfloor Wall Contract Custom par impression numérique pour se fondre à la perfection avec le tissu vinylique. Ce matériau inclut l’ensemble des caractéristiques et des conditions de Linkfloor, tout en proposant une personnalisation qui le rend différent et incomparable.
Dans ce cas, l’impression de l’image souhaitée s’effectue sur la couche vinylique de Linkfloor en blanc.

SUBSTRATE REQUIREMENTS

REQUISITOS DE LA BASE

EXIGENCES DE LA SURFACE DE BASE

Depending on the surface:
1. Cement: dry, smooth, and free from dust, solvents, paint, wax, grease, oil, asphalt sealing compounds, and other materials. The surface must be hard and dense, and free from dust and cracks. New cement floors must be dry (at least 6 weeks from their completion).

Según la superficie:
1. Cemento: seco, liso y libre de polvo, disolvente, pintura, cera, grasa, aceite, compuestos de sellado de asfalto y otros materiales. Superficie dura y densa y libre de polvo y grietas. Suelos nuevos de cemento deben estar secos (al menos 6 semanas desde su finalización).

En fonction de la surface :
1. Ciment : sec, lisse et sans poussière, solvant, peinture, cire, gras, huile, composés de scellage asphaltique et d'autres matériaux. Surface dure et dense, sans poussière ni fissures. Les sols neufs en ciment doivent être secs (au moins 6 semaines depuis la finition).

2. Wood: smooth, flat surfaces, in good structural condition, and free from warping.

2. Madera: superficies lisas, planas, en buenas condiciones estructurales y libres de deformaciones.

2. Bois : surfaces lisses, plates, en bonnes conditions structurales et sans déformations.

Surface dirt affects the performance of the adhesive, and can show on the surface of the installed product.

La suciedad superficial afecta al rendimiento del adhesivo y puede marcarse en la superficie del producto instalado.

La saleté superficielle nuit au rendement de l'adhésif et peut laisser des traces sur la surface du produit installé.

Humidity less than 2.5-3% for cement substrates, and less than 0.5% for gypsum or anhydrite.

Humedad menor a 2,5-3% para sustratos de cemento y menor a 0,5% para yeso o anhidrita.

Humidité inférieure à 2,5 à 3% pour les substrats de ciment et inférieure à 0,5% pour le plâtre et l'anhydrite.

ADHESIVES

ADHESIVOS

COLLES

L'Antic Colonial recommends Ultrabond Eco Tack LVT.
Before installing, we recommend drawing a planning taking into account the direction of the tiles, marked on the back of each one.

L'Antic Colonial recomienda Ultrabond Eco Tack LVT.

Antes de la instalación, se recomienda dibujar un planning con las direcciones de las losetas, marcadas en el dorso de cada una de ellas.

L'Antic Colonial recommande l'utilisation d'Ultrabond Eco Tack LVT.
Avant l'installation, il est recommandé de dessiner un plan avec les directions des carreaux, marqués sur le revers de chacun.

RADIANT FLOOR HEATING

CALEFACCIÓN RADIANTE

PLANCHER CHAUFFANT

29°C maximum temperature. Install 7 days after the installation of the radiant floor heating. The heating shall be switched off for at least 48h before, during, and after installation.

Temperatura máxima 29ºC. Instalar 7 días después de la instalación del suelo radiante. Calefacción apagada al menos 48h antes, durante y después de la instalación.

Température maximale: 29°C. Installer le matériel 7 jours après la pose du plancher rayonnant. Éteindre le chauffage au moins 48h avant, pendant et après l'installation.

GENERAL CONDITIONS

CONDICIONES GENERALES

CONDITIONS GÉNÉRALES

Install at 15°C maximum temperature. Check that all the material comes from the same line and that it has been manufactured in the same batch. Linkfloor Loose Lay is a vinyl fabric, so it has the qualities of a fabric and can undergo variations over time that affect its color.

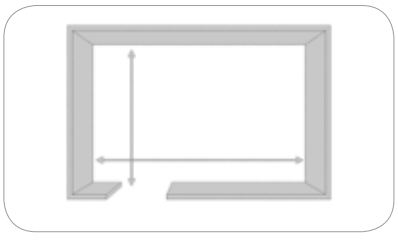
Instalar a una temperatura máxima de 15ºC. Revisar que todo el material procede de la misma colección y que está hecho en el mismo lote. Linkfloor Loose Lay es un tejido vinílico con lo que tiene las cualidades del tejido y puede sufrir variaciones con el tiempo que afecten a su color.

L'installation doit être faite à une température maximale de 15 °C. Réviser que tout le matériel appartient à la même collection et qu'il a été fabriqué dans le même lot. Linkfloor Loose Lay est un tissu en vinyle. Il possède donc les qualités du tissu et peut souffrir des variations dans le temps qui altèrent sa couleur.

TILE INSTALATIONS

INSTALACIÓN DE LAS LOSETAS

INSTALLATION DES DALLES



1. Draw two lines perpendicular to each other, parallel to the walls of the room.

1. Dibujar dos líneas perpendiculares entre sí paralelas a las paredes de la habitación.

1. Dessiner deux lignes perpendiculaires entre elles et parallèles aux murs de la pièce.

2. Spread the adhesive evenly throughout the substrate.

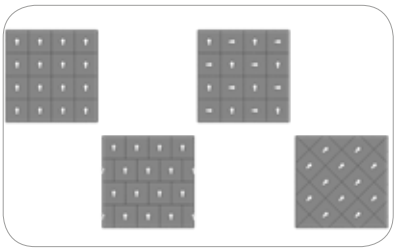
2. Disperse el adhesivo uniformemente sobre toda la base.

2. Répandre l'adhésif de façon uniforme sur toute la base.

3. Wait until the water has completely evaporated before laying the floor (follow the specifications of the adhesive.) If it is installed before the glue is completely dry, the bonding may be permanent.

3. Esperar a que el agua se evapore completamente antes de colocar el suelo (siga las especificaciones del adhesivo). Si se instala antes que la cola se haya secado completamente, la adhesión puede ser permanente.

3. Attendre que l'eau s'évapore complètement avant de placer le revêtement du sol (suivez les spécifications de l'adhésif). Si vous l'installez avant que la colle soit complètement sèche, l'adhésion peut être permanente.

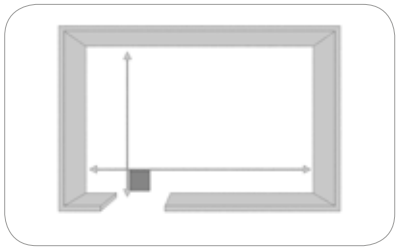


4. It is possible that the design looks differently depending on the direction of the tiles (arrow marked on the reverse). See recommended installation systems.

4. Es posible que el diseño luzca de formas diferentes dependiendo de la dirección de las losetas (flecha marcada en el reverso). Ver sistemas de instalación recomendados.

4. Le dessin peut avoir différences apparences en fonction de la direction des carreaux (flèche marquée sur le revers). Voir les systèmes d'installation recommandés.

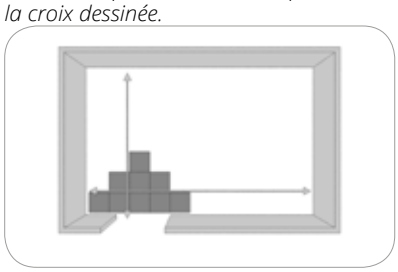
Installation / Instalación / Installation



5. Install the first tile at the drawn cross.

5. Colocar la primera loseta desde la cruz dibujada.

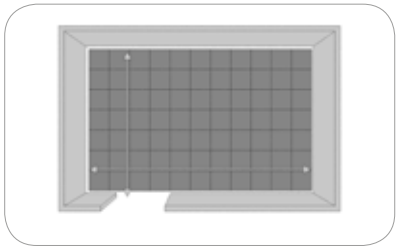
5. Placer le premier carreau à partir de la croix dessinée.



6. Follow the lines to progressively fill the entire surface.

6. Seguir las líneas para llenar progresivamente toda la superficie.

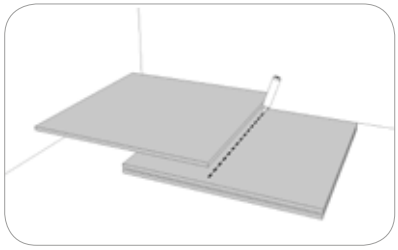
6. Suivre les lignes pour remplir progressivement toute la surface.



7. First complete the installation of the tiles that do not need to be cut.

7. Completar primero la instalación de las losetas que no hay que cortar.

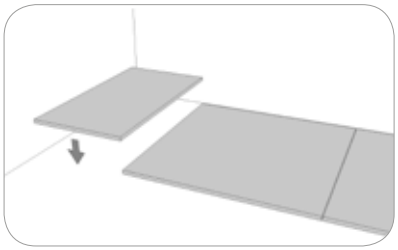
7. Compléter d'abord la pose des carreaux qui ne doivent pas être découpés.



8. Fill the perimeter by cutting the pieces before installing them. Position the tile that must be cut over the last one installed. Push another tile over them until they contact the wall, and cut using it as a mold.

8. Rellenar el perímetro, cortando las piezas antes de instalarlas. Situar la loseta que debe cortarse encima de la última instalada. Empujar otra loseta superior a estas hasta contactar con la pared y cortar utilizándola de molde.

8. Remplir le périmètre en coupant les pièces avant la pose. Situer le carreau qui doit être coupé sur le dernier installé. Pousser un autre carreau supérieur à ceux-ci jusqu'à entrer en contact avec le mur et le couper en l'utilisant comme moule.



9. Once it is cut, install it as usual.

9. Una vez cortada, colocarla normalmente.

9. Après la découpe, le placer normalement.

FINAL FINISH

ACABADO FINAL

FINITION

Use a clean white cloth to clean the floor surface. Use Clean&Green Active for everyday cleaning. Mop the entire surface to ensure a thorough cleaning.

Usar un paño blanco y limpio para limpiar el suelo. Usar Clean&Green Active para la limpieza diaria. Fregar la superficie para asegurar una limpieza completa.

Utiliser un chiffon blanc et propre pour nettoyer le sol. Utiliser le produit nettoyant Clean&Green Active pour le nettoyage quotidien. Laver la surface pour assurer un nettoyage complet.

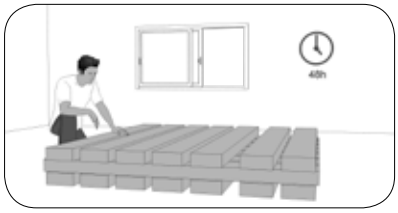
-

BEFORE INSTALLING

ANTES DE LA INSTALACIÓN

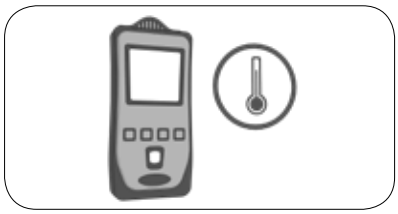
AVANT DE COMMENCER LA POSE



The material must be climatized to the temperature of the setting where it will be installed for 48h beforehand.

Material acondicionado a temperatura del entorno donde se va a instalar durante las 48h previas.

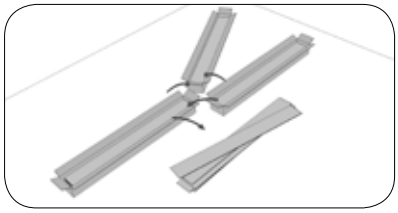
Matériel aménagé à la température de l'endroit où il sera installé au cours des 48h préalables.



Optimal conditions: Temp. 20-23°C/65-80°F and 40-60% relative humidity.

Condiciones óptimas 20-23ºC/65-80ºF y 40-60% de humedad.

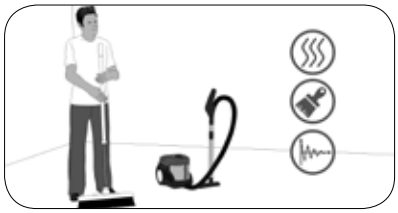
Conditions optimales : 20-23°C/65-80°F et 40-60% d'humidité.



Open several packages and mix pieces before installing.

Abrir varios paquetes y mezclar piezas antes de la instalación.

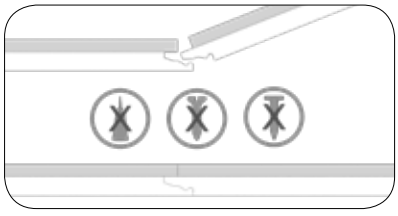
Ouvrir les paquets et mélanger les pièces avant l'installation.



Dry and moisture-free, compact and resistant, clean and dust-free surface.

Superficie seca y sin humedad, compacta y resistente, limpia y sin polvo.

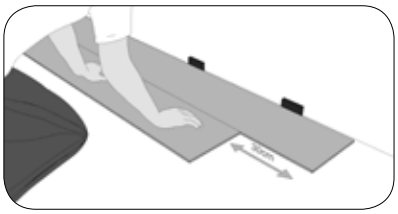
La surface doit être sèche et sans humidité, compacte et résistance, propre et sans poussière.



Do not set the anchors with nails, screws, or glues.

No fijar los anclajes con clavos, tornillos o colas.

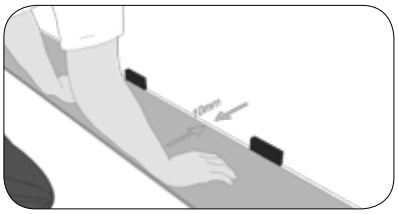
Ne pas fixer les ancrages avec des clous, des vis ou de la colle.



Stagger from the joint, no less than 30cm between pieces.

Escalonar desde la junta, distancias no inferiores de 30cm entre piezas.

Échelonner à partir du joint, la distance entre les pièces ne doit pas être inférieure à 30cm.



Keep a distance of 1 cm to all structural elements from all perimeter edges (in the case of semi-open spaces leave a larger perimeter separation, 0.5mm per linear meter of the area where the floor is being installed.)

Expansion joints in all the door thresholds and mandatorily every 8m lengthwise and/or cross-wise.

Mantener distancia de 1cm a todos los elementos estructurales desde todos los bordes del perímetro (en espacios semiabiertos dejar mayor separación perimetral: 0,5mm por metro lineal de la zona donde se instale el suelo).

Juntas de dilatación en todos los pasos de puerta y obligatoriamente cada 8m en sentido longitudinal y/o transversal.

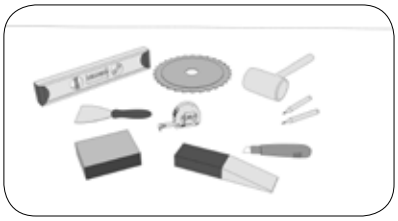
Conserver une distance de 1 cm de tous les éléments structurels depuis tous les bords du périmètre (dans des espaces semi-ouverts, laisser une séparation périmétrale plus grande: 0,5mm par mètre linéaire de la zone où le revêtement sera mis en place).

Joints de dilatation sur tous les passages de porte et obligatoirement tous les 8m en sens longitudinal et/ou transversal.

INSTALLATION

INSTALACIÓN

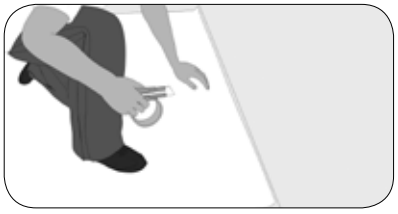
POSE



Tools: tape measure, pencil, saw, hammer, sealant, level, spacer wedges, and if possible, a padfoot, and a nylon stud.

Herramientas: cinta métrica, lápiz, sierra, martillo, sellador, nivel, cuñas espaciadoras y, si es posible, una pata de cabra y taco de nylon.

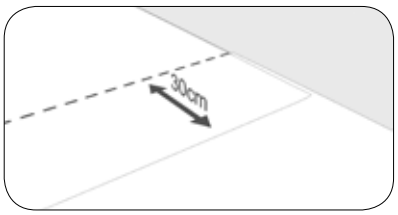
Outils: mètre, crayon, scie, marteau, appareil à souder, niveau, cales et, si c'est possible, pied de biche et cheville en nylon.



We recommend installing the L'Antic Colonial sheet, whether it is the moisture barrier+foam sheet or the antistatic radiant-floor film.

Se recomienda la instalación de la lámina de L´Antic Colonial. Ya sea la lámina anti-humedad+espuma o la de suelo radiante antiestática.

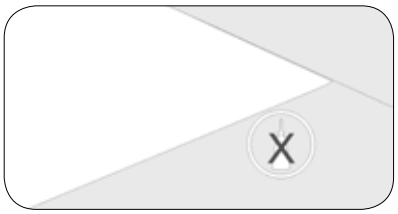
Il est recommandé d'installer la lame de L'Antic Colonial. Soit la lame anti-humidité+mousse, soit la lame de plancher rayonnant anti-statique.



Overlap the film about 30cm.

Solapar el film unos 30cm.

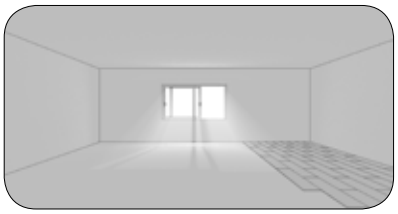
Chevaucher le film environ 30cm.



Always install the material floating, without glue below the surface.

Colocar el material de manera flotante, sin pegamento debajo de la superficie.

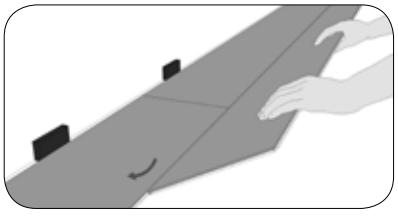
Poser le matériel en flottaison et sans colle sous la surface.



Positioned the pieces longitudinally with respect to the light entrance whenever possible.

Posicionar las piezas longitudinalmente respecto a la entrada de luz, siempre que sea posible.

Placer les pièces longitudinalement par rapport à l'entrée de lumière, lorsque cela est possible.



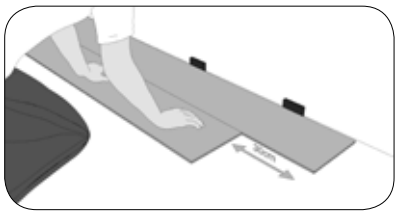
After having aligned the first row with the help of a level, install the second one using the left-over piece.

Tras haber alineado la primera fila con

Installation / Instalación / Installation

la ayuda de un nivel, colocar la segunda, usando la pieza sobrante.

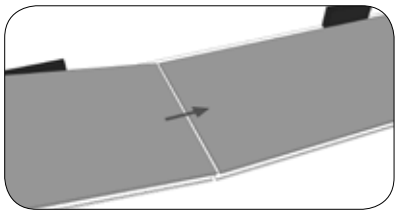
Après avoir aligné la première file à l'aide d'un niveau, placer la deuxième en utilisant la pièce en trop.



The piece joints between 2 rows shall be at least about 30cm apart.

Las juntas de las piezas entre 2 filas deben distar unos 30cm como mínimo.

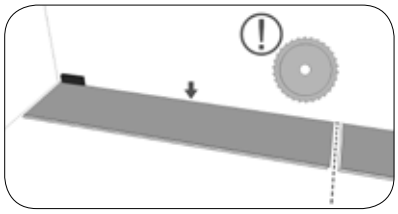
Les joints des pièces entre deux files doivent être à une distance minimale de 30cm.



Install the first piece slightly diagonally, tighten, and gently swing. Proceed the same way with the second board, and position the head in front of the previous piece.

Instalar la primera pieza ligeramente en diagonal, apretar y balancear suavemente. Proceder de la misma forma con la segunda tabla, y posicionar la cabeza en frente de la pieza anterior.

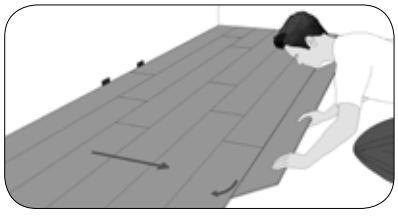
Installer la première pièce légèrement en diagonale, serrer puis balancer doucement. Installer la deuxième planche de la même manière et placer la tête face à la pièce précédente.



Cut the piece needed to complete the first row of the shortest wall of the room where it is being installed.

Cortar la pieza, necesaria para completar la primera fila, en la pared más corta de la habitación.

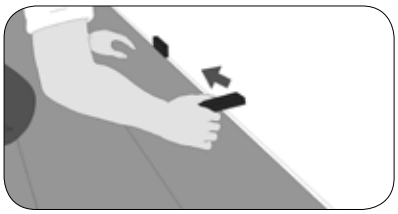
Couper la pièce, nécessaire pour compléter la première file, sur la cloison plus courte de la chambre.



Join the pieces laterally with a 45° movement, until you feel the closing click, aligning with the wedges from the wall. The distance to the wall shall be at least 1cm.

Juntar las piezas lateralmente con un movimiento de 45°, hasta notar el cierre del clic, alineando con las cuñas desde la pared. Distancia hasta la pared de 1cm como mínimo.

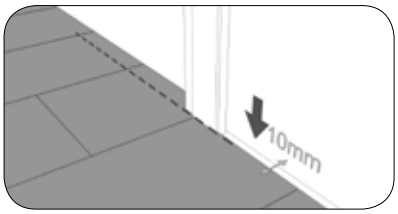
Unir les pièces latéralement avec un mouvement de 45°, jusqu'à entendre la fermeture du clic, en les alignant avec les cales à partir du mur. Distance minimale jusqu'au mur: 1cm.



Remove the spacer wedges after finishing the installation.

Retirar las cuñas espaciadoras después de completar la instalación.

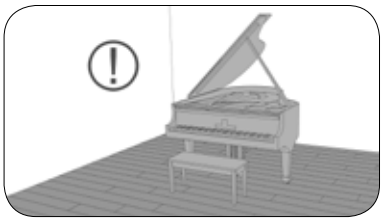
Enlever les cales après la mise en place de l'installation.



Cut the doors moldings at floor height, and when installing the plank that goes under the moldings, measure the distance to the wall and give it at least 10mm of space.

Cortar las tapetas de las puertas, a la altura del suelo, y al instalar la tabla que va bajo las tapetas, medir la distancia hasta la pared y darle los 10mm mínimos de espacio.

Couper les couvre-joints des portes, à la hauteur du sol. Lors de l'installation de la planche qui va sous les couvre-joints, mesurer la distance jusqu'au mur et ajouter les 10mm minimaux d'espace.



Place a rug under tables and chairs, etc... In case of heavy furniture, do not drag them directly on the installed floor.

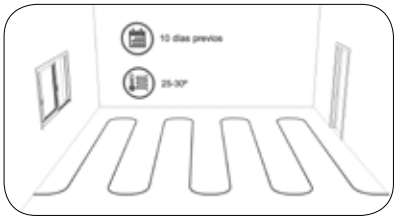
Poner una alfombra bajo las mesas y sillas, etc... En caso de posicionar muebles pesados, no arrastrarlos directamente sobre el suelo instalado.

Mettre un tapis sous les tables et les chaises, etc. S'il faut placer des meubles lourds, ne pas les déplacer directement sur le plancher posé.

RADIANT FLOOR HEATING

CALEFACCIÓN RADIANTE

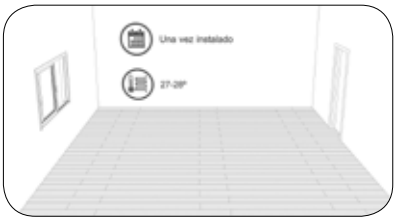
CHAUFFAGE RADIANT



Activate to 25-30°C during the 10 days prior to the installation. We recommend installing the L'Antic Colonial antistatic radiant-floor film.

Activar a 25-30°C durante los 10 días previos a la instalación. Recomendamos colocar la Lámina para Suelo Radiante Antiestática de L´Antic Colonial.

Activer la température à 25-30°C pendant les dix jours préalables à la pose. Il est recommandé d'installer la lame pour plancher rayonnant anti-statique de L'Antic Colonial.



After installing turn the heating on gradually, increasing the temperature by 2-3°C each day, up to about 28°C.

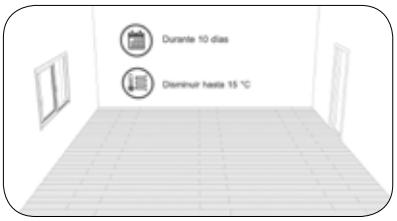
Tras las instalación, encender *la calefacción gradualmente, incrementando la temperatura 2-3°C cada día, hasta unos 28°C.*

Après la pose, allumer le chauffage graduellement, en augmentant la température entre 2 et 3°C chaque jour jusqu'à atteindre environ 28°C.

Keep at least one day per cm of thickness of the sub-base, and keep overnight.

Mantener como mínimo un día por cada cm de espesor del subsuelo, y mantener durante toda la noche.

Maintenir la température au moins un jour pour chaque centimètre d'épaisseur du sous-sol pendant toute la nuit.



Next, the temperature must be lowered 2-3°C daily until the floor reaches 15°C (about 10 days.)

A continuación, disminuir la temperatura 2-3°C diarios hasta que el suelo alcance los 15°C (unos 10 días).

Ensuite, diminuer la température entre 2 et 3°C jusqu'à ce que la température du sol arrive à 15°C (environ 10 jours).

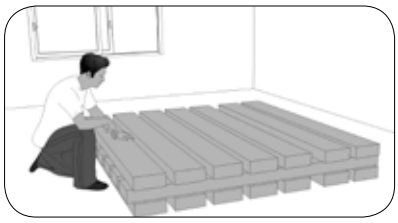
BEFORE INSTALLING

ANTES DE INSTALAR

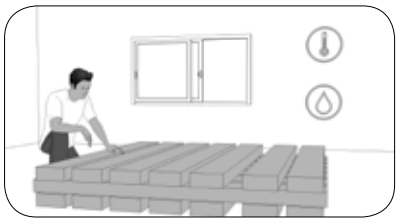
AVANT DE COMMENCER LA POSE



Receiving and storage: verify the material and the installation location.

Recepción y almacenaje: verificar el material y el lugar de la instalación.

Réception et stockage : vérifier le matériel et le lieu de l'installation.



Climatic conditions: Temp. 20-23°C/65-80°F; 40-60% relative humidity.

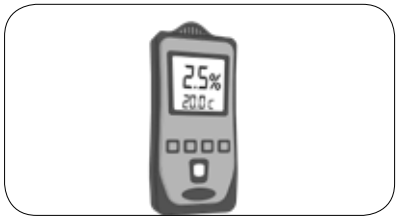
Condiciones climáticas: Tª 20-23°C/65-80F°; Humedad relativa 40-60%.

Conditions climatiques: Température: 20-23°C/65-80°F; humidité relative: 40-60%.

Substrates

Subsuelo

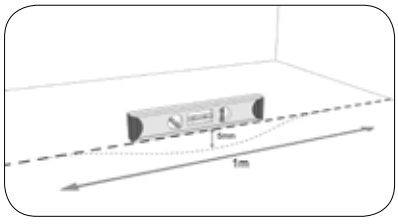
Sous-couches



Measure humidity with a hygrometer. Max 2.5%

Medir la humedad con higrómetro. Max 2,5%.

Mesurer l'humidité avec un hygromètre. Max 2,5%.



Flatness and horizontality: max. 5mm and 1mm. Measured with 2m rulers and approx. 20cm.

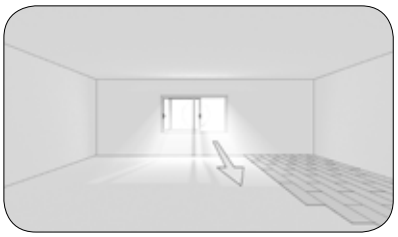
Planimetría y horizontalidad: max. 5mm y 1mm. Medidas con reglas de 2 y 20cm aprox.

Planimétrie et horizontalité : maximum 5mm et 1mm. Mesures avec des règles d'environ 2 et 20cm.

Cleaning: clean base slab, and free from elements.

Limpieza: solera limpia y libre de elementos.

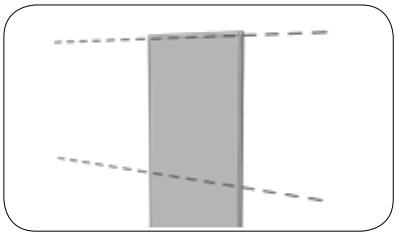
Nettoyage lisse de terre propre et dépourvue d'éléments.



Install boards in parallel to the main light source in the room. If this is not possible, to the longer wall.

Instalar tablas en paralelo a la fuente de luz principal de la habitación. Si esto no es posible a la pared más larga.

Installer les planches parallèles à la source de lumière principale de la pièce. Si cela n'est pas possible, le faire au mur plus long.



Measure out whether the boards in the first row need to be cut width-wise. If not required, trim the tongue so that the wall end is smooth.

Medir tablas de la primera fila por si tienen que cortarse a lo ancho. Si no fuese necesario, recortar la lengüeta para que el de la pared sea liso.

Mesurer les planches de la première file, pour vérifier s'il faut les couper en largeur. Si ce n'était pas nécessaire, découper la languette pour que celle du mur soit lisse.

INSTALLATION

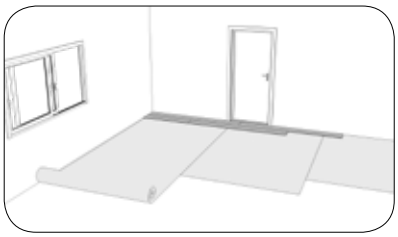
INSTALACIÓN

POSE

Floating system

Sistema flotante

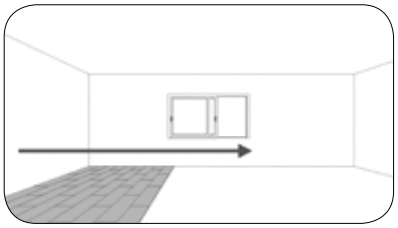
Système flottant



We recommend installing the L'Antic Colonial sheet, whether it is the moisture barrier+foam sheet or the antistatic radiant-floor film.

Se recomienda instalar la lámina de L´Antic Colonial. Ya sea la lámina anti-humedad + espuma o la de suelo radiante antiestática.

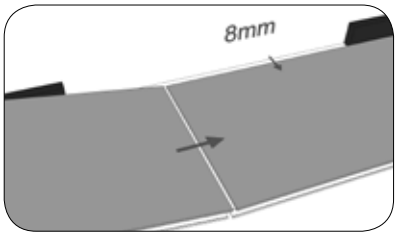
Il est recommandé d'installer la lame de L'Antic Colonial. Soit la lame anti-humidité + mousse, soit la lame de plancher rayonnant anti-statique.



Install the boards from left to right.

Instalar las tablas desde la izquierda hacia la derecha.

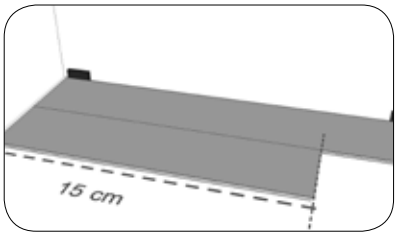
Installer les planches de gauche à droite.



Install the second board of the first row by wrapping the short tongue in the short groove of the first board. Do not bend the board corners. Expansion gap of 8mm more or less between the board and wall.

Instalar la segunda tabla de la primera fila envolviendo la lengüeta corta en la ranura corta de la primera. No doblar las esquinas de la tabla. Ranura de expansión de unos 8mm entre tabla y pared.

Installer la deuxième planche de la première file en enveloppant la languette courte dans la rainure courte de la première planche. Ne pliez pas les coins de la planche. Rainure de dilatation d'environ 8mm entre la planche et le mur.

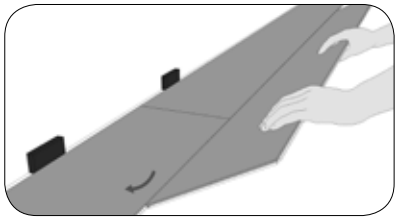


Installation / Instalación / Installation

Start the second row by cutting one board to the desired length. 15cm board minimum.

Comenzar la segunda fila recortando una tabla a la medida deseada. Mínimo de la tabla 15cm.

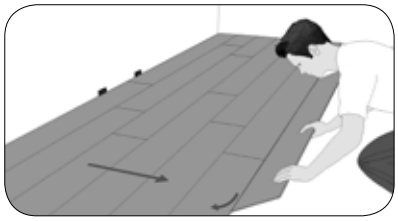
Commencer la deuxième file en découpant une planche à la mesure souhaitée. La planche doit mesurer minimum 15cm.



In the second row, install the first board by wrapping the long tongue with the groove of the board from the first row at a small angle. Install the second board by joining the short tongue with the groove of the previously-installed board. Adjust the board so that the side of the long tongue is positioned over the groove of the board in the first row. Start from the last fitting, insert the long tongue in the groove of the opposite board.

En la segunda fila, instalar la primera tabla envolviendo la lengüeta larga con la ranura de la tabla de la primera fila en un ángulo pequeño. Colocar la segunda tabla uniendo la lengüeta corta con la ranura de la tabla instalada anteriormente. Ajustar la tabla de forma que el lado de la lengüeta larga esté posicionado por encima de la ranura de la tabla de la primera fila. Comenzar desde el encaje final, introducir la lengüeta larga en la ranura de la tabla de enfrente.

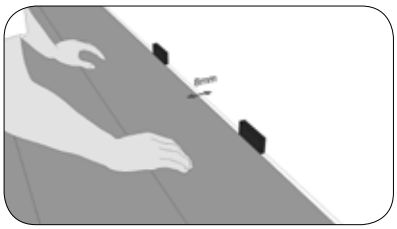
Dans la deuxième file, installer la première planche en enveloppant la languette longue avec la rainure de la planche de la première file dans l'angle petit. Placer la deuxième planche en unissant la languette courte avec la rainure de la planche préalablement installée. Ajuster la planche de façon à ce que la languette longue soit située au-dessus de la rainure de la planche de la première file. Commencer depuis l'emboîtement final, introduire la languette longue dans la rainure de la planche d'en face.



Install the remaining first and second row boards as described in the previous points.

Instalar las tablas restantes de la primera y segunda fila como se describe en los puntos anteriores.

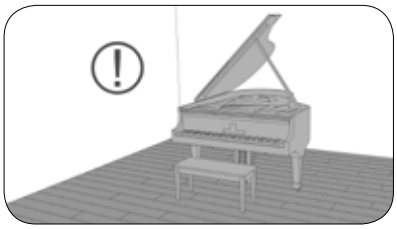
Installer les planches restantes de la première et la deuxième file en suivant les descriptions ci-dessus.



Install the last board in the first row, leaving space to the wall for an expansion gap of about 8mm.

Instalar la última tabla de la primera fila dejando espacio con la pared para una ranura de expansión de unos 8mm.

Installer la dernière planche de la première file en laissant un espace avec le mur pour une rainure de dilatation d'environ 8 mm.



Heavy furniture can deform the surface of the pieces

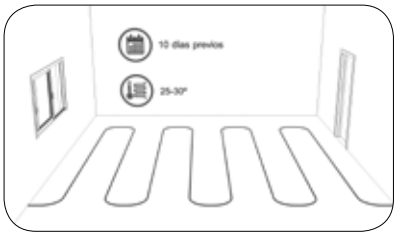
El mobiliario pesado puede deformar la superficie de las piezas.

Le mobilier lourd peut déformer la surface des pièces.

Radiant floor heating

Suelo radiante

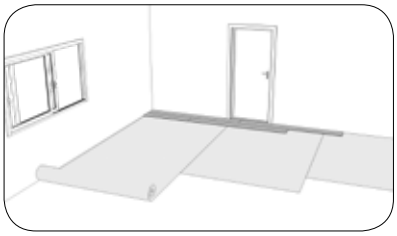
Plancher rayonnant



Turn on the radiant system to 25-30°C, 10 days before installing.

Encender el sistema radiante 10 días antes de la instalación a 25-30°C.

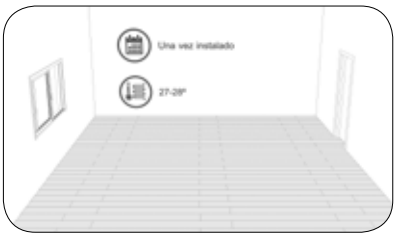
Allumer le système de chauffage rayonnant 10 jours avant l'installation à 25-30°C.



We recommend installing the L'Antic Colonial antistatic radiant-floor film.

Se recomienda instalar la lámina para suelo radiante antiestática de L´Antic Colonial.

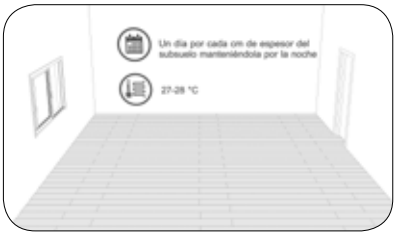
Il est recommandé d'installer la lame pour plancher rayonnant anti-statique de L'Antic Colonial.



Once installed, increase the temperature by 2-3°C per day until reaching 27-28°C.

Una vez instalado incrementar la Tª 2- 3°C al día hasta 27-28ºC.

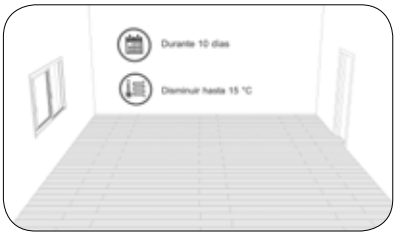
Après l'installation du revêtement pour le sol, augmenter la température entre 2 et 3°C chaque jour jusqu'à 27-28°C.



Once the max temperature is reached (27-28°C,) it must be maintained one day per cm of thickness of the sub-floor (overnight).

Una vez alcanzada la Tª max (27-28ºC). Mantener un día por cada cm de espesor del subsuelo (por la noche).

Dès que la température maximale (27-28°C) est atteinte, la maintenir un jour pour chaque centimètre d'épaisseur du sous-sol (pendant toute la nuit).



The temperature must be lowered 2-3 °C until the floor reaches 15°C (about 10 days.)

The Hotel Air series is suitable for glued installation.

Disminuir la Tª 2-3°C hasta que el suelo alcance los 15°C (unos 10 días).

La serie Hotel Air es apta para la instalación encolada.

Finalement, diminuer la température entre 2 et 3°C jusqu'à ce que la température du sol arrive à 15°C (environ 10 jours).

La série Hotel Air est adéquate pour l'installation encollée.

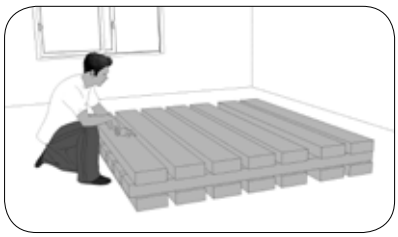
BEFORE INSTALLING

ANTES DE INSTALAR

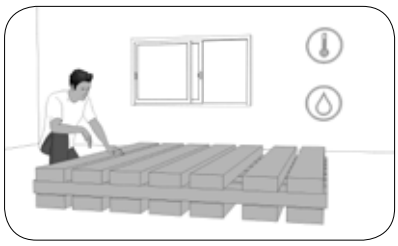
AVANT DE COMMENCER LA POSE



Receiving and storage: verify the material and the installation location.

Recepción y almacenaje: verificar el material y el lugar de la instalación.

Réception et stockage : vérifier le matériel et le lieu de l'installation.



Climatic conditions: Temp. 20-23°C/65-80°F; 40-60% relative humidity.

Condiciones climáticas: Tª 20-23°C/65-80F°; Humedad relativa 40-60%.

Conditions climatiques: Température: 20-23°C/65-80°F; humidité relative: 40-60%.

Substrates

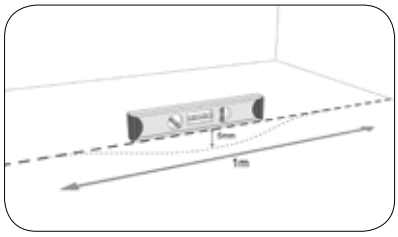
Subsuelo

Sous-couches

Measure humidity with a hygrometer. Max 2.5%

Medir la humedad con higrómetro. Max 2,5%.

Mesurer l'humidité avec un hygromètre. Max 2,5%.



Flatness and horizontality: max. 5mm and 1mm. Measured with 2m rulers and approx. 20cm.

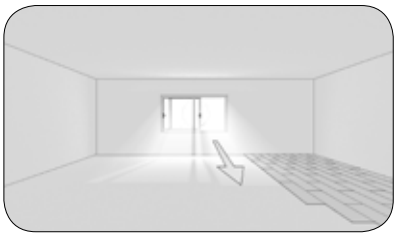
Planimetría y horizontalidad: max. 5mm y 1mm. Medidas con reglas de 2 y 20cm aprox.

Planimétrie et horizontalité : maximum 5mm et 1mm. Mesures avec des règles d'environ 2 et 20cm.

Cleaning: clean base slab, and free from elements.

Limpieza: solera limpia y libre de elementos.

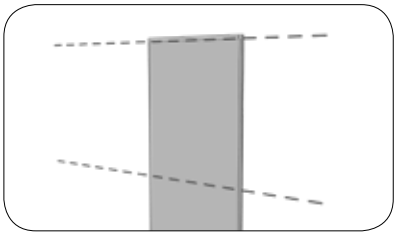
Nettoyage lisse de terre propre et dépourvue d'éléments.



Install boards in parallel to the main light source in the room. If this is not possible, to the longer wall.

Instalar tablas en paralelo a la fuente de luz principal de la habitación. Si esto no es posible a la pared más larga.

Installer les planches parallèles à la source de lumière principale de la pièce. Si cela n'est pas possible, le faire au mur plus long.



Measure out whether the boards in the first row need to be cut width-wise. If not required, trim the tongue so that the wall end is smooth.

Medir tablas de la primera fila por si tienen que cortarse a lo ancho. Si no fuese necesario, recortar la lengüeta para que el de la pared sea liso.

Mesurer les planches de la première file, pour vérifier s'il faut les couper en largeur. Si ce n'était pas nécessaire, découper la languette pour que celle du mur soit lisse.

INSTALLATION

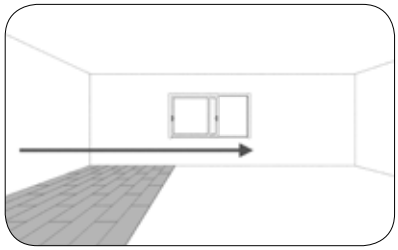
INSTALACIÓN

POSE

Floating system

Sistema flotante

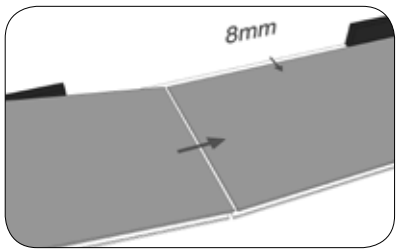
Système flottant



Install the boards from left to right.

Instalar las tablas desde la izquierda hacia la derecha.

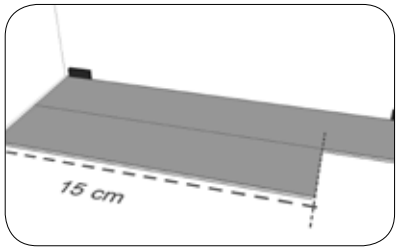
Installer les planches de gauche à droite.



Install the second board of the first row by wrapping the short tongue in the short groove of the first board. Do not bend the board corners. Expansion gap of 8mm more or less between the board and wall.

Instalar la segunda tabla de la primera fila envolviendo la lengüeta corta en la ranura corta de la primera. No doblar las esquinas de la tabla. Ranura de expansión de unos 8mm entre tabla y pared.

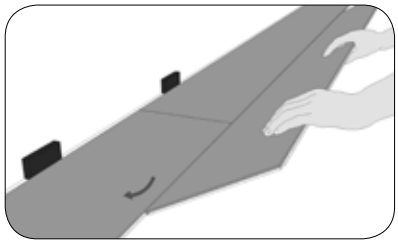
Installer la deuxième planche de la première file en enveloppant la languette courte dans la rainure courte de la première planche. Ne pliez pas les coins de la planche. Rainure de dilatation d'environ 8mm entre la planche et le mur.



Start the second row by cutting one board to the desired length. 15cm board minimum.

Comenzar la segunda fila recortando una tabla a la medida deseada. Mínimo de la tabla 15cm.

Commencer la deuxième file en découpant une planche à la mesure souhaitée. La planche doit mesurer minimum 15cm.

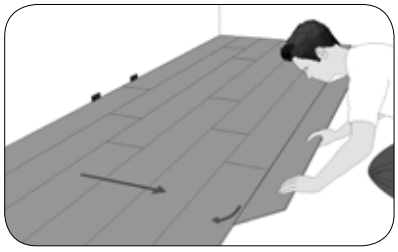


Installation / Instalación / Installation

In the second row, install the first board by wrapping the long tongue with the groove of the board from the first row at a small angle. Install the second board by joining the short tongue with the groove of the previously-installed board. Adjust the board so that the side of the long tongue is positioned over the groove of the board in the first row. Start from the last fitting, insert the long tongue in the groove of the opposite board.

En la segunda fila, instalar la primera tabla envolviendo la lengüeta larga con la ranura de la tabla de la primera fila en un ángulo pequeño. Colocar la segunda tabla uniendo la lengüeta corta con la ranura de la tabla instalada anteriormente. Ajustar la tabla de forma que el lado de la lengüeta larga esté posicionado por encima de la ranura de la tabla de la primera fila. Comenzar desde el encaje final, introducir la lengüeta larga en la ranura de la tabla de enfrente.

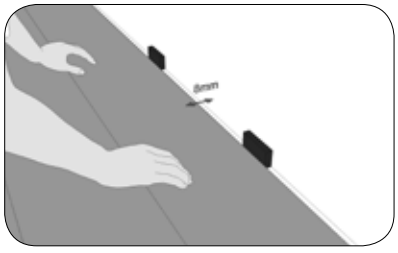
Dans la deuxième file, installer la première planche en enveloppant la languette longue avec la rainure de la planche de la première file dans l'angle petit. Placer la deuxième planche en unissant la languette courte avec la rainure de la planche préalablement installée. Ajuster la planche de façon à ce que la languette longue soit située au-dessus de la rainure de la planche de la première file. Commencer depuis l'emboîtement final, introduire la languette longue dans la rainure de la planche d'en face.



Install the remaining first and second row boards as described in the previous points.

Instalar las tablas restantes de la primera y segunda fila como se describe en los puntos anteriores.

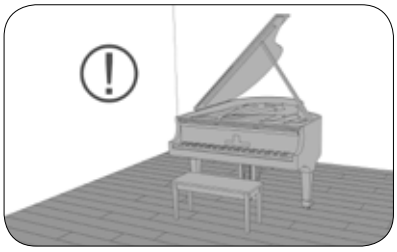
Installer les planches restantes de la première et la deuxième file en suivant les descriptions ci-dessus.



Install the last board in the first row, leaving space to the wall for an expansion gap of about 8mm.

Instalar la última tabla de la primera fila dejando espacio con la pared para una ranura de expansión de unos 8mm.

Installer la dernière planche de la première file en laissant un espace avec le mur pour une rainure de dilatation d'environ 8mm.



Heavy furniture can deform the surface of the pieces

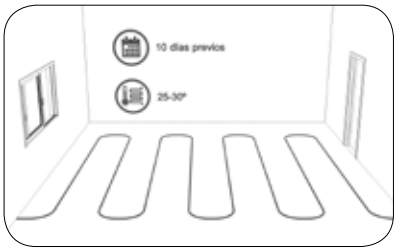
El mobiliario pesado puede deformar la superficie de las piezas.

Le mobilier lourd peut déformer la surface des pièces.

Radiant floor heating

Suelo radiante

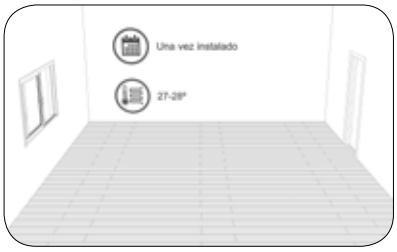
Plancher rayonnant



Turn on the radiant system to 25-30°C, 10 days before installing.

Encender el sistema radiante 10 días antes de la instalación a 25-30°C.

Allumer le système de chauffage rayonnant 10 jours avant l'installation à 25-30°C.



Once installed, increase the temperature by 2-3°C per day until reaching 27-28°C.

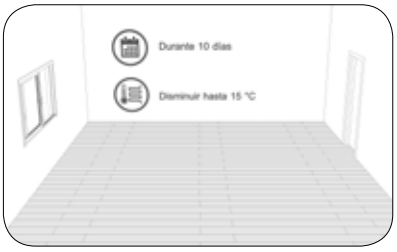
Una vez instalado incrementar la Tª 2-3°C al día hasta 27-28ºC.

Après l'installation du revêtement pour le sol, augmenter la température entre 2 et 3°C chaque jour jusqu'à 27-28°C.

Once the max temperature is reached (27-28°C,) it must be maintained one day per cm of thickness of the sub-floor (overnight).

Una vez alcanzada la Tª max (27-28ºC). Mantener un día por cada cm de espesor del subsuelo (por la noche).

Dès que la température maximale (27-28°C) est atteinte, la maintenir un jour pour chaque centimètre d'épaisseur du sous-sol (pendant toute la nuit).



The temperature must be lowered 2-3 °C until the floor reaches 15°C (about 10 days.)

Disminuir la Tª 2-3°C hasta que el suelo alcance los 15°C (unos 10 días).

Finalement, diminuer la température entre 2 et 3°C jusqu'à ce que la température du sol arrive à 15°C (environ 10 jours).

Substrates / Subsuelos / Sous-Couches

Antistatic Underfloor Heating Layer
Lamina Suelo Radiante Antiestática
Sous-Couche Plancher Rayonnant Antistatique

25m2 - 100175300 - L165003722 - G-169

A lining made of recycled closed-cell rubber with an aluminium layer that dissipates heat and eliminates static electricity. This protection can be used over underfloor heating and reduces impact noise by 26dB airborne noise by 22dB.

Lámina realizada con caucho reciclado de celda cerrada que cuenta con una capa de aluminio capaz de repartir el calor y eliminar la electricidad estática. Esta protección se puede utilizar sobre suelo radiante y reduce el sonido de impacto en 26dB y el aéreo en 22dB.

Sous-couche en caoutchouc recyclé à cellules fermées composée d'une couche d'aluminium capable de répartir la chaleur et d'éliminer l'électricité statique. Cette protection peut être utilisée sous un plancher rayonnant, elle réduit les sons d'impact de 26dB et les sons aériens de 22dB.

Sous-Couche Anti-Humidité + Mousse
Lamina Antihumedad + Espuma
Damp Proofing Sheet + Foam

22m2 - 100169988 - L180112046 - G-151

140m2 - 100170010 - L180112045 - G-169

Sound insulation and damp proofing for parquet and laminate flooring.

Aislante acústico y antihumedad para el parquet y el laminado.

Isolant phonique et anti-humidité pour les parquets et les planchers stratifiés.

Insuating Layer
Lamina Aislante
Sous-Couche Isolante

79x59x0,5cm - 100059778 - L180112013 - G-104

5mm-thick sound insulation useful for rectifying uneven patches.

Aislante acústico de 5 mm de grosor, útil para corregir desniveles.

Isolant phonique de 5 mm d'épaisseur, utile pour compenser des différences de niveaux.

Cleaner / Limpiador / Nettoyants

Intensive maintenance and cleaning laminate wood.

Mantenimiento laminado y limpieza intensiva de maderas.

Entretien et nettoyage intensif de bois stratifié.
