Andalusia Café, brushed

Andalusia Grigio, brushed

AVAILABLE PATTERNS

Villa d'Oro is a stunning collection of stone mosaic and intarsia patterns inspired by the artistic heritage of the countless cultures that have called the Mediterranean home. In Villa d'Oro, decorative influences from Moorish Spain mingle with Venetian Gothic and Medieval Egyptian, echoing the *mélange* created by the eons of cultural overlap in the ancient Mediterranean world. Working from historical sources, we stripped each design down to its graphic essence and then rebuilt it in contemporary colorways and scale, keeping in mind how people use patterns today. Each pattern in Villa d'Oro is carefully cut and assembled from stones fittingly sourced in a variety of Mediterranean countries, creating new decorative art to enliven your modern surroundings.
