

STUCK & CO.

design

Carmine de Renzio

Laureato a Firenze nel 1984, inizia subito il suo percorso progettuale occupandosi di interni, di design e di architettura. Nel 1985 fonda con altri architetti "Akta Associati", e dal 1992 è team leader con Mimmo Pazienza dello studio "Pazienza-de Renzio Architetti & Associati" che opera in tutti i settori dell'architettura e dell'urbanistica. Nel 2015, dopo una collaborazione progettuale, diventa art director di Vetrovivo e ideatore della nuova collezione "STUCK & Co.".

STUCK & Co.

Collezione caratterizzata da un innovativo connubio di diversi materiali. Vetri in svariate forme sono incastri nelle piastrelle e abbinati a lastre ultrasottili decorate di grandi dimensioni in gres e vetro.

Graduated in Florence in 1984, he soon begins his design career dealing with interior design and architecture. In 1985 he founds "Akta Associates" with fellow architects, and since 1992 he is team leader together with Mimmo Pazienza at the atelier "Pazienza-de Renzio Architects & Associates", which operates in all areas of architecture and urbanism. In 2015, after a design collaboration, he became art director of Vetrovivo and creator of the new "STUCK & Co." collection.

STUCK & Co.

This collection is characterized by an innovative combination of different materials. Glasses in different shapes are embedded in the tiles and combined with large decorated ultraslim stoneware and glass tiles.

INDEX

COLLECTIONS	PHILOSOPHY	TECHNICAL
STUCK	07	33
WALLKER	09	45
GLASSWALL	11	47
GRES		43
COLOURS		<i>cover</i>

Lastre ultrasottili decorate in **Gres** e in **Vetro** si abbinano alle Piastrelle impreziosite dagli inserti Stuck.

Nasce un nuovo concetto nella decorazione di interni, **le diverse materie sono ideate per essere proposte insieme**, coordinate fra loro in un perfetto equilibrio cromatico e di stile.

Tutto prende nuova vita, è un **connubio innovativo** che spazia dalle piastrelle alle lastre offrendo materiali dalle forti ispirazioni creative e dal grande potenziale progettuale.

Diventano infinite ed ogni volta uniche le combinazioni che STUCK & Co. consente di individuare, accostare e coordinare per ottenere soluzioni ed emozioni sempre diverse.

- STUCK - Pavimenti e rivestimenti in gres porcellanato con inserti in vetro - mm 10
- GLASSWALL - Maxilastre in vetro monolitico ultrasottile con texture effetto onice o tinta unita indicate per rivestimento - mm 4
- WALLKER - Carta da parati in gres - Maxilastre in gres porcellanato ultrasottile con texture decorative indicate per rivestimento - mm 4

STUCK & Co.

Decorated ultrathin Gres and Glass panels that match with tiles embellished by Stuck inserts.

*A new concept of the internal decoration has born, **the different materials are designed to be proposed together**, combined each others in a perfect chromatic and stylistic balance.*

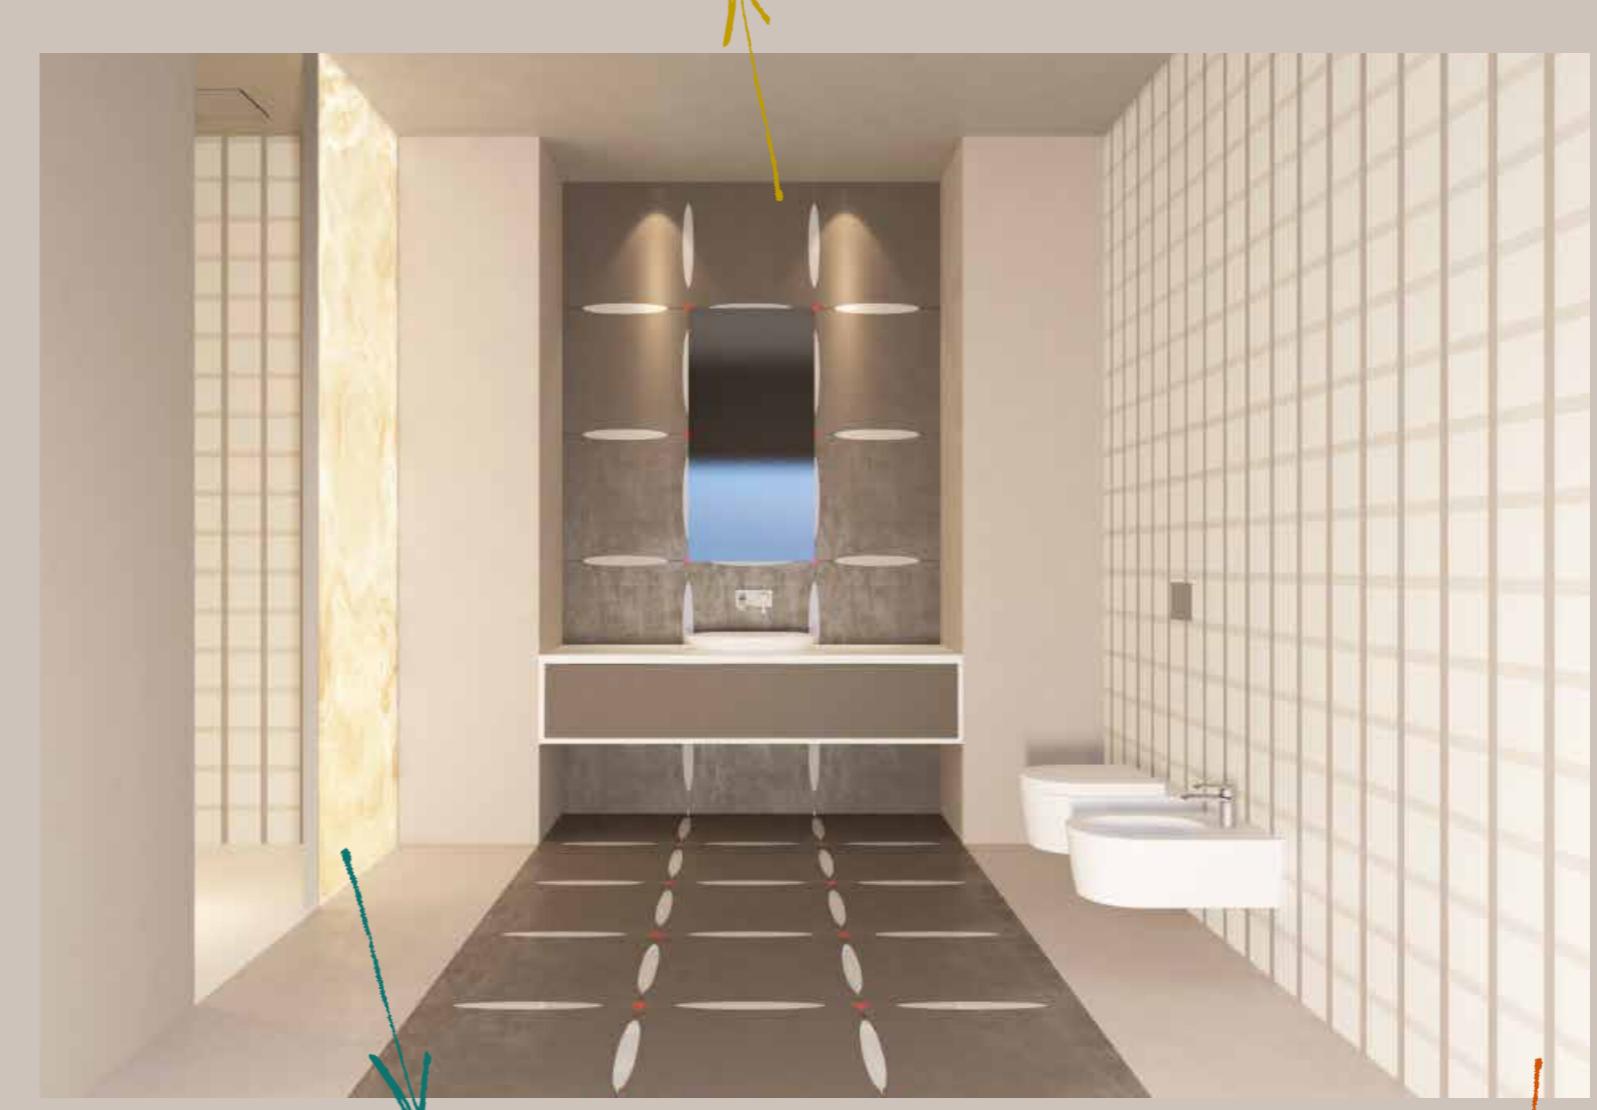

*Everything comes to a new life, it is an **innovative combination** ranging from tiles to panels offering materials with strong creative inspirations and with a great planning potential.*

Uncountable and every time unique are the combinations that STUCK & Co. allows to identify, joining and combining to get always different solutions and emotions.

- STUCK - Porcelain stoneware floor and wall tiles with glass inserts - mm 10
- GLASSWALL - Ultraslim extra-large tiles of monolithic glass with onyx effect texture or in plain colours suitable for wall coating - mm 4
- WALLKER - Gres Wallpaper - Ultraslim extra-large porcelain tiles with decorative textures suitable for wall coating - mm 4

Gres e Vetro

Mettere assieme artigianato e industria, estetica e funzionalità, decorazione e tecnologia, è stato l'obiettivo del progetto "STUCK".

STUCK è una collezione di pavimenti e rivestimenti in gres porcellanato in cinque colori di fondo e in due formati, **con inserti in vetro** che si incastrano dando la sensazione di ottenere superfici continue, con chiara ispirazione ai pavimenti del passato fatti di cementine, granigliati e seminati, ma con una evidente identificazione contemporanea.

STUCK unisce alla tenue opacità dei fondi la spicata lucentezza del vetro in oltre 50 colori, offrendo la possibilità di dosare e personalizzare con le diverse combinazioni, ogni superficie.

Le piastrelle in gres porcellanato, proposte in 5 colori base, non sono più delle semplici piastrelle ma si possono definire delle matrici che generano un numero infinito di suggestioni grazie alle svariate forme di vetro disponibili in una vasta gamma di colori che, incastrate nel gres, creano nuove superfici, pacate tono su tono o coloratissime per realizzazioni sempre su misura.

Gres and Glass

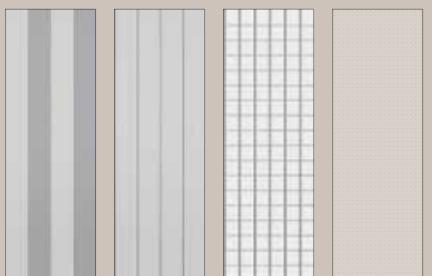

Combining craftsmanship and industry, aesthetics and functionality, decoration and technology was the concept behind the STUCK project.

STUCK is a collection of floor and wall-coverings in porcelain stoneware available in five base colors and two sizes, with slot-in glass inserts creating the illusion of a continuous surface, clearly inspired by old-time flooring such as cement tiles, terrazzo or seminato floors, yet with a striking contemporary identity.

STUCK blends the soft opacity of bases with the strong shininess of glass in 50-plus shades, offering the chance to tailor and customize every surface with different combinations.

The porcelain tiles, available in five basic colours, are no longer only simple tiles, but they can be considered as a matrix that generate an uncountable number of suggestions thanks to the several glass shapes in a wide range of colours, that stuck in the stoneware create new surfaces, light tone-on-tone or colourful creations, always "custom-made."

WALLKER

Gres Wallpaper

Ultraslim porcelain stoneware tiles decorated with brush effect.

A collection of textured ultraslim porcelain stoneware tiles suitable for wall coating.
Conceived to match STUCK, it offers a technical and combined solution for every space and activity.

LARGE WARM GREY

Carta da parati in gres

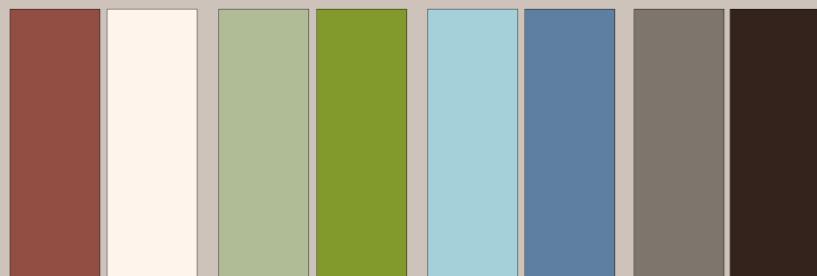

Lastre in Gres porcellanato ultrasottile decorate ad effetto a pennellato

E' una collezione di lastre in gres porcellanato ultrasottile con texture decorative indicate per rivestimento.
Nata per accompagnare STUCK, offre una soluzione tecnica e coordinata per qualsiasi ambiente e attività.

GLASS WALL

FULL
opaco - mat

Monolithic ultraslim glass panels

ONYX is a collection of decorated shiny glass panels with Onyx effect texture.
FULL is a collection of glass panels with mat finishing and plain colours.

It is possible to use them for walling, to separate the rooms, also available backlit on request.
They can be realized with all sizes and custom-sized on project.

ONYX and FULL enrich and complete the planning of the whole STUCK collection.

Lastre in vetro monolitico ultrasottile

ONYX è una collezione di vetri lucidi decorati con texture ad effetto onice.
FULL è una raccolta di lastre in vetro mat in tinta unita.

E' possibile utilizzarle come rivestimento, per dividere gli ambienti e anche a richiesta retro-illuminabili.
Sono realizzabili in tutti i formati e su progetto a misura.

ONYX e FULL arricchiscono e completano la progettualità dell'intera collezione STUCK.

Left shower area: Wallker Net Warm Grey inside - dividing panel Onyx Natural.

Sono infinite le possibili combinazioni che STUCK & Co. consente di individuare, accostare e coordinare per ottenere ogni volta soluzioni diverse e diverse emozioni.

Utilizzando il completo abaco di tutte le componenti della collezione e intercambiando il colore dei vetri, si potrà raggiungere il mirato equilibrio stilistico e lo stesso progetto assumerà un carattere spiccatamente contemporaneo o moderatamente classico.

"...e uno dopo l'altro quegli esseri straordinari che vengono chiamati colori venivano fuori esultanti, festosi, riflessivi, fantastici immersi in se, vivi in se e per se, singolarmente dotati di tutte le qualità necessarie a condurre una vita autonoma e pronti in ogni momento a piegarsi spontaneamente a nuove combinazioni a mescolarsi fra loro e a creare serie infinite di nuovi mondi". (V. Kandinsky)

The possible combinations that STUCK & Co. allows to detect are innumerable, matching and coordinating to ever obtain different solutions and special emotions.

By using the full abacus of all collection components and interchanging the glass colours, you can reach the targeted stylistic balance and your project will get a distinctly contemporary or classic moderately character.

"...and one by one these extraordinary creatures that are called colours came out jubilant, joyful, thoughtful, fantastic, immersed in themselves, themselves and for themselves alive, each provided with all necessary qualities to lead an independent life and ready at anytime to bend spontaneously to new combinations to mix each other and create endless series of new worlds". (V. Kandinsky)
